Department of Public Works Consent Agenda Page 1 of 1

Jefferson County Board of Commissioners Agenda Request

To:

Board of Commissioners

Mark McCauley, County Administrator

From:

Monte Reinders, Public Works Director

Agenda Date:

April 8, 2024

Subject:

Adjustment of Official County Road Log

Critter Lane, County Road #625709

Statement of Issue:

Remove Critter Lane, milepost 0.00 to milepost 0.16, from the Official County Road Log.

Analysis/Strategic Goals/Pro's & Con's:

Critter Lane functions more as a driveway than a county road. It should be maintained with funds other than from the County Road Fund. The Central Services Director and the Public Works Director/County Engineer have discussed this and agree that this is a preferred arrangement.

Fiscal Impact/Cost Benefit Analysis:

Funds other than the County Road Fund will be responsible for maintenance of this road from this point forward.

Recommendation:

Please sign the attached Resolution removing Critter Lane from the County's Road Log.

Department Contact: Monte Reinders, Public Works Director x242
