ANALYSIS:

The CWPP will help the County and its partners move forward as we work to reduce wildfire risk to our various communities. The plan also allows us to compete for substantial financial resources that are available to improve resiliency and survivability in the face of the increasing wildfire threat.

We are grateful to our many partners who contributed much time and effort to make this project a smashing success.

FISCAL IMPACT:

This request has no fiscal impact.

RECOMMENDATION:

That the Board of County Commissioners approve and adopt the CWPP and invite all Advisory Group members present to sign the plan using the attached signature pages.
