

**JEFFERSON COUNTY
BOARD OF COUNTY COMMISSIONERS**

CONSENT AGENDA REQUEST

TO: Board of County Commissioners

FROM: Mark McCauley, County Administrator

DATE: February 5, 2024

SUBJECT: Request for approval: Agreement for Professional Services: Jefferson County and Chickadee Forestry for Forestry Related Professional Services

STATEMENT OF ISSUE: In early 2019 the Board of Commissioners approved a contract with Chickadee Forestry to conduct a sustainable forestry feasibility study. Malloree Weinheimer, principal and owner of Chickadee Forestry presented her findings to the Board later that year. Based on the result of the feasibility study the Board approved a contract with Chickadee Forestry to create a sustainable forestry program for Jefferson County.

Since then, Ms. Weinheimer has established Jefferson County as a model for responsible and sustainable management of government owned forest lands. She developed forest management plans and policies. Under her stewardship the county completed selective harvests for forest health improvement at Gibbs Lake, Chimacum Park and Trailhead Park. During the same period, she oversaw volunteers who planted over 500 trees.

She has served as a key member of the county's team developing its Community Wildfire Protection Plan. She is working to develop the local wood-based economy including small forest management, developing local milling capability and keeping local wood local.

She helped guide the county's efforts to return county land managed by the Department of Natural Resources to county ownership and management.

ANALYSIS: The county wishes to continue its forestry program which will continue to grow as the county takes ownership of more forested land through various DNR programs such as Trust Land Transfers and reconveyances. These lands will need the sustainable forest management that Ms. Weinheimer can provide.

FISCAL IMPACT: This agreement will cost \$72,000 per year to be paid out of the General Fund – Non-departmental.

RECOMMENDATION: That the Board of County Commissioners approve the attached Professional Services Agreement with Chickadee Forestry.

It is further specifically understood that the indemnification provided constitutes the Contractor's waiver of immunity under Industrial Insurance, Title [51](#) RCW, solely for the purposes of this indemnification. This waiver has been mutually negotiated by the parties. This section shall survive the expiration or termination of this Agreement.

- 7.3. Automobile Liability. The Contractor will maintain automobile liability insurance or equivalent form with a limit of not less than \$500,000 each accident combined bodily injury and property damage. The aggregate limit will be at least \$1,000,000. If the Contractor will use non-owned vehicles in performance of this Agreement, the coverage will include owned, hired, and non-owned automobiles.
- 7.4. Professional Liability Insurance. The Contractor shall maintain professional liability insurance on a form acceptable to Jefferson County Risk Management in the amount of not less than \$1 million per occurrence and \$2 million in the aggregate.

If the professional liability insurance held by the Contractor to insure the Contractor regarding the work to be performed under this Agreement provides coverage on a claims-made basis, then each such professional liability insurance policy must have a Retroactive Date of, or prior to, the effective date of this Agreement. For each such claims-made policy accepted by the County, a supplemental extended reporting period (SERP) shall be purchased, at Contractor's sole expense, with an extended reporting period of not less than three (3) years in the event the insurance policy is cancelled, non-renewed, switched to an occurrence form, retroactive date advanced, or there is any other event triggering the right to purchase a SERP insurance policy during the term of this Agreement or thereafter.

- 7.5.3. When such coverage is required, the Contractor's commercial general liability insurance and automobile liability insurance will contain no specific limitations on the scope of protection afforded to the County as an additional insured.

- 7.5.4. Any failure to comply with reporting provisions of the policies will not affect coverage provided to the County, its officers, officials, employees, and agents.

- 7.5.6. It is agreed by the parties that insurers shall have no right of recovery or subrogation against the County (including its marital communities, employees and other agents and agencies), it being the intention of the parties that the insurance policies so affected shall protect both parties and be primary coverage for all losses covered by the above-described insurance. It is further agreed by the parties that insurance companies issuing the policy or policies shall have no recourse against the County (including its marital communities, employees and other agents and agencies) for payment of any premiums or for assessments under any form of policy. It is further agreed by the parties that all deductibles in the above described insurance policies shall be assumed by and be at the sole risk of the Contractor or its subcontractors.
- 7.5.7. The Contractor shall maintain all required policies in force from the time services commence until services are completed. Certificates, policies, and endorsements scheduled to expire before completion of services shall be renewed before expiration. If the Contractor's liability coverage is written as a claims-made policy, then the Contractor must evidence the purchase of an extended reporting period or "tail" coverage for a three-year period after completion of the services.
- 7.5.8. Verification of Coverage and Acceptability of Insurers.
- 7.5.8.1 The Contractor shall place insurance with insurers licensed to do business in the State of Washington and having A.M. Best Company ratings of no less than A-VII, with the exception that excess and umbrella coverage used to meet the requirements for limits of liability or gaps in coverage need not be placed with insurers or reinsurers licensed in the State of Washington.
- 7.5.8.2 The Contractor shall furnish the County with properly executed certificates of insurance and all signed related policy endorsements which shall clearly evidence all insurance required in this Section within 10 days after the effective date of this Agreement. Certificates of insurance shall show the certificate holder as Jefferson County and indicate "care of" the appropriate County's contract representative. The certificate(s) shall, at a minimum, list limits of liability and coverage. The certificate(s) shall provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or

negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.

7.5.8.3 The Contractor shall furnish the County with evidence that the additional insured provision required above has been met.

7.5.8.4 Failure to comply with the insurance provisions of this Agreement shall allow the County to suspend payments to the Contractor at the County's sole discretion.

7.5.8.5 If applicable, the Contractor shall request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send written verification to Jefferson County that the Contractor is currently paying workers' compensation.

In that event, the County shall pay the Contractor for all authorized costs incurred by the Contractor in performing this Agreement up to the date of such notice, subject to the other provisions of this Agreement.
- 8.2. If funding for the underlying project or matter is withdrawn, reduced, or limited in any way after this Agreement is signed or becomes effective, the County may immediately terminate this Agreement notwithstanding any other termination provision in this Agreement. Termination under this provision shall be effective upon the date specified in the written notice of termination sent by County to the Contractor. No costs incurred after the effective date of the termination shall be paid.
- 8.3. If the Contractor breaches any of its obligations under this Agreement and fails to cure the breach within 10 business days of written notice to do so by the County, the County may terminate this Agreement. In that event, the County shall pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor shall bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.

- 8.4. In the event this Agreement is terminated by the County prior to the end of the contract term, Contractor may submit a closing invoice at not more than \$180.00 per hour for documented excess hours spent on services provided under Section 2 during the preceding twelve months that exceed the calculated number of hours in that same period derived by dividing the total compensation paid under Paragraphs 4.1, and 4.2 during that twelve months by a rate of \$180.00 per hour, as illustrated by the formulas below.

Closing invoice \$180.00 x Excess Hours,
where

$$\text{Excess Hours} = [\text{Actual \# Hours worked under Section 2 in Prior 12 months}] \\ - [(\text{Total Paid under Paragraphs 4.1 and 4.2 in Prior 12 months}) / \$180.00 \text{ per hour}]$$

Jefferson County Scope of Work - 2024-2028

Beginning 2024

The Jefferson County Sustainable Forestry Program has progressed to becoming a statewide example of how a county can take a proactive approach towards sustainable and regenerative forest management on county lands, as well as building cooperative partnerships with state and local partners. This scope of work is to continue and expand on the work that has been done in the last five years.

The next steps of developing this program will be focusing on continuing to formalize a forestry program that will be replicable and standardize practices for this work in the county, and to continue forest management and forest land acquisition efforts. The administrative side of this program also needs to focus on community education and outreach, partnership development that helps to stimulate the economics of local timber processing and importantly the restoration of properties needing stewardship to return them to an appropriate ecological standard.

Our mission for the next five years is to continue to build on the work that has been completed to create a resilient, ecologically sound, and financially supportive program for our county for both the present and the future.

Below are the specific objectives that will help the county achieve its mission.

County Owned Lands Forest Management Priorities

Continuing to work with local contractors to complete smaller forestry projects targeted towards restoration, fire risk reduction, and generating some revenue to support small local sawmills and offset costs of forest health improvement.

Quimper Corridor – Newly acquired lands in the Quimper Corridor will be assessed for forest management needs in collaboration with Jefferson Land Trust and the City of Port Townsend

Pre-commercial Thinning – Gibbs Lake/Beausite and Cape George properties will need to be thinned for fire risk reduction. Continue to work with local fire departments to align efforts.

Selective Thinning – Roughly 100 acres of county owned land will be targeted in small projects for selective thinning to reduce stocking, improve habitat, and produce small amounts of local timber. These projects will vary in size and scope and a complete work plan for these will be completed in the first quarter of 2024.

Slash and Pulp Products – Working with local contractors and the Port Townsend Paper Mill to reduce fuels and slash in the forest and contribute low value wood to local farms and the paper mill.

County Parcel #	Name	Acres	Management Type
901111009	Port Hadlock facilities	20 acres	Selective thinning
101333002	Quimper Corridor/DNR transfer	27 acres	Selective thinning

901273001	Beausite Lake	90 acres*	Pre-commercial thinning
001172002	Cape George	80 acres*	Pre-commercial thinning
001083012	Cape George	20 acres	Selective thinning
701072001	Quilcene	70 acres	Selective thinning

DNR Lands Acquisition

Continuing to work with DNR on strategies to transfer forested lands back to Jefferson County. Options include reconveyance, Trust Land Transfer, community forest, and other applicable partnership opportunities for lands targeted for transfer to continue to build a viable forestry program. The following is a list of the properties that we as the county have worked with DNR on and have expressed the desire to transition into county ownership. Note that these properties are all north of Highway 104. Properties south of Highway 104 and on the west end of the county will remain in DNR ownership.

Parcel#	Name	Trust
6349	Anderson Lake	Common School and Indemnity
6247	Beaver Valley	Common School and Indemnity
6519	Cape George	Common School and Indemnity
6354	West Jacob Miller	Common School and Indemnity
