B. SERVICES

1. **Help Desk Support.** In the event of a System(s) malfunction or questions about system operation, the Customer is encouraged to contact the JAVS help desk by phone at 877-528-7457 or via email at helpdesk@javs.com Monday-Friday 8:00 am to 9:30 pm EST. Calls after 9:30 pm local time will normally go to voicemail and be addressed at the beginning of the next business day. JAVS trained help desk staff to provide immediate troubleshooting, training, and diagnostics on common issues that can be resolved quickly. JAVS also provides online PC support and training through your internet connection. If the issue requires an on-site technician, our help desk will gather the necessary contact information including the: contact's name, phone number, city, system identification number, and detailed description

of the issue. The contact information is used by JAVS to log/track issues properly, assign priority levels based on contract status, and dispatch the appropriate technician to the Customer's location.

2. **Response Times.** In the event that a component from Attachment A requires an on-site repair to address a reported issue, JAVS will schedule a visit during regular business hours. The response time is conditional to the Customer's approved room and equipment availability and the severity of the issue, which is measured in four priority levels: Urgent, High, Normal, and Supportive. Any variation from the timeframes referenced below will be discussed and mutually agreed upon by the Customer and JAVS. For clarification, the priority levels are described in Attachment B.

3. **Extended Warranty.** **Extended warranty is available on JAVS provided and installed equipment less than 5 years old, based on the date of installation.**

JAVS will provide and provision a prolonged warranty on JAVS supplied equipment, both of JAVS manufacture and third party, outside of the manufacturer's standard warranty. JAVS will attempt to repair the faulty equipment dependent upon parts and courtroom availability. If the equipment is not repairable in the field, JAVS at its discretion, will either provide a temporary unit until the original equipment is repaired and reinstalled, or a permanent exchange will be put in service. If the covered equipment requiring repair is no longer available or deemed non-repairable, JAVS will be responsible for the replacement product and all costs associated with its replacement.

Non-warranted equipment:

JAVS provided and installed equipment older than 5 years old, based on the date of installation.

JAVS will attempt to repair the faulty equipment, dependent upon courtroom availability. For non-warranted equipment, the Customer is responsible for the cost of all repair parts, including shipping. From time to time, non-warranted equipment may be deemed non-repairable. If the non-warranted equipment is not repairable in the field, the Customer is responsible for the cost of the replacement product(s). JAVS recorders older than 5 years old, are not eligible for repair involving part(s) replacement and require the purchase of a new recorder at client expense. For replacement items purchased from JAVS, JAVS will provide labor at no charge.

Components of Polycom Video Conferencing Codecs are included with this agreement. The Codec unit has optional coverage directly through Polycom and is separate from this agreement.

JAVS service technicians will perform updates on software as needed for the Polycom Codec. However, JAVS service technicians can only provide feature updates to Polycom Systems that have a current active Polycom Certificate of Coverage.

After the expiration of the initial warranty, separate support coverage is available through Polycom. If the court wishes to renew the warranty, please reach out to megan.molnar@javs.com to request a quote.

4. **On-site Warranty Support.** JAVS will provide on-site warranty services, which include removing equipment and forwarding to the manufacturer for repair, installing loaner and/or new equipment as deemed necessary by JAVS, and re-installing repaired equipment; on all products listed in Attachment A.

5. Preventative Maintenance. JAVS will perform a bi-annual inspection, review, and operational test of the System and make adjustments as deemed necessary by JAVS. Preventative Maintenance includes updating any System software and firmware as required. All Preventative Maintenance will be coordinated and scheduled with a customer-appointed representative to occur during regular business hours. JAVS will provide documentation to the Customer via a Preventative Maintenance form detailing the status of each system which includes key system information and hard drive capacity of the System. JAVS will document and test each function/mode of the entire System(s) which includes the automatic audio and video mixer/switcher, control boxes, microphones, cameras, time and date generator, monitors, streaming servers, recorders, PA processors, and speakers, private mode feed muting, playback/presentation, assisted listening devices and audio/video conferencing to ensure proper creation of the audio/video record and system operation.
