Budget Appropriations happened each quarter and are set by the Budget Calendar. They are also referred to as budget amendments.

Budget Appropriations give fund directors and managers to adjust their budget throughout the year due to changes in revenues and expenditures.

The budget appropriations are submitted to the BoCC staff. These are then given to the Finance Manager for review and discussions as needed.

Once they have been reviewed, they are returned with a summary to the BoCC to setup a public hearing.

Notice of the public hearing is advertised for two weeks in the County's designated publication.

During the public hearing, the Finance Manager presents the appropriations to the BoCC and answers questions. The public has the opportunity to participate.

The BoCC can then make a motion to accept the appropriations.

To complete the process, once the resolution has been signed, the Chief Accountant updates the budget in Munis Financial. The Revised Budget reporting column is the original budget and the appropriations amount.

Budget has been determined based on monthly operating expenditures that have budget but the fund has not enough cash flow from revenues to support the expenditures. The \$300,000 budgeted transfer has two components: 1) interfund loan with the General Fund \$100,000 at 5% interest per annum; 2) operating transfer of \$200,000 available on an as needed basis.

General Fund Financial Assistance Request

There are times financial support is necessary from the General Fund to assist operations or expenditures funded by Special Revenue Funds. Primarily there are two basic categories that may require assistance from the General Fund: 1) negative cash flow below adequate fund balance to maintain operations, and 2) assistance for operational critical expenditures.

Requests for General Fund financial assistance are being reviewed during the biennial budget development. Select A or B, based on the reason for request and complete questions. Attach supporting documentation as needed.

Return completed form to the Finance Manager.

A. ☐ Operations assistance requested due to decreased revenue.

1. What is the revenue that is reduced?

2. Duration of the reduction in revenue (check one).

☐

Temporary

☐

Permanent

3. Reason for reduced revenue.

B. ☒ Expenditure assistance requested.

1. Define the expenditure(s), providing expenditure details.

2. Explain the impact the expenditure will have on fund operations.

3. Provide analysis of lacking adequate fund balance, revenue, and other expenditure adjustments to offset the expenditure.

Re: General Fund Assistance Request

Purpose:

This report aims to provide an overview of the current financial situation for the Jefferson County Department of Community Development (DCD) and support a request for an additional General Fund transfer. It focuses on DCD's critically low fund balance and outlines a strategy to address the department's immediate financial challenges.

Expenditure Assistance Requested:

DCD faces two remaining payroll cycles in 2024, along with approximately \$100,253 in outstanding bills, with additional obligations expected before year's end. Payroll is a recurring monthly expense, which has slight variations each month. However, a calculation of the average monthly payroll and benefits expenditure shows that DCD's current fund balance and anticipated future revenue can only cover one payroll cycle. This could create the potential need for an emergency General Fund transfer.

The outstanding bills primarily consist of consultant invoices for work done on department planning projects. While most of these expenses will be reimbursed by grant funds or additional developer payments in the future, DCD must have sufficient cash flow to pay these obligations up front.

Impact on Fund Balance:

Based on the current budget analysis, DCD anticipates a shortfall of at least \$102,681 by the end of 2024. Only a portion of anticipated expenditures will be recouped through expected grant reimbursement, underscoring the necessity for an additional General Fund transfer.

Conclusion:

This analysis highlights the immediate financial challenges posed by DCD's critical cash flow constraints. Addressing these issues through an additional General Fund transfer is essential to maintaining financial stability, meeting expenditure obligations, and positioning DCD for sustainable operations in the future.
