

Jefferson County
Board of Commissioners
Agenda Request

To: Board of Commissioners
Mark McCauley, County Administrator

From: Monte Reinders, P.E., Public Works Director 

Agenda Date: August 7, 2023

Subject: A Resolution to Update the Official County Road Log
for Fremont Road - County Road #301709

Statement of Issue:

The Board is asked to sign a resolution to update the official County Road Log for Fremont Avenue to correctly reflect the actual length maintained by the County. This will change the length from 0.42 miles to 0.23 miles. The County has not performed maintenance beyond mile post 0.23 for many years. This is a dead-end road segment with no residential units. Furthermore, this road segment will become obsolete with the upcoming replacement of the Linger Longer Road Bridge. This action does not vacate any road right-of-way, but simply reflects what is actually being maintained by the County.

Analysis/Strategic Goals/Pro's & Con's:

Making corrections to keep the official County Road Log current helps to avoid maintenance confusion.

Fiscal Impact/Cost Benefit Analysis:

The motor vehicle tax distribution formula is based in part on the miles of roads listed in the official County Road Log; therefore, it is important to keep the Road Log accurate and up to date.

Recommendation:

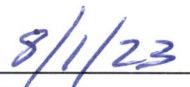

Department of Public Works recommends that the Board approve updating the Official County Road Log length of Fremont Avenue by signing the attached Resolution.
