Needs Analysis / Market Conclusion			

EXECUTIVE SUMMARY

The Healthier Together Center Feasibility Study (HTFS) is a comprehensive planning effort focused on confirming the need and developing a compelling and practical vision for an aquatic and health / wellness center to serve the communities of Jefferson County and Port Townsend. The replacement of the existing Mountain View Pool has been identified as a long-term need with many planning efforts over the past decades to plan and rebuild the pool with a community and wellness facility for Port Townsend, East Jefferson County and Jefferson County as a whole.

PROJECT HISTORY & BACKGROUND

Concentrated efforts have been made since 2001 by the City of Port Townsend, in 2008 by a nonprofit, in 2012 by Jefferson County, and 2014-2018 by the YMCA and Hospital District. The ongoing need and interest in replacing the existing antiquated pool and adding health and wellness components was documented through community feedback during the 2020 update to the Parks, Recreation and Open Space (PROS) Plan. The PROS Plan process included completion of a community needs assessment survey that received over 900 responses. Additional feedback was gathered through various stakeholder and community group meetings, open houses, and public hearings. Aquatics and recreation centers emerged as one of the highest needs of the community during that process.

The Port Townsend City Council recognized that additional planning and design was necessary in determining the features, size, configuration, and costs of construction/operations for a future aquatic and health and wellness facility and approved the funding of this feasibility study that was financially supported by a number of prominent community partners.

The goals for this study are to:

- Increase opportunities for people to live an active and healthy life
- Plan for the future of Jefferson County
- Select a site and rebuild the pool, including health and wellness components to meet the needs of the community
- Engage Jefferson Hospital District, Jefferson County, Port of Port Townsend, Port Townsend School District, and JeffCo Aquatics Coalition this effort.
- Plan for the operations and financing of a new aquatics center

In February 2023 Opsis Architecture and its planning / design team of specialized consultants initiated work with the project Steering Committee to develop a comprehensive feasibility study to identify, evaluate, and select a preferred site, develop a market analysis, verify the aquatic and other program needs, develop a conceptual design vision with total project cost estimates, and evaluate operational and funding strategies. Working with the Steering Committee, project guiding principles were developed to guide the planning and design process.

PROJECT GUIDING PRINCIPLES

Creating a framework to guide the development of the Healthier Together Center was key to realizing the goals of this study. The guiding principles provide a benchmark from which success of the study can be measured.

Project Vision

- Serve significant unmet needs for community health & wellness
- Replace existing antiquated swimming pool
- Integrate partner & community input
- Provide welcoming safe & accessible environment for all
- Support diversity, equity, inclusion & belonging
- Offer multipurpose spaces to maximize facility use
- Develop a legacy project for County & City
- Represent character that fits the Peninsula & Port Townsend
- Build on past efforts and recognize the value of previous efforts

Environmental

- Integrate sustainable & resilient design practices
- Offer Indoor-Outdoor connections & programming opportunities

Financial

- Establish a viable financial plan for project funding
- Optimize value of the budget (capital & operational)
- Develop realistic budget based on today's construction cost
- Embrace full potential of partnership opportunities

STAKEHOLDER INPUT & COMMUNITY ENGAGEMENT

Stakeholder and Community Engagement input was guided through City staff and the Healthier Together Center Steering Committee. The planning / design team engaged in eight (8) workshops with the Steering Committee including both virtual and in-person meetings. The design team also presented at two (2) Port Townsend City Council Meetings and the Jefferson County Commissioners Meetings to gain their input and feedback that informed this study.

Community Engagement included three (3) Open House Events in Port Townsend with one (1) in Chimacum. These included both in-person and virtual options with a presentation followed by questions and answers. Additionally, three (3) community online surveys reached out to the larger community. Community input informed the site selection of the Mt. View Commons site as well as the program mix and types of features, the concept design character, and the operations and funding scenarios. The July 2023 Open House included a review of the final concept design including: capital and operational costs and the potential funding scenarios including annual costs to County taxpayers.

In addition to the community feedback directly related to the Healthier Together Center, the process also highlighted other areas of community interest including public restrooms and showers and roadway improvements.

SITE EVALUATION & SELECTION

Site evaluation and selection was an integral part of the planning process. Four sites located within Port Townsend were evaluated to support a new aquatic center with a health and wellness component. The sites included Mountain View Commons, Port Townsend Golf Course, Jefferson Healthcare, and Evans Vista. These sites were publicly owned by the City, County and School District or privately owned by Jefferson Healthcare with the premise they would be donated to the project and not incur any land acquisition costs. They are situated in different areas of the City and in proximity to major roads, public transportation, bike paths, and are easy to access.

Site evaluation criteria was developed to provide a framework for comparing the sites to one another. This included: development capacity, economic viability, supports diversity, equity & inclusion, regulatory approval, and community support. The primary criteria categories were further defined with sub-categories providing 16 areas of comparison. The criteria were evaluated on a 3-point scale with “excellent” being the highest score and “poor” being the lowest. Utilizing this methodology revealed that the Mountain View Commons site was the preferred location to support the development of a new aquatics center with health and wellness facility. Greater detail regarding the site selection process is contained within the body of this report.

DEMOGRAPHIC & MARKET ANALYSIS

The initial demographics and market analysis was developed in parallel with the site selection process to help inform the evaluation site criteria and provide data driven information to assist the design team and Steering Committee in making informed decisions. Nationally recognized recreation planning consultant Ballard*King & Associates applied their years of experience working with communities throughout the country with specific analysis of the local market and private-public service providers to understand and quantify the program needs of the Jefferson County/Port Townsend community. This analysis highlighted that a growing number of families, adults, and seniors need more indoor places to play, recreate, and swim and that Jefferson County is a stable community with community members that have the ability to pay for the programs and services outlined in this study.

The existing Mountain View Pool, built in 1963, has provided a much-needed service to the community for the last 60 years. However, in repeated evaluations beginning in 2001, it has been identified that the antiquated pool is past its useful life and needs to be replaced. Additionally, the 2023 Roof Inspection Report suggested that the pool building roof has reached the end of its life and needs a complete replacement.

BUILDING PROGRAM

The building program needs are a direct reflection of the market analysis, guidance from the Steering Committee along with input from the community to provide needed health and wellness activities for the Jefferson County/Port Townsend community. The space program embraces creating equitable, affordable, and accessible aquatic and recreation activities for all community members. Two (2) program options were developed:

Base Option – Aquatics (29,700gsf)

- Aquatics (6-lane 25-yard lap pool, recreation pool, whirlpool, and sauna)
- Events (birthday party / meeting room)
- Lobby with lounge seating
- Wellness studio space for Jefferson Health Care
- Binary locker rooms and universal / gender-neutral changing rooms
- Administration, staff, and support spaces

Full Build-Out Option – Aquatics & Recreation (40,200gsf)

- Includes outlined base program spaces
- Gymnasium (one (1) high school court with two (2) cross courts)
- Fitness and group exercise space

CONCEPT DESIGN

The concept design was developed using the space program (base and full build-out options) and parking needs to develop initial layouts for the Mountain View Commons site that were refined through an iterative process with the Steering Committee and the Community. The building and site layout takes advantage of the site’s natural topography and benches to nestle the building into the middle of the site creating two (2) separate parking areas to serve the Healthier Together Center and the existing Food Bank, Parks & Recreation Department, and Police Building. Frontage improvements along Blaine Steet include new curb cuts to access the reconfigured parking layout.

The conceptual design of the exterior and interior character is based on a cost-effective approach that works with the topography

and optimal solar orientation drawing from the unique character of the Maritime and Port Townsend architecture. The steel and wood framed building offers an efficient layout and scale that fits the character and setting of Port Townsend. It’s designed to optimize natural daylighting within an efficient layout that embraces opportunities for social interaction and sustainable design practices.

CAPITAL & OPERATIONAL COST ESTIMATES

The Concept Design Cost Estimate was developed by DCW Cost Management utilizing the concept design and architectural narrative. Cost for the base and full build-out options include escalation through May 2025 as well as design and construction contingencies. The total project cost summary includes construction costs and soft costs. The project cost for the Base Option is \$37.1M and the total project cost for the Full Build-Out Option is \$45.9M. The detailed cost estimate is included in the appendix.

Operational Costs were developed by Ballard*King (B*K) using the market analysis, similar facilities in the region, input from the YMCA, and the concept design program and plans. The operational analysis assumes a conservative approach to the development and the funding required to operate and maintain the facilities. The annual operating costs are:

Base Plan Option:

- \$1.27M Expense
- \$0.84M Revenue
- \$0.43M Subsidy
- 66% Cost Recovery

Full Build-Out Option:

- \$2.08M Expense
- \$1.73M Revenue
- \$0.35M Subsidy
- 83% Cost Recovery

A detailed Operational Plan is included in the appendix and includes information on the membership model and associated fees.

FUNDING STRATEGY

Guidance for a funding strategy was provided by ECONorthwest based on the Concept Design Cost Estimate and the Operational Costs. The scale of the existing community means there is a small tax base which can make it difficult to dedicate funds or encumber taxpayers with the capital and operational investments necessary to support replacement of the existing facility. The state of Washington has made available a range of special purpose districts to address the operation and funding of parks, recreation, and community facilities. Over the course of the study, the Steering Committee has explored two funding and governance mechanisms: a Metropolitan Park District (MPD) and a Public Facilities District (PFD). Greater details regarding these two options, including governance and revenue adequacy, are contained within the body of this report as well as in the appendix.

With either approach, the Steering Committee has committed to bringing down the overall cost to the community through a fundraising effort targeting \$15M of the Project Costs. This effort would include raising \$5M through State Grants, \$5M through Federal Grants, and \$5M through philanthropy.

RECOMMENDATIONS & TIMELINE

Based on the analysis from this study and community feedback, the Steering Committee recommends pursuing the Base Aquatics plan with a desire to implement the Full Build-Out if fundraising efforts allow. In addition to the \$15M fundraising goal, a county-wide PFD including a 0.2% Sales Tax and a 2% Lodging Tax for lodging over 40 units is recommended.

With the completion of this study, the following are recommended next steps and associated timeline for moving this project forward:

- Reduce risk by eliminating unknown costs including:
 - A Geotech report to be completed in October 2023
 - Identification of soft costs to be completed in October 2023
- Develop an informational bond strategy
- Bond Measure in April 2024 to align with grant applications that will be due in May 2024

PLANNING PROCESS

The planning process was initiated with an immersive three (3) day on-site workshop which included tours of the potential building sites and a workshop with the Steering Committee comprised of County and City staff, and community and County leaders. The planning process included eight (8) Steering Committee Workshops and three (3) community engagement open-house events (both virtual and in-person) as well as on-line surveys. Input and feedback informed the site selection, the building program, the Concept Design and the funding and operational strategy.

COMMUNITY ENGAGEMENT

The community engagement process sought feedback from both City of Port Townsend and County Residents through three open house events at Fort Worden and one open house at Chimacum School District. To ensure the events were accessible to as many community members as possible each open house included an online option and an in-person option and each in-person event included Childcare and food. Each open house included a presentation, a question and answer section, and an opportunity for community feedback. At each in-person event there were between 40-80 community members in attendance and between 20-40 attendees at each virtual event.

Each Open House focused on a specific part of the study for both the presentation and community feedback including:

- **Open House 1 – Site and Program**
- **Open House 2 – Program and Concept Design**
- **Open House 3 – Concept Design and Funding Strategy**

Each Open House event was coupled with an online survey to allow community members to provide feedback even if they were not able to attend the events. The survey was made available through a QR code and link that was shared on the City’s website and a paper version was made available to anyone who requested one. Survey responses ranged from 1,200 for Survey 1, 1,255 responses to Survey 2 and 321 responses to Survey 3.

Community feedback helped guide the selection of the site, the overall building program, detailed design of the recreation pool,

as well as the overall funding strategy. The detailed results of the surveys can be found in the Appendix.

In addition the community feedback directly related to the Healthier Together Center, the process also highlighted other areas of community interest including public restrooms and showers and roadway improvements.

SITE EVALUATION & SELECTION

The site selection process sought to identify the best suited site for development of the Healthier Together Center. Four (4) sites were identified by the City as having the greatest potential to accommodate the project. These sites were Publicly-owned and geographically centrally located with equitable access to the community. The four sites included Mountain View Commons, the Port Townsend Golf Course, Jefferson Healthcare, and Evans Vista.

EXISTING FACILITY

In addition to evaluating these four sites, discussions explored renovating the existing facility. However community feedback during earlier efforts indicated a critical need is the ability for the existing pool to remain open during the construction of a new pool. A renovation of the existing pool would not allow for this.

Additionally, in 2001 the ORB Organization evaluated the existing pool and facility and identified the following deficiencies:

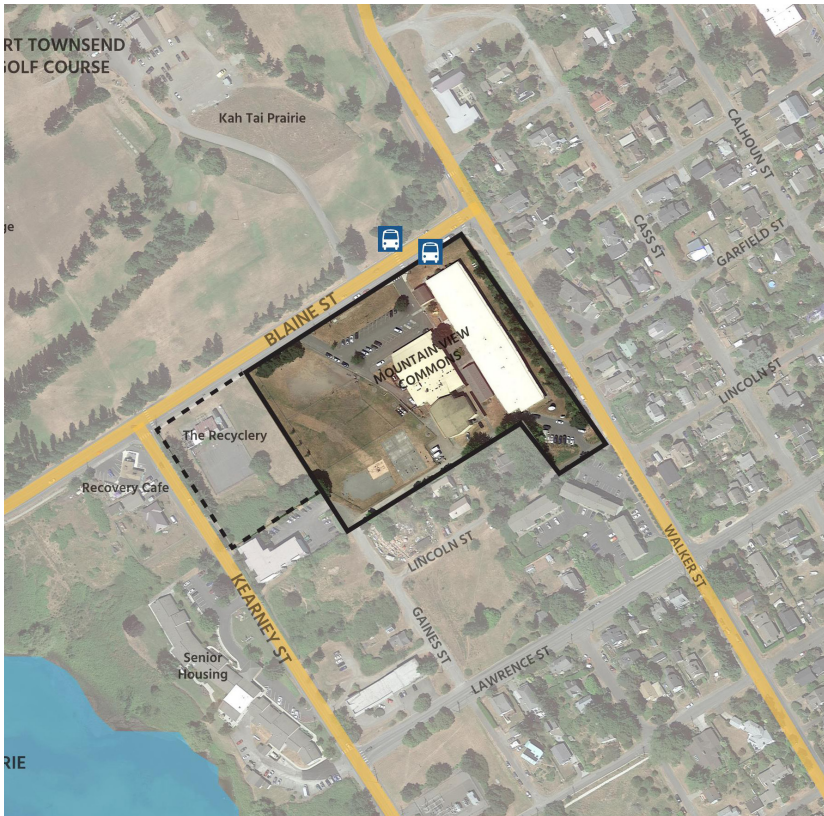

- Inadequate length or number of lanes for competitive swimming
- Lack of an accessible entry
- Need for complete replacement of Pool lighting, emergency lighting and a new fire alarm system as of 2001
- Need for a new pool deck and liner surface by 2016
- Need for a new roof by 2021

The city is currently undertaking an updated evaluation of the existing pool and facility. This analysis should be available by October 2023.

SITE SELECTION PROCESS

The site selection process sought to identify the best suited site for development of the Healthier Together Center. Four (4) sites were identified by the City as having the greatest potential to accommodate the project.

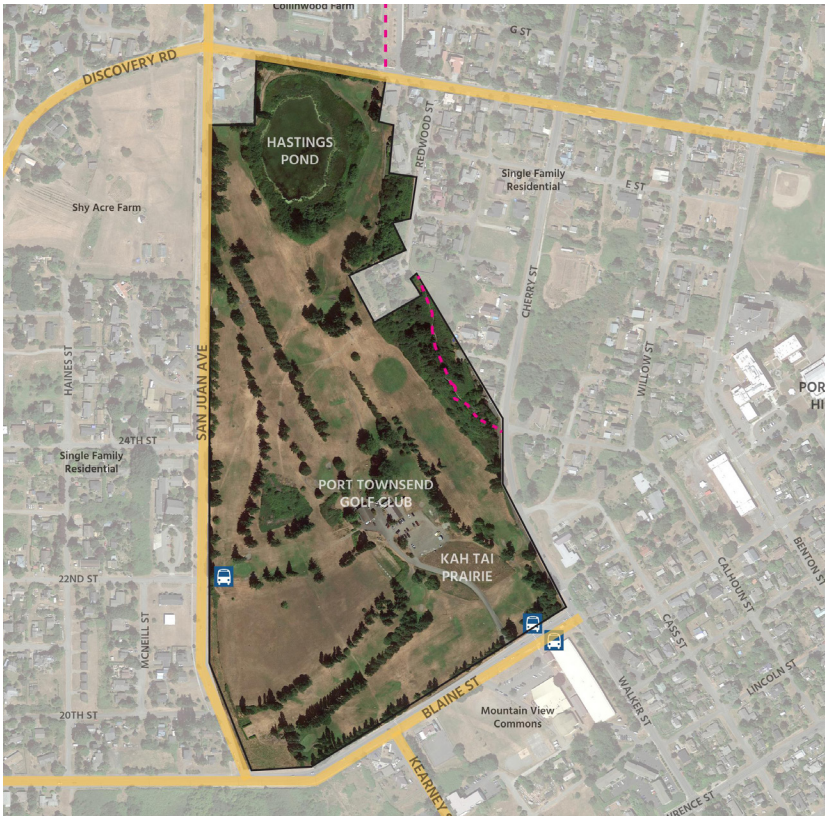

MOUNTAIN VIEW COMMONS (APPROX. 3.9 ACRES)

The Mountain View Commons site is currently owned by the Port Townsend School District. The existing YMCA Mountain View Pool is located on this site with convenient access via car, bike, and public transit. It fronts Blaine Street across from the Port Townsend Golf Course and is adjacent to a single-family neighborhood with proximity to the High School. The site has sloping topography that is configured into three (3) relatively flat benches.

Site attributes and amenities include:

- Accessible by car, bike, and transit
- Existing buildings/resources on site:
 - Existing pool, community gymnasium, and childcare currently operated by the YMCA
 - Existing community building that houses the Food Bank, New Image clothing swap, offices for the YMCA, and the Port Townsend Police Department.
- Existing dog park
- Shared parking lot with approx. 30 parking spaces
- Relatively large site with three roughly flat benches with approx. 8’ grade change between terraces.
- Property is owned by the School District and would be leased to the City for this project.
- Adjacent to the Kai Tai Lagoon and Port Townsend Golf Course
- Views to the southeast across Kai Tai Lagoon to the Olympic Mountain Range

PORT TOWNSEND GOLF COURSE (58 ACRES)

City-owned golf course currently being evaluated through a concurrent master planning process for potential redevelopment into a modified or reconfigured golf course, public park, or other identified community need. The area being considered for the Healthier Together Center is at the southeastern area of the site at the intersection of Kearney and Blaine Streets directly across from the Mountain View Commons Site.

Site attributes and amenities include:

- Accessible by car, bike, and transit
- Currently functioning as a public golf course.
- Existing buildings / resources on site
 - Port Townsend Golf Clubhouse
 - Kai Tai Prairie
 - Existing parking lot
- Adjacent to the Kai Tai Lagoon and Mt. View Commons
- Views to the southeast across Kai Tai Lagoon and the Olympic Mountain Range

SITE SELECTION PROCESS

The site selection process sought to identify the best suited site for development of the Healthier Together Center. Four (4) sites were identified by the City as having the greatest potential to accommodate the project.

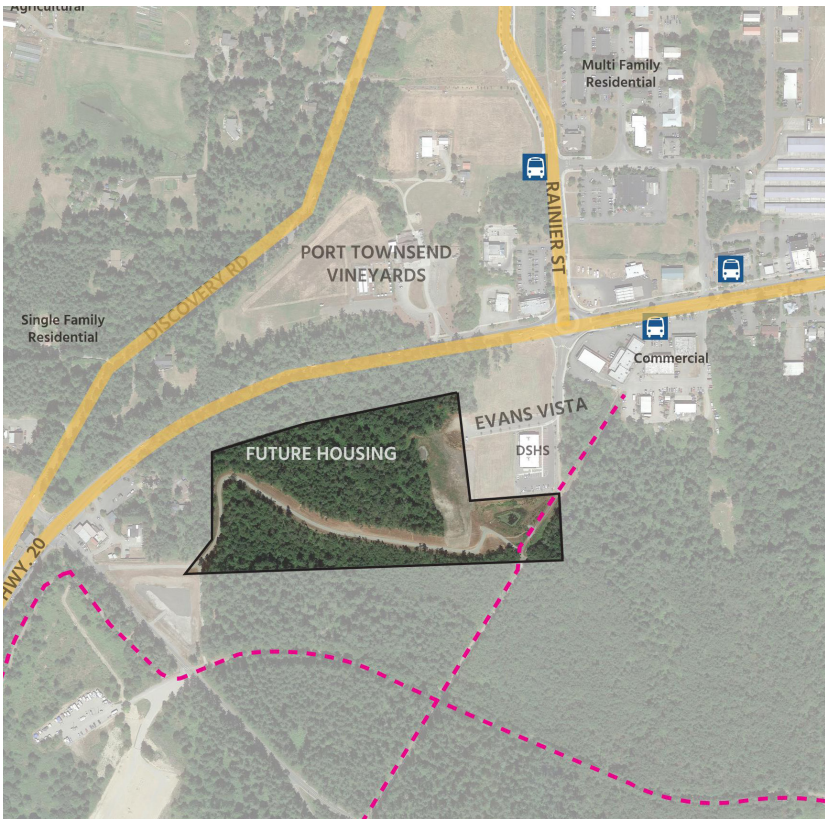

JEFFERSON HEALTHCARE (0.74 ACRES)

Small relatively flat site with an existing abandoned single-family residence. This site is owned by Jefferson Healthcare and would be donated to the project.

Site attributes and amenities include:

- Accessible by car and somewhat accessible by bike and transit
- Relatively flat site adjacent to the hospital the Manresa Castle Hotel and woodland area
- Potential Views of Port Townsend Bay to the northeast
- Site is bordered by Sims Way with good vehicular visibility
- Limited site development area and undersized to accommodate the building parking needs

EVANS VISTA (14 ACRES)

Large site located at the gateway to Port Townsend. Currently owned by the City and in the planning stage for development as a mixed income neighborhood with 80-150 affordable housing units.

Site attributes and amenities include:

- Accessible by car and somewhat accessible by bike and transit.
- Located at the southeast gateway to Port Townsend making it closer for County residents.
- Limited visibility from Sims Way with site located behind a remnant forested buffer
- Proximity to Port Townsend Paper Corporation

SITE EVALUATION CRITERIA

City staff and the Steering Committee collaborated on developing site evaluation criteria used to inform the site selection process. This provided a framework for comparing the various aspects of each site with an evaluation matrix comprised of five categories that provided a methodology for informing the selection of a recommended site. The site evaluation criteria included:

1. Development Capacity
 - Accommodates building and parking
 - Enhances adjacent context
 - Minimizes impact to existing pool operations
2. Economic Viability
 - Prominent Frontage and Visibility
 - Cost recovery potential
 - Proximity to compatible amenities
 - Partnership Potential
3. Supports Diversity, Equity & Inclusion
 - Preserves and enhances outdoor recreation amenities
 - Convenient access to bus & bike routes
4. Regulatory Approval
 - Site selection consistent with current zoning
 - Avoids potential environmental impact
 - No extended approval process
5. Community Support
 - Site selection supports community buy-in
 - Site selection avoids controversy
 - Supports south county participation
 - Timing of site decision with this study

The following exhibits depict the site evaluation conducted for Mt. View Commons, the Port Townsend Golf Course, Jefferson Healthcare, and Evans Vista.

Site Evaluation Criteria	Evan's Vista	Jeff. Healthcare	Golf Course	Mtn View Coms
Location Supports South County Participation				
Accommodates Building & Parking				
Proximity to Compatible Amenities				
Partnership Potential				
Timing of Site Decision with this Study				
Enhances Adjacent Context				
Site Avoids Controversy				
Minimizes Impact to Pool Operations				
Prominent Frontage and Visibility				
Cost Recovery Potential				
Convenient Access to Bus & Bike Routes				
Impacts to Existing Site Amenities				

Good

Fair

Poor

CONSIDERED SITES & RECOMMENDATIONS

The evaluation of the four (4) sites and recommended site was informed by the Steering Committee and presented at the Open House in March 2023. Polling during the meeting and a subsequent online survey suggested a preference for the Mountain View Commons Site. The site evaluation was presented to the City Council in March 2023 with feedback to explore both the Mountain View Commons site as well as the Golf Course site with the Jefferson Healthcare and Evans Vista sites removed from further consideration. **After further evaluation and input from the Steering Committee and community polling, the Mountain View Commons site was recommended to the City Council in June 2023 as the preferred site. The City Council endorsed and approved this recommendation.**

DEMOGRAPHICS & MARKET ANALYSIS

The demographics and market analysis highlighted that more indoor places to play, recreate, and swim are needed in Port Townsend and Jefferson County in order to support an active lifestyle for seniors and retain growing families in the community. The analysis also indicates that Port Townsend and Jefferson County are a stable and growing community with community members that have the ability to pay for the programs and services outlined in this study.

AQUATICS & INDOOR RECREATION NEEDS ANALYSIS*

Population	30,982
Total Households	14,943
Family Households	8,717
Median Age	58.6
Median Income	\$66,186

Growing number of adults and seniors, and desire to retain families who **need more places** to play, recreate, and swim.

Very **stable market** in terms of population.

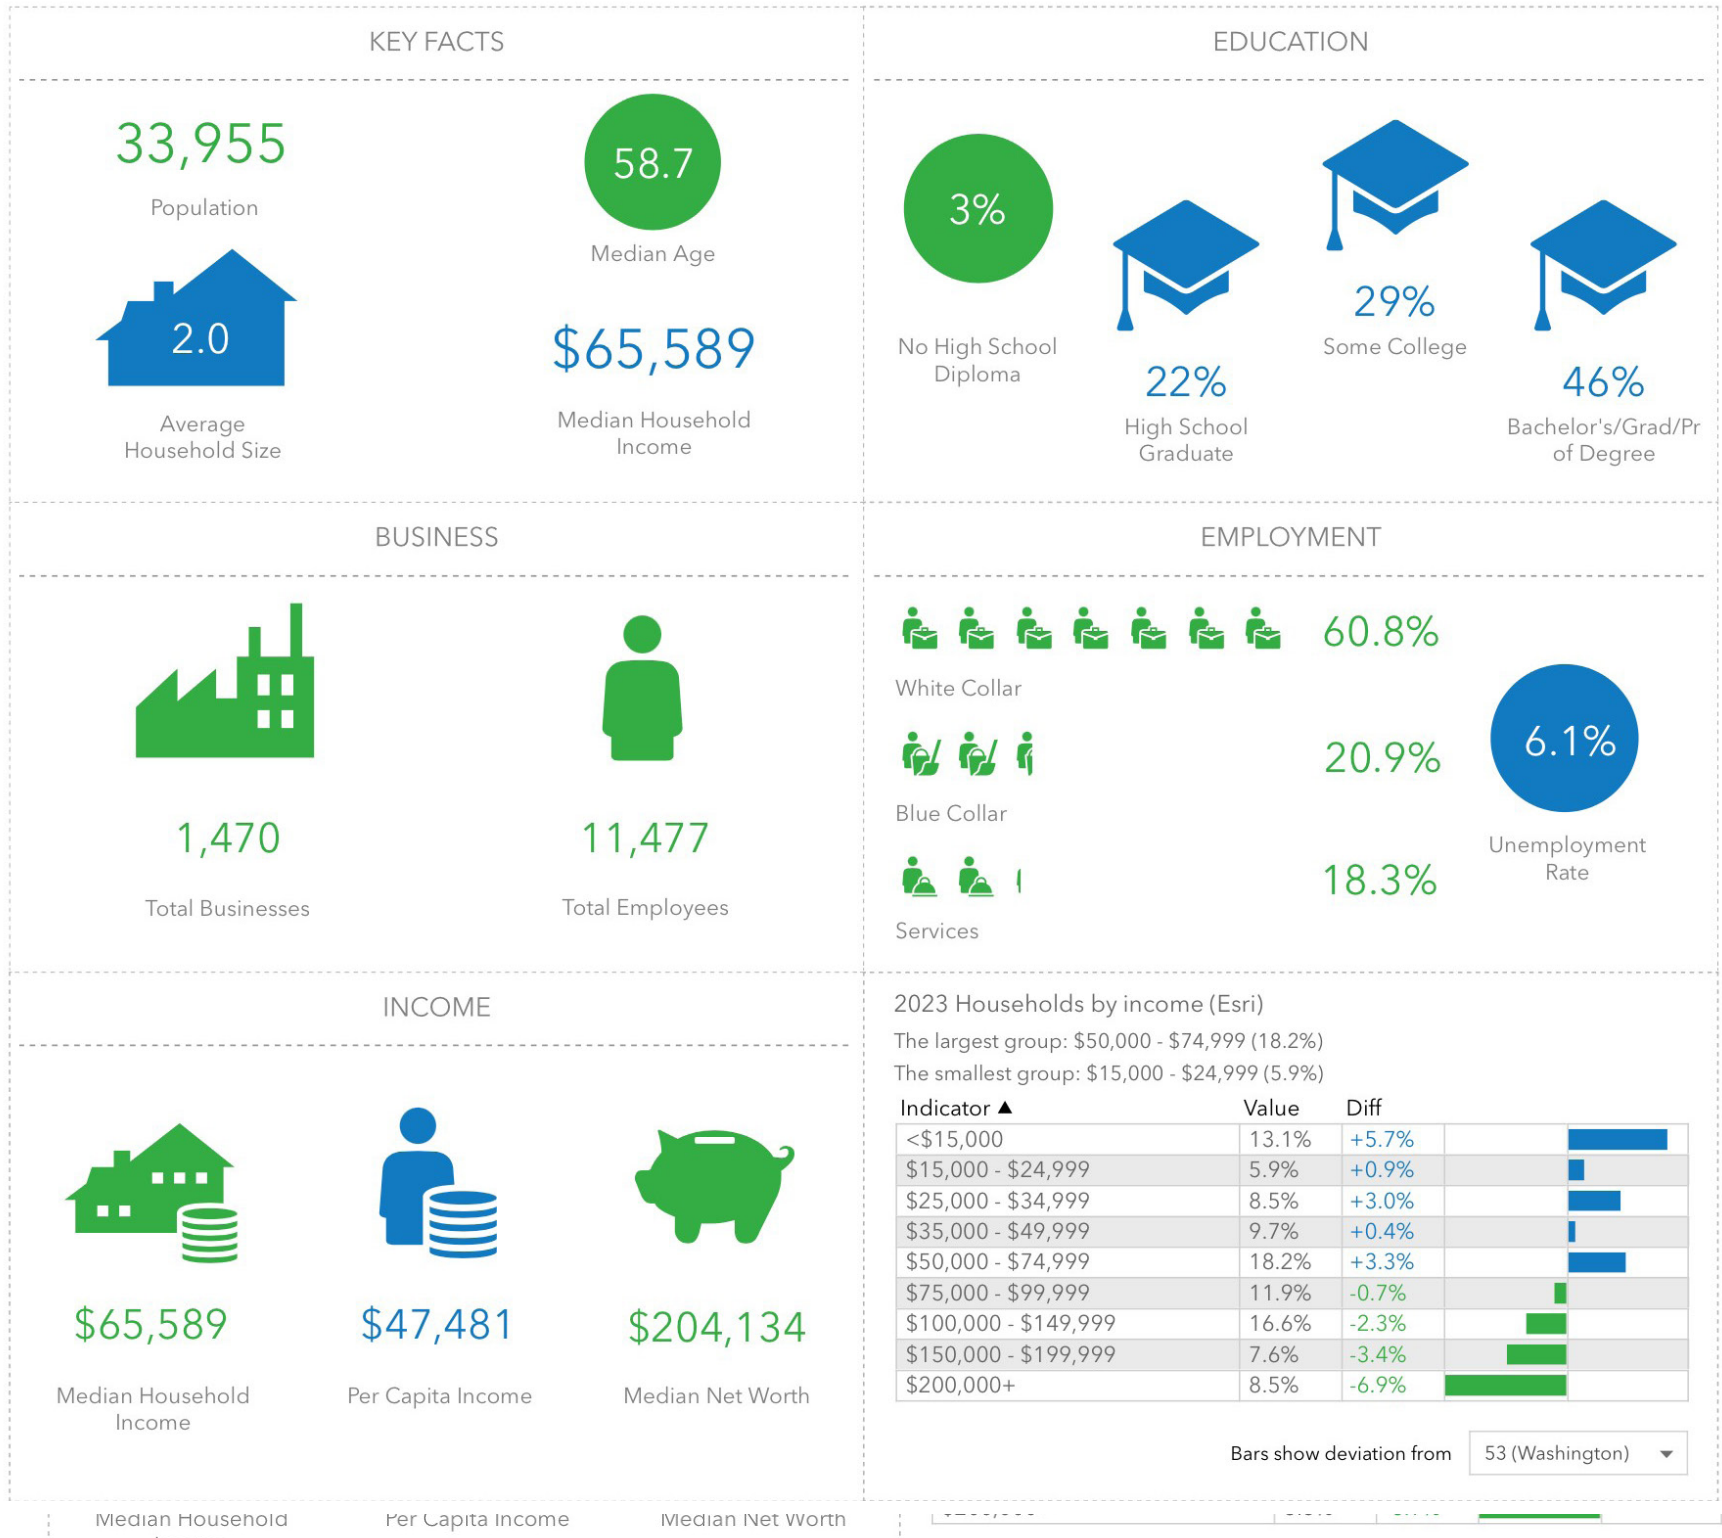

Income points to the **ability to pay** for programs and services.

Spending patterns suggest **residents are currently paying for similar services**.

Full community profile supports **multiple indoor facilities**.

* Based on the Primary & Secondary Service Areas shown on the following page.

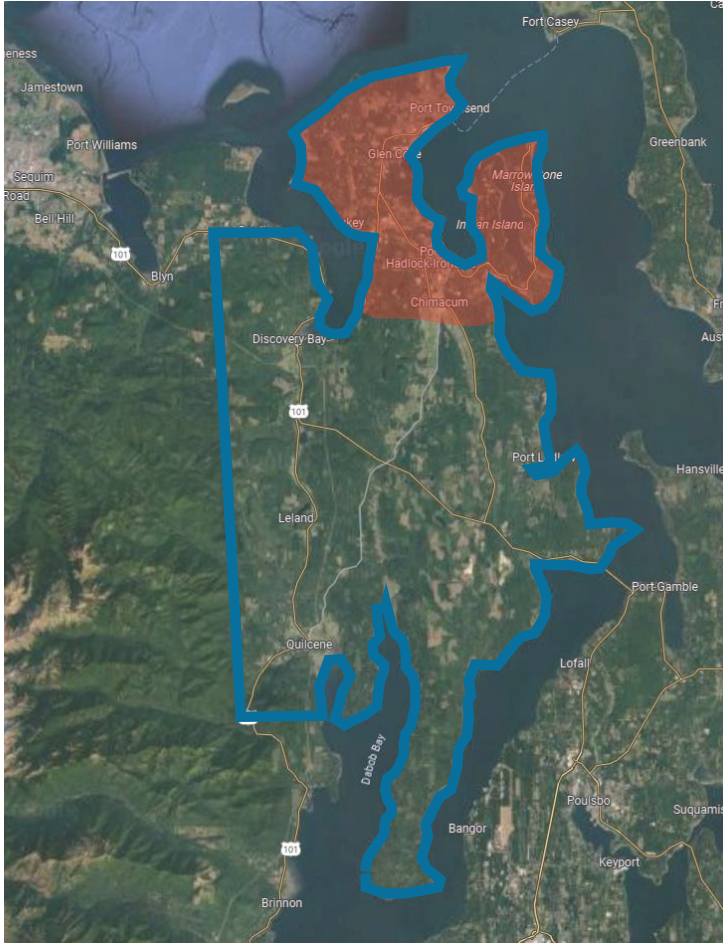

JEFFERSON COUNTY DEMOGRAPHICS

MARKET REVIEW

The market review highlighted there are a number of aquatic, recreation, and fitness facilities in place in the greater Port Townsend market including both public and private clubs. However, the private clubs in the area that provide fitness and sports amenities serve very different market needs than a public facility and are not seen to be in direct competition. This is particularly true of specialty fitness providers which is the majority of Port Townsend’s private facilities. A public

SERVICE AREAS

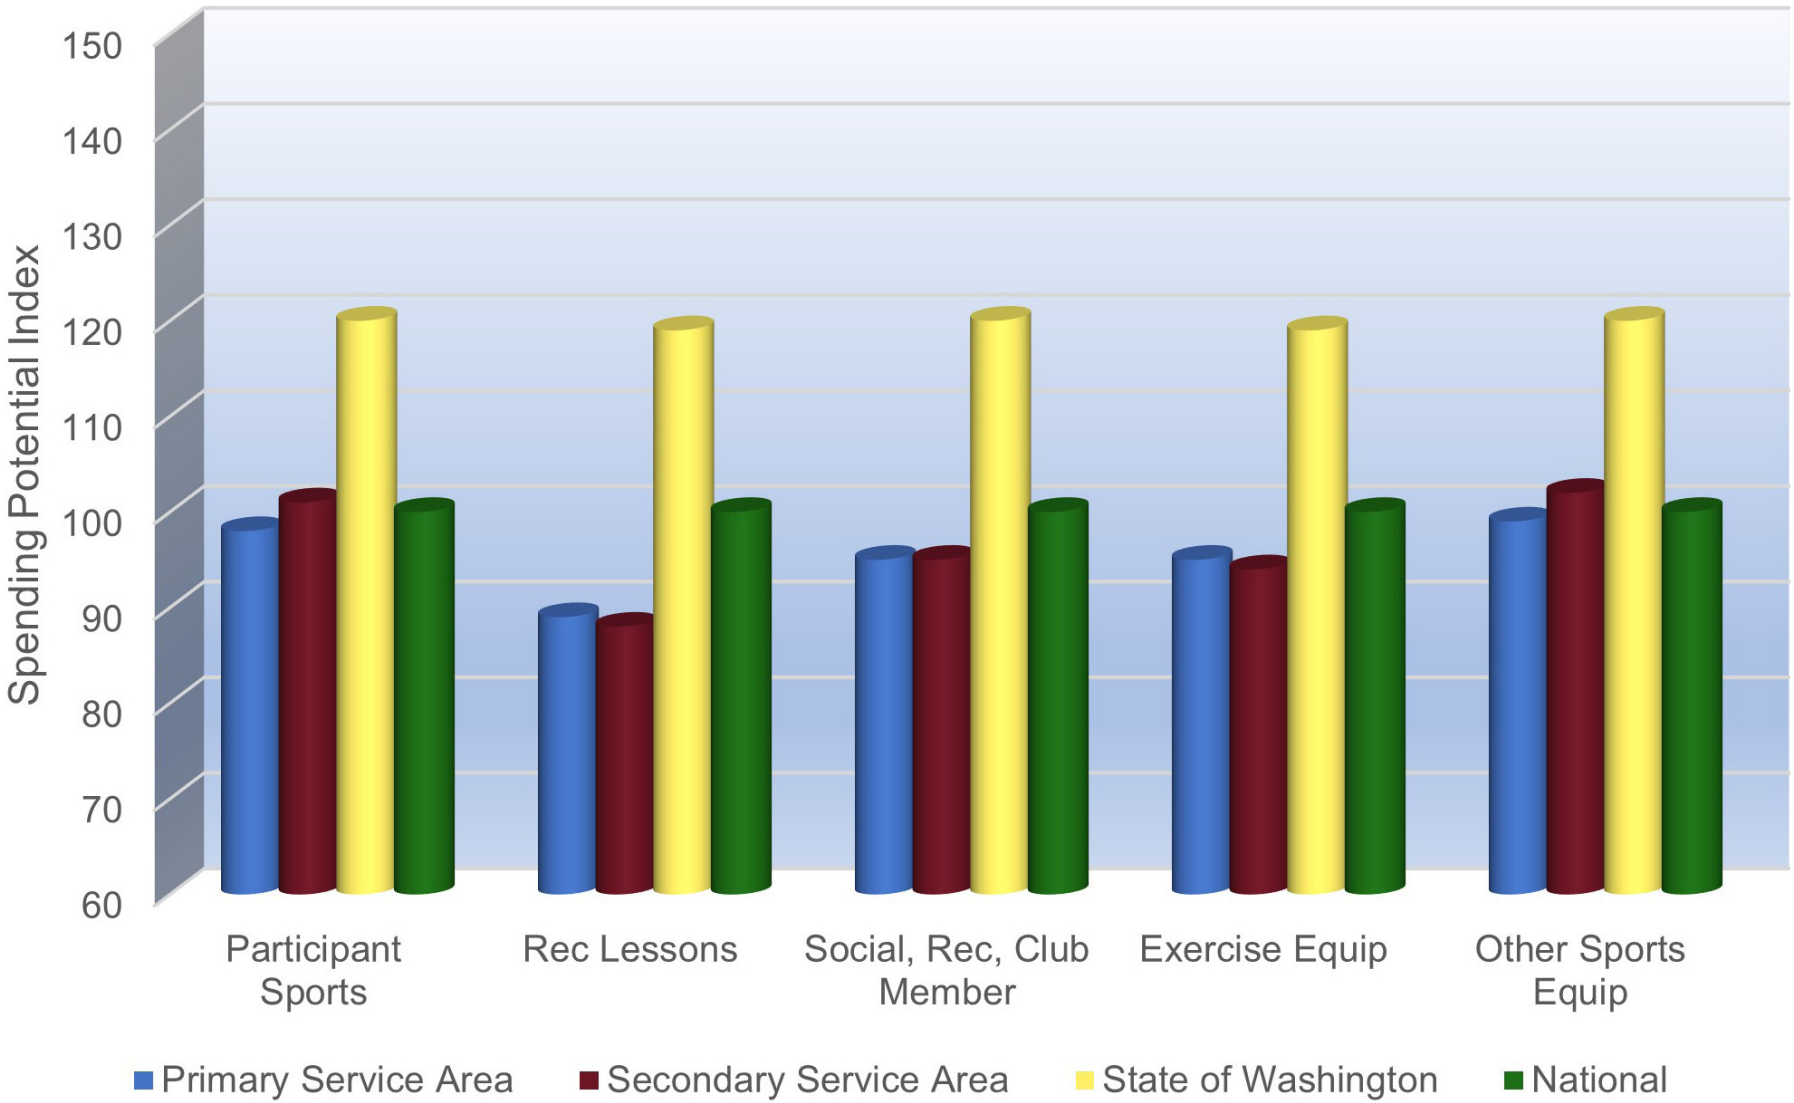

Two service areas were identified during the study. The Primary Service area is households that will likely use the facility at least once a week. The Secondary service area is households that will likely use the facility on occasion or for events.

facility can also enhance business for private facilities by serving to introduce more people to fitness who then seek out specialty providers.

NEEDS ANALYSIS / MARKET CONCLUSION

The market analysis conducted under this study confirmed and quantified previous assumptions outlined in the 2020 PROS Plan. The community has an expressed desire for an aquatics center, as

Recreational spending potential is not significantly lower than the national average indicating that residents of the two service areas value recreation activities and are willing to potentially spend more for these purposes.

shown in the survey priorities in the PROS Plan. and our market analysis confirmed that Jefferson County community needs and population can support a comprehensive aquatic/recreation center particularly with programming that appeals to an older demographic. Additionally, the ability to draw potential users from the second home and tourist market area could add even more users.

As a replacement for the existing Mountain View pool there is already an established market for

aquatics and the demographic characteristics show a market area with an active population that is willing to spend money on recreation activities and services.

To ensure the success of the project funding not only for the development but the operation of a new center should be clearly defined.

BUILDING PROGRAM

With the existing Mt. View Pool at the end of its useful life, the primary need for the Healthier Together Center is aquatics, including both a lap pool and warm water recreation pool. For an area surrounded by water, the aquatics component provides the critical need for a safe space in which to teach children how to swim. Additionally, it provides the senior population an accessible way to maintain their health and wellbeing long into their retirement years.

In addition to serving these critical community functions the two pools also provide opportunities for:

- Water Walking
- Deep Water Group Exercise
- Swim Team Practice
- Swim Clubs
- Water Polo
- Lifeguard Training
- Recreation
- Children’s Waterplay
- Aerobic Exercise
- Therapy

Other program elements were considered and evaluated to support the health and wellness project vision. This included a Classroom with Teaching Kitchen and Physical Therapy program space in partnership with Jefferson Healthcare.

Jefferson Healthcare, also evaluated locating a significant portion of their Physical Therapy program (5,000sf) at the Mountain View Commons site. After further analysis, they decided to keep the physical therapy at their existing hospital site and focus on a wellness program element for the Healthier Together Center project. This is a modestly sized multi-use fitness room with a sprung wood floor that can be utilized for mind-body group exercise and health & wellness classes.

Community feedback in the Open House events and subsequent online survey indicated the classroom and teaching kitchen were less desirable but that a larger rec pool with Lazy River was a key amenity for families. Additionally, the recreation pool was refined to provide more space for water aerobics. These and other prior space program studies are included in the appendix.

In the development of the Building Program, the Steering Committee raised concern on right-sizing the project and the ability to fund it. In evaluating the program relative to the capital cost to build it and the on-going cost to operate it, the Steering Committee

looked to find the right balance of first cost to long-term sustainable operating costs.

The final building program recommends starting with the base program option focused on meeting the high priority aquatic needs and, if finances allow adding additional spaces including a multi-use one-court gymnasium and a large multi-use fitness space.

BASE OPTION - AQUATICS

The Base Option focuses on the primary need for a replacement aquatic facility. The indoor aquatics program includes a 6-lane 25-yard competition lap pool, warm water recreation pool, whirlpool spa, and sauna.

The 6-lane 25-yard lap pool replaces the existing undersized 4-lane L-shaped pool with diving tank. This more conventional pool layout offers more programming opportunities for general fitness, training, and supports high school swim practice and competitions with bleacher seating.

The warm water recreation pool includes a lazy river, water exercise program area, and zero entry children’s play area with water features. The ramped entry provides ease of access for community members with mobility needs and a variety of pool depths can accommodate multiple activities from open swim to water aerobics and general rehabilitation exercises.

Recreation space includes a 1,000sf multi-use wellness room that would be leased by Jefferson Healthcare and could be used for yoga, physical therapy, meditation, and health & wellness classes.

Community focused program areas include a 600sf multi-use room that could be used for birthday parties or meetings and would serve as a childwatch space when not otherwise in use. Additionally, a welcoming lobby space provides community seating areas.

Support areas such as locker rooms, universal changing rooms, storage and administrative offices are also included to round out the program.

Base Option	29,700 sf
Aquatics Space	18,600 sf
Competition Pool (6 Lane, 25 Yard + Deck) Spectator Seating (100 seats) 600sf Recreation Pool (Warm Water 3,000sf + Deck) Spa / Whirlpool Lazy River Guard Room / First Aid Aquatic Offices (2@ 120) Pool Storage Pool Mechanical & Heater Rooms (800 SF)	
Recreation Space	1,200 sf
Wellness/Group Fitness (Hospital Space) 1,000sf Storage 200sf	
Community Space	970 sf
Meeting Room / Birthday Party Birthday Party Room RR & Storage	
Support Space	3,570 sf
Reception Lockers/Universal Changing Restrooms - Unisex (2 @ 75 sf) Support/Storage	
Grossing Factor	5,360 sf

FULL BUILD-OUT OPTION – AQUATICS & RECREATION

The program areas contained in the Full Build Out Option are the same as the Base Option with the addition of a multi-purpose 1-court gymnasium which can host a variety of recreation activities including indoor pickleball, basketball, volleyball courts, indoor children’s playground, and community events. A 2,000 sf multi-use fitness space is sized to accommodate group exercise classes or limited cardio/weight training activities and /or other desired community uses.

Site Amenities

In addition to the building program, overall site and community needs were analyzed and the following amenities have been incorporated into the overall site design:

- Three additional outdoor pickleball courts
- Splash Pad for outdoor water play
- Inclusive Playground

Public Restroom & Shower Facility

This is another program element and need for the Port Townsend community that was raised at several of the Open House events. The City acknowledges this need and it is possible it could be satisfied by an operational model similar to the Token Program currently operated by the YMCA at the existing Pool. The City will explore defining the program space need and siting options in a separate feasibility study.

Full Build Out Option	40,200 sf
Aquatics Space	18,600 sf
Competition Pool (6 Lane, 25 Yard + Deck)	
Spectator Seating (100 seats) 600sf	
Recreation Pool (Warm Water 3,000sf + Deck)	
Spa / Whirlpool	
Lazy River	
Guard Room / First Aid	
Aquatic Offices (2@ 120)	
Pool Storage	
Pool Mechanical & Heater Rooms (800 SF)	
Recreation Space	10,800 sf
Wellness/Group Fitness	
Storage	
Gym (7,600sf)	
Cardio/Weights (2,000sf)	
Community Space	970 sf
Meeting Room / Birthday Party	
Birthday Party Room RR & Storage	
Support Space	3,570 sf
Reception	
Lockers/Universal Changing	
Restrooms - Unisex (2 @ 75 sf)	
Support/Storage	
Grossing Factor	6,260 sf

CONCEPT DESIGN

The concept design for the Mountain View Commons 3.9 acres site accommodates the building space program, parking requirements, and outdoor amenities within the enhanced campus setting. Initial concept design layouts for both a 29,700sf aquatics center option and 40,200sf aquatic & recreation center were refined through an iterative process with the Steering Committee and the community. Both options include site development with new parking lots that accommodate ample accessible parking stalls and drop-off areas.

Nestled into the grade at the center of the site, the building creates a visible anchor along Blaine Street while keeping the scale of the building appropriate to the surrounding context. It takes advantage of the existing benches with a linear layout optimizing south and north facing orientations. Two (2) separate parking areas are defined serving both the Healthier Together Center and the existing community building housing the Food Bank, YMCA offices, and Police Department. Improvements along Blaine Steet will include new curb cuts to access the new parking layouts.

The primary entry in the heart of the site is easily accessed from Blaine Street by foot or bike along a wide plaza-like path. A vehicular drop-off zone at the front of the building provides safe access without impacting traffic along Blaine Street. To accommodate the anticipated parking needs and create a better operational experience for the adjacent Food Bank, a parking area for the aquatics center is located to the southwest of the building while a separate parking area for the Food Bank is located northeast of the building.

BUILDING ORGANIZATION

The one-story building is efficiently organized along a central east-west circulation spine. Upon entry, visitors are greeted by a welcoming lobby with a variety of seating areas where the community can come together and congregate in a living room atmosphere with views into the entry landscaped garden and the natatorium recreation and lap pools on display through a glass wall. The child-watch and birthday party room also have views into the natatorium and accessed from the lobby. The reception and administrative offices are centrally located with direct sightlines for supervision and controlled access to the lockers / changing rooms and the aquatic and recreation spaces.

The natatorium contains the warm water recreation pool, 6-lane 25-yard lap pool, whirlpool/spa and sauna with a large deck provides informal gathering areas and pool bleachers for swim competition spectator seating. Opposite the natatorium is a 1-court gymnasium that anchors the recreational side of the building with a multitude of activities like basketball, volleyball, pickleball and futsal. Opposite the gym is a wellness room and multi-use fitness room which have large windows that look southwest to Kai Tai Lagoon and the Olympic Mountains beyond. The multi-use fitness room can accommodate a range of activities including group exercise, cardio-weight fitness or function as a community event space. The adjacent wellness room provides a tranquil space that can be used for anything from morning yoga classes to educational programs.

BUILDING DESIGN & CHARACTER

The exterior design and interior character are based on a cost-effective approach that integrates into the topography drawing from the unique character of the Maritime and Port Townsend architecture. The steel and wood framed building offers an efficient layout and scale that fits the

character and setting of the Peninsula and Port Townsend.

SUSTAINABLE DESIGN

Maximizing daylight and minimizing the need for artificial light is one of the sustainability goals of the project. Large southwest facing glazing with exterior sunshades balances the daylight in the natatorium and provides views to the surrounding landscape. This is combined with a northeast facing clerestory to reduce energy usage and the sloped roof ideally oriented for solar panels and the production of renewable energy on site.

CAPITAL & OPERATIONAL COST ESTIMATES

Capital building and site construction costs were developed by DCW Cost Management. The cost estimate includes design and construction contingencies and are escalated to a construction start date in May of 2025. The entirety of the feasibility study cost plan can be found in the appendix.

The soft costs were developed using an industry standard 33% mark-up of the construction costs. The costs include design and permitting fees, furniture, fixture and equipment procurement as well as taxes. The sum of the construction and soft costs equate to the total project costs needed to have a completed, fully functioning facility.

Ballard*King developed an operational plan. The expenses outlined in the plan include but are not limited to, staff compensation, maintenance and utilities. Revenue assumptions include a membership model based on current market rates and, similar to the existing facility, will offer a sliding scale to ensure membership is available to all. The overall revenue supplements the operational costs but do not cover all anticipated expenses. The net annual operating costs are included in the following charts and the entirety of the Operational Plan is found in the appendix.

BASE PLAN 29,700 SF

FUNDING STRATEGY

The state of Washington has made available a range of special purpose districts to address the operation and funding of parks, recreation, and community facilities. Over the course of the study, the Steering Committee primarily explored two funding and governance mechanisms: a Metropolitan Park District (MPD) and a Public Facilities District (PFD).

METROPOLITAN PARK DISTRICT

MPDs are special districts that operate as municipal corporations providing for management, control, improvement, maintenance, and acquisition of recreational facilities. They are formed either through a voter petition or a resolution by each of the governing bodies that would be included in part or all the districts. The financing of an MPD is done through a tax levy and governed by an elected or appointed board.

In exploring the use of an MPD for funding the Healthier Together Center, an MPD boundary was developed following the primary service area where users visiting the facility once a week would most likely reside.

Throughout the study the Steering Committee explored a range of levy rates and their ability to fund the project. Based on market analysis and feedback from community engagement a \$0.20/\$1,000 valuation tax levy with a 20-year debt service appears to align with community tolerance for an increase in property tax.

An MPD will require two votes by the public – one to create the MPD and one to fund it. These can appear on the same ballot and be linked through language.

PUBLIC FACILITIES DISTRICT

PFDs are municipal corporations with independent taxing authority to perform specific statutory purposes. Their formation is initiated by ordinance or resolution at the city or county level. Financing of a PFD is usually achieved through a variety of voted and non-voted taxing options including a 0.2% sales tax, admission taxes, parking taxes, and/or lodging taxes and are operated as a municipal corporation run by a board appointed by the associated legislative body. For this assessment, PFD boundaries align with the city and county boundary limits.

Throughout the study, the Steering Committee explored a range of tax levies associated with a PFD. Based on the funding needs of the project, the PFD would need to be created at the county level and include a 0.2% sales tax that must be voter-approved (simple majority), a voter approved lodging tax up to 2% for lodging over 40 units, and a levy up to 5% admission tax.

With either approach, additional funds will need to be raised through state and federal grants and philanthropy. the Steering Committee has targeted a \$15M fundraising effort including:

- \$5M through State Grants,

- \$5M through Federal Grants
- \$5M through philanthropic donations

In addition to these funding sources, the city will also continue to support the pool facility funds from its general fund net of over revenues generated at the pool. In 2022, the amount of this general fund support totaled approximately \$400,000. A similar subsidy amount will continue with the new facility.

After examining the the two funding strategies and a hybrid version in a variety of ways (including long-term financial sustainability, public input, and governance), the Steering Committee’s recommendation includes a County-wide PFD with a 0.2% Sales Tax and a 2% Lodging Tax for lodging over 40 units. In addition to the Healthier Together Center, the funds generated through the PFD will be used to create new turf fields at HJ Carroll Park.

It is recommended the PFD be place on the ballot in April 2024 to put the project in good standing for various grant applications beginning in May 2024.

The entirety of the potential funding strategies and analysis can be found in the appendix.

FUNDING ANALYSIS

	BASE PROJECT		FULL BUILD OUT	
	MPD	PFD	MPD	PFD
Voting	Area	MPD District	County-Wide	
	# of Votes	2	1-2	
	Majority	1 Simple Majority to create MPD	No vote to create PFD	
		1 Super Majority tied to excess levy	1-2 Simple Majority to enable sales tax and lodging tax	
Project Cost		\$37,100,000	\$37,100,000	
	Buy Down (\$15M)	\$15,000,000	\$15,000,000	
	Cost for Bonding	\$22,100,000	\$22,100,000	
Cost to Residents		Varies, see below	\$0.02/\$10 taxable goods (sales tax only, not lodging tax)	
	Home Valuation	\$0.30/\$1,000 Per Year Max	\$0.30/\$1,000 Per Year Max	
	\$400,000	\$120	\$120	
	\$600,000	\$180	\$180	
	\$800,000	\$240	\$240	
	\$1,000,000	\$300	\$300	
		\$0.20/\$1,000	\$0.20/\$1,000	
	\$400,000	\$80	\$80	
	\$600,000	\$120	\$120	
	\$800,000	\$160	\$160	
	\$1,000,000	\$200	\$200	
Governance				
	# of Board Members	5	Varies	
	Elected or Appointed	Elected or Appointed	Appointed	
Stability				
		Stable	Variable based on economy

City of Port Townsend

Healthier Together

Scope of Work

Project Scope Description

We understand that the project comprises cost planning for the Healthier Together Center located at Port Townsend, WA. The cost study scope of work includes developing a program-based cost model for the building program and costing the selected concept design. The intended design package consists of construction of a new community health and wellness center with an aquatics component.

Project Design Documents

The cost report is based on the following documents:
230601 PT Healthier Together REVISED SITE PLAN dated 6.27.2023 and Renderings.

Procurement

It is anticipated that the project will be delivered by traditional low bid procurement with a minimum of 4 qualified general contractors for competitive market pricing. The start date is anticipated for: Q1 2024.

City of Port Townsend
Healthier Together

Basis of Estimate

Assumptions and Clarifications

This estimate is based on the following assumptions and clarifications:

- 1 Hazardous materials abatement is **NOT** included.
- 2 The majority of work will be performed during typical daytime hours.
- 3 Projects location will be made unoccupied during construction but buildings will be continuously occupied.
- 4 **Excludes** jurisdiction fees and Owner's contingency.
- 5 Sales Tax is **NOT** shown and is assumed to be included in Owner's Project Cost Estimate.

Market Analysis

Ballard*King & Associates (B*K) has completed a market analysis for a possible new Healthier Together Center to be located in Port Townsend, Washington.

Demographics

The following is a summary of the demographic characteristics for geographic areas around Port Townsend, Washington. The Primary Area is approximately 88 square miles and extends south past Chimacum. The Secondary Service Area includes the same area but extends south to Hood Canal and east past Port Ludlow.

B*K accesses demographic information from Environmental Systems Research Institute (ESRI) who utilizes 2020 Census data and their demographers for 2022-2027 projections. In addition to demographics, ESRI also provides data on housings, recreation, and entertainment spending and adult participation in activities. B*K also uses information produced by the National Sporting Goods Association (NSGA) to overlay onto the demographic profile to determine potential participation in various activities.

Service Areas: The information provided includes basic demographic data for the Primary and Secondary Service Areas with comparison data for the State of Washington and the United States.

Primary Service Areas are defined as the distance people will travel on a regular basis (a minimum of once a week) to utilize recreation programs and facilities. Use by individuals outside of this area will be more limited and will focus more on special activities or events.

Service areas can flex or contract based upon a facility's proximity to major thoroughfares. Other factors impacting the use as it relates to driving distance are the presence of alternative service providers in the service area. Alternative service providers can influence participation, membership, daily admissions and the associated penetration rates for programs and services.

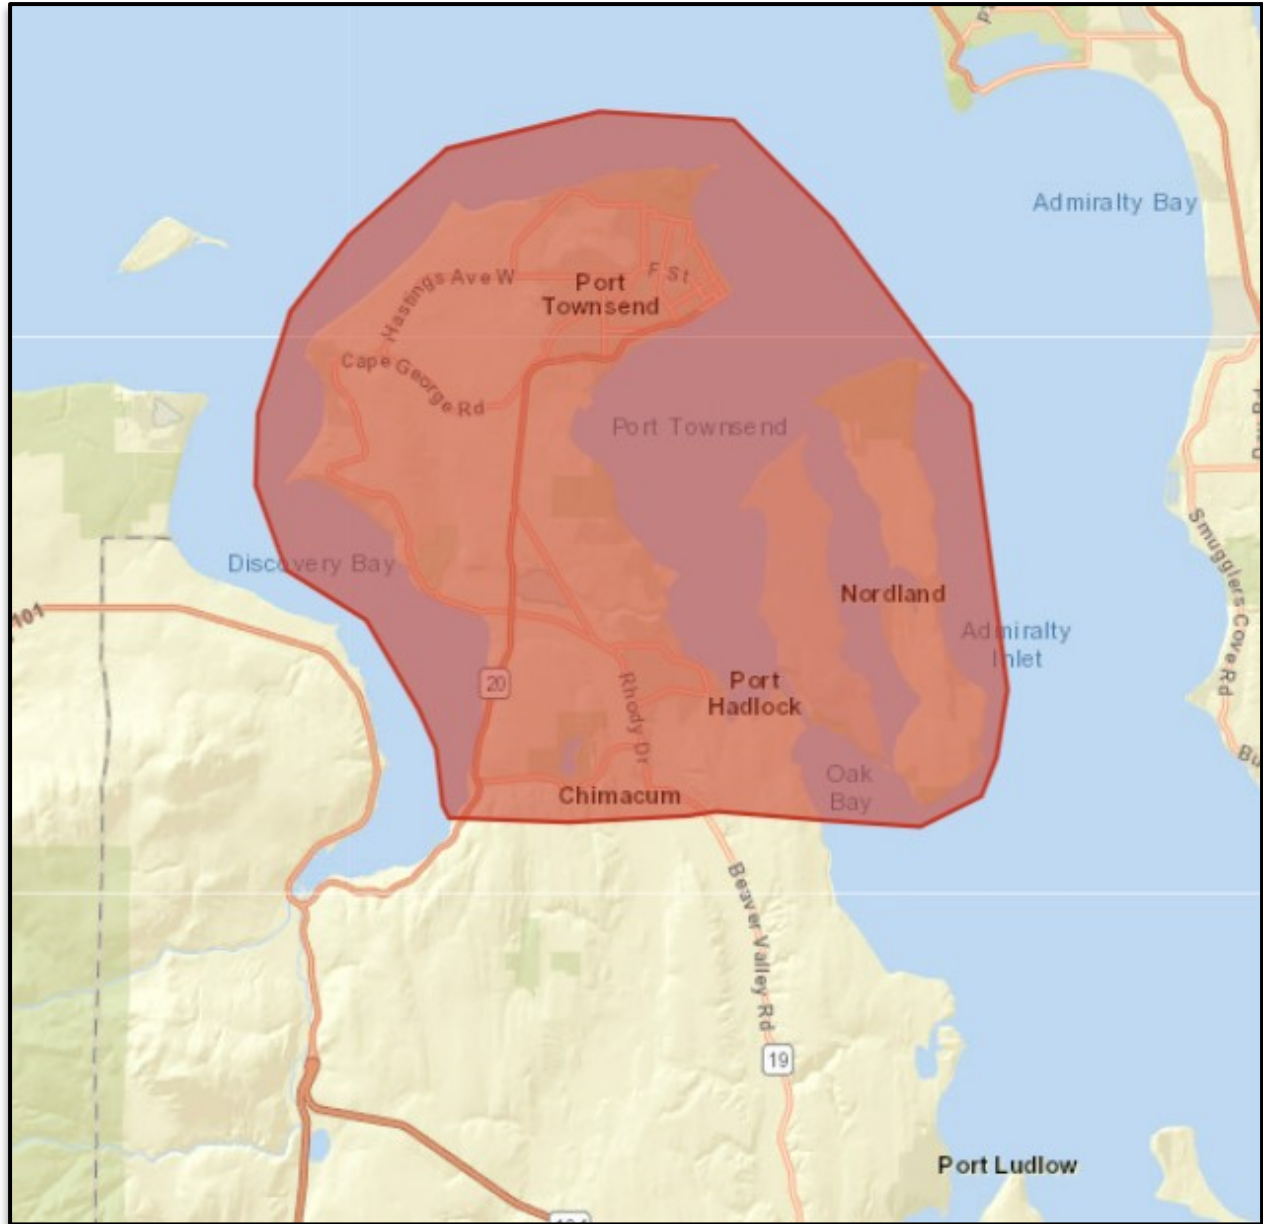

Service areas can vary in size with the types of components in the facility.

Service Area Maps

The following maps identify the service areas for the center.

Primary Service Area Map

- Red Boundary – Primary Service Area

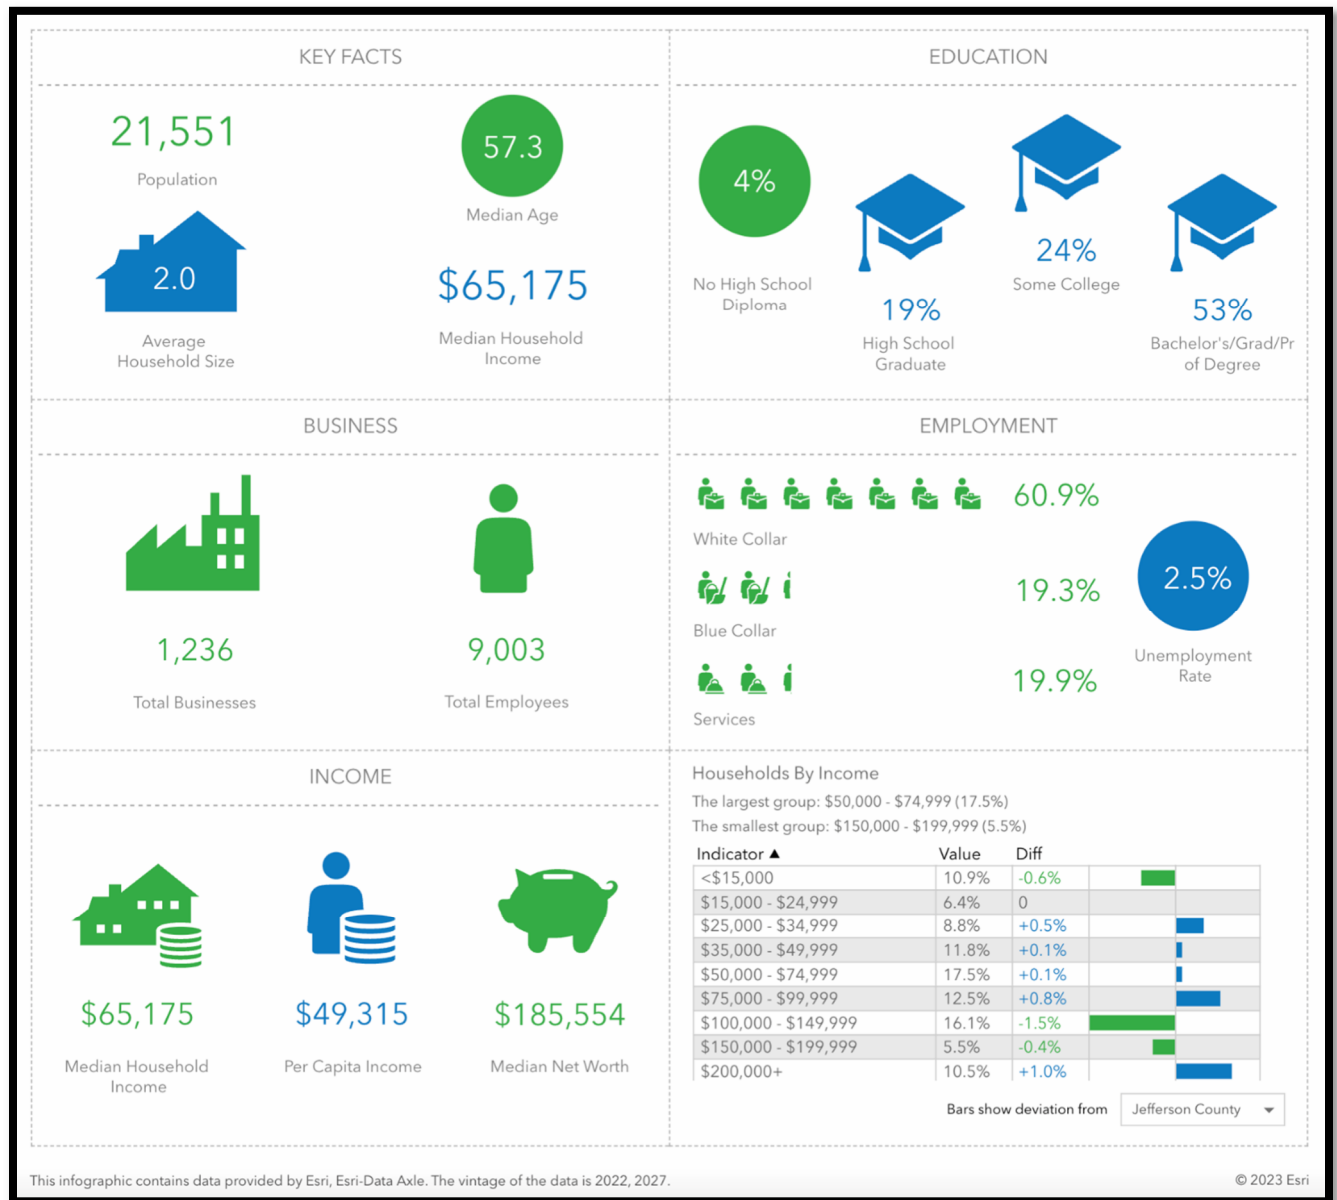

Secondary Service Area Map

- Green Boundary – Secondary Service Area

Infographic Primary Service Area

- Household by Income comparison uses the Primary Service Area and compares it to Jefferson County.

Demographic Summary

	Primary Service Area	Secondary Service Area
Population:		
2020 Census	21,081 ¹	30,442 ²
2022 Estimate	21,551	30,982
2027 Estimate	22,200	31,784
Households:		
2020 Census	10,207	14,669
2022 Estimate	10,422	14,943
2027 Estimate	10,740	15,346
Families:		
2020 Census	5,590	8,541
2022 Estimate	5,771	8,717
2027 Estimate	5,955	8,959
Average Household Size:		
2020 Census	2.04	2.05
2022 Estimate	2.04	2.05
2027 Estimate	2.04	2.05
Ethnicity (2022 Estimate):		
Hispanic	4.1%	4.0%
White	86.8%	87.1%
Black	0.5%	0.5%
American Indian	1.2%	1.1%
Asian	1.5%	1.6%
Pacific Islander	0.2%	0.2%
Other	1.6%	1.6%
Multiple	8.2%	7.9%
Median Age:		
2020 Census	55.0	56.2
2022 Estimate	57.3	58.6
2027 Estimate	58.3	60.0
Median Income:		
2022 Estimate	\$65,175	\$66,186
2027 Estimate	\$77,762	\$78,072

¹ From the 2010-2020 Census, the Primary Service Area experienced a 1.07% increase in population.

² From the 2010-2020 Census, the Secondary Service Area experienced a 1.06% increase in population.

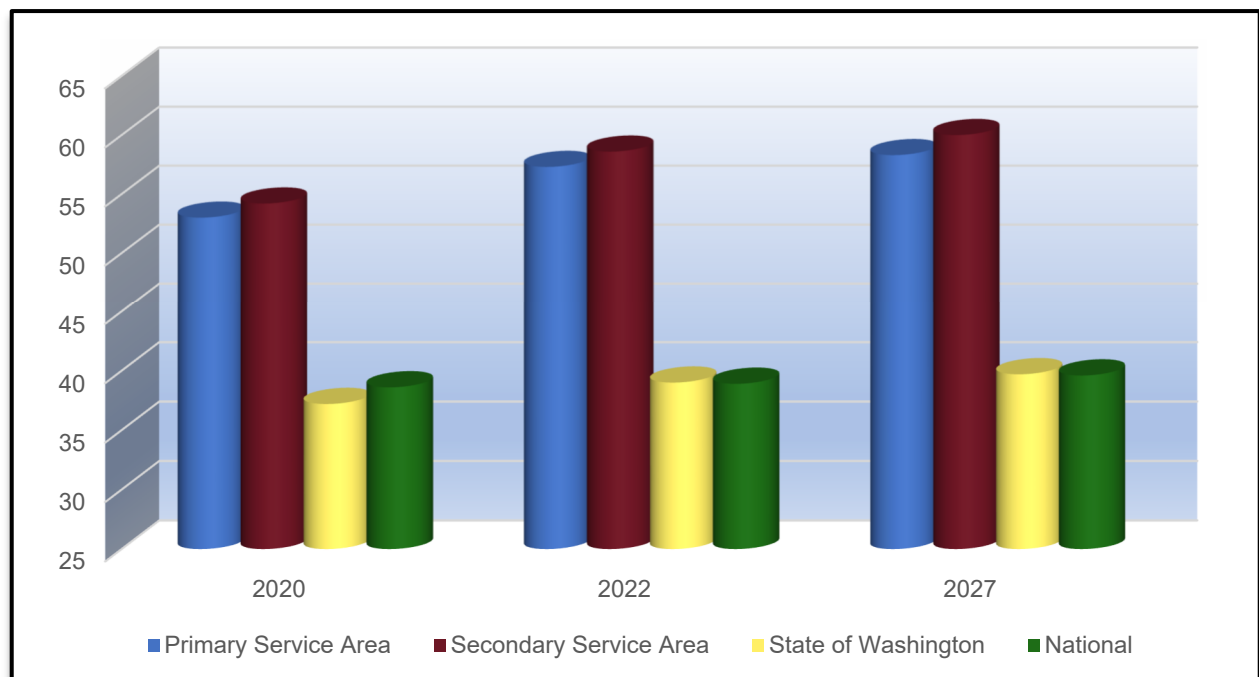

Age and Income: The median age and household income levels are compared with the national number as both of these factors are primary determiners of participation in recreation activities. The lower the median age, the higher the participation rates are for most activities. The level of participation also increases as the median income level goes up.

Table A – Median Age:

	2020 Census	2022 Projection	2027 Projection
Primary Service Area	53.0	57.3	58.3
Secondary Service Area	54.2	58.6	60.0
State of Washington	37.2	39.0	39.7
Nationally	38.6	38.9	39.6

Chart A – Median Age:

The median age in the Primary and Secondary Service Areas is much higher than the State of Washington and the National number (+ over 15 years). A lower median age typically points to the presence of families with children. A higher median age often reflects an older community with a high number of retirees.

Households with Children: The following chart provides the number of households and percentage of households in the Primary and Secondary Service Area with children.

Table B – Households w/ Children

	Number of Households w/ Children	Percentage of Households w/ Children
Primary Service Area	1,584	15.7%
Secondary Service Area	2,247	15.6%
State of Washington		30.4%

The information contained in Table B indicates a low number of families with children. As a point of comparison in the 2020 Census, 30.7% of households nationally had children present. Both the primary and secondary service areas reflect about half the state and national level of households with children.

Median Age by Census Tract Map

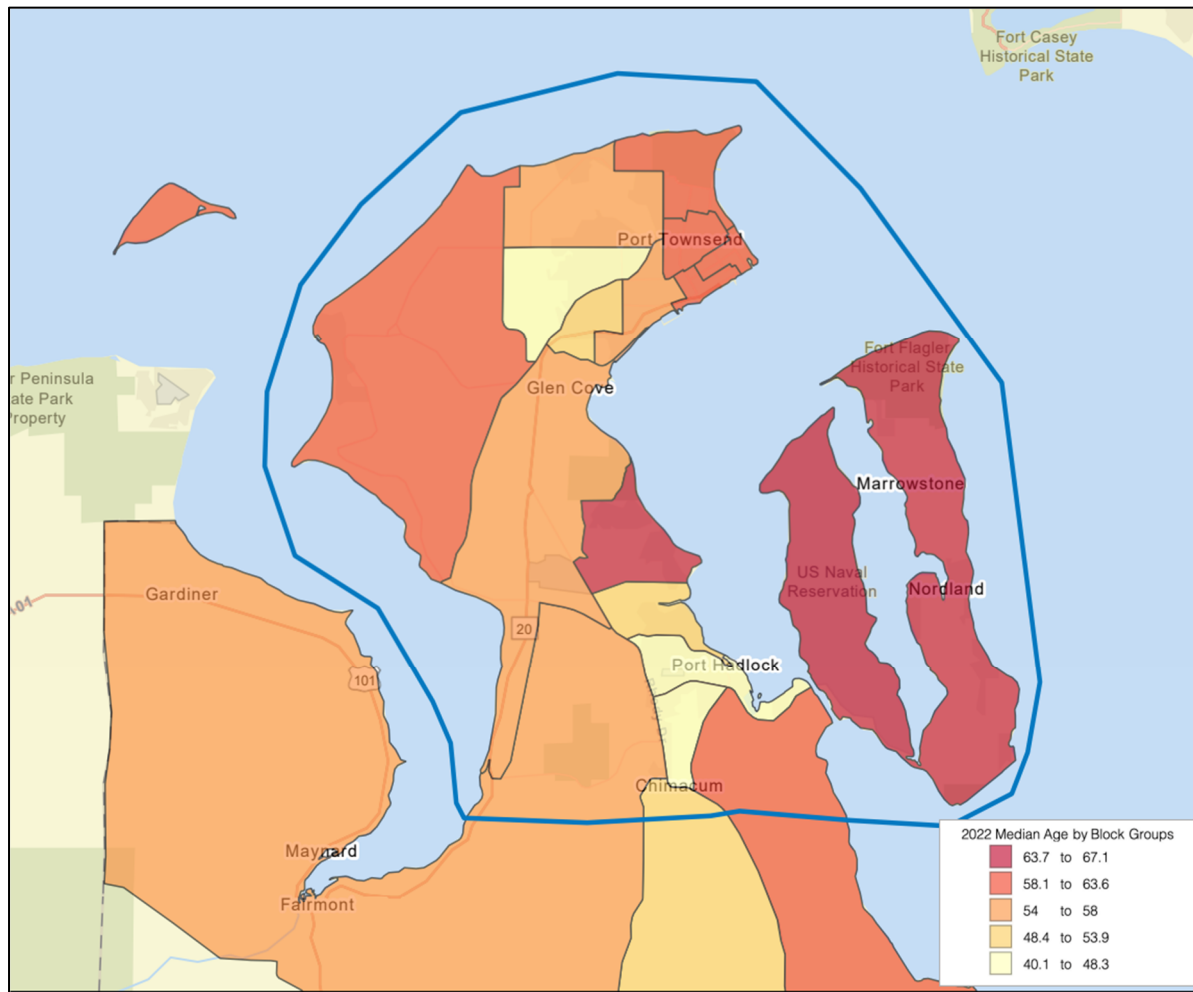

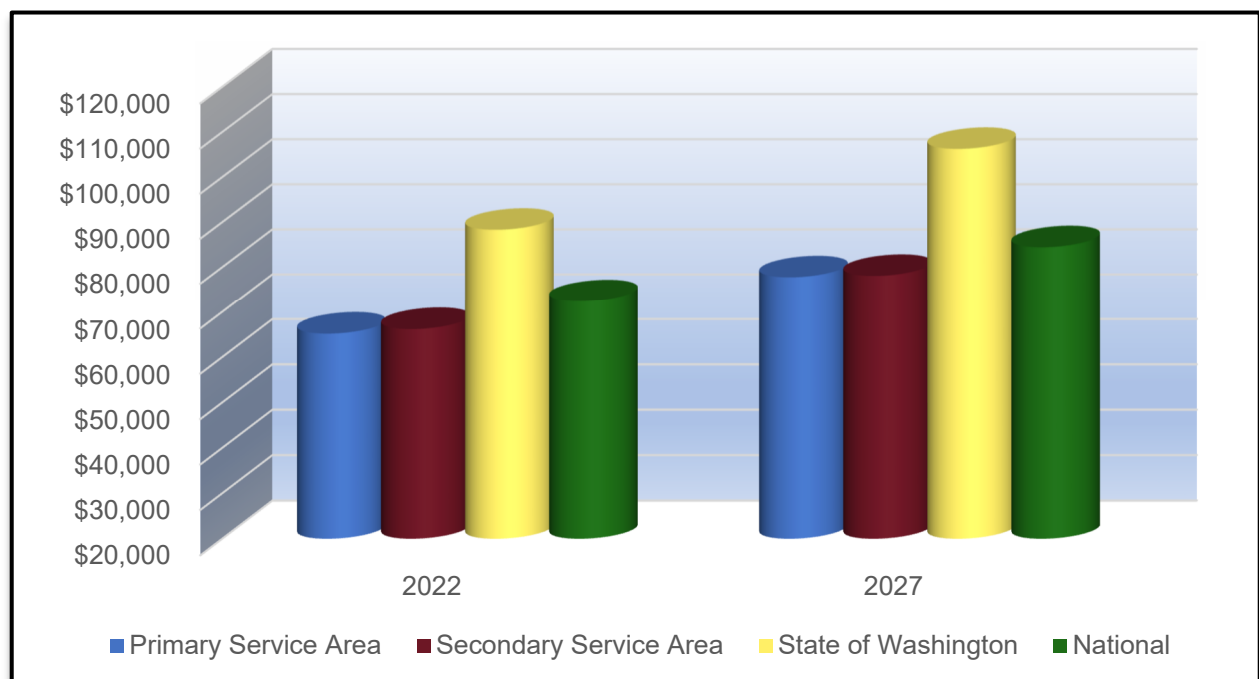

Table C – Median Household Income:

	2022 Projection	2027 Projection
Primary Service Area	\$65,175	\$77,762
Secondary Service Area	\$66,186	\$78,072
State of Washington	\$88,312	\$106,259
Nationally	\$72,414	\$84,445

Chart B – Median Household Income:

Based on 2022 projections for median household income the following narrative describes the service areas:

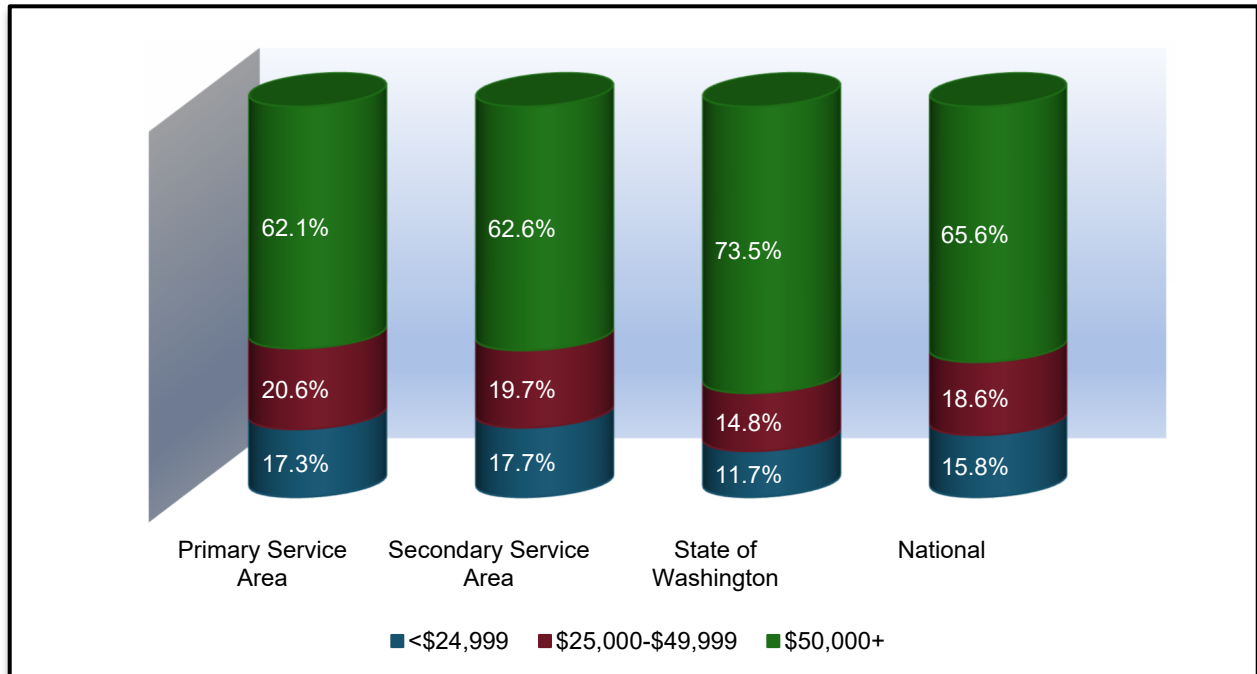

In the Primary Service Area, the percentage of households with median income over \$50,000 per year is 62.1% compared to 61.6% on a national level. Furthermore, the percentage of the households in the service area with median income less than \$25,000 per year is 17.3% compared to a level of 18.0% nationally.

In the Secondary Service Area, the percentage of households with median income over \$50,000 per year is 62.6% compared to 61.6% on a national level. Furthermore, the percentage of the households in the service area with median income less than \$25,000 per year is 17.7% compared to a level of 18.0% nationally.

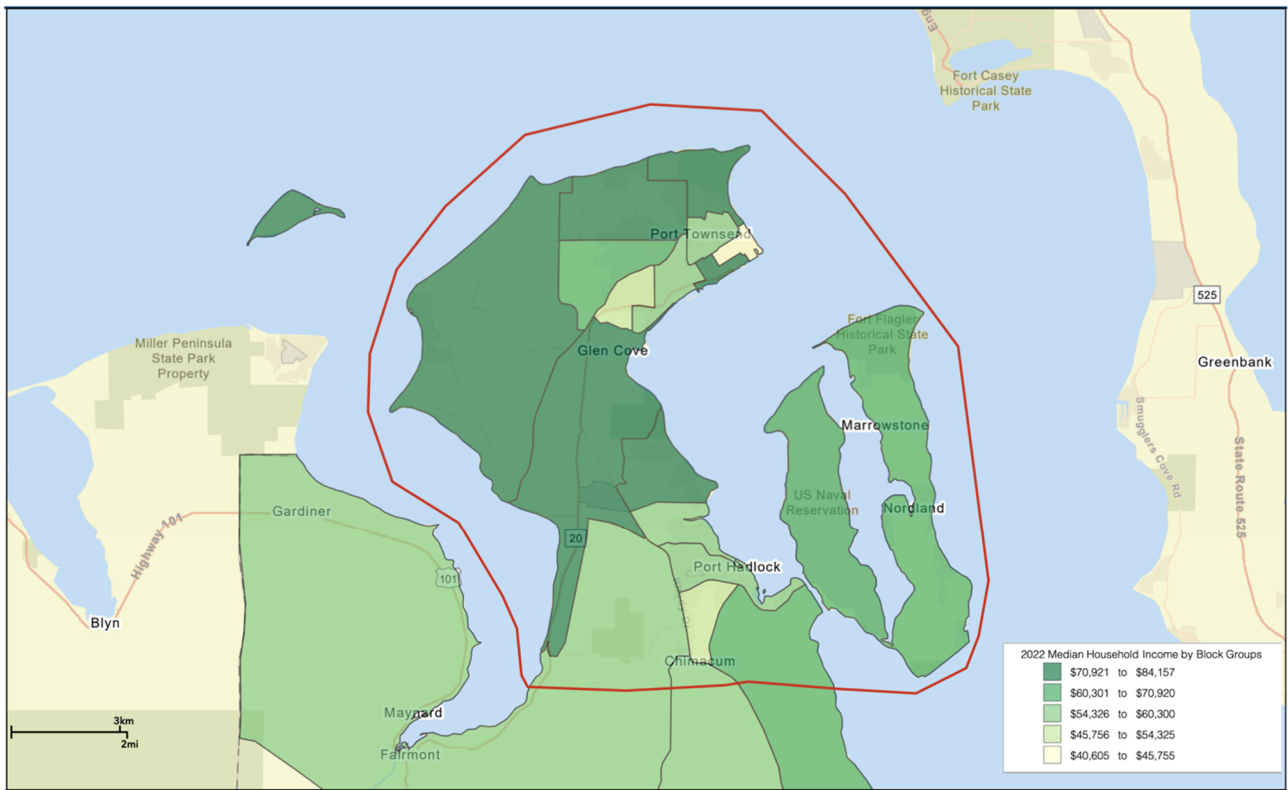

While there is no perfect indicator of use of a recreation facility, the percentage of households with more than \$50,000 median income is a key indicator. Therefore, those numbers are significant and balanced with the overall cost of living.

Chart C – Median Household Income Distribution

Household Income by Census Tract Map

Household Budget Expenditures: In addition to taking a look at Median Age and Median Income, it is important to examine Household Budget Expenditures. In particular, reviewing housing information, shelter, utilities, fuel and public services along with entertainment & recreation can provide a snapshot into the cost of living and spending patterns in the services areas. The table below looks at that information and compares the service areas.

Table D – Household Budget Expenditures³

Primary Service Area	SPI	Average Amount Spent	Percent
Housing	96	\$27,549.88	31.5%
<i>Shelter</i>	96	\$21,932.21	25.0%
<i>Utilities, Fuel, Public Service</i>	99	\$5,617.67	6.4%
Entertainment & Recreation	100	\$3,658.38	4.2%

Secondary Service Area	SPI	Average Amount Spent	Percent
Housing	96	\$27,335.51	31.3%
<i>Shelter</i>	95	\$21,748.60	24.9%
<i>Utilities, Fuel, Public Service</i>	99	\$5,586.91	6.4%
Entertainment & Recreation	99	\$3,647.79	4.2%

State of Washington	SPI	Average Amount Spent	Percent
Housing	119	\$34,023.85	32.0%
<i>Shelter</i>	120	\$27,427.54	25.8%
<i>Utilities, Fuel, Public Service</i>	117	\$6,596.30	6.2%
Entertainment & Recreation	118	\$4,319.39	4.1%

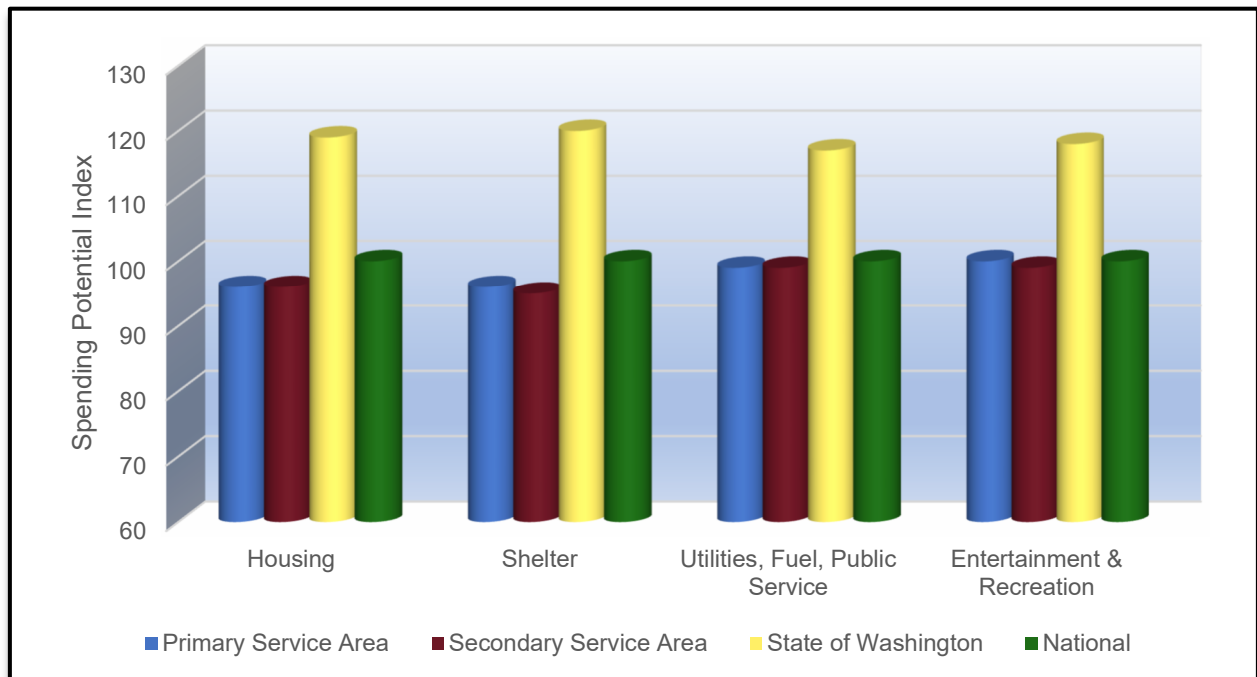

SPI: Spending Potential Index as compared to the National number of 100.
Average Amount Spent: The average amount spent per household.
Percent: Percent of the total 100% of household expenditures.

Note: *Shelter along with Utilities, Fuel, Public Service are a portion of the Housing percentage.*

³ Consumer Spending data are derived from the 2018 and 2019 Consumer Expenditure Surveys, Bureau of Labor Statistics. ESRI forecasts for 2022 and 2027.

Chart D – Household Budget Expenditures Spending Potential Index:

The correlation between the median household income and household budget expenditures is important. The percentage of household income in the primary service area represents a 10% decrease from the national level. Additionally, the household budget expenditures are 1-4% below the national level.

The total number of housing units in the Primary Service Area is 11,605 and 88.0% are occupied, or 10,207 housing units. The total vacancy rate for the service area is 13%. As a comparison, the vacancy rate nationally is 11.6%. Of the available units:

- For Rent 0.6%
- Rented, not Occupied 0.0%
- For Sale 0.1%
- Sold, not Occupied 0.8%
- For Seasonal Use 6.1%
- Other Vacant 5.2%

The total number of housing units in the Secondary Service Area is 17,200 and 85.3% are occupied, or 14,669 housing units. The total vacancy rate for the service area is 16%. As a comparison, the vacancy rate nationally was 11.6%. Of the available units:

- For Rent 0.4%
- Rented, not Occupied 0.1%
- For Sale 0.1%
- Sold, not Occupied 0.9%
- For Seasonal Use 7.7%
- Other Vacant 6.4%

Recreation Expenditures Spending Potential Index: Finally, through ESRI, it is possible to examine the overall propensity for households to spend dollars on recreation activities. The following comparisons are possible.

Table E – Recreation Expenditures Spending Potential Index⁴:

Primary Service Area	SPI	Average Spent
Fees for Participant Sports	98	\$128.03
Fees for Recreational Lessons	89	\$142.90
Social, Recreation, Club Membership	95	\$267.00
Exercise Equipment/Game Tables	95	\$59.39
Other Sports Equipment	99	\$7.98

Secondary Service Area	SPI	Average Spent
Fees for Participant Sports	101	\$131.95
Fees for Recreational Lessons	88	\$140.18
Social, Recreation, Club Membership	95	\$268.09
Exercise Equipment/Game Tables	94	\$59.13
Other Sports Equipment	102	\$8.24

State of Washington	SPI	Average Spent
Fees for Participant Sports	120	\$157.11
Fees for Recreational Lessons	119	\$190.91
Social, Recreation, Club Membership	120	\$339.14
Exercise Equipment/Game Tables	119	\$74.74
Other Sports Equipment	120	\$9.67

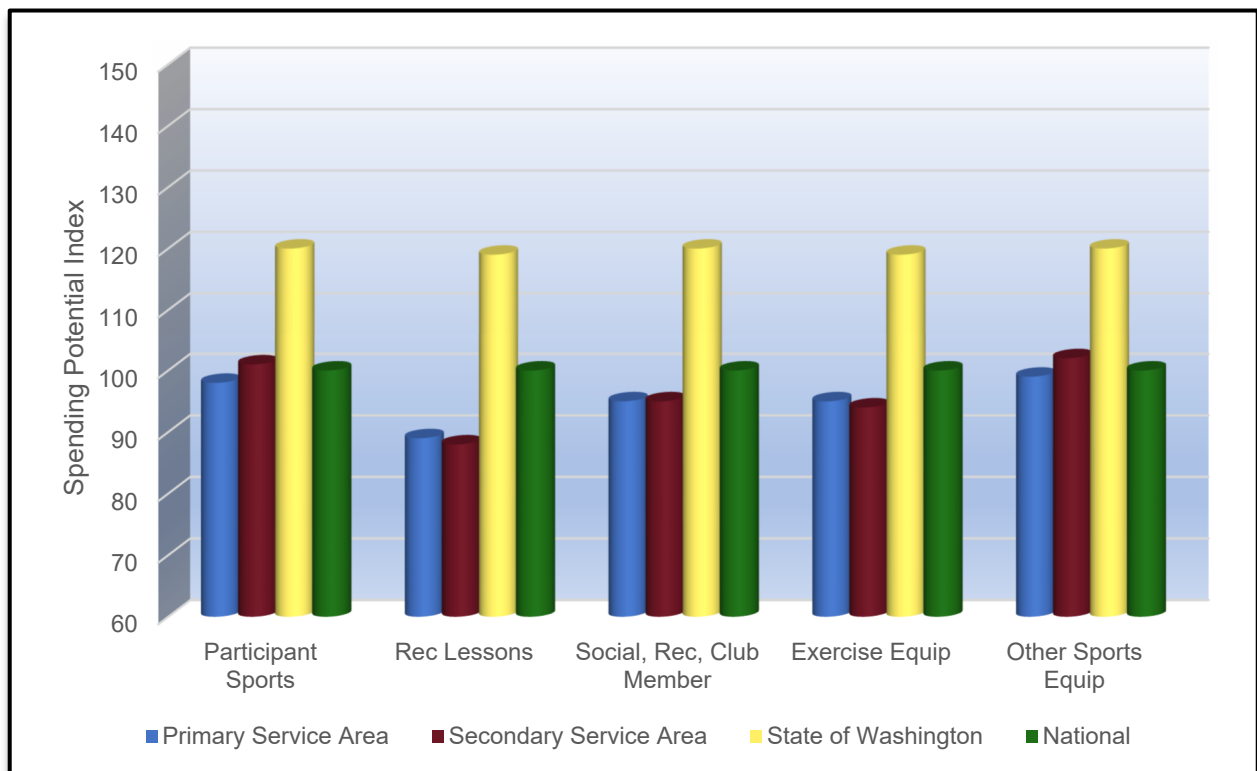

Average Amount Spent: The average amount spent for the service or item in a year.

SPI: Spending potential index as compared to the national number of 100.

⁴ Consumer Spending data are derived from the 2018 and 2019 Consumer Expenditure Surveys, Bureau of Labor Statistics.

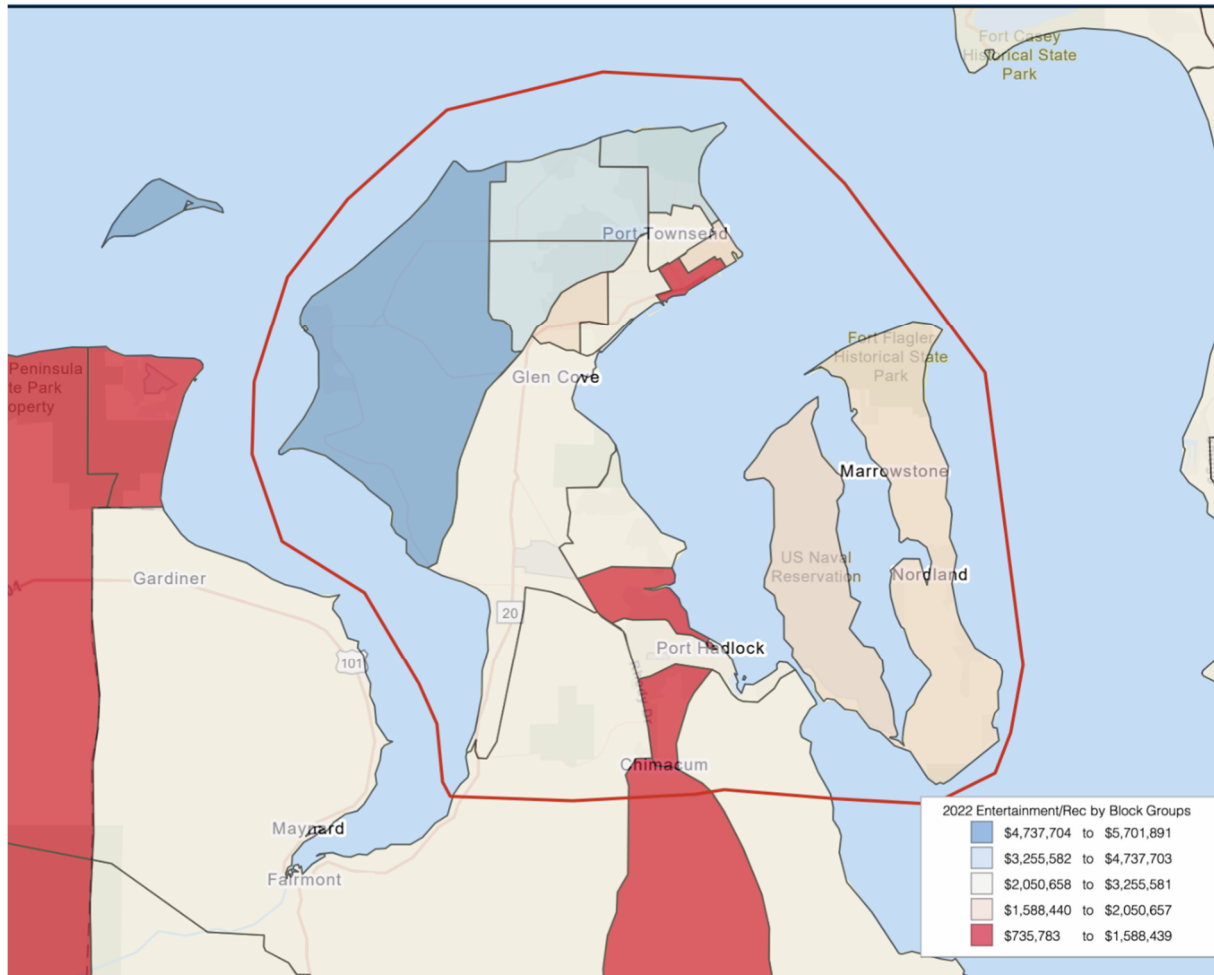

Chart E – Recreation Spending Potential Index:

Despite the lower median household level, the recreation spending potential is not significantly lower than the national number of 100. This indicates that residents of the two service areas value recreation activities and are willing to potentially spend more for these purposes.

Recreation Spending Potential Index by Census Tract Map

Population Distribution by Age: Utilizing census information for the Primary and Secondary Service Areas, the following comparisons are possible.

Table F – 2022 Primary Service Area Age Distribution

(ESRI estimates)

Ages	Population	% of Total	Nat. Population	Difference
0-5	720	3.3%	5.8%	-2.5%
5-17	2,193	10.2%	15.9%	-5.7%
18-24	1,008	4.7%	9.2%	-4.5%
25-44	3,704	17.2%	26.8%	-9.6%
45-54	2,336	10.8%	12.0%	-1.2%
55-64	4,147	19.3%	12.8%	6.5%
65-74	4,608	21.4%	10.2%	11.2%
75+	2,834	13.2%	7.2%	6.0%

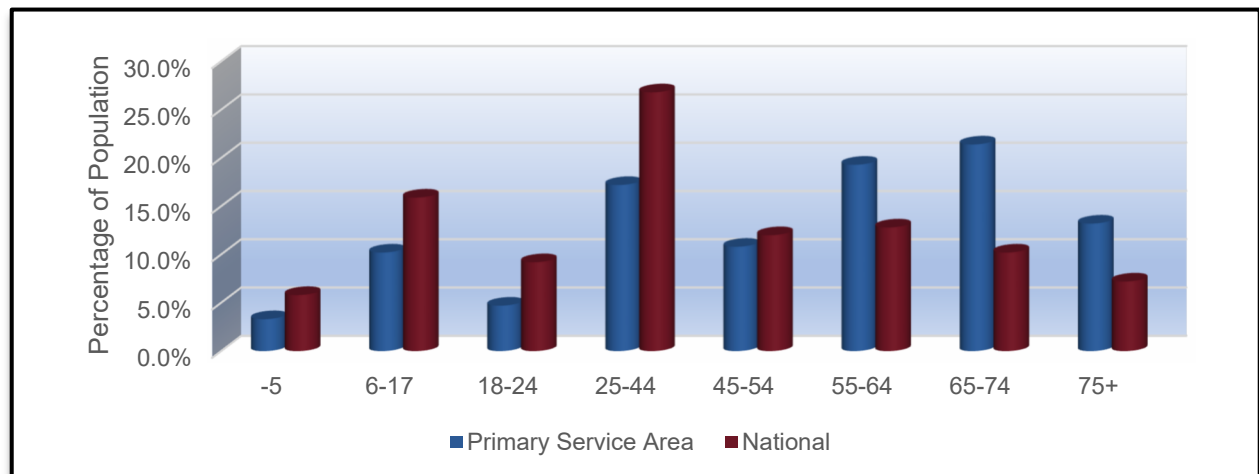

Population: 2022 census estimates in the different age groups in the Primary Service Area.

% of Total: Percentage of the Primary Service Area population in the age group.

National Population: Percentage of the national population in the age group.

Difference: Percentage difference between the Primary Service Area population and the national population.

Chart F – 2022 Primary Service Area Age Group Distribution

The demographic makeup of the Primary Service Area, when compared to the characteristics of the national population, indicates that there are some differences with a larger population in the 55-64, 65-74 and 75+ age groups and a smaller population in the 0-5, 6-17, 18-24, 25-44, and 45-54 age groups. The greatest positive variance is in the 65-74 age group with +11.2%, while the greatest negative variance is in the 25-44 age group with -9.6%.

Table G – 2022 Secondary Service Area Age Distribution

(ESRI estimates)

Ages	Population	% of Total	Nat. Population	Difference
0-5	953	3.1%	5.8%	-2.7%
5-17	2,982	9.6%	15.9%	-6.3%
18-24	1,369	4.4%	9.2%	-4.8%
25-44	5,033	16.2%	26.8%	-10.6%
45-54	3,286	10.6%	12.0%	-1.4%
55-64	6,041	19.5%	12.8%	+6.7%
65-74	6,982	22.5%	10.2%	+12.3%
75+	4,336	14.0%	7.2%	+6.8%

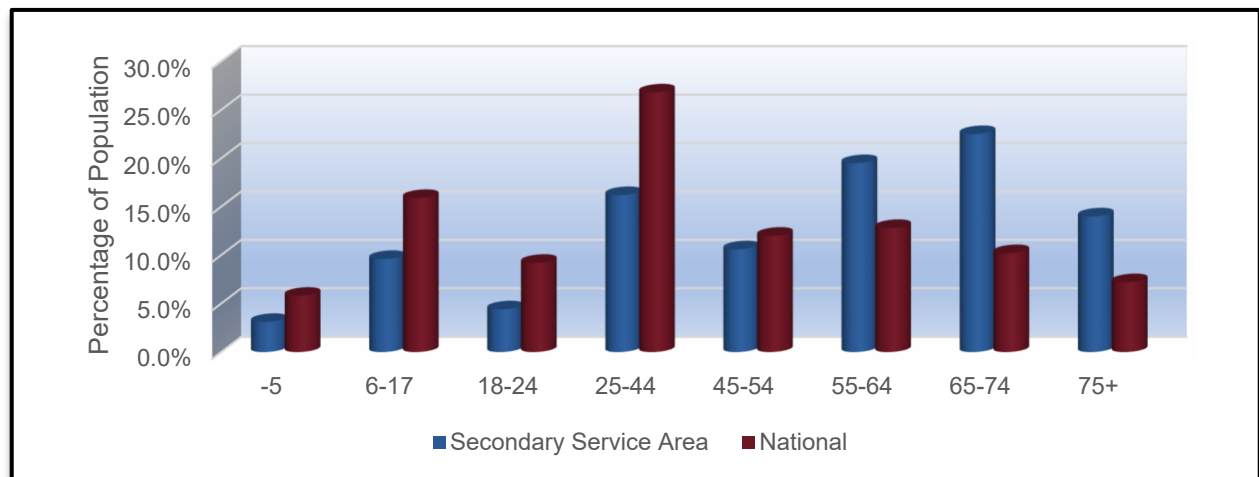

Population: 2022 census estimates in the different age groups in the Secondary Service Area.

% of Total: Percentage of the Secondary Service Area population in the age group.

National Population: Percentage of the national population in the age group.

Difference: Percentage difference between the Secondary Service Area population and the national population.

Chart G – 2022 Secondary Service Area Age Group Distribution

The demographic makeup of the Secondary Service Area, when compared to the characteristics of the national population, indicates that there are some differences with a larger population in the 55-64, 65-74 and 75+ age groups and a smaller population in the 0-5, 6-17, 18-24, 25-44 and 45-54 age groups. The greatest positive variance is in the 65-74 age group with +12.3%, while the greatest negative variance is in the 25-44 age group with a -10.6%.

Table H – 2022 Primary Service Area Age Distribution Over Time
(U.S. Census Information and ESRI)

Ages	2020 Census	2022 Projection	2027 Projection	Percent Change	Percent Change Nat'l
-5	827	720	727	-12.1%	-8.3%
5-17	2,496	2,193	2,260	-9.5%	-8.5%
18-24	1,111	1,008	956	-14.0%	-8.9%
25-44	3,620	3,704	3,780	+4.4%	+3.3%
45-54	3,217	2,336	2,334	-27.4%	-17.8%
55-64	4,577	4,147	3,599	-21.4%	+2.5%
65-74	3,075	4,608	4,854	+57.9%	+58.2%
75+	2,150	2,834	3,688	+71.5%	+46.3%

Chart H – Primary Service Area Age Distribution Over Time

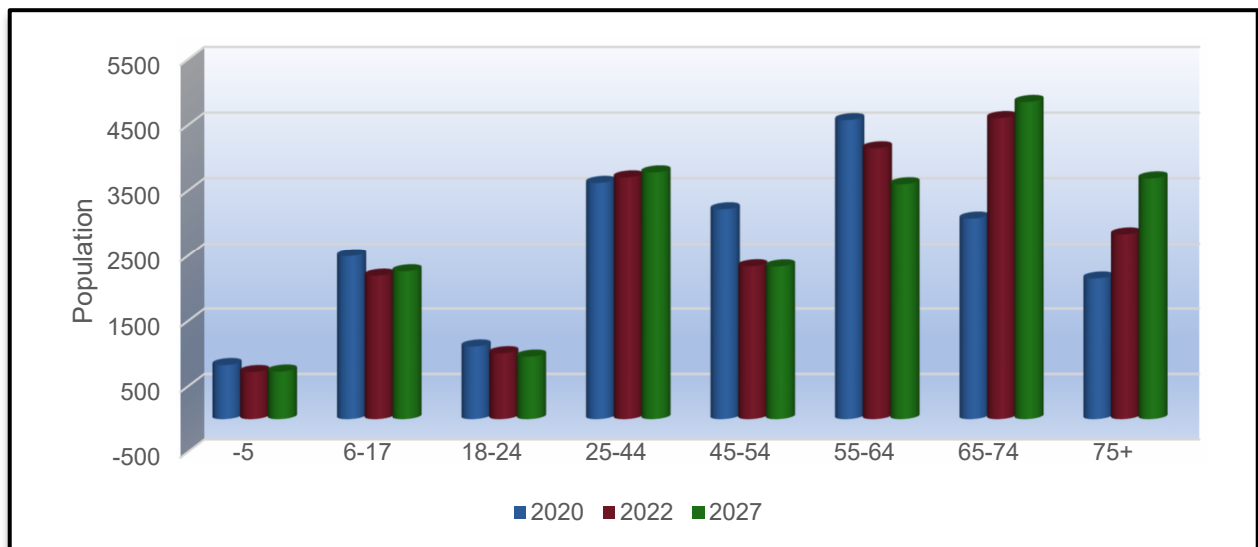

Table-H illustrates the growth or decline in age group numbers from the 2020 census until the year 2027. It is projected age categories 25-44, 65-74 and 75+ will see an increase in population. The population of the United States as a whole is aging, and it is not unusual to find negative growth numbers in the younger age groups and significant net gains in the 45 plus age groupings in communities which are relatively stable in their population numbers.

Table I – 2022 Secondary Service Area Age Distribution Over Time
(U.S. Census Information and ESRI)

Ages	2020 Census	2022 Projection	2027 Projection	Percent Change	Percent Change Nat'l
-5	1,111	953	961	-13.5%	-8.3%
5-17	3,479	2,982	3,045	-12.5%	-8.5%
18-24	1,519	1,369	1,258	-17.2%	-8.9%
25-44	4,983	5,033	5,125	+2.8%	+3.3%
45-54	4,560	3,286	3,252	-28.7%	-17.8%
55-64	6,673	6,041	5,277	-20.9%	+2.5%
65-74	4,898	6,982	7,202	+47.0%	+58.2%
75+	3,221	4,336	5,663	+75.8%	+46.3%

Chart I – Secondary Service Area Age Distribution Over Time

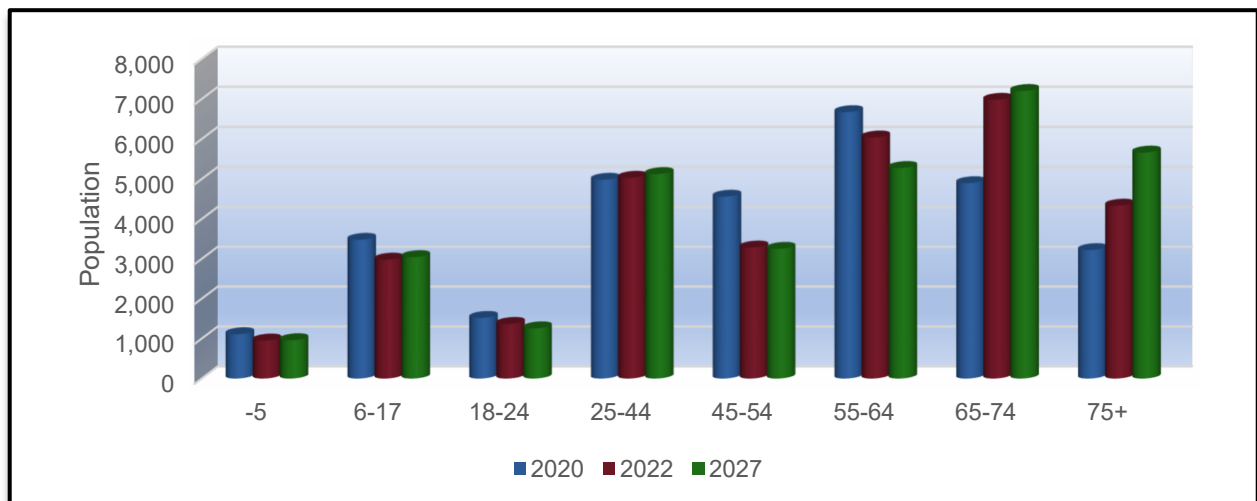

Table-I illustrates the growth or decline in age group numbers from the 2020 census until the year 2027. It is projected age categories 25-44, 65-74 and 75+ will see an increase in population. The population of the United States as a whole is aging, and it is not unusual to find negative growth numbers in the younger age groups and significant net gains in the 45 plus age groupings in communities which are relatively stable in their population numbers.

Ethnicity and Race: Below is listed the distribution of the population by ethnicity and race for the Primary and Secondary Service Areas for 2022 population projections. These numbers were developed from 2020 Census Data.

Table J – Primary Service Area Ethnic Population and Median Age 2022

(Source – U.S. Census Bureau and ESRI)

Ethnicity	Total Population	Median Age	% of Population	% of WA Population
Hispanic	876	33.4	23.6%	13.8%

Table K – Primary Service Area by Race and Median Age 2022

(Source – U.S. Census Bureau and ESRI)

Race	Total Population	Median Age	% of Population	% of WA Population
White	18,706	59.1	86.8%	66.0%
Black	110	41.6	0.51%	4.0%
American Indian	251	52.1	1.16%	1.6%
Asian	331	49.6	1.54%	9.7%
Pacific Islander	36	37.5	0.17%	0.9%
Other	349	38.3	1.62%	6.8%
Multiple	1,768	32.6	8.20%	11.1%

2022 Primary Service Area Total Population: 21,551 Residents

Chart J – 2022 Primary Service Area Population by Non-White Race

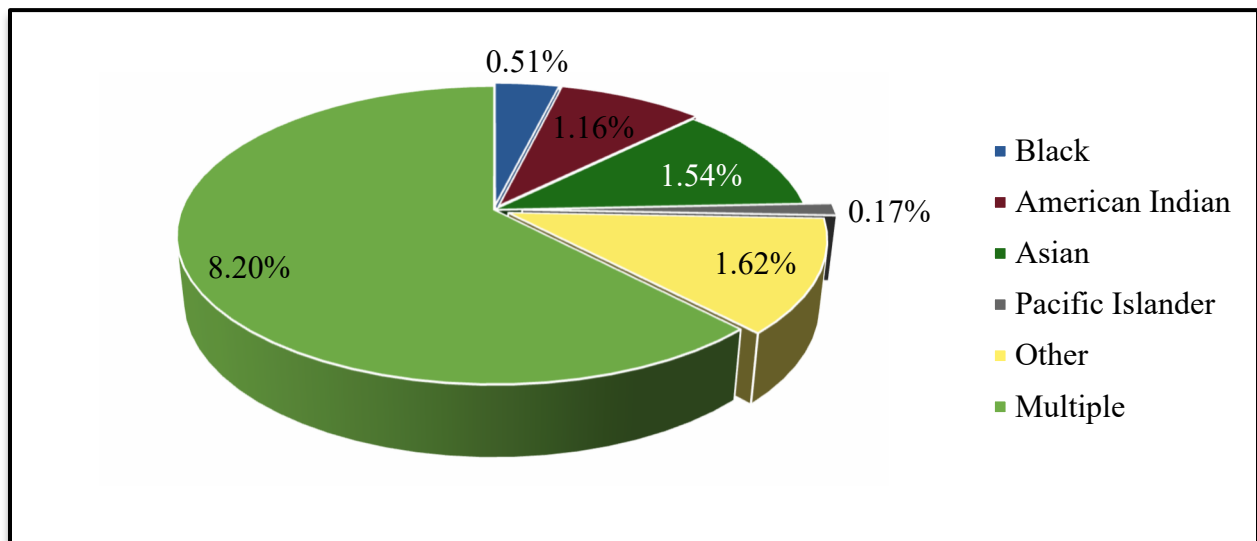

Table L – Secondary Service Area Ethnic Population and Median Age 2022

(Source – U.S. Census Bureau and ESRI)

Ethnicity	Total Population	Median Age	% of Population	% of WA Population
Hispanic	1,225	34.9	3.95%	13.8%

Table M – Secondary Service Area by Race and Median Age 2022

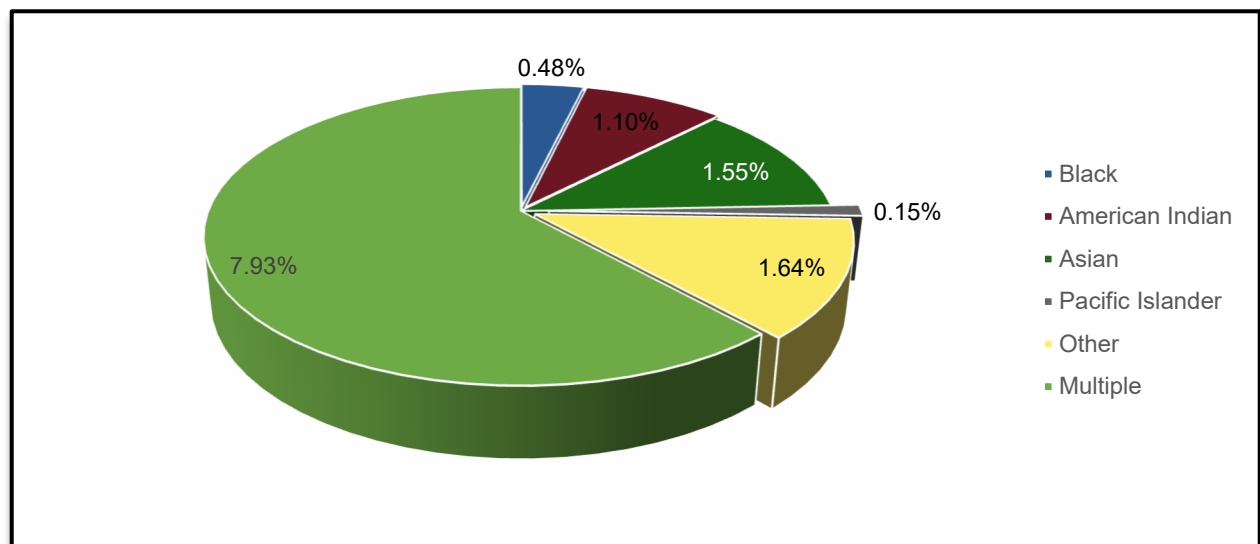

(Source – U.S. Census Bureau and ESRI)

Race	Total Population	Median Age	% of Population	% of WA Population
White	26,998	60.2	87.14%	66.0%
Black	150	43.1	0.48%	4.0%
American Indian	340	53.5	1.10%	1.6%
Asian	481	54.0	1.55%	9.7%
Pacific Islander	48	47.5	0.15%	0.9%
Other	507	39.9	1.64%	6.8%
Multiple	2,457	34.1	7.93%	11.1%

2022 Secondary Service Area Total Population:

30,982 Residents

Chart K – 2022 Secondary Service Area Population by Non-White Race

Tapestry Segmentation

Tapestry segmentation represents the 4th generation of market segmentation systems that began 30 years ago. The 65-segment Tapestry Segmentation system classifies U.S. neighborhoods based on their socioeconomic and demographic compositions. While the demographic landscape of the U.S. has changed significantly since the 2000 Census, the tapestry segmentation has remained stable as neighborhoods have evolved.

The following tables outline the top 5 tapestry segments in each of the service areas and provide a brief description of each. This information combined with the key indicators and demographic analysis of each service area help further describe the markets that the Primary and Secondary Service Area looks to serve with programs and services.

For comparison purposes the following are the top 10 Tapestry segments, along with percentage in the United States:

1. Green Acres (6A)	3.2%
2. Southern Satellites (10A)	3.1%
3. Savvy Suburbanites (1D)	3.0%
4. Soccer Moms (4A)	2.9%
5. Middleburg (4C)	<u>2.9%</u>
	15.1%
6. Salt of the Earth (6B)	2.9%
7. Up and Coming Families (7A)	2.5%
8. Midlife Constants (5E)	2.5%
9. Comfortable Empty Nesters (5A)	2.4%
10. Old and Newcomers (8F)	<u>2.3%</u>
	12.6%

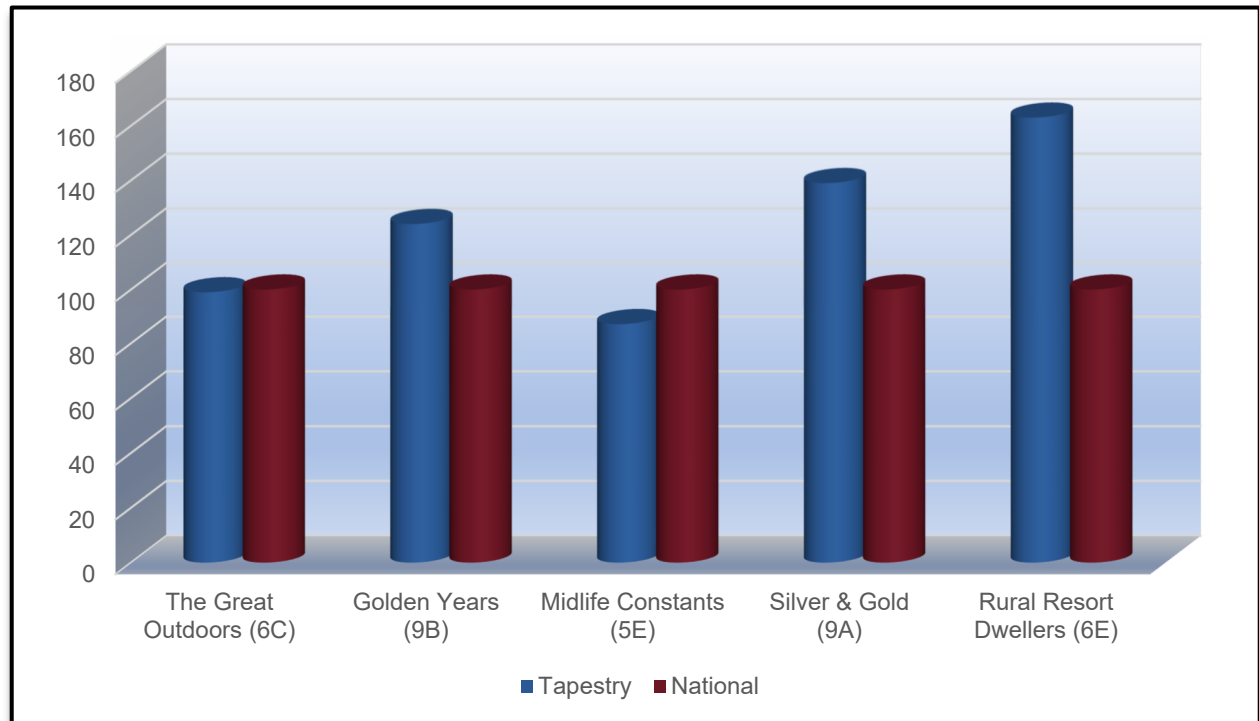

Table N – Primary Service Area Tapestry Segment Comparison

(ESRI estimates)

	Primary Service Area		Demographics	
	Percent	Cumulative Percent	Median Age	Median HH Income
The Great Outdoors (6C)	29.4%	29.4%	47.4	56,400
Golden Years (9B)	15.9%	45.3%	52.3	71,700
Midlife Constants (5E)	14.5%	59.8%	47.0	53,200
Silver & Gold (9A)	12.5%	72.3%	63.2	72,100
Rural Resort Dwellers (6E)	12.2%	84.5%	54.1	50,400

Chart L – Primary Service Area Tapestry Segment Entertainment Spending:

The Great Outdoors (6C) – Living a modest lifestyle, these empty nesters are very do-it-yourself oriented and cost conscious. Enjoy outdoor activities such as hiking and hunting.

Golden Years (9B) – Independent and active seniors. Some still working to allow them to pursue leisure interests such as travel, sports, dining out, museums and concerts. Involved and physically fit.

Midlife Constants (5E) – Seniors at or approaching retirement. Although they are generous, they are attentive to price. Prefer outdoor activities and contributing to the arts/service organizations.

Silver & Gold (9A) – The second oldest Tapestry segment although over half are still earning wages or salaries. Have free time and resources to pursue their interests, which are home remodeling, participating in clubs and playing golf. They enjoy classical music performances and are avid readers.

Rural Resort Dwellers (6E) – This group is centered around resort areas. Retirement is near but many postpone to maintain their lifestyle. Passionate about their hobbies, hunting, and fishing.

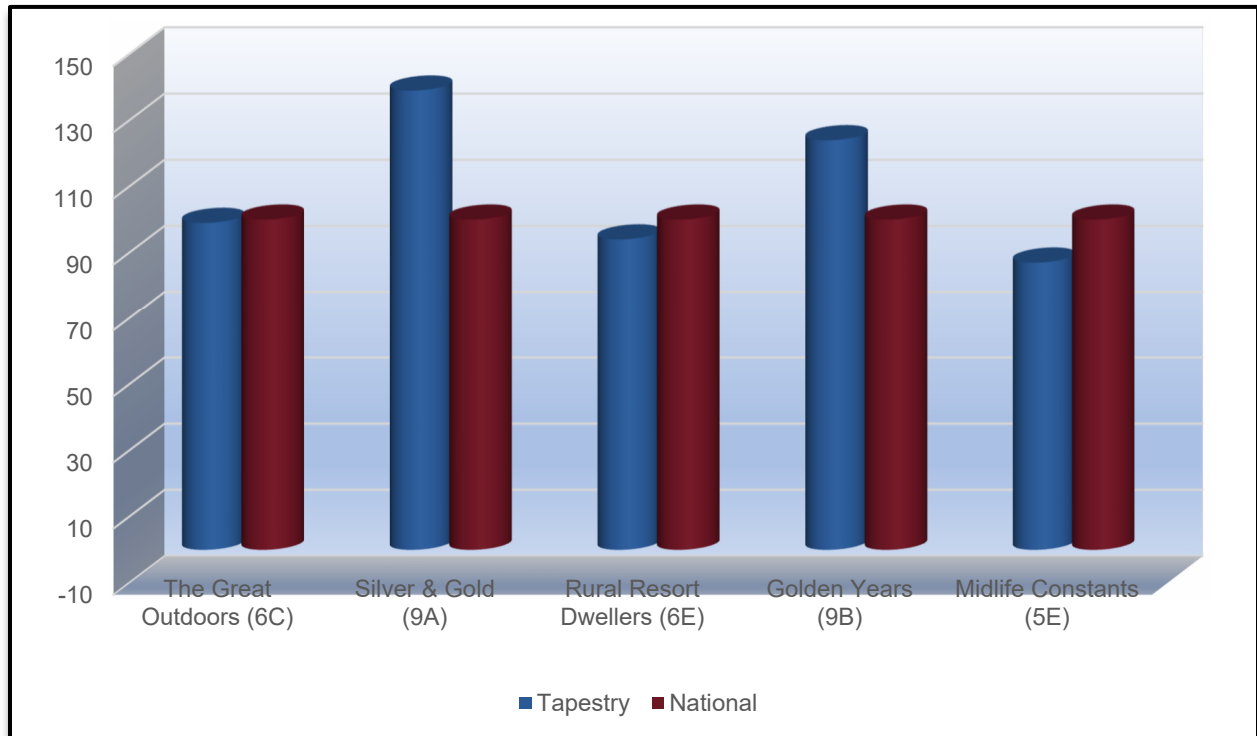

Table O – Secondary Service Area Tapestry Segment Comparison

(ESRI estimates)

	Secondary Service Area		Demographics	
	Percent	Cumulative Percent	Median Age	Median HH Income
The Great Outdoors (6C)	28.5%	28.5%	47.4	56,400
Silver & Gold (9A)	27.0%	55.5%	63.2	72,100
Rural Resort Dwellers (6E)	12.5%	68.0%	54.1	50,400
Golden Years (9B)	11.1%	79.1%	52.3	71,700
Midlife Constants (5E)	10.1%	89.2%	47.0	53,200

Chart M – Secondary Service Area Tapestry Segment Entertainment Spending:

The Great Outdoors (6C) – Living a modest lifestyle, these empty nesters are very do-it-yourself oriented and cost conscious. Enjoy outdoor activities such as hiking and hunting.

Silver & Gold (9A) – The second oldest Tapestry segment although over half are still earning wages or salaries. Have free time and resources to pursue their interests, which are home remodeling, participating in clubs and playing golf. They enjoy classical music performances and are avid readers.

Rural Resort Dwellers (6E) – This group is centered around resort areas. Retirement is near but many postpone to maintain their lifestyle. Passionate about their hobbies, hunting, and fishing.

Golden Years (9B) – Independent and active seniors. Some still working to allow them to pursue leisure interests such as travel, sports, dining out, museums and concerts. Involved and physically fit.

Midlife Constants (5E) – Seniors at or approaching retirement. Although they are generous, they are attentive to price. Prefer outdoor activities and contributing to the arts/service organizations.

Demographic Summary

The following summarizes the demographic characteristics of the service areas.

- The population level of 21,551 people within the Primary Service Area is only adequate to support an indoor aquatic/recreation facility. However, adding another 9,000 plus people in the Secondary Service Area will help.
- The population in the primary service area is projected to be relatively stable over the next five years, with a 3% increase in the population level to 22,200 in 2027. The Secondary Service Area will also see an increase of 3% in the population level to 31,784 in 2027.
- The median age in the Primary and Secondary Service Areas is much higher than the State of Washington and the National number (+ over 15 years). A lower median age typically points to the presence of families with children. A higher median age typically reflects a community with a large number of retirees.
- The demographic makeup of the Primary Service Area, when compared to the characteristics of the national population, indicates that there are some differences with a larger population in the 55-64, 65-74 and 75+ age groups and a smaller population in the 0-5, 6-17, 18-24, 25-44, and 45-54 age groups. The Secondary Service Area is similar.
- The under 5 through 25-44 age groups are projected to decline in both the Primary and Secondary Service areas by 3%-10% in 2027. This is of note as it may reflect a reduction in youth to participate in recreation options in coming years. Conversely the 65-75+ age groups are expected to increase in both the primary and secondary service areas from 58%-75% by 2027. This growth may represent opportunities or need for increased senior programming.
- Household income in the Primary Service Area is significantly lower than the state level (by more than \$20,000) and the national level (about -10%). In the Primary and Secondary Service Areas, the percentage of households with median income over \$50,000 per year is similar to the national level (61.6%), with 62.1% and 62.6% respectively. Furthermore, the percentage of households in the primary and secondary service areas with median income less than \$25,000 per year is 17.3%-17.7% compared to a level of 18% nationally. This indicates a local population that should have the ability to utilize discretionary income for recreation activities. Household income is another one of the primary determining factors that drives participation in recreation and sports.
- There is very little cultural diversity in the Primary or Secondary Service Area.
- The tapestry segments indicate an older, but active population.

Market Potential Index for Adult Participation: In addition to examining demographic characteristics, ESRI provides information about Sports & Leisure Market Potential. The following information illustrates participation rates for adults in a variety of activities.

Table P – Market Potential Index (MPI) for Participation in Activities in Primary Service Area

Adults participated in:	Expected Number of Adults	Percent of Population	MPI
Aerobics	1,377	7.4%	88
Basketball	794	4.3%	63
Exercise Walking	6,749	36.2%	116
Running/Jogging	1,627	8.7%	78
Pilates	564	3.0%	97
Swimming	3,008	16.1%	103
Volleyball	410	2.2%	84
Weight Lifting	2,167	11.6%	92
Yoga	1,625	8.7%	84
Zumba	436	2.3%	72

Expected # of Adults: Number of adults, 18 years of age and older, participating in the activity in the Primary Service Area.

Percent of Population: Percent of the service area that participates in the activity.

MPI: Market potential index as compared to the national number of 100.

This table indicates that the overall propensity for adults to participate in activities is lower than the national number of 100.

Table Q – Market Potential Index (MPI) for Participation in Activities in Secondary Service Area

Adults participated in:	Expected Number of Adults	Percent of Population	MPI
Aerobics	1,971	7.3%	87
Basketball	1,130	4.2%	62
Exercise Walking	10,319	38.2%	122
Running/Jogging	2,206	8.2%	73
Pilates	866	3.2%	102
Swimming	4,447	16.4%	105
Volleyball	572	2.1%	80
Weight Lifting	3,163	11.7%	93
Yoga	2,275	8.4%	81
Zumba	589	2.2%	67

Expected # of Adults: Number of adults, 18 years of age and older, participating in the activity in the Service Area.

Percent of Population: Percent of the service area that participates in the activity.

MPI: Market potential index as compared to the national number of 100.

This table indicates that the overall propensity for adults to participate in activities is lower than the national number of 100.

Physical Activity Analysis: ESRI also provides input on how often and where adults participate in physical activity.

Table R – Physical Activity in Primary Service Area

Activity	Somewhat Agree	Completely Agree
Exercise Regularly	39.1%	31.2%
More Fit and Active Than Others My Age	41.0%	20.7%
Seek New Exercise Routines	39.4%	10.0%
Seek New Ways to be More Healthy	39.4%	27.4%

ESRI measures the likely demand for service in the area. Exercise is defined by the user in the survey.

Hours of Exercise Per Week	Percent of Population	MPI
1-3 hours	23.6%	98
4-6 hours	21.7%	100
7+ hours	25.1%	108

Exercise Location 2+ Times Per Week	Percent of Population	MPI
Home	42.8%	106
Club	12.2%	89
Other Facility (Not Club)	7.3%	92

Fitness Club/Gym Membership	Percent of Population	MPI
LA Fitness	1.3%	64
Planet Fitness	4.1%	84
YMCA	3.0%	101

Self Care	Percent of Population	MPI
Visited Physical Therapist	7.0%	124
Professional Massage	5.7%	85

Survey Data is derived from ESRI and MRI-Simmons and provides the expected percentage of population and the Market Potential Index.

Table S – Physical Activity in Secondary Service Area

Activity	Somewhat Agree	Completely Agree
Exercise Regularly	38.8%	32.3%
More Fit and Active Than Others My Age	41.3%	21.1%
Seek New Exercise Routines	38.7%	9.7%
Seek New Ways to be More Healthy	51.0%	27.9%

ESRI measures the likely demand for service in the area. Exercise is defined by the user in the survey.

Hours of Exercise Per Week	Percent of Population	MPI
1-3 hours	23.4%	97
4-6 hours	21.9%	101
7+ hours	26.5%	114

Exercise Location 2+ Times Per Week	Percent of Population	MPI
Home	43.2%	107
Club	13.2%	96
Other Facility (Not Club)	7.4%	93

Fitness Club/Gym Membership	Percent of Population	MPI
LA Fitness	1.3%	64
Planet Fitness	3.8%	79
YMCA	2.8%	96

Self Care	Percent of Population	MPI
Visited Physical Therapist	7.3%	128
Professional Massage	5.8%	86

Survey Data is derived from ESRI and MRI-Simmons and provides the expected percentage of population and the Market Potential Index.

Recreation Participation, Trends & Providers

In addition to analyzing the demographic realities of the service areas, it is possible to project possible participation in recreation and sport activities.

Participation Numbers: On an annual basis, the National Sporting Goods Association (NSGA) conducts an in-depth study and survey of how Americans spend their leisure time. The data is collected in one year and the report is issued in June of the following year. This information provides the data necessary to overlay rate of participation onto the Immediate, Primary and Secondary Area to determine market potential.

The information contained in this section of the report, utilizes the NSGA's 2019 & 2021 data. The COVID-19 Pandemic had a significant impact on participation on sports and activities. Many indoor facilities were closed for a substantial part of the year, team sports and leagues did not operate and individuals sought different ways to fill their time. As a result, participation from 2020 to 2021 varied widely in nearly all activities tracked. Many of the activities bounced back from the 2020 participation, however not all have. Some of this may be a trend while some of it is still a reflection on reduced offerings by departments.

B*K takes the national average and combines that with participation percentages of the Immediate, Primary and Secondary Area based upon age distribution, median income, region and National number. Those four percentages are then averaged together to create a unique participation percentage for the service area. This participation percentage when applied to the population of the Immediate, Primary and Secondary Service Area then provides an idea of the market potential for outdoor recreation.

Table A – Participation Rates in the Primary Service Area

	Age	Income	Region	Nation	Average
Aerobics	16.8%	18.4%	18.5%	15.8%	17.4%
Basketball	4.9%	8.6%	5.3%	7.5%	6.6%
Cheerleading	0.6%	1.0%	0.8%	1.0%	0.8%
Exercise Walking	47.7%	44.1%	42.0%	41.4%	43.8%
Exercise w/ Equipment	20.1%	21.8%	16.7%	18.9%	19.4%
Gymnastics	1.1%	1.7%	1.6%	1.7%	1.5%
Martial Arts/MMA	1.1%	1.6%	1.3%	1.7%	1.4%
Pickleball	1.1%	0.8%	1.1%	1.2%	1.1%
Pilates	1.7%	1.5%	2.4%	1.9%	1.9%
Running/Jogging	11.8%	16.8%	16.4%	14.9%	15.0%
Swimming	14.8%	15.5%	12.8%	15.6%	14.7%
Volleyball	2.5%	3.6%	3.1%	3.6%	3.2%
Weight Lifting	11.5%	13.1%	12.6%	12.4%	12.4%
Workout at Clubs	7.6%	9.3%	7.4%	8.1%	8.1%
Wrestling	0.6%	0.9%	0.9%	1.0%	0.9%
Yoga	8.8%	10.2%	10.3%	10.2%	9.9%
Did Not Participate	20.5%	20.4%	22.4%	20.6%	21.0%

Age: Participation based on individuals ages 7 & Up of the Primary Service Area.
Income: Participation based on the 2022 estimated median household income in the Primary Service Area.
Region: Participation based on regional statistics (Mid-Atlantic).
National: Participation based on national statistics.
Average: Average of the four columns.

Table B – Participation Rates in the Secondary Service Area

	Age	Income	Region	Nation	Average
Aerobics	16.8%	18.4%	18.5%	15.8%	17.4%
Basketball	4.7%	8.6%	5.3%	7.5%	6.5%
Cheerleading	0.5%	1.0%	0.8%	1.0%	0.8%
Exercise Walking	48.2%	44.1%	42.0%	41.4%	43.9%
Exercise w/ Equipment	20.2%	22.3%	16.7%	18.9%	19.5%
Gymnastics	1.0%	1.7%	1.6%	1.7%	1.5%
Martial Arts/MMA	1.1%	1.6%	1.3%	1.7%	1.4%
Pickleball	1.1%	0.8%	1.1%	1.2%	1.0%
Pilates	1.7%	1.5%	2.4%	1.9%	1.9%
Running/Jogging	11.5%	16.8%	16.4%	14.9%	14.9%
Swimming	14.7%	15.5%	12.8%	15.6%	14.6%
Volleyball	2.4%	3.6%	3.1%	3.6%	3.2%
Weight Lifting	11.4%	13.1%	12.6%	12.4%	12.4%
Workout at Clubs	7.5%	9.3%	7.4%	8.1%	8.1%
Wrestling	0.6%	0.9%	0.9%	1.0%	0.8%
Yoga	8.7%	10.2%	10.3%	10.2%	9.8%
Did Not Participate	20.5%	20.4%	22.4%	20.6%	21.0%

Age: Participation based on individuals ages 7 & Up of the Secondary Service Area.
Income: Participation based on the 2022 estimated median household income in the Secondary Service Area.
Region: Participation based on regional statistics (Mid-Atlantic).
National: Participation based on national statistics.
Average: Average of the four columns.

Anticipated Participation Number: Utilizing the average percentage from Table A and B above plus the 2020 census information and census estimates for 2022 and 2027 (over age 7) the following comparisons are available.

Table C – Participation Growth/Decline for Indoor Activities in Primary Service Area

	Average	2020 Population	2022 Population	2027 Population	Difference
Aerobics	17.4%	3,459	3,565	3,675	216
Basketball	6.6%	1,310	1,350	1,392	82
Cheerleading	0.8%	168	173	179	10
Exercise Walking	43.8%	8,723	8,989	9,267	544

Football (touch)	32	8.2
Canoeing	33	7.8
Hunting w/ Bow & Arrow	34	6.9
Football (tackle)	35	6.7
Mountain Biking (off road)	38	6.0
Football (flag)	41	5.4
Target Shooting (airgun)	43	5.1
Water Skiing	49	3.8
Pickleball	50	3.6

Nat'l Rank: Popularity of sport based on national survey.

Nat'l Participation: Population that participate in this sport on national survey.

⁵ This rank is based upon the 58 activities reported on by NSGA in their 2021 survey instrument.

National Participation by Age Group: Within the NSGA survey, participation is broken down by age groups. As such B*K can identify the top 3 age groups participating in the activities reflected in this report.

Table F – Participation by Age Group:

Activity	Largest	Second Largest	Third Largest
Aerobics	35-44	25-34	45-54
Basketball	12-17	25-34	18-24
Cheerleading	12-17	7-11	18-24
Exercise Walking	55-64	65-74	45-54
Exercise w/ Equipment	25-34	45-54	55-64
Gymnastics	7-11	12-17	25-34
Martial Arts MMA	7-11	25-34	12-17
Pickleball	12-17	65-74	18-24
Pilates	25-34	35-44	45-54
Running/Jogging	25-34	35-44	45-54
Swimming	55-64	12-17	7-11
Volleyball	12-17	25-34	18-24
Weight Lifting	25-34	45-54	35-44
Workout at Clubs	25-34	35-44	45-54
Wrestling	12-17	25-34	7-11
Yoga	25-34	35-44	45-54
Did Not Participate	45-54	55-64	65-74

Largest: Age group with the highest rate of participation.
Second Largest: Age group with the second highest rate of participation.
Third Largest: Age group with the third highest rate of participation.

National Sports Participation Trends: Below are listed a number of sports activities and the percentage of growth or decline that each has experienced nationally over the last ten years (2012-2021).

Table G – National Activity Trend (in millions)

	2012 Participation	2021 Participation	Percent Change
Kayaking	7.2	11.5	+59.7%
Hunting w/ Bow & Arrow	5.1	6.9	+35.3%
Yoga	22.9	30.7	+34.1%
Skateboarding	5.4	6.7	+24.1%
Exercise Walking	102.1	125	+22.4%

Football (tackle)	7.9	6.7	-15.2%
Hunting w/ Firearms	19.4	16.4	-15.5%
Football (flag)	6.7	5.4	-19.4%
Workout @ Club	35.2	24.6	-30.1%

2012 Participation: The number of participants per year in the activity (in millions) in the United States.
2021 Participation: The number of participants per year in the activity (in millions) in the United States.
Percent Change: The percent change in the level of participation from 2012 to 2021.

Market Review

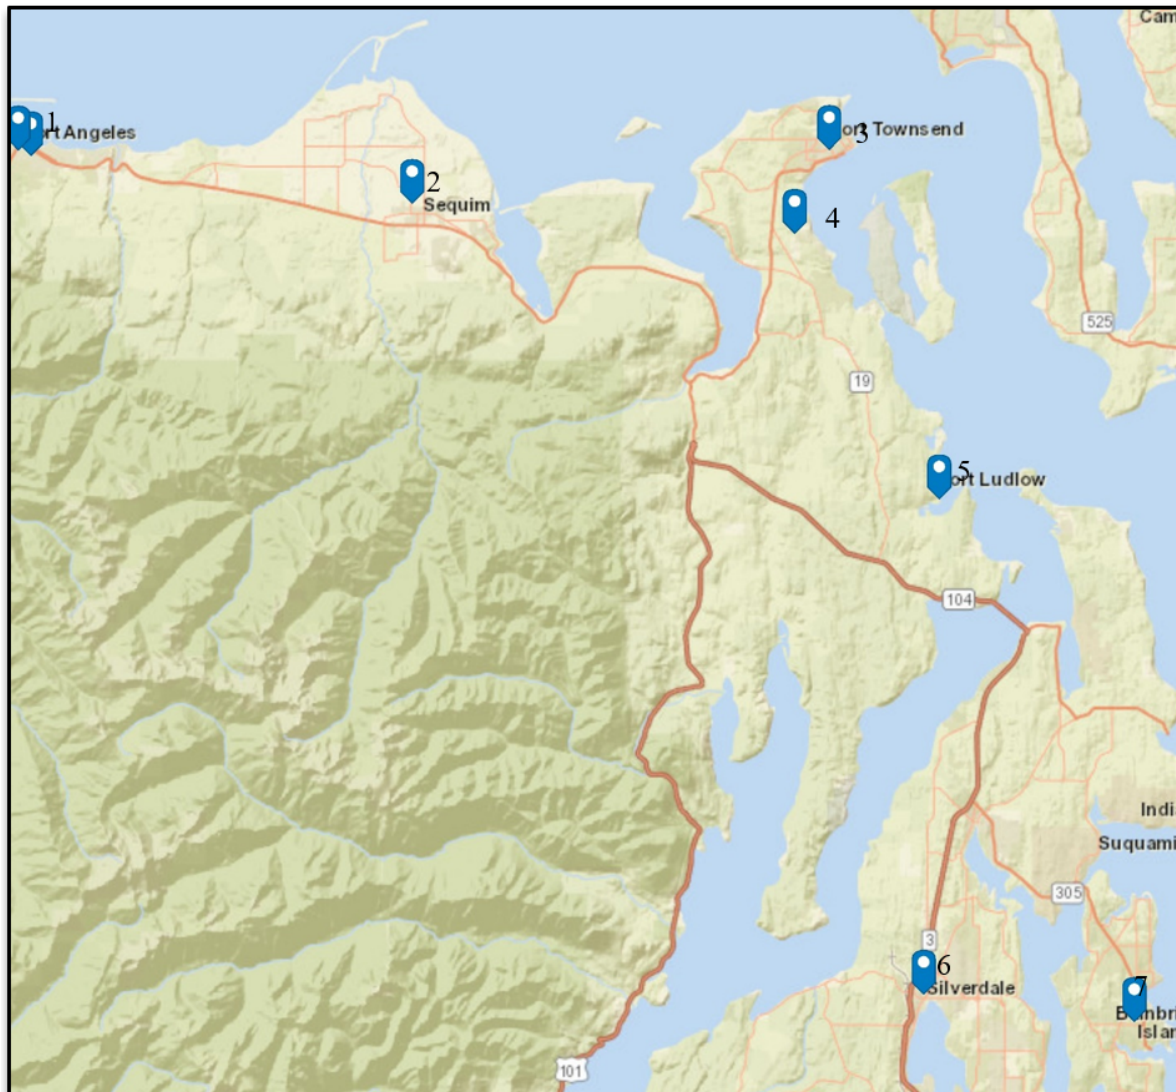

In addition to the demographic characteristics and sports participation trends, one of the greatest impacts on the market for a possible Healthier Together Center in Port Townsend is the presence of other similar providers in the area.

Within the greater market area there are a number of indoor aquatic, recreation and fitness facilities to serve the population base.

Public/Non-Profit Aquatic and Recreation Facilities

There are a number of indoor public/non-profit aquatic and recreation facilities in the area. This includes full-service YMCA's in Port Angeles, Sequim, and Silverdale (Hazelwood) and the Mountain View Pool and Olympic Peninsula YMCA in Port Townsend. The William Shore Memorial Pool in Port Angeles and the Bainbridge Island Aquatic Center are the public aquatic centers. There are also two non-profit HOA facilities in the area as well. This is a significant number of other similar facilities that are primarily located on the fringes of the market area.

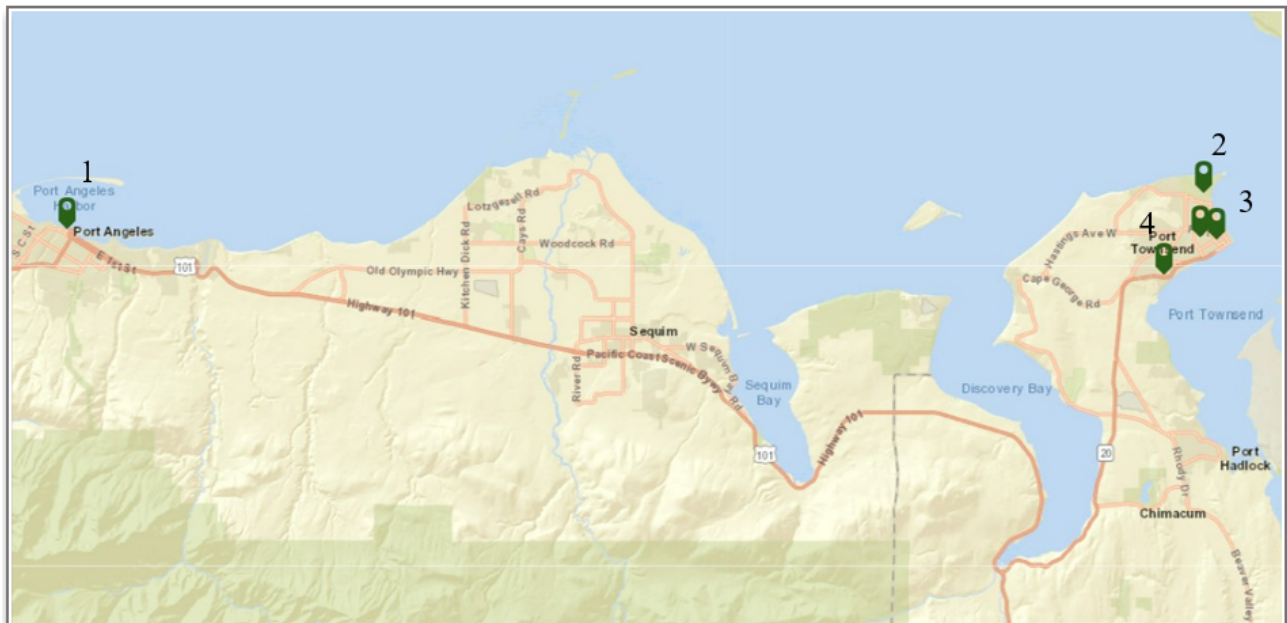

1. William Shore Memorial Pool & YMCA of Port Angeles
2. YMCA of Sequim
3. Olympic Peninsula YMCA
4. Mountain View Pool
5. Kala Point Clubhouse & Pool
6. Port Ludlow Beach Club
7. Hazelwood Family YMCA
8. Bainbridge Island Aquatic Center

Public/Non-Profit Recreation Facilities (no pool)

Besides the facilities that include aquatic amenities there are also other community-based facilities located in Port Townsend and Port Angeles. These include Fort Worden Conference and Events Center and the Jefferson County Community Center/Senior Center that are both located in Port Townsend but serve different needs than what is planned for the Healthier Together Center. There is also a similar facility (Field Arts & Events Center) in Port Angeles that will be opening soon.

In addition to these providers there are two other facilities in Port Townsend, the Jefferson County Healthcare/Wellness Center and the Port Townsend High School weight room that are open to the public and serve some of the fitness needs of the area.

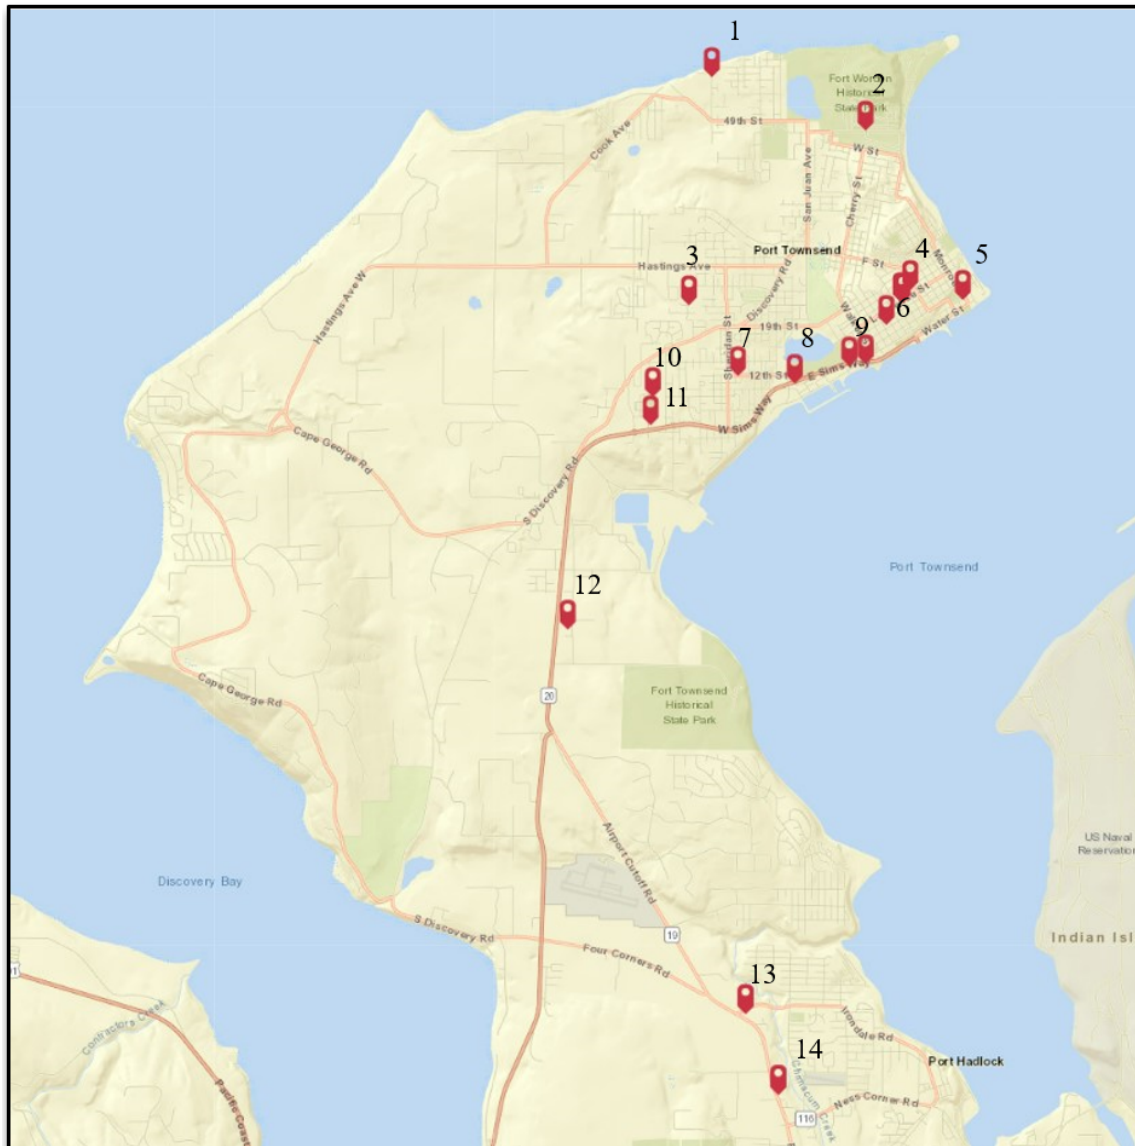

1. Field Arts & Events Hall
2. Fort Worden Conference & Events Center
3. Jefferson County Community Center/Senior Center & Port Townsend High School Weight Room
4. Jefferson County Healthcare/Wellness Center

Private

Within Port Townsend itself as well as the immediate surrounding area, there are a number of private fitness clubs and smaller boutique type providers. The private sector is the greatest provider of fitness space in the market.

- | | |
|--------------------------------|-------------------------------|
| 1. S3 Training | 8. Salish Sea Judo |
| 2. Madrona Mind Body Institute | 9. Mystic Monkey Yoga |
| 3. Jen Freeman Pilates | SBG Martial Arts |
| 4. Anchor Gym | 10. Next Level Athletics |
| NW Yoga & Fitness | 11. Fyzical Therapy & Balance |
| Hand to Hand Fitness | 12. Evergreen Fitness |
| 5. Port Townsend Athletic Club | 13. Twister Gymnastics |
| 6. Energy Stretch | Pop-Up Movement |
| 7. Pilates Gig | 14. All Points Pilates |
| | Dancing Sky Studio |

Note: This is a representative listing of the indoor aquatic, fitness and recreation facilities in the area and is not meant to be a total accounting of all facilities. There may be other providers located within the service areas that have an impact on the market as well.

Other Indoor Recreation, Aquatics and Fitness Facility Providers Conclusion: In the greater Port Townsend market area there are a number of aquatic, recreation and fitness facilities in place.

The YMCA is a major provider of aquatic and recreation facilities in the area and there are two major public indoor pools. There are also two non-profit HOA facilities in the market area.

There are several other public and non-profit facilities in the area, but these serve more passive recreation needs, meetings, and other events.

While there are private clubs in the area that provide fitness and sports amenities, these facilities serve very different market needs than a public center. As a result, their impact on the market is much less. There is a strong trend nationally with the development of small private boutique or specialty type fitness studios. These facilities have eroded some of the market for the larger more comprehensive private fitness centers in many communities but have had less impact on public centers. This is due to the differences in the market segments that are served by these types of facilities.

After analyzing these other existing providers and considering the fact that one of the major goals of the project is to replace the existing Mountain View Pool, there is a market for a new indoor aquatic center and possibly other amenities such as fitness space and a gymnasium if they appeal to an older demographic group and a larger market area.

Market Conclusion:

Below are listed some of the market opportunities and challenges that exist with the Healthier Together Center project.

Opportunities:

- The Secondary Service Area, with a population of almost 31,000, is large enough to support a comprehensive aquatic/recreation center. The ability to draw potential users from the second home and tourist market area could add even more users.
- The project would replace the existing Mountain View pool which already has an established market for aquatics.
- The demographic characteristics show a market area with an active population that is willing to spend money on recreation activities and services.

Challenges:

- The population of the Primary Service Area is relatively small at just over 21,500 and the growth in population over the next 5 years is expected to be rather small.
- The demographic characteristics show a much older population with a lower median household income level.
- There are a significant number of other indoor aquatic, recreation, and fitness providers in the Secondary Service Area.
- Funding not only the development but the operation of a new center will have to be clearly defined.

Operations Analysis

The following operations analysis has been developed for the proposed Healthier Together Center.

Assumptions

These are the basic assumptions for the operations analysis.

- An operations budget has been completed for the following center options.

Base - This option includes a 6-lane lap pool, 3,000 SF leisure pool with lazy river, spa, sauna and party room. There is also a hospital wellness room.

Approximate SF – 29,700

Full Build Out - This option has the same basic components as the Base Option but adds weight/cardio space and a gymnasium. **Approximate SF – 40,200**

- The first year of operation will be 2026 or later but the figures represent the second full year of operation which is more representative of the true costs and revenues.
- These operational budgets represent all expenses and revenues for the center and all anticipated programs.
- The presence of other providers in the market will remain the same.
- The center will be managed by a public agency including the weight/cardio area.
- This operations plan is based on a program and basic concept plan for the facility.
- Part-time wage scales reflect an anticipated \$18.00 minimum wage for the state of Washington that could be in place by 2026. It also should be realized that the minimum wage is likely to continue to increase yearly.
- A reasonably aggressive estimate of revenues generated from admission fees and passes has been utilized for each of the options.
- There will be a high level of aquatic and other programming in the center. Most all programs and services will be offered by center staff on an hourly or contract basis.
- No partnerships with other organizations has been shown in this operations plan other than Jefferson Healthcare for the wellness space.
- The pools will be guarded at all times by facility lifeguards.

Projected Hours of Operation:

Base

Days	Hours
Monday – Friday	7:00am – 7:00pm
Saturday	9:00am – 6:00pm
Sunday	Closed
Total Hours Per Week	69

Full Plan

Days	Hours
Monday – Friday	6:00am – 8:00pm
Saturday	8:00am – 6:00pm
Sunday	Closed
Total Hours Per Week	80

Projected Fee Schedule for 2026:

The fee differential between resident and non-resident is approximately 10%.

Base

Classification	Daily		10 Visit Pass	
	Res.	N. Res	Res.	N. Res
Adult (18-60)	\$7.00	\$8.00	\$63.00	\$72.00

Note: Month to month is based on automatic withdrawal (auto renew) from a bank account or credit card. Household includes 2 adults and up to 3 youth. Annual/Month to Month fees include any basic land/water-based fitness classes and child watch.

Operations Analysis Summary:

The following figures summarize the anticipated operational expenses and projected revenues for the operation of the Healthier Together Center.

	29,700 SF	40,200 SF
Category	Base	Full Build Out
Expenses	\$ 1,268,557	\$ 2,084,333
Revenues	\$ 834,466	\$ 1,731,761
Difference	\$ (434,091)	(352,572)
Recovery %	66%	83%

This represents the second full year of operation.

This operations analysis was completed based on general information and a basic understanding of the project with a preliminary program and concept plan for the center. As a result, there is no guarantee that the expense and revenue projections outlined above will be met as there are many variables that affect such estimates that either cannot be accurately measured or are not consistent in their influence on the budgetary process.

Expenses:

Expenditures have been formulated based on the costs that are typically included in the operating budget for this type of facility. The figures are based on the size of the center, the specific components of the facility and the projected hours of operation. Actual costs were utilized wherever possible and estimates for other expenses were based on similar facilities. All expenses were calculated as accurately as possible, but the actual costs may vary based on the final design, operational philosophy, and programming considerations adopted by staff.

SUBJECT: Briefing Memo – Port Townsend Funding Pool Assessment

Overview

Community leaders in the city of Port Townsend are considering options for replacing the community pool facility. The facility is reaching the end of its useful life. The city has a small tax base making it difficult to dedicate funds or encumber taxpayers with the capital and operational investments necessary to support the replacement. The state of Washington has made available a range of special purpose districts to address the operation and funding of parks, recreation, and community facilities.

This memorandum prepares a briefing documenting the funding assessment that the city's Steering Committee has engaged with during the planning process. The deliberations of the Steering Committee revolved around the consideration of two potential funding and governance mechanisms: 1) a Metropolitan Park District (MPD) and 2) a Public Facilities District (PFD).¹

This memorandum contains the following elements:

- A brief description of MPDs and PFDs
- A summary of how an MPD or PFD in supporting the pool might be configured.
- A summary of the financial capital cost and operating needs of the pool options
- A comparison of revenue adequacy of a MPD or PFD model

¹ The committee did consider three other initial options but were dismissed from more discussion. Both a Park and Recreation Districts and Park and Recreation Service Areas were deemed a poor fit due to the need to ask voters to renew the levy every six years. A city levy lid lift was deemed impractical given the size of the levy needed and competing needs within the city of for funding.

Description of MPDs and PFDs

What are MPDs and PFDs?

Metropolitan Park District

MPDs are special districts that operate as municipal corporations “to provide for the management, control, improvement, maintenance, and acquisition of parks, parkways, boulevards, and recreational facilities (RCW 35.61.010).”² Metropolitan Park Districts (MPDs) have long been allowed under Chapter 98, Laws of 1907. The first was formed by Tacoma in 1907. Prior to 2002, cities with a population under 5,000 and counties could not create metropolitan park districts. All cities and counties may form metropolitan park districts that include portions of one or more cities or counties.

Public Facilities Districts

Public facilities districts (PFD) are municipal corporations with independent taxing authority to perform specific statutory purposes. PFDs must be coextensive with the boundaries of the jurisdictions that created them. PFDs can be established by cities or counties pursuant to state law for the limited purpose of developing certain regional facilities, such as convention or special events centers. Pools are eligible community recreational facilities under a PFD.

Public Facilities Districts are created under the statute to develop and operate regional centers, and at the city, the level must cost at least \$10 million, including debt service. At the county level, they can develop and operate sports, convention, and entertainment centers that do not meet the \$10 million thresholds.³⁴ They can contract with other public agencies such as cities, counties, and other PFDs to develop such facilities.

How are MPDs and PFDs formed?

Each park district can be formed through different measures, such as voter petitions, resolutions, and ordinances. This section identifies the steps necessary to form each park district type.

Metropolitan Park Districts

There are two ways that a Metropolitan Park District (MPD) can be formed:

² “MRSC - Comparison of Recreation Districts.” MRSC - Comparison of Recreation Districts. <https://mrsc.org/Home/Explore-Topics/Parks-and-Recreation/Park-and-Recreation-Special-Districts/Comparison-of-Recreation-Districts.aspx>

³ Preston, Gates, Ellis LLP. (2003). *City and County Options for Creative Financing: PFDs, PDAs, and 501(c)(3) s*. Seattle. Retrieved from <https://mrsc.org/getmedia/4959a4a5-1474-4234-bcc9-5f7cb01d9aee/PDA-PDFfinan.aspx>

⁴ MRSC - Public Facilities Districts (PFDs). Mrsc.org. Retrieved June 16, 2021, from <https://mrsc.org/Home/Explore-Topics/Economic-Development/Financing-Economic-Development/Public-Facilities-Districts.aspx#overview>.

- **Voter Petition.** A petition of at least 15% of the area's registered voters submitted to each county auditor where the district is located. When filed with multiple auditors, they issue joint certification.
- **Resolution.** A resolution by each of the governing bodies that would be included in part or all the districts. (RCW 35.61.020)

Once certified, what happens next depends on if Boundary Review Board approval is needed:

- **Boundary Review Board.** Notice of the proposal shall be filed; A special election held on the date specified, 60 or more days after approval by boundary review board; No review required if the proposed district only includes one or more cities.
- **No Boundary Review Board.** The proposition would appear at the next general election, or at a special election date, 60 or more days after the last resolution proposing the district is adopted, or the date the county auditor certifies the petition.

Following the petition or resolution, the question is put to voters, requiring a simple majority (50% plus one of voters) to pass. The language to voters is fairly prescriptive and must include the proposed boundary, name for the district, and composition of the Board of commissioners (RCW 35.61.050, RCW 35.61.030.)⁵ The ballot proposition must also contain the words:

"For the formation of a metropolitan park district to be governed by *[insert board composition]*." "Against the formation of a metropolitan park district."

The governing body can establish an MPD with a limited purpose and taxing power per [SSB 5138](#) in 2017. This flexibility addresses that some MPDs are formed to acquire the funds necessary to acquire, construct, renovate, expand, operate and/or maintain specific public parks or facilities. The purpose of the MPD must be stated in the petition and on the ballot when voted on and specifically identify those public parks or recreational facilities. It can set a limit to the maximum levy rate at any rate that does not exceed the aggregate, but the ballot proposition must still state the maximum regular levy rate.⁶

Metropolitan Park Districts for Pool Facilities

Out of 23 current Metropolitan Park Districts in the State of Washington, nine were formed for the purpose of maintaining and operating pool facilities.

Exhibit 1. Current Metropolitan Park Districts for Pool Facilities, 2011-2021

Source: MRSC Local Ballot Measure Database, Results Summary, 2021, <https://mrsc.org/Elections.aspx#results>.

MPD	Election Date	Boundaries	Purpose
Colfax MPD	11/2016	Colfax	Operate & maintain existing swimming pools & parks.
Des Moines Pool MPD	11/2009	Des Moines	Maintain & operate the existing Mt. Rainier Pool (with additional funding from Normandy Park MPD & Highline School District).
Normandy Park MPD	11/2009	Normandy Park	Help fund existing Mt. Rainier Pool (along with Des Moines Pool MPD & Highline School District).
Odessa MPD	11/2020	Odessa School District, Lincoln County	Maintain & improve Odessa swimming pool facilities.
Si View MPD	02/2003	North Bend & unincorporated King County	Operate the Si View Park Community Center & Pool, which had been closed due to county budget cuts, as well as other park facilities.
Stevenson Community Pool District	02/2021	City of Stevenson & urban growth	Maintain & operate the Stevenson swimming pool.
Tukwila Pool MPD	04/2011	Tukwila	Operate the Tukwila Pool, preventing potential closure following recession & general fund shortfalls.
White Salmon Valley Pool MPD	11/2018	Bingen-White Salmon	Construct, operate, & maintain White Salmon Valley swimming pool
William Shore Memorial Pool PD	05/2009	Port Angeles School District	Operate the William Shore Memorial Pool, preventing its closure.

Public Facility Districts.

Formation is initiated by an ordinance or resolution at the city or county level, if involving multiple jurisdictions, it may be formed by interlocal agreement.

What are the relevant funding and financing provisions of MPDs and PFDs?

For every park district type, a city must establish a funding and financing mechanism that will keep the park open and maintained. Different funding mechanisms include tax levies or general obligation debts.

Metropolitan Park Districts

Financing of Metropolitan Park Districts is done through a tax levy. The levy is permanent, can be increased, but is also subject to pro-rationing as a junior district under the \$5.90 aggregate limit for city/count/districts:

- **Tax Levy.** Authority to levy property taxes at \$.50 and \$.25 per \$1000. They are considered as a single levy (up to \$0.75) for the 1% annual levy limits. (Ch. 84.55 RCW)
 - **Lid Lifts.** Taxing districts <10,000 population may not increase the amount collected from current assessed valuation by more than 1% annually. Taxing districts with a > 10,000 population may not increase the total levy amount collected from current assessed valuation by more than 1% annually or the rate of inflation, whichever is lower. A taxing jurisdiction may seek voter approval to increase more than 1%, up to the statutory maximum rate, for a specified amount of time.⁷
 - **Excess Levy.** Any levy more than \$0.75 per \$1,000 AV would have to be voter-approved by a 60% majority.
 - **Proration factors.** There is \$5.90 aggregate limit on city, County and junior taxing district levies, as a junior taxing district if the limit is reached, it is possible the levy amount will be pro-rationed and lowered. When this limitation is exceeded, the rates must be prorated or eliminated among the districts, according to a statutory mechanism for reducing junior district rates. RCW 84.52.010 provides the proration order to be followed. MPDs with a population of 150,000 or more may request voter approval to protect up to \$0.25 per thousand dollars of assessed value outside of the \$5.90 aggregate levy limitation.
- **General obligation debt.** Can be issued in an amount equal to 2 ½ % of assessed valuations. Of this, ¼ % may be non-voted debt. The source for repayment of non-voted debt is the district general fund. For voted debt, debt service is paid from an excess property tax levy and must be passed by a 60% vote. This debt must be used for capital purposes and can be issued for 20 years maximum. (RCW 84.52.056, Constitution art. 7, sec.2, RCW 35.61.100, RCW 35.61.110)

⁷ MRSC - Levy Lid Lifts. Mrsc.org. (2021). Retrieved May 21 2021, from <https://mrsc.org/Home/Explore-Topics/Finance/Revenues/Levy-Lid-Lift.aspx>.

Public Facility Districts.

Financing is usually achieved through a variety of different voted and non-voted (if pre-2002 formation) taxing options.

- A 0.2% sales tax approved by a simple majority of voters,
- Admission taxes up to 5% and parking taxes up to 10%.
- Voter-approved lodging taxes, simple majority (County only)
- State sales tax credits (up 0.033% of the sales price; Regional Centers only)
- Voter-approved excess property tax levies (County PFDs only).
- They can also apply user charges and fees for facility use and accept gifts, grants, and donations.

As well, the PFD can issue general obligation and revenue bonds. PFDs may only issue debt in an amount equal to 0.5% of taxable property valuations.

How are MPDs and PFDs governed?

This section outlines the different types of governance structures that are permitted for each park district and service area type.

Metropolitan Park Districts

Metropolitan Park Districts are municipal corporations governed by a board of commissioners. The makeup of the Board must be determined and stated in the ballot measure when it is voted on by the public. Board members can be voted on the same ballot or after formation.

Metropolitan Park Districts are governed by a board that may be composed of the following:

- **Five Elected-Commissioners.** They can be elected at district creation; or
- **Ex-officio.** If a district is located entirely within one city or unincorporated area of one County, the legislative body of the city or County may act as metropolitan park board: or
- **Interlocal Agreement.** For a district located in multiple cities or counties, each legislative authority may appoint one or more members to serve as the Board.⁸

Additionally, non-elected citizens and other staff can have a role to play in advising or governance:

- **Citizen Advisory Boards.** Some metropolitan park districts have established additional citizen advisory boards that meet regularly and provide input to their commissioners, such as the Tukwila Pool Advisory Committee for the Tukwila Pool Metropolitan Park District.⁹
- **Treasurer.** Additionally, the county treasurer of the County within which all, or majority, of the district lies is the ex officio treasurer. If the Board receives approval from

said county treasurer, another can be appointed treasurer of the district. ([RCW 35.61.180](#));¹⁰

Public Facility Districts.

Public Facility Districts operate as a municipal corporation with independent taxing authority which operates with the same bounds as the jurisdictions that created the district. City, County and multijurisdictional districts may have different governance structures. City PFDs can have 5-7 board members selected by the city legislative body and can receive recommendations from local organizations.

County PFDs can have 5-7 board members, depending on the ratio of the population of the largest city in the County to the total county population. If a County PFD imposes a lodging tax, then the Board must include a representative of the lodging industry. Other specified numbers of the members can be appointed by the county legislative body or other entities such as the governor and would be subject to confirmation by the county commission/council.

MPD and PFD Configuration Options

This section discusses potential configurations of an MPD and PFD to support the pool facility.

Boundary Options

MPD Boundaries

Two MPD boundaries were developed consistent with work supporting the market analysis and pool programming.

- Option 1: A MPD boundary following contours of where users would most likely reside (based on findings in the market analysis).
- Option 2: A slightly more expansive MPD boundary following Option 1 merged with the school district boundary.

A summary of the assessed valuation (2022 certified values) is shown in the table below.

Exhibit 2: Summary of Assessed Valuations in MPD boundary options

Source: ECONorthwest calculations of Jefferson County Assessor data, 2023.

	Assessed Value (2022)
MPD	
Option 1: Smaller	\$5,222,370,097
Option 2: Larger	\$5,342,379,694

Exhibit 3: MPD Option 1

Source: ECONorthwest

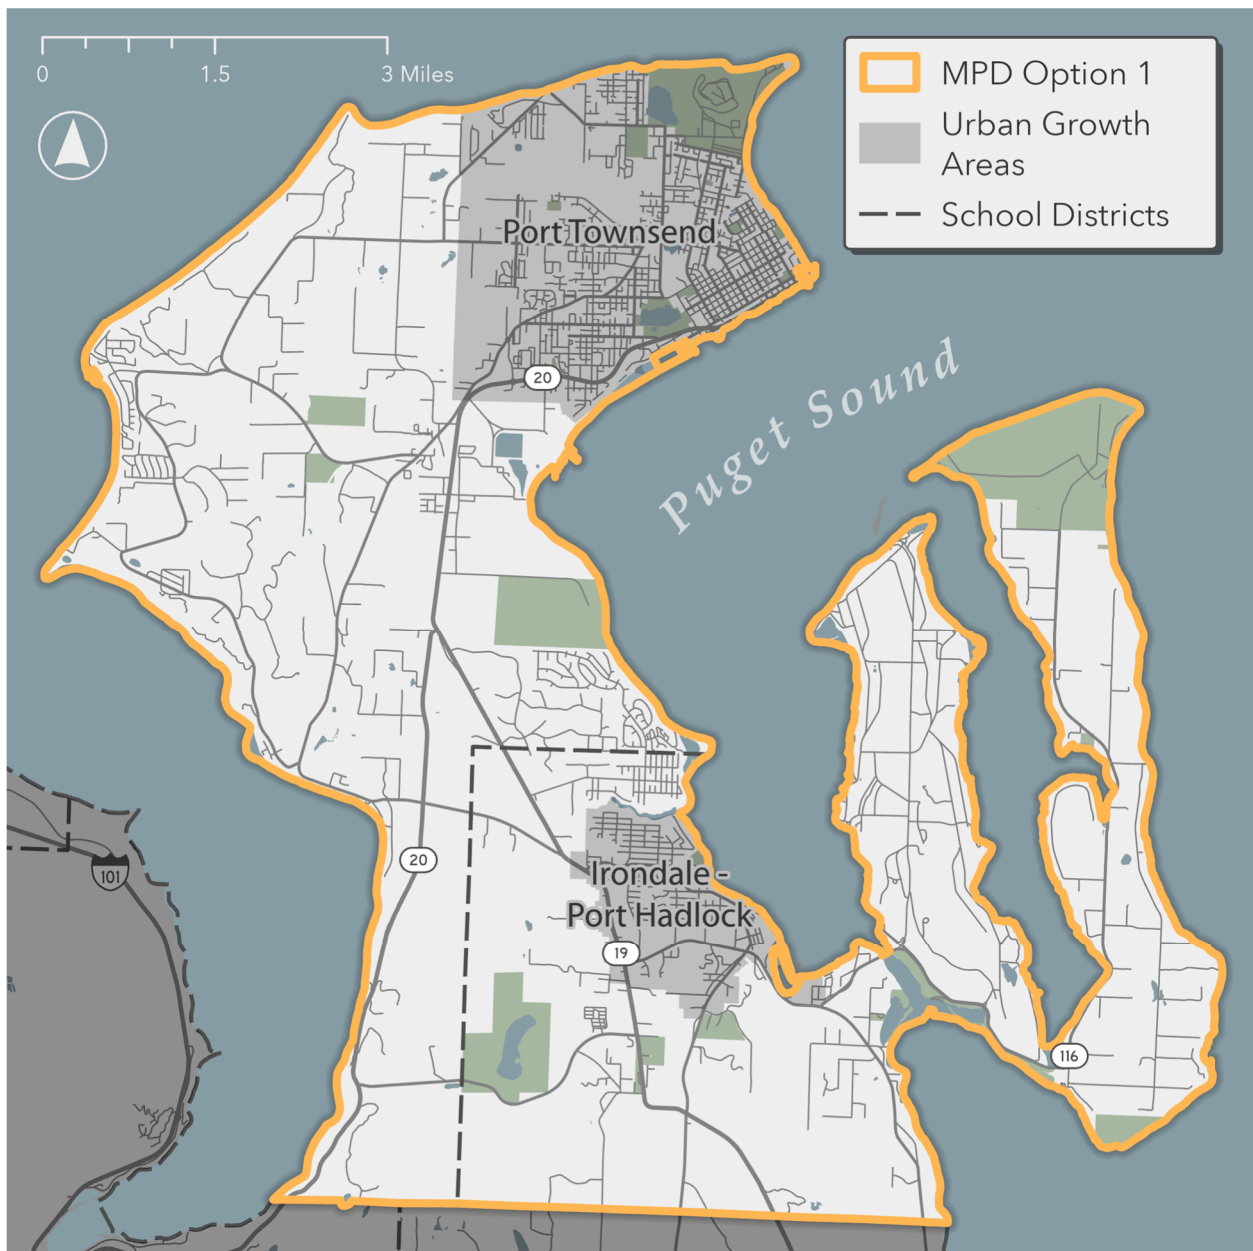

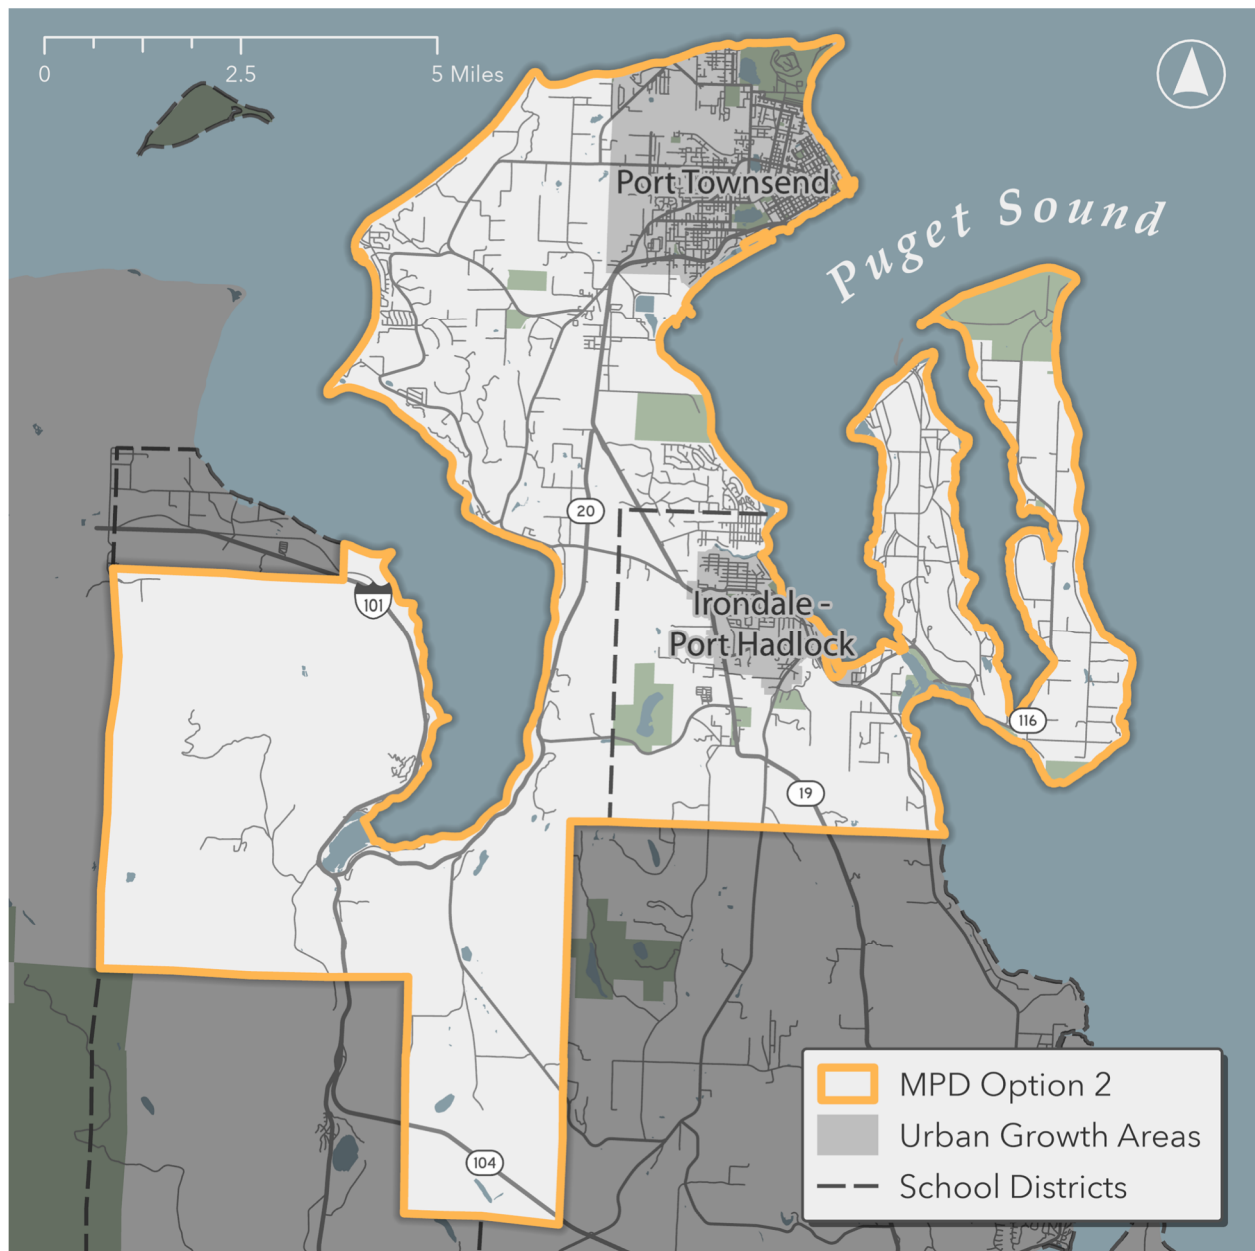

Exhibit 4: MPD Option 2

Source: ECONorthwest

PFD Boundary Options

For this assessment, PFD boundaries coextensive with the city and county boundary limits are used. Since PFDs must be coextensive with the boundaries of the jurisdictions that created them, it is assumed either the city or county would have to take action to create the respective PFD.

Funding Options and Debt Limits

MPD Funding and Debt Limits

The MPD has a regular property tax levy available to fund its needs. At the full levy of \$0.75 (using 2022 values), the levy would generate the following annual amounts:

- Option 1: \$3,920,000
- Option 2: \$4,010,000

MPDs is limited on the amount of debt it can issue. A MPD can issue general obligation debt. There are limits both on the amount voted and non-voted (commonly referred to as councilmanic). Overall, the limit is 2.5% of the assessed value in the district. The follow debt limits would apply using 2022 assessed values.

- Option 1:
 - Total Debt Limit: \$130,559,252
 - Total Non-Voted Limit: \$326,398
- Option 2:
 - Total Debt Limit: \$133,559,492
 - Total Non-Voted Limit: \$333,898

PFD Funding and Debt Limits

City Created PFD

A city created PFD has two relevant funding sources for the pool. It can levy up to a 0.2% sales tax that must be a voter-approved (simple majority) and it can levy up to a 5% admission tax (applies to ticket sales/passes as well has administered programs, goods, and services).

- Sales taxes: Based on 2021 taxable retail sales for the city, a 0.2% sales tax would yield \$620,000 annually.
- Admission Taxes: Based on operating revenues subject to the admission tax, a facility could generate between \$42,000 - \$87,000 depending on the scale of the facility, respectively Base Option and Build Out Option.

County Created PFD

A county created PFD has two relevant funding sources for the pool. It can levy up to a 0.2% sales tax that must be a voter-approved (simple majority), a voter approved lodging tax up to 2% for lodging over 40 units, and it can levy up to a 5% admission tax (applies to ticket sales/passes as well has administered programs, goods, and services).

- Sales taxes: Based on 2021 taxable retail sales for the city, a 0.2% sales tax would yield \$620,000 annually.
- Admission Taxes: Based on operating revenues subject to the admission tax, a facility could generate between \$42,000 - \$87,000 depending on the scale of the facility, respectively Base Option and Build Out Option.
- Lodging Taxes: In 2021, the county collected \$780,000 on its 2% lodging tax. A PFD tax levied under its limitations might collect less pending the makeup of lodging units in the county.

Both a city and county PFD would have typically had limits on the amount of debt issued for a PFD limited to 0.5% of the taxable value in the district (using 2022 assessed values).

- City PFD: \$13,282,128
- County PFD: \$43,057,000

Other Funding Sources

Continued City Support

The city supports the current pool facility with funds from its general fund net of over revenues generated at the pool. In 2022, the amount of this general fund support totaled approximately \$400,000.

Grants, Earmarks, and Donations

Pool facility construction (and sometimes operations) is also supported by grants (primarily through the state Recreation and Conservation Office), state and federal appropriations through spending bills, and specific philanthropic fundraising. It is expected that pool facility would leverage all these resources.

Port Townsend Pool Funding Needs

Pool Options

The pool planning process has articulated two options: a Base Option and Full Build Option. The capital construction cost as well as stabilized operating characteristics are shown in the table below. The construction costs range from \$37 to \$47 million. The Base Option would have annual expenses of \$1.3 million and revenues of \$830,000 requiring an operating subsidy of \$434,000. The Full Build Option would have annual expenses of \$2.0 million and revenues of \$1.7 million requiring an operating subsidy of \$353,000.

Exhibit 5: Summary of Pool Construction Cost and Operating Characteristics

Source: Opsis Architecture and Ballard King, 2023

Facility Options	One-time	Annual		
	Capital Cost	Expenses	Revenues	Subsidy
Base	\$37,182,810	\$1,268,557	\$834,466	-\$434,091
Full Build Out	\$46,517,939	\$2,084,333	\$1,731,761	-\$352,572

These financial parameters can be converted into a preliminary cashflow projection to illustrate how inflation and debt (used to finance the construction of the pool facility) may impact future conditions. All future expenditures are grown at 3%. Debt is modeled a true cost of debt of 4.5% with level payments for 20 years as an illustrative example of how the project will be financed (this example assumes the full capital cost is financed). It is assumed the facility starts construction in 2025 and opens in 2027. These are shown below for both the Base and Full Build Options.

In the first year of operations, the expenditure total for the Base option is \$3.6 million \$5.1 million for the Full Build Option.

Exhibit 6: Base Option Expenditure Operating Profile

Source: ECONorthwest calculations

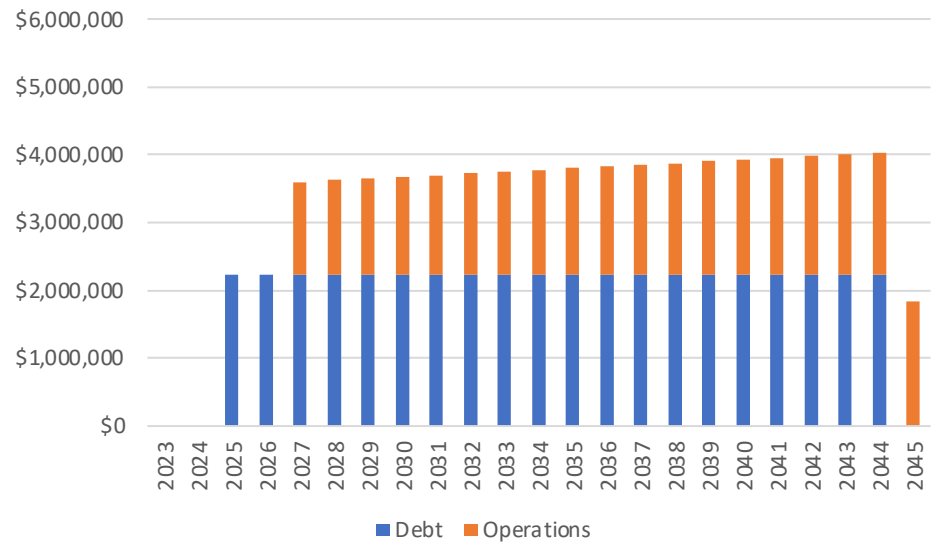

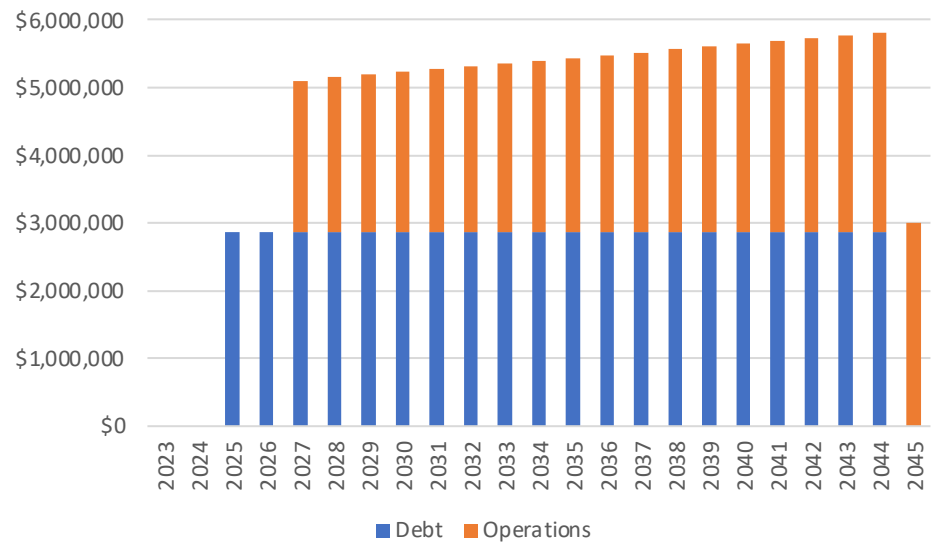

Exhibit 7: Base Option Expenditure Operating Profile

Source: ECONorthwest calculations

MPD and PFD Funding Assessment

The operating expenditures summarized above can be supported through the following funding sources:

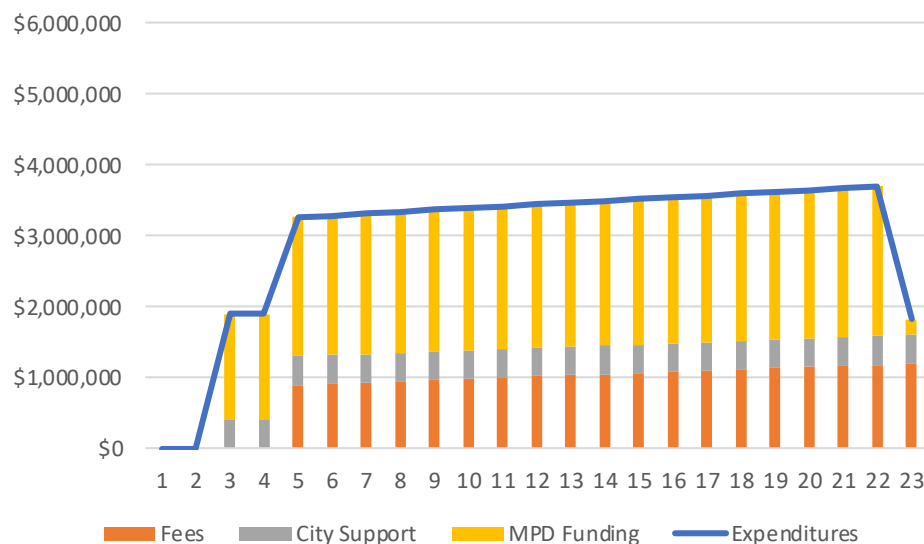

- Grants, earmarks and donations meant to lower the financeable cost of construction. In the comparisons that follow, it is assumed that grants, earmarks, and donations will cover 15% of the capital costs thereby reducing the financeable amount. The 15% assumption is used as best estimate of what local efforts may be able to support.
- Continuation of the city's general fund support of \$400,000 a year in operating funds.
- Use of either and MPD or PFD and their respective taxes to support the remainder of the funding needed. These scenarios are summarized below.

MPD Option 1

The revenue summary is shown in the Base Option in the chart below. In the first year of opening, the MPD levy rate needed would be approximately \$0.28 per \$1,000 of taxable assessed valuation.

Exhibit 8: Base Option Revenue Operating Profile

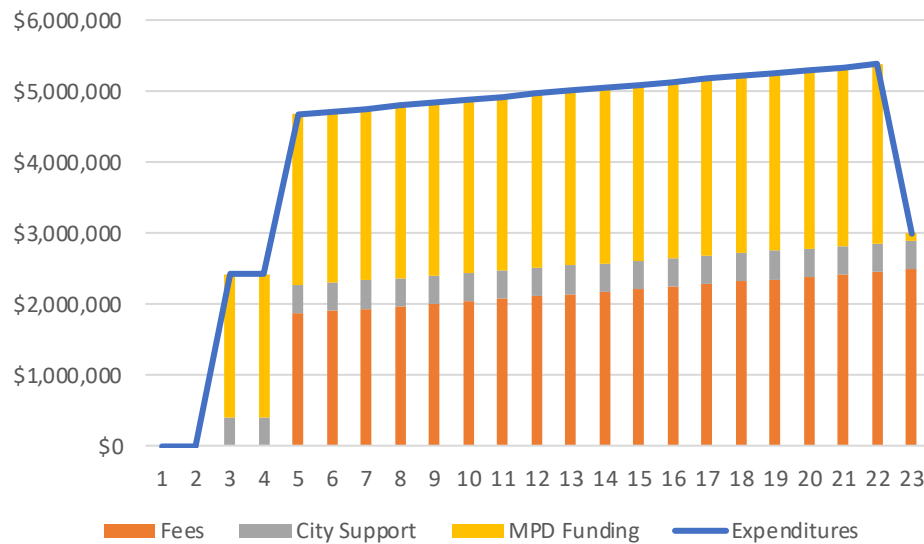

Source: ECONorthwest calculations

The revenue summary is shown in the Full Build Option in the chart below. In the first year of opening, the MPD levy rate needed would be approximately \$0.37 per \$1,000 of taxable assessed valuation.

Exhibit 9: Full Build Option Revenue Operating Profile

Source: ECONorthwest calculations

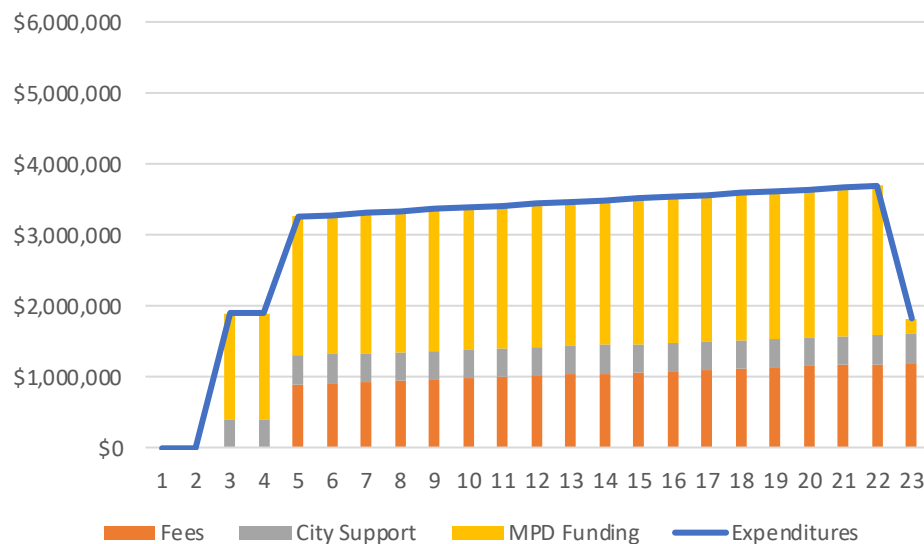

MPD Option 2

The revenue summary is shown in the Base Option in the chart below. In the first year of opening, the MPD levy rate needed would be approximately \$0.27 per \$1,000 of taxable assessed valuation.

Exhibit 10: Base Option Revenue Operating Profile

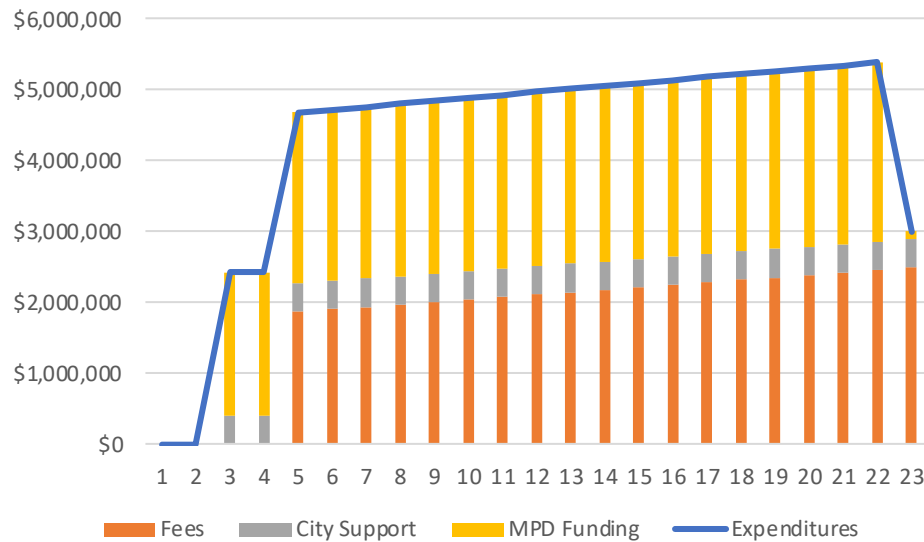

Source: ECONorthwest calculations

The revenue summary is shown in the Full Build Option in the chart below. In the first year of opening, the MPD levy rate needed would be approximately \$0.36 per \$1,000 of taxable assessed valuation.

Exhibit 11: Full Build Option Revenue Operating Profile

Source: ECONorthwest calculations

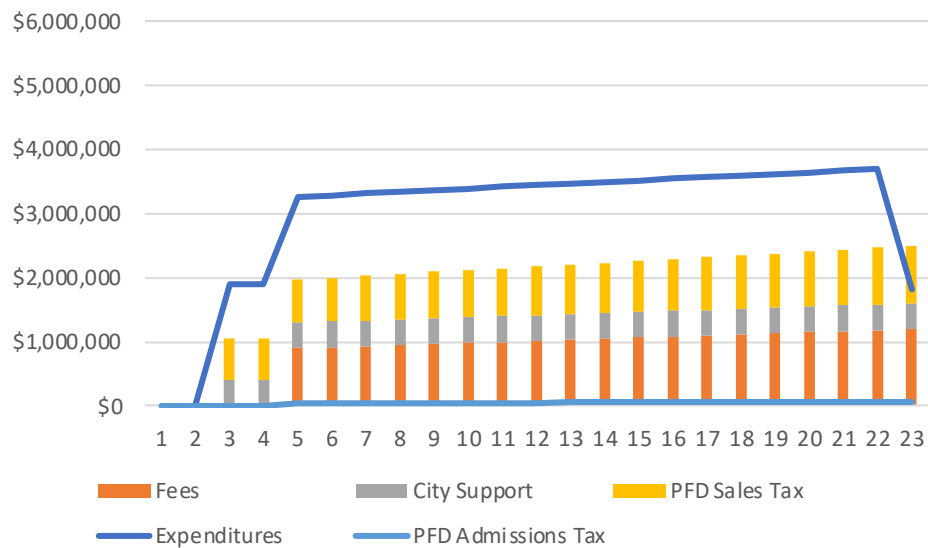

City PFD

The revenue summary is shown in the Base Option in the chart below. A city PFD could not support either the Base or Full Build Options (not shown). Revenues would not be adequate to support operating expenditures under the planning assumptions.

Exhibit 12: Base Option Expenditure Operating Profile

Source: ECONorthwest calculations

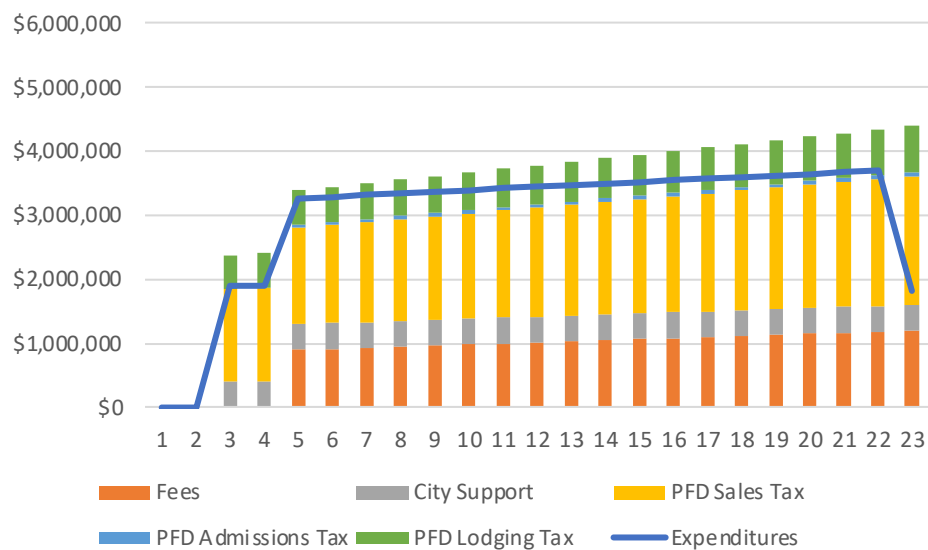

County PFD

The revenue summary is shown in the Base Option in the chart below. A county PFD could support the Base Option and would require revenues from a lodging tax (assumed to be \$500,000 in 2023 – this assumption remains speculative at this time since it’s not clear how much revenue would come from accommodations with over 40 units).

Exhibit 13: Base Option Revenue Operating Profile

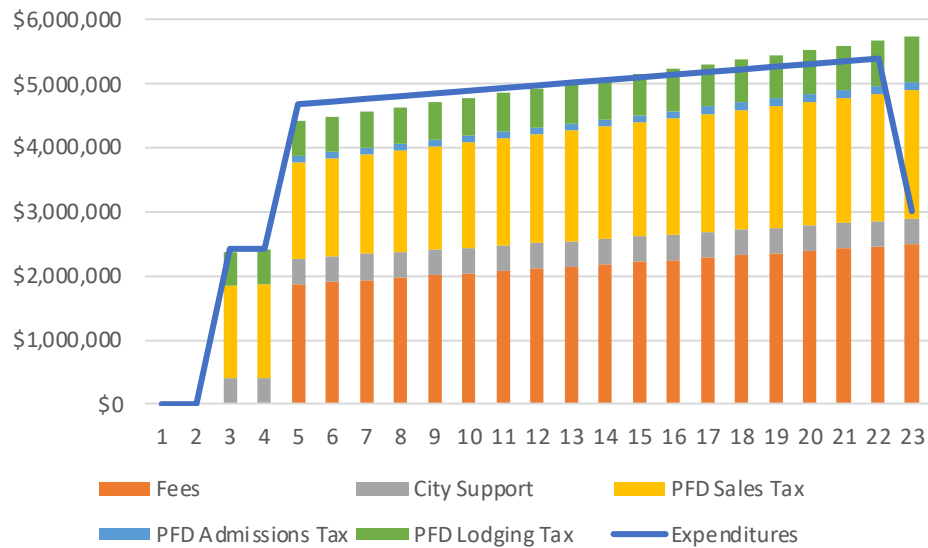

Source: ECONorthwest calculations

The revenue summary is shown in the Base Option in the chart below. A county PFD might support the Full Build Option and would require revenues from a productive lodging tax (assumed to be \$500,000 in 2023 – this assumption remains speculative at this time since it’s not clear how much revenue would come from accommodations with over 40 units).

Exhibit 14: Full Build Option Revenue Operating Profile

Source: ECONorthwest calculations

Debt Limit Issues

All the capital costs estimates would test some limit of the MPD or PFD debt limit. For an MPD the overall debt limit should not be an issue, but the non-voted portion will likely require an additional vote for an excess levy to support the construction of the facility. A county PFD should have enough debt capacity to finance the facility.

HEALTHIER TOGETHER AQUATICS CENTER
FRAMEWORK FOR DESIGN EXCELLENCE GOAL SETTING

MEASURE	PROJECT GOAL STATEMENTS
1. Design for Integration	1. Sustainability is at the heart of the Healthier Together Aquatics Center with a focus on community health and wellness, creating a facility that is financially sustainable, and designing a building in harmony with the surrounding eco-system.
2. Design for Equitable Communities	2. As a Community Center the project is focused on being accessible to all by looking at multi-modal access to the center, incorporating family and universal changing rooms and restrooms, and creating a lobby space that supports community gathering.
3. Design for Ecosystems	3. The design will be grounded in the specific geography and ecology of East Jefferson County through views creating a visual connection to the Olympic Mountains and landscape design focused on native species.
4. Design for Water	4. Water conservation and stormwater management will be key design criteria for the development of the project to address this limited resource within the region.
5. Design for Economy	5. The design of the project will focus on selection of local materials and supporting local economies as much as possible.
6. Design for Energy	6. The design began with a building massing and site orientation to minimize energy demand through passive strategies as well as early analysis of daylighting for the sunshade design and rooftop solar potential.
7. Design for Well-being	7. As a Health and Wellness Center, the team will prioritize material selections that create a healthy indoor environment.
8. Design for Resources	8. The project team will utilize the Zero Guide to inform material selections and have an added focus during the eco-charrette to reduce the project's carbon footprint.
9. Design for Change	9. As a community center, the facility is a natural fit as a community resiliency center. The design team will explore the potential to incorporate or design for future incorporation of resiliency measures such as batteries.
10. Design for Discovery	10. As a resource for the entire community, the project has a great opportunity to provide education around sustainable design to a broad spectrum of community members. The design team will incorporate opportunities to engage the community in the sustainable design features incorporated into the project.

Project Vision & Goals

01

3

Project Vision

In collaboration with partners and the community, plan for and replace and enhance the antiquated pool, adding health and wellness components that will meet the needs of the community.

4

Goals of Study

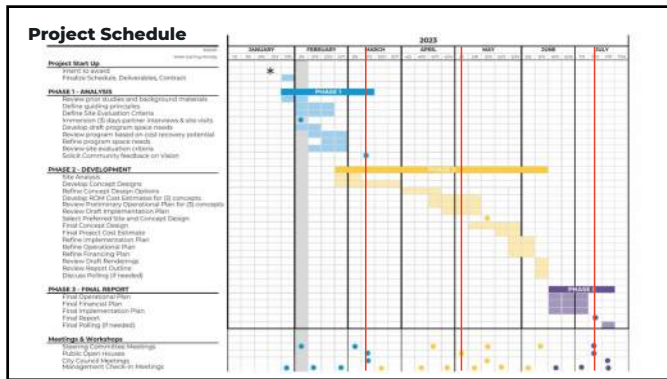

- Increase opportunities for people to live an active and healthy life.
- Plan for the future of Jefferson County
- Select a site and rebuild the pool, including health and wellness component to meet the needs of the community
- Engage Jefferson Hospital District, Jefferson County, Port of Port Townsend, Port Townsend School District, Jefferson Aquatics Coalition the YMCA, and all previous partners of this effort.
- Plan for operations and financing for this effort.

5

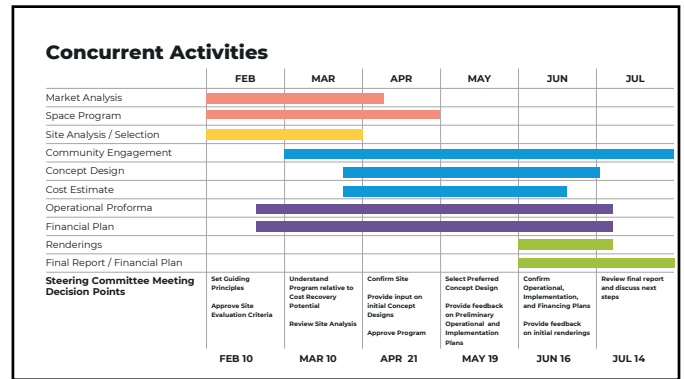

Project Schedule Overview

30

Comparable Construction Cost

PROJECT	YEAR	CONSTRUCTION COST	ESCALATED TO 2023	ESCALATED TO 2025	SF	\$/SF	TOTAL PROJECT COST *
Sammamish Aquatic Center	2013	\$24.28M	\$39.56M	\$45.81M	54,825	\$836	\$59.55M
Hood River Aquatic Center	2017	\$47.21M	\$63.26M	\$73.28M	84,207	\$870	\$95.26M
McMinnville Recreation & Aquatic Center	2022		\$67.65M	\$78.36M	110,000	\$712	\$101.87M
Redmond Senior & Community Center (no aquatic)	2022	\$37.31M	\$40.00M	\$46.33M	52,000	\$880	\$60.23M
North Kirkland Aquatic Center	2023		\$35.43M	\$41.04M	51,712	\$794	\$53.35M

* Based on Escalated Construction Cost and Includes Soft Cost @ 30% of Construction Cost

For example: assume \$30M Construction Cost + 30% Soft Cost (\$9M) = **\$39M Total Project Cost.**
If \$750/sf this equates to 40,000gsf facility.

31

Financial Plan Discussion

05

32

Evaluating Program Options

West Linn, OR Community Center

OPTION A PROGRAM PRIORITIES

building area	68,000 gsf	expense	\$1.95-2.05m
parking stalls	230 stalls	revenue	\$1.225-1.325m
project cost	\$26.1m	operational deficit	\$725k
tax increase \$170/year increase per household/assessed value \$240k			

OPTION B PROGRAM PRIORITIES

building area	63,0500 gsf	expense	\$2.1-2.1m
parking stalls	254 stalls	revenue	\$2.0-2.1m
project cost	\$22.6m	operational deficit	\$100k
tax increase \$147/year increase per household/assessed value \$200k			

33

Potential Funding Approaches

- Use existing funding capacity (city, county, hospital, school district)
 - Pro: No new action needed to create funds
 - Con: governments typically have little discretionary capacity – would require the reprioritization of existing spending.
- Create new funding capacity
 - Pro: New funds dedicated to pool CAPEX and OPEX
 - Neutral: Requires voter action
 - Cons: Increase in local tax burdens
- Create new taxing districts
 - Pro: Required for certain funding tools
 - Cons: Creates potential governance considerations

02.10.23 Workshop 1

34

Funding Tools

- City
 - Levy Lid Lift (constrained by city max levy rate and city debt capacity)
- County
 - Levy Lid Lift (constrained by county max levy rate and debt capacity)
- School District
 - Excess bond levy (constrained by debt capacity)
- Hospital District
 - Levy lid lift (constrained by max levy and debt capacity)

02.10.23 Workshop 1

35

Funding Districts

- Metropolitan Park District
 - Existing Boundary – Ex officio capacity
 - New Boundary – New elected commission
 - Up to \$0.75 regular levy
- Parks and Recreation Service Area/District
 - Existing Boundary – ex officio capacity (member jurisdictions)
 - New Boundary – New elected commission and districts
 - Up to \$0.60 6-year regular levy (levy must be voted every 6 years)
- Public Facility District
 - County boundary only for recreation facility
 - 0.2% sale tax (but all admission and parking taxes)

02.10.23 Workshop 1

36

Illustrative Annual Funding Needs

- \$1,500,00 annual debt service
 - Assume \$20 M bond
 - 20 years level debt at 4% true debt cost
- \$800,000 operating subsidy
- \$2.3 million a year in public funding per year

02.10.23 Workshop 1

37

Range of Magnitude Estimates of Tax

	Assessed Value (2022)	Available Rate	Taxable Retail Sales (2021)	Potential Yield	Household Tax Burden
City

Facility Guiding Principles Discussion

06

41

Expression of Community and Place

42

Facility Guiding Principles

Project Vision

- Serves significant unmet needs for community health & wellness
- Replaces existing antiquated swimming pool
- Integrates partner & community input
- Provides welcoming safe & accessible environment for all
- Supports diversity, equity, inclusion & belonging
- Offers multipurpose spaces to maximize facility use
- Envisions legacy project for County & City
- Represents character that fits Jefferson County
- Builds on past efforts and recognizes value of previous efforts

Environmental

- Integrates sustainable & resilient design practices
- Offers Indoor-Outdoor connections & programming opportunities

Financial

- Establishes viable financial plan for project funding
- Optimizes value of the budget (capital & operational)
- Develops realistic budget based on today's construction cost
- Embraces full potential of partnership opportunities

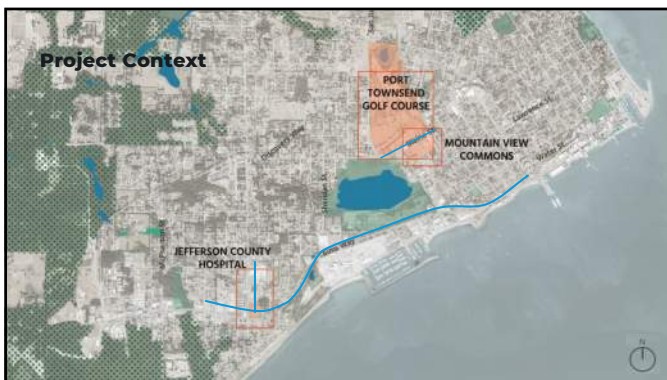

43

Site Evaluation & Selection Discussion

55

Site Evaluation Criteria

Development Capacity

- Accommodates Space Program Needs
- Accommodates Parking Requirements
- Enhances Adjacent Context & Amenities
- Minimizes Impact to Existing Operations
- Environmental Sensitivity / Topography

Economic Viability

- Prominent Frontage on Major Arterial
- Cost Recovery Potential
- Proximity to Compatible Amenities
- Partnership Potential

Stewardship of Funding

- Site Development Cost (on / off-site improvements)
- Project Development Cost
- Value Added Design
- Land Acquisition (if applicable)

Supports Diversity, Equity & Inclusion

- Balanced & Complementary Services to All
- Preserves & Enhances Outdoor Recreation Amenities
- Convenient Access to Variety of Transportation Modes

Regulatory Approval

- Site Selection Consistent with Current Zoning
- Avoids Potential Environmental Impact
- No Extended Approval Process

Community Support

- Site Selection Supports Community Buy-in
- Site Selection Avoids Controversy

56

Wrap-Up & Next Steps

08

57

Next Steps

- Develop Draft Space Program & ROM Project Cost
- Develop Operations and Financial Funding Options
- Evaluate & Determine Preferred Site
- Preparation for City and County Council Presentations
- Preparation for Public Open House -1

28

Operations, Financial Funding Options & Cost Recovery

04

29

Facility Funding Options

- Existing Taxing/Service Jurisdiction
 - Pay for out of existing funding capacity
 - Levy Lid Lift or Excess Levy (done with existing taxing jurisdiction)
- New Tax/Service Area
 - Metropolitan Park District
 - Parks and Recreation Service Area
 - Parks and Recreation District
 - Public Facility District

30

Governing Body

Parks and Recreation District	Parks and Recreation Service Area	Metropolitan Parks District	Public Facility District
Board of five commissioners elected from designated districts for staggered, four year terms.	- If within county: county legislative authority acts ex officio. - If a city or town is included, or the district is in a multi-county area: Governed by an interlocal cooperation agreement.	- If within city, county: legislative authority acts ex officio. - Five commissioners may be elected at the same election creating the district	- PFDs must be coextensive with the boundaries of the jurisdictions that created them. - If used for recreation, can only be county.

31

Election to Form

Parks and Recreation District	Parks and Recreation Service Area	Metropolitan Parks District	Public Facility District
Simple majority	- Simple majority - Requires a feasibility study	Simple majority	- No vote needed - Feasibility study needed.

32

Funding Options and Votes

Parks and Recreation District	Parks and Recreation Service Area	Metropolitan Parks District	Public Facility District
6-year regular levy - Maximum of \$0.60 per \$1,000 - Authorized when 60 % of yes votes when turnout is at least to 40% of those voting in the last general election.	6-year regular levy - Maximum of \$0.60 per \$1,000 - Authorized when 60 % of yes votes when turnout is at least to 40% of those voting in the last general election.	- Two regular property tax levies available - one \$0.50 per \$1,000 assessed valuation and one of \$0.25. - They are considered one levy for the purposes of the levy limits but rank different for proration.	- A 0.2% sales tax which must be approved by a simple majority of voters - Admission taxes - Parking taxes

33

Excess Levies and Debt

Parks and Recreation District	Parks and Recreation Service Area	Metropolitan Parks District	Public Facility District
- Excess levies or operations and capital - GO debt, equal to 1.25% of the assessed valuation within the district. 3/8% may be non-voted - Authorized when 60% of yes votes when turnout is at least to 40% of those voting in the last general election.	- Excess levies or operations and capital - GO debt, equal to 2.5% of the assessed valuation within the district. 3/8% may be non-voted - Authorized when 60% of yes votes when turnout is at least to 40% of those voting in the last general election.	- Excess levies or operations and capital - GO debt, equal to 2.5% of the assessed valuation within the district. 1/4% may be non-voted - Simple majority vote.	GO debt, equal to 0.5% of the assessed valuation within the district.

34

35

MPD Funding Options

- MPD Option 2 provides more levy potential.
- MPD Option 1 is only fractionally smaller.

	Assessed Value (2022)	Debt Limit	Available Rate	Taxable Retail Sales (2021)	Potential Yield	Household Tax Burden
MPD						
Option 1: Smaller	\$5,222,370,087	\$130,559,252	\$0.75		\$3,920,000	\$452
Option 2: Larger	\$5,342,379,694	\$133,559,492	\$0.75		\$4,010,000	\$452
City						
MPD	\$2,656,425,608	\$66,410,640	\$0.75		\$3,990,000	\$452
PFD Sales Tax				\$33,282,328	\$420,000	\$0
P&R District/Area	\$2,656,425,608	\$66,410,640	\$0.60		\$3,190,000	\$362
School District #50						
MPD	\$4,283,831,332	\$107,045,783	\$0.75		\$3,210,000	\$452
P&R District/Area	\$4,283,831,332	\$107,045,783	\$0.60		\$2,570,000	\$362
Hospital District #2

Healthier Together Center Feasibility Study

Workshop 3
April 21, 2023

1

Meeting Agenda

00	Welcome & Overview	8:30am
01	Open House 1 and Survey Feedback	8:35am
02	Design Update	8:40am
03	Operations and Funding	9:00am
04	Discussion	9:20am
05	Open House 2 Input	9:45am
06	Next Steps	9:55am

2

Open House 1 & Survey Feedback

01

3

Open House Summary

Main Themes

- **Facility access** for both young and older people
- Need for a **competition pool**
- Strong desire for the facility to **promote and enable community** building
- **Relief and enthusiasm** for getting the project underway and approved

Voting Results

Preferred Site (In order of preference)

Site	Total Score
Mountain View	74
Golf Course	63
Evan's Vista	5
Jefferson Healthcare	1

Preferred Amenities (In order of preference)

Amenities	Total Score
Cool Water Lap/Competition Pool	303
Warm Water Recreation Pool	297
Spa	79
Multi-Purpose Group Exercise	67
Cardio Weight Fitness	64
Whirlpool / Spa	58
Physical Therapy	45
Child Watch	44
Meeting Room / Birthday Party	26
Classroom / Teaching Kitchen	17

4

Open House Write-In Feedback

Pool:

- Salt Water
- Lazy river
- 50-meter pool
- Diving well

Outdoors

- Accessible Playground
- Pickleball
- Outside patio area near playground

Other Facilities

- Steam Room
- Family Changing Rooms
- Walking Track
- Gym and Indoor Pickleball
- Sound buffering between pools

Parking:

- Paid parking
- Covered Bike Parking

5

Open House Write-In Feedback

General:

- Consider our **kids** and their needs!
- **Concessions** to offset the cost
- Keep costs reasonable otherwise seniors won't come – **Silver Sneakers**
- Consider **maintenance budget** for long term
- Provide **drop-in option** so it's affordable for families and available for tourists
- **We already have** two fitness centers/gyms in town.
- **New gym** for basketball, volleyball, and pickleball

6

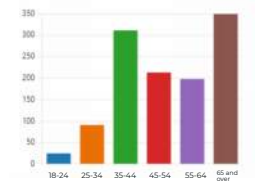

Survey Summary – 1187 Responses

1. Responders primarily between **35-44** and **over 65** years of age
2. Responders primarily from **Port Townsend**
3. Key Amenities: **Warm Water Recreation Pool** and **Competition Lap Pool**
4. Preferred Site: **Mountain View Commons**
5. Activities (1/3 or more of votes):
 - **Recreational Swimming**
 - **Swim Lessons**
 - **Children's Waterplay**
 - **Water Aerobics**
 - **Physical Therapy**
 - **Strength Training & Weights**

7

Survey – 1187 Responses

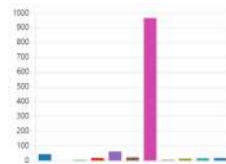

1. What is your age group?

8

Survey

2. What town do you live in or are closest to? (Pick one)

9

Survey

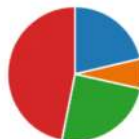

3. What amenities would you like to see incorporated into a new aquatics wellness center? (Pick top 3)

10

Survey

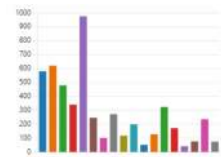

4. What is your preferred site:

11

Survey

5. What activities do you most want to take part in at a new aquatics wellness center? (Pick top 5)

12

- Feedback is **overwhelmingly supportive** of safe, child and family friendly facilities and activities, with **access for all** ages, races, genders, and abilities
- "Thank you. We **need an aquatics center**" (35)
- "**Just a safe, clean, functional pool**, nothing fancy" (17)
- "**None** or Fund other things first" (20)
- "**We don't need another** gym, community kitchen, meeting room, playground, yoga studio, racquetball or gym – we have those." (7)

14

• Pool Functions and Programs • Slides (67) • Lazy River (49) • Competition diving boards and platforms (32) • Swim Teams/clubs for middle/elementary ages (23) • Saline. No/low chlorine (26) • Expanded Hours of Operation (13)	• Indoor Facility Options • Gym with cardio and weight equipment (34) • Indoor Climbing wall (33) • Kids activities (30) • Indoor or covered walking track (20) • Affordable Indoor fitness classes (20) • Steam sauna (26) • Hot Tub/Soaking pool (20) • Private/Separate/Family Changing Rooms (22)
---	--

- **Outdoor Features**
 - Pickleball (10)
 - Accessible Playground (9)
- **Parking**
- **Cost**
 - Affordable please! (23)
 - Concerns about tax base and raising taxes (12)
- **None or Opposed**
 - None - Affordability is the concern (10)
 - Do other things first (10) – Roads, Affordable Housing, Living Wage
 - Jefferson should build its own facility/pools (3)

16

02

15

CONCEPT 1 - RESTORED GOLF COURSE

CONCEPT 2 - HYBRID GOLF COURSE

CONCEPT 3 - SPACE FOR NATURE

CONCEPT 4 - THE COMMONS

IMPROVEMENTS INCLUDE:

- UPGRADE IRRIGATION
- TREE PLANTING (1 YEAR MINIMUM)
- IMPROVED SOIL QUALITY
- REMOVED LAWN PESTS
- NEW TREES
- EROSION CONTROL

IMPROVEMENTS INCLUDE:

- RESTORE NATURAL VEGETATION
- REDUCE PESTICIDE USE
- IMPROVE SOIL QUALITY
- REMOVED LAWN PESTS
- NEW TREES
- EROSION CONTROL

IMPROVEMENTS INCLUDE:

- RESTORE NATURAL VEGETATION
- REDUCE PESTICIDE USE
- IMPROVE SOIL QUALITY
- REMOVED LAWN PESTS
- NEW TREES
- EROSION CONTROL

IMPROVEMENTS INCLUDE:

- RESTORE NATURAL VEGETATION
- REDUCE PESTICIDE USE
- IMPROVE SOIL QUALITY
- REMOVED LAWN PESTS
- NEW TREES
- EROSION CONTROL

18

[illegible]

PROS:

- Prominence from Kearney

CONS:

- Timing of Golf Course Study
- Interrupts linear park approach
- More public interest in Mountain View

39

Existing Service Providers

Public/Non-Profit Aquatic & Rec Facilities

- William Stone Memorial Pool & YMCA of Port Angeles
- YMCA of Sequim
- Clallam Park & Recreation
- Marathon View Pool
- Alta Park Clubhouse & Pool
- Port Ludlow Beach Club
- Headland Family YMCA
- Bainbridge Island Aquatic Center

Public/Non-Profit Rec Facilities (no pool)

- Field Area & Events Hall
- East Shore Conference & Events Center
- Jefferson County Community Center
- Jefferson County Community Center

Private Fitness/Wellness Facilities

1. 121 Training
2. Northwest Mind Body Institute
3. Zen Mountain Project
4. Another Gym
5. Yoga & Fitness
6. Evergreen Fitness
7. Port Townsend Athletic Club
8. Energy Stretch
9. Pilates City
10. Sunset Sea Judo
11. Nordic Mountain Yoga
12. 1212 Fitness Area
13. Next Level Athletics
14. Evergreen Fitness
15. Tumble Gymnastics
16. Pop Up Movement
17. All Bodies Matter
18. Dancing Sky Studio

40

Market Summary

- Opportunities**
 - Large Secondary Service Area
 - Project replaces an existing pool
 - Demographics with an active population that spends on recreation
- Challenges**
 - Small Primary Service Area
 - Demographics with an older population and lower income levels
 - There are a number of other providers
 - Funding development and operations

41

Operations Assumptions

- Four facility options
- First year of operation is 2026
- Public operations

Projected Hours of Operation:

Base:

Days	Hours
Monday - Friday	7:00am - 7:00pm
Saturday	9:00am - 6:00pm
Sunday	Closed
Total Hours Per Week	54

Note: During the school year the pool will be closed from noon to 3pm Monday through Friday.

Options 1-3:

Days	Hours
Monday - Friday	6:00am - 8:00pm
Saturday	8:00am - 6:00pm
Sunday	Closed
Total Hours Per Week	80

Note: During the school year the pool will be closed from noon to 3pm Monday through Friday.

42

Operations Assumptions

Expense	\$1.26M	Expense	\$1.9M	Expense	\$2.2M	Expense	\$2.4M
Revenue	\$0.52M	Revenue	\$1.2M	Revenue	\$1.6M	Revenue	\$1.8M
*Subsidy	\$0.75M	*Subsidy	\$0.75M	*Subsidy	\$0.61M	*Subsidy	\$0.62M
Cost Recovery	41%	Cost Recovery	62%	Cost Recovery	73%	Cost Recovery	74%

* Subsidy = Net Annual Operating Cost

45

Funding Options Using PFD

- Use PFD to leverage sales tax funding
- PFD tax would extend to entire Jefferson County
- Any remaining subsidy could come from options regarding the size of the MPD
- Would require two "yes" votes for the PFD tax and creation (and taxing authority) of the MPD

46

47

Funding Strategy

- Each facility option has different capital cost, expense, and revenue profile
- If PFD and MPD approved, PFD tax lowers the property tax burden of operating the facility.

Facility Options	Capital	Expenses	Revenues	Subsidy
Base	\$37,600,000	\$1,262,000	\$520,000	\$742,000
Option 1	\$41,300,000	\$1,926,000	\$1,191,000	\$735,000
Option 2	\$44,700,000	\$2,244,000	\$1,633,000	\$611,000
Option 3	\$52,700,000	\$2,385,000	\$1,765,000	\$620,000

48

Base Option Example

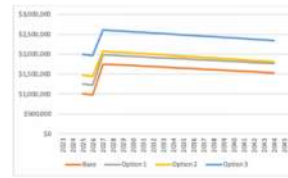

- 85% of capital cost is covered thru a bond (remainder thru earmarks, grants, fundraising)
- Voters pass in 2023.
 - PFD tax collected in 2024
 - MPD tax collected in 2025
- Bond issued in 2025
 - 20 years term
 - 4.5% true cost of debt
- Construction in 2025
- Facility opens in 2027
- MPD Option 1 (smaller area)

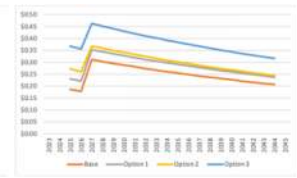

49

MPD Funding Levels Comparison

Levy Amounts

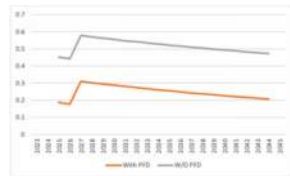

Levy Rates

50

Comparison with PFD

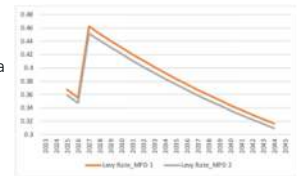

- Base option with and without PFD
- Approximately a \$0.26 spread on use of PFD

51

Comparison of MPD Options

- Option 3 (most costly)
- Larger MPD Option does not appreciably change the rate
- Lower effective rates would require a much larger MPD area

3

Open House 2 & Survey Feedback

01

4

Open House 2 Summary

Main Themes

- Facility amenities for families (**lazy river**).
- Concern for **cost** but a strong desire for the facility
- Potential to provide **community showers** for the unhoused population.
- Concern that the **no voices** are being dispersed.
- Acoustical** concerns in the natatorium

Voting Results

- Site:
 - Majority approval** for Mountain View Site
- Program:
 - Roughly **50/50 split** between **Aquatics Only vs. Full Program**

5

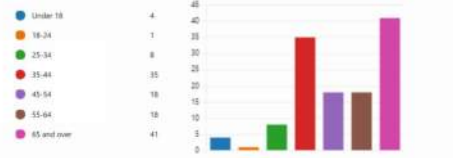

Survey Summary – 125 Responses

- Responders primarily between **35-44** and **over 65** years of age
- Responders primarily from **Port Townsend**
- Mountain View site supported by **77%**
- Preferred Program: Even split between **Aquatics only, Full Program, and None of the Above**
- YMCA managing supported by **65%**

6

Survey

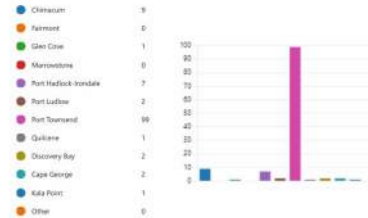

1. What is your age group?

7

Survey

2. What town do you live in or are closest to? (Pick one)

8

Survey

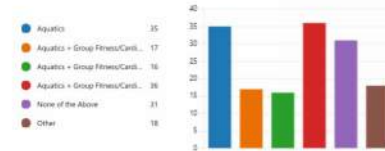

3. Do you support Mountain View Commons as the development site for the new Aquatics Center?

9

Survey

4. Which combination of spaces is your preference for the new Aquatics Center?

10

Survey

5. Do you support the YMCA managing the operations of the new Aquatics Center?

- If YMCA is managing **does one need to join the YMCA?** If so, strongly opposed to this option.
- Strongly support Y continue to manage aquatics **let City staff focus on other things.**
- YMCA has done **the best job.** The staff is wonderful, and the place is always clean and warm!!
- Low pay scale from the Y making it **hard to get and keep guards**

11

Survey – Design Concept Feedback

89 responses

- **More kid/family-friendly features!** Lazy river, water slide, climbing wall, rope swing, ADA playground
- Design looks **nice/great/beautiful!** Go Big! Design for the future
- We **just** need **aquatics**
- Less pretty exterior and **more kid-focused amenities**
- **Keep the Recyclery**, like the funkfactor
- Incorporate **murals/PNW art**
- Like the **natural light**, layout, and flow

12

Concerned/Against Feedback

- Concern of **taking away** from **locally owned businesses**
- **No more taxes** - Take care of what we currently have (**roads**, Cherry Street Project), not add more
- **Too expensive to be supported** by our population
- Don't tear down the existing/ **Fix the existing**
- **What will the cost be to me** to use the facilities? Taxes? Membership?
- **Is the new Aquatics Center a given?** Not enough discussion/opportunity for voting
- Failure to be **fully transparent**

13

Shore Aquatics Precedent

Shore Aquatics 30,000 sf

Renovation	\$6.6M
New/Site	\$7.1M
Contingency*	\$3.6M
Const. Cost	\$17.5M
Escalation**	\$10.1M
Const. Cost	\$27.6M
Soft Cost	\$9.7M
Total Project	\$37.3M

DIFFERENCES:

- Not a 25-yard pool
- 20,000sf of Renovation
- 10,000sf of Addition
- No visibility into pool

* Contingency includes contractor's mark-up, sales tax, and construction contingency. No escalation. Project was designed in 2018 and construction started in 2019. Escalation aligns with start of construction in summer 2025.

33

Last Meeting Recap

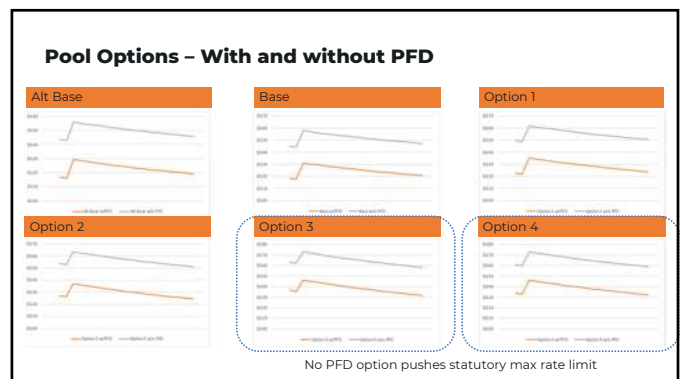

- MPD will be necessary (and potentially sufficient) for most options.
- MPD Option 1 does most of the heavy lifting on the revenues (MPD Option 2 only adds marginally more tax base).
- Jefferson County PFD and sales tax provides additional base of sales tax revenues – reflects some taxation of out-of-community visitor spending.
- PFD sales tax and MPD creation vote would require two votes and more public messaging.

34

Options Financial Summary

Facility Options	Capital	Expenses	Revenues	Subsidy
Alt Base	\$36,309,260	\$1,175,166	\$451,269	\$723,897

Site Plan – Base Plan - 29,700sf

Suggested Parking

- Existing 1925 Building: 28 stalls
- Recyclery: 0 stalls
- Existing Gym: 13 stalls
- Community Center: 65 stalls
- Suggested Parking: 106 stalls

Provided Parking

- On Site: 123 stalls
- Parallel on Blaine: 20 stalls

Total Available Parking: 143 spaces

Note: Revising parking on Blaine to angled parking would add 8 additional spaces.

4

Site Plan - Full Build Out – 40,200sf

Suggested Parking

- Existing 1925 Building: 28 stalls
- Recyclery: 0 stalls
- Existing Gym: 13 stalls
- Community Center: 65 stalls
- Future 10,000SF Addition: 22 stalls
- Suggested Parking: 128 stalls

Provided Parking

- On Site: 128 stalls
- Parallel on Blaine: 20 stalls

Total Available Parking: 148 spaces

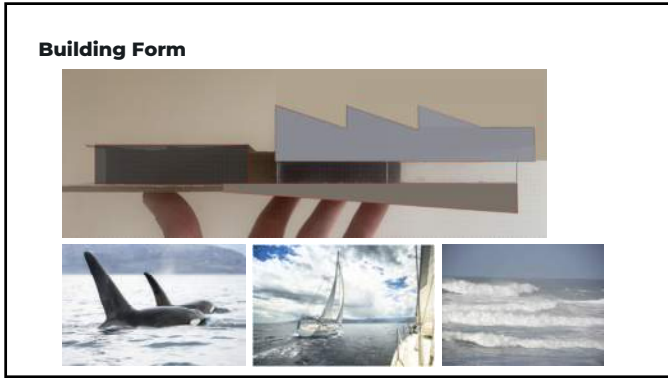

Note: Revising parking on Blaine to angled parking would add 8 additional spaces.

15

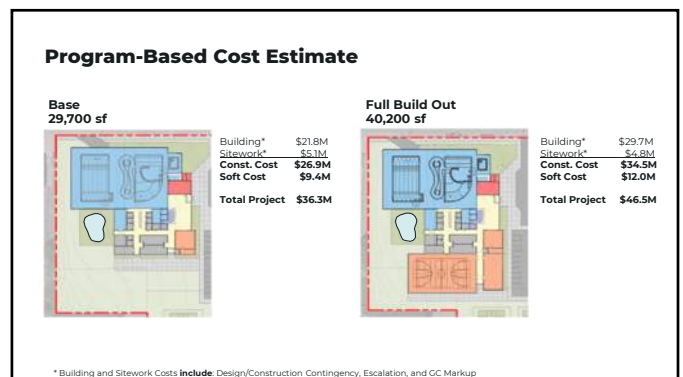

16

Cost Estimate

- Overview
- Building, Site, and Contingency
- Escalation to April 2025
- Soft Costs – 33%

17

18

Detailed Cost Estimate

Base
29,700 sf

Building* \$27.6M
Sitework* \$2.2M
Const. Cost \$31.8M
Soft Cost \$10.4M
Total Project \$42.2M

Full Build Out
40,200 sf

Building* \$34.2M
Sitework* \$5.1M
Const. Cost \$39.3M
Soft Cost \$13.0M
Total Project \$52.3M

* Building and Sitework Costs include Design/Construction Contingency, Escalation, and GC Markup

19

Recommendations for Reductions

- Locate building to set into the site rather than out over grade
- Reduce site scope – parking, grading, etc.
- Bring down scale of building

20

Site Plan – Updated Base Plan

Suggested Parking
Existing 1925 Building: 28 stalls
Recycling: 0 stalls
Existing Gym: 13 stalls
Community Center: 65 stalls
Suggested Parking: 126 stalls

Provided Parking
Community Center: 65 stalls
Food Bank: 45 stalls
Parallel on Blaine: 20 stalls
Total Available Parking: 130 spaces

21

Site Plan – Updated Base Plan with Site Amenities

Suggested Parking
Existing 1925 Building: 28 stalls
The ReCyclery: 0 stalls
Site Amenities: 15 stalls
Community Center: 65 stalls
Suggested Parking: 130 stalls

Provided Parking
Community Center: 65 stalls
Food Bank: 45 stalls
Parallel on Blaine: 20 stalls
Total Available Parking: 130 spaces

22

Site Plan – Updated Full Build Out

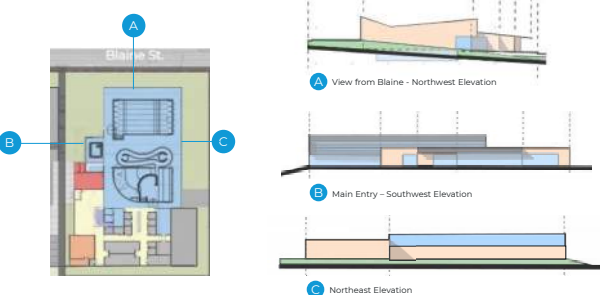

Suggested Parking
Existing 1925 Building: 28 stalls
The ReCyclery: 0 stalls
Community Center: 65 stalls
Site Amenities: 15 stalls
Future 10,000SF Addition: 22 stalls
Future 10,000SF Addition: 22 stalls
Total Suggested Parking: 155 stalls

Provided Parking
Community Center: 95 stalls
Food Bank: 45 stalls
Parallel on Blaine: 20 stalls
Total Available Parking: 160 spaces

23

Elevations

24

Next Steps

- 1. **Target Value Design**
 - Designing to specific allowances by scope
- 2. **Mitigating Risks**
 - Geotech Report
 - Identifying Soft Costs
- 3. **Identifying Alternates**
 - Exterior amenities
 - Site Development

25

Const. Cost \$34.5M
Soft Cost \$12.0M
Total Project \$46.5M

* Contingency = Design/Construction Contingency, Escalation, and CC Markup

37

Public Funding Considerations

Potential funding sources:

- Public Facilities District (PFD) - **Sales tax**
- Metropolitan Parks District (MPD) - **Property Tax**

PFD

- Jefferson Co. PFD sales tax includes some **taxation** of out-of-community **visitor spending**
- PFD combined with an MPD requires **two votes** and more public messaging

MPD

- MPD **will be necessary** (and potentially sufficient) for most options.
- MPD District **Option 1** does most of the **heavy lifting** on the revenues
- MPD District **Option 2** only **adds marginally** more tax base

38

39

PFD Funding

- A 0.2% sales tax which must be approved by a simple majority of voters
- Admission taxes up to 5%
- Parking taxes up to 10%
- General obligation and revenue bonds
- Lodging taxes (for county PFDs only under RCW 36.100.040);
- "State shared" sales tax credits (RCW 82.14.390 and RCW 82.14.485); and
- User charges and fees.

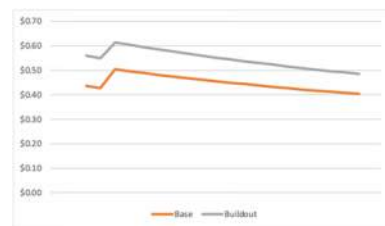

40

Financial Summary

Facility Options	Capital	Expenses	Revenue	Subsidy
Base (Aquatics)	\$36,309,260	\$1,175,166	\$451,269	\$723,897
Full Build Out	\$46,517,939	\$2,120,405	\$1,368,757	\$751,648

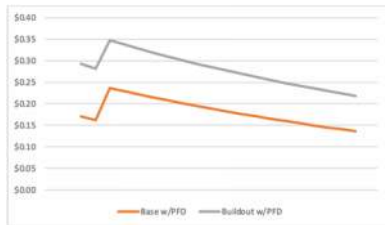

41

MPD ONLY – (85% capital coverage, 20-year debt)

42

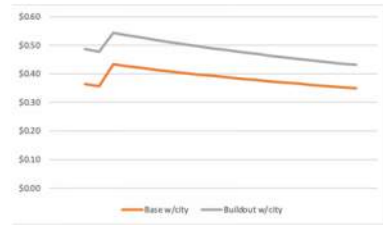

MPD with PFD- (85% capital coverage, 20-year debt)

About a \$0.25 levy rate difference

43

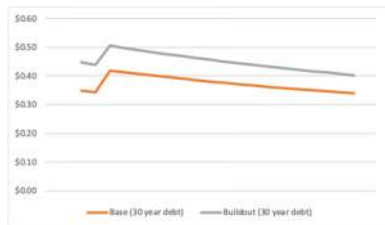

MPD with City \$400K - (85% capital coverage, 20-year debt)

About a \$0.07 levy rate difference

44

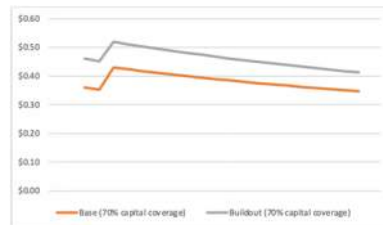

MPD Only - (85% capital coverage, 30-year debt)

About a \$0.09 levy rate difference

45

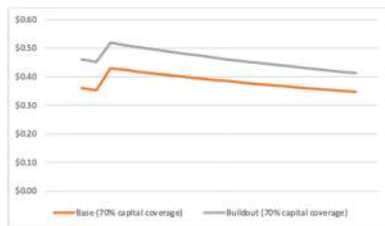

MPD Only - (70% capital coverage, 20-year debt)

About a \$0.07 levy rate difference

46

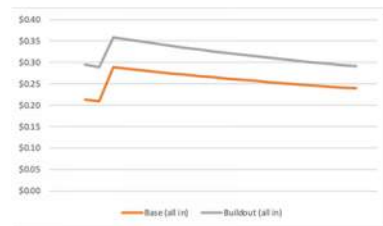

MPD Only - (70% capital coverage, 20-year debt)

About a \$0.07 levy rate difference

47

MPD Only with city \$400K - (70% capital coverage, 30-year debt)

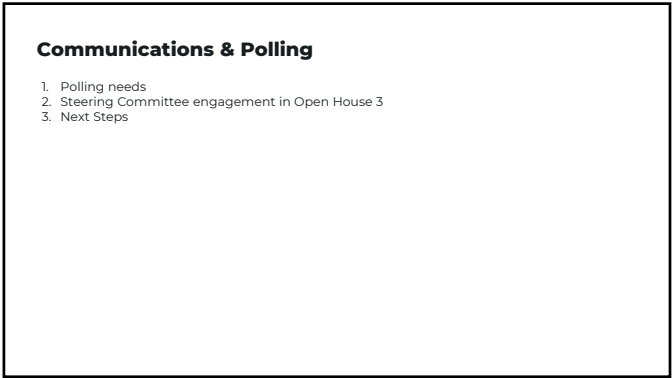

About a \$0.22 levy rate difference

Meeting Agenda

- 00 Welcome
- 01 Funding
- 02 Operations
- 03 Design Update
- 04 Cost Estimate
- 05 Open House 3
- 06 Next Steps & Schedule

2

Funding

01

3

MPD Governance Options

Three alternatives:

- Five commissioners may be elected at the same election creating the district
- Ex Officio for wholly within one city or the unincorporated area of one county
- Multiple cities or county areas, each legislative authority may appoint one or more members to serve as the board via interlocal agreement.
 - At least one member from each represented area
 - When creation of the district is proposed by citizen petition, each city governing body and county legislative authority approves by resolution such designation.
 - Membership of the board is determined through interlocal agreement of each city and county within 6 months of election

4

MPD Debt Discussion

Debt Issuance:

- MPD may issue general obligation debt in an amount equal to 2 ½ percent of their assessed valuations. (RCW 35.61.110)
- Of this 2 ½ percent, ¼ percent may be non-voted debt (debt repayment cap of 20 years). (RCW 35.61.100)
- Voted debt is paid from an excess property tax levy which must be passed by a 60 percent vote, with an election turnout of at least 40 percent of those voting in the last general election.

	Assessed Value (2022)	Debt Limit (total)	Debt Limit (non-voted)
MPD Option 1	\$5,222,370,097	\$130,559,252	\$13,055,925

5

PFD Funding Options

- Any city or group of contiguous cities in a county of less than one million population may create a PFD
- Governed under chapter 35.57 RCW
- PFD is authorized to acquire, construct, own, remodel, maintain, equip, reequip, repair, finance, and operate one or more regional centers
- Regional center means a convention, conference, or special events center, or any combination of facilities, and related parking facilities.
- PFD law changed to also allow PFD to acquire, construct, own, remodel, maintain, equip, reequip, repair, finance, and operate one or more recreational facilities other than a ski area

6

PFD Funding Options

- PFD use for recreational facilities must obtain voter approval (simple majority) to fund each recreational facility or regional center pursuant to RCW 82.14.048(4)
 - Moneys received by a public facilities district from any tax imposed by the public facilities district under the authority of this section must be used for the purpose of providing funds for the costs associated with the financing, refinancing, design, acquisition, construction, equipping, operating, maintaining, remodeling, repairing, and reequipping of its public facilities.
- An independent financial feasibility review under this section is required to be performed prior formation, indebtedness, and long-term lease, purchase, or development.
- Conducted by the department of commerce through the municipal research and services center (MRSC)

7

PFD Funding Options

- PFD boundaries may be coextensive with:
 - Single city
 - Multiple cities/towns
 - Cities/towns and unincorporated areas
- PFD governed by Board with membership
 - Members appointed by legislative members
 - Members appointed by legislative members on recommendations of local organizations

8

PFD Funding Options

- PFD may impose the following for the purpose of funding a regional center:
 - Charges and fees for the use of any of its facilities
 - Admission charges under RCW 35.57.100
 - Up to 5% rate on the admission charge to a regional center
 - Vehicle parking charges under RCW 35.57.110
 - Up to 10% rate on any parking facility that is owned or leased by the PFD
 - Sales and use taxes authorized under RCW 82.14.048 and 82.14.390.
 - Up to 0.2% sales tax
 - The board may accept and expend or use gifts, grants, and
 - donations for the purpose of a regional center.

9

PFD Summary

	Sales Taxes	Admission Tax (Base)	Parking Tax	Total
City	\$620,000	\$42,000	\$0	\$662,000
County	\$1,390,000	\$42,000	\$0	\$1,432,000

- County wide lodging tax only available thru 36.100 RCW
- 2% lodging tax
- Jefferson County
 - 2% lodging tax under RCW 67.28.180(1)
 - 2% lodging tax (credited against the state sales tax) under RCW 67.28.180(2)(a)
 - Jefferson County collected \$779,201 in 2021 on its 2% lodging tax
 - Simple majority needed to pass the lodging tax, additional legal review needed for this option.

10

Financial Summary

Facility Options	Capital	Expenses	Revenues	Subsidy
Base	\$37,182,810	\$1,268,557	\$834,466	-\$434,091
Full Build Out	\$46,517,939	\$2,084,333	\$1,731,761	-\$352,572

- Base Option Budget in 2027
 - \$2.9 M Expense
 - \$1.5 M in debt
 - \$1.4 M in operation
 - \$1.3 M Revenues
 - \$0.9 M in fees
 - \$0.4 M in city contribution
- Only County-wide PFD can support this, no city PFD
- City PFD can lower needed MPD rate
- MPD only option can support needed subsidy (i.e., \$0.35 levy rate)

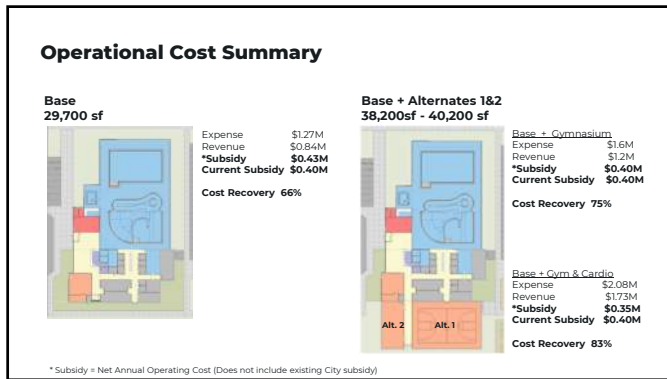

- \$1.6 M in needed subsidy

01

3

Open House 3 Summary

72 sign-ins

Main Themes

- Let's work together to **build the pool**
- Let's **fix** what we have
- Detailed feedback on **rec pool design** and **water aerobics**
- Concern for **taxes**

Voting Results

- Program:
 - Base Plan - 24 votes
 - Full Build Out** - 27 votes
 - Repair & Maintain Existing - 3 votes
- Funding
 - PFD** - 34 votes
 - MPD - 8 votes
 - PFD & MPD - 5 votes

4

Survey Summary – 320 Responses

- Preferred Combination (318 responses):
 - Base Plan** 20%
 - Full Build Out** 40%
 - Do Nothing** 40%
- Funding Approach (224 responses)
 - PFD 106 (33%)**
 - PFD & MPD 113 (35%)**
 - Didn't Answer 86 (26%)**
- Responders primarily between **35-44**, **55-64** and **over 65** years of age
- Responders primarily from **Port Townsend**

5

Survey

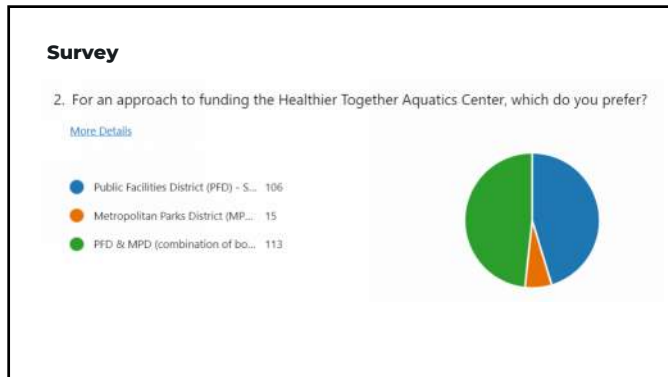

1. Which combination of spaces is your preference for the Healthier Together Aquatics Center?

11

12

Funding – Capital Costs and Operations

- **Fundraising Goal** – **15%** of Capital Costs
 - Federal and State Grants
 - Philanthropy
- **Voter Approved Funding for Capital Cost**
 - **PFD** – Public Facilities District
 - Sales, Admissions, and Lodging Tax
 - **MPD** – Metropolitan Parks District
 - Property Tax
 - **PFD & MPD** Option
- **Additional Donations:**
 - **Land** from the School District – valued at \$1.5-\$2M

13

PFD vs. MPD

PFD Option

- 0.2% Sales Tax, 5% Admissions Tax, & 2% Lodging Tax
- Possible Annual Revenue: \$2.1M
- Average Annual Cost to Resident: Approximately \$40

Advantages:

- Approx. 20-25% paid by non-residents (mostly tourists)
- Requires one vote
- Requires a simple majority

Disadvantages:

- Must be voted on county-wide
- Revenue variable based on economy

MPD Option

- Property Tax based
- Possible Annual Revenue: \$2.1M
- Average Annual Cost to Resident: \$.30/\$1,000 property valuation

Advantages:

- Does not require full county vote
- Can select boundaries (i.e. service areas)

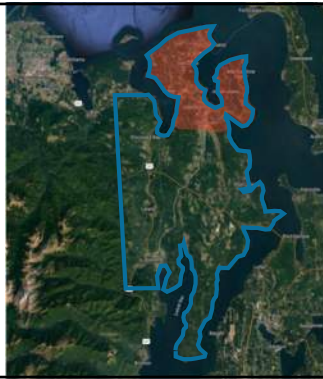

Disadvantages:

- Requires two votes to pass
- Requires a super majority vote on one vote

14

Service Areas

- Primary
- Secondary

15

Meeting Agenda

00	Welcome and Introductions	6:00pm
01	Presentation • Project Background • Vision & Goals • Project Calendar • Guiding Principles • Service Area • Space Program & Needs • Site Evaluation Criteria • Potential Sites & Analysis	6:10pm
02	Community Feedback	6:40pm
03	General Q&A	7:20pm
04	Next Steps	7:50pm

2

Project Background

01

3

Project Background

- Many efforts over the past decades to rebuild the pool/community wellness center
- Previous separate studies were completed by the City, the County, Make Waves!, the YMCA, Jefferson Healthcare, and PT School District, but never all together
- In 2021 the Pool facility failed on a few fronts and is on its last legs despite the City providing significant upgrades over the past few years to keep it open
- Common thread of previous efforts is the strong community desire for the facility
- Past attempts have shown a strong partnership is key for this initiative to move forward with all public entities engaged for the good of the whole community.
- We are all Healthier Together!

4

Project Vision & Goals

02

5

Project Vision

In collaboration with partners and the community, plan for replacing and enhancing the antiquated pool, adding health and wellness components that will meet the needs of the community.

6

Goals of Study

- Increase opportunities for people to live an active and healthy life.
- Plan for the future of Jefferson County
- Select a site and rebuild the pool, including health and wellness component to meet the needs of the community
- Engage Jefferson Hospital District, Jefferson County, Port of Port Townsend, Port Townsend School District, Jefferson Aquatics Coalition the YMCA, and all previous partners of this effort.
- Plan for operations and financing for this effort.

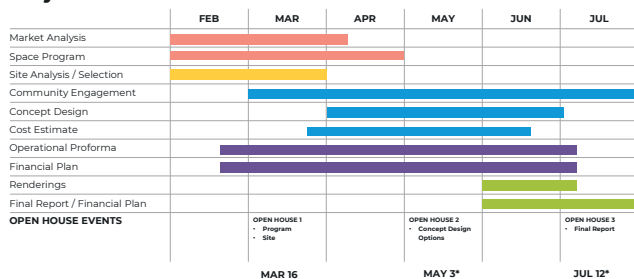

7

Schedule Overview

03

8

Project Calendar

* Dates subject to change

9

Project Guiding Principles

04

10

Expression of Community and Place

11

Project Guiding Principles

Project Vision

- Serves significant unmet needs for community health & wellness
- Replaces existing antiquated swimming pool
- Integrates partner & community input
- Provides welcoming safe & accessible environment for all
- Supports diversity, equity, inclusion & belonging
- Offers multipurpose spaces to maximize facility use
- Envisions legacy project for County & City
- Represents character that fits Jefferson County
- Builds on past efforts and recognizes value of previous efforts

12

Project Guiding Principles

Environmental

- Integrates sustainable & resilient design practices
- Offers Indoor-Outdoor connections & programming opportunities

Financial

- Establishes viable financial plan for project funding
- Optimizes value of the budget (capital & operational)
- Develops realistic budget based on today's construction cost
- Embraces full potential of partnership opportunities

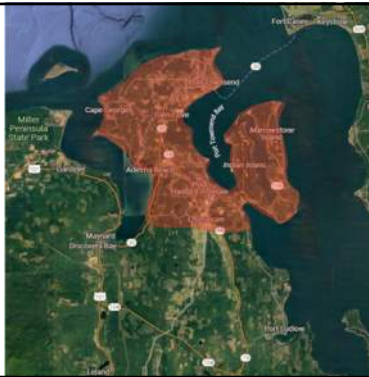

13

Potential Primary Service Area

Health/Wellness

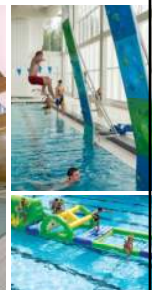

17

Lap / Competition Pool – Cool Water

Example Activities:

- Swim Lessons
- Exercise / Lap Swim
- Water Walking
- Deep Water Group Exercise
- Swim Team Practice/Competition
- Swim Clubs
- Water Polo
- Lifeguard Training
- Recreation

18

Recreation Pool – Warm Water

Example Activities:

- Swim Lessons (group / private)
- Children's Waterplay
- Teen Waterplay
- Aerobic Exercise
- Therapy
- Rehab

19

Cardio-Weight Fitness Room

Example Activities:

- Health & Wellness
- Strength Training
- Cardio Workout
- Functional Training
- Personal Training
- Rehabilitation
- Physical Therapy
- Fitness Assessment
- Equipment Instruction

20

Multi-Purpose Group Exercise Room

Example Activities:

- Health & Wellness
- Aerobic Exercise
- Cycling Classes
- Yoga / Pilates
- Gentle Motion Classes
- Meditation
- Dance
- Martial Arts
- Tai Chi

21

Classroom | Teaching Kitchen & Birthday Parties

Example Activities:

- Health & Wellness Classes
- Seminars
- Nutrition Classes
- Cooking Classes
- Continuing Education
- After School Programs

22

Physical Therapy

Example Activities:

- Therapy
- Rehabilitation
- Healthcare Access
- Exam Rooms
- Mind & Body Wellness

23

Site Evaluation Criteria

07

24

Site Evaluation Criteria

Development Capacity

- Accommodates Building and Parking
- Enhances Adjacent Context
- Minimizes Impact to Existing Pool Operations

Economic Viability

- Prominent Frontage and Visibility
- Cost Recovery Potential
- Proximity to Compatible Amenities
- Partnership Potential

Supports Diversity, Equity & Inclusion

- Preserves & Enhances Outdoor Recreation Amenities
- Convenient Access to Bus & Bike Routes

Regulatory Approval

- Site Selection Consistent with Current Zoning
- Avoids Potential Environmental Impact
- No Extended Approval Process

Community Support

- Site Selection Supports Community Buy-in
- Site Selection Avoids Controversy
- Supports South County Participation
- Timing of Site Decision With This Study

25

Potential Sites & Analysis

08

26

Site Options

Open House Write-In Feedback

Pool: - Salt Water - Lazy river 50-meter pool - Diving well	Outdoors - Accessible Playground - Pickleball - Outside patio area near playground
Parking: - Paid parking - Covered Bike Parking - Expanded Parking	Other Facilities - Steam Room - Family Changing Rooms - Walking Track - Gym and Indoor Pickleball - Sound buffering between pools

6

Open House Write-In Feedback

General:

- Consider our **kids** and their needs!
- Concessions** to offset the cost
- Keep costs reasonable otherwise seniors won't come – **Silver Sneakers**
- Consider **maintenance budget** for long term
- Provide **drop-in option** so it's affordable for families and available for tourists
- We already have** two fitness centers/gyms in town.
- New gym** for basketball, volleyball, and pickleball
- The City should **not compete with existing businesses** like yoga, meditation, etc.

7

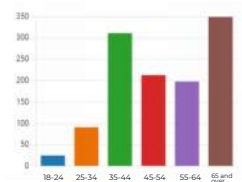

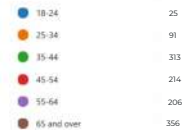

Survey Summary – 1,205 Responses

- Responders primarily between **35-44** and **over 65** years of age
- Responders primarily from **Port Townsend**
- Key Amenities: **Warm Water Recreation Pool** and **Competition Lap Pool**
- Preferred Site: **Mountain View Commons**
- Activities (1/3 or more of votes):
 - Recreational Swimming**
 - Swim Lessons**
 - Children's Waterplay**
 - Water Aerobics**
 - Physical Therapy**
 - Strength Training & Weights**

Survey "Dream Big" Feedback

Summary:

- Feedback is **overwhelmingly supportive** of safe, child and family friendly facilities and activities, with **access for all** ages, races, genders, and abilities
- "Thank you. We **need an aquatics center**" (35)
- "**Just a safe, clean, functional pool**, nothing fancy" (17)
- "**None** or Fund other things first" (20)
- "**We don't need another** gym, community kitchen, meeting room, playground, yoga studio, racquetball or gym – we have those." (7)

14

Survey "Dream Big" Feedback

- Pool Functions and Programs**
 - Slides** (67)
 - Lazy River** (49)
 - Competition diving boards and platforms (32)
 - Swim Teams/clubs for middle/elementary ages (23)
 - Saline**. No/low chlorine (26)
- Expanded Hours of Operation** (13)
- Indoor Facility Options**
 - Gym with cardio and weight equipment** (34)
 - Indoor Climbing wall** (33)
 - Kids activities (30)
 - Indoor or covered walking track (20)
 - Affordable Indoor fitness classes (20)
 - Steam sauna (26)
 - Hot Tub/Soaking pool (20)
 - Private/Separate/Family Changing Rooms (22)

15

Survey "Dream Big" Feedback

- Outdoor Features**
 - Pickleball (10)
 - Accessible Playground (9)
- Parking**
- Cost**
 - Affordable please!** (23)
 - Concerns about tax base and raising taxes (12)
- None or Opposed**
 - None - Affordability is the concern (10)
 - Do other things first (10) – Roads, Affordable Housing, Living Wage
 - Jefferson should build its own facility/pools (3)

42

Funding – Capital Costs and Operations

- **Fundraising Goal** – 15% of Capital Costs
 - Federal and State Grants
 - Philanthropy
- **Voter Approved Funding for Capital Cost**
 - **PFD** – Public Facilities District
 - Sales, Admissions, and Lodging Tax
 - **MPD** – Metropolitan Parks District
 - Property Tax
 - **PFD & MPD** Option
- **Additional Donations:**
 - **Land** from the School District – valued at \$1.5-\$2M

43

PFD vs. MPD

PFD Option

- 0.2% Sales Tax, 5% Admissions Tax, & 2% Lodging Tax
- Possible Annual Revenue: \$2.1M
- Average Annual Cost to Resident: Approximately \$40

Advantages:

- Approx. 20-25% paid by non-residents (mostly tourists)
- Requires one vote
- Requires a simple majority

Disadvantages

- Must be voted on county-wide
- Revenue variable based on economy

MPD Option

- Property Tax based
- Possible Annual Revenue: \$2.1M
- Average Annual Cost to Resident: \$.30/\$1,000 property valuation

Advantages:

- Does not require full county vote
- Can select boundaries (i.e. service areas)

Disadvantages:

- Requires two votes to pass
- Requires a super majority vote on one vote

8	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Swim Lessons;Children's Waterplay;Recreational Swimming;Birthday Parties;Competitive Swimming;	
9	55-64	Port Townsend	Dry Sauna;	Mountain View Commons (3.9 acres)	Tai Chi/Meditation;	I couldn't select "None" in any of the above options. As a community we can't afford this facility. Cost data was not presented. This feels like a sales job instead of a neutral exploratory process. Even the name of the project is a sales job. The City should not be in the position of trying to sell something especially since it will eventually be on a ballot.
10	45-54	Port Townsend	Dry Sauna;	Mountain View Commons (3.9 acres)	Tai Chi/Meditation;Dance;	What's going to happen to the spaces that we already have? A lot of these activities (except swimming) already occur in the PT Community Center and other gyms? Why is the City in cahoots with the Y (who decided they walk on water when they can't even keep the existing gym at Mtn View clean)? Is the City in competition with the County facilities and programs that we already have? Is the City intent on putting private gyms out of business?
11	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Strength Training/Weights;Yoga/Pilates;Healthy Cooking Classes;	Bodywork/massage Indoor sports/basketball, volleyball Climbing wall Art space/therapy
12	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Physical Therapy;Water Aerobics;Yoga/Pilates;	
13	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Water Aerobics;	For funding maybe a GoFundMe and/or contact Richard Geer, et. al.
14	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Swim Lessons;Recreational Swimming;Competitive Swimming;Birthday Parties;	Aquatics climbing wall, lazy river
15	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;	Indoor or covered walking track, lazy River. I think it's really important to have activities for youth: climbing wall, play area, birthday party room, etc. We need to support our young people and families and encourage diversity. MVP has an existing vibrant social community atmosphere. We meet and socialize while exercising, which shows the community aspect can be realized without a fancy facility. We can go out for coffee or breakfast and support our local businesses. I think a salt water pool would be a real draw, especially for folks with sensitive skin or allergies. THANK YOU!
16	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Health and Wellness Classes;	Indoor walking/running track

Dream Big: Fix the Roads!!!! I can't even take the survey since you are asking questions about things I may not want without requiring an answer. Just goes to show, if local government needs to do a survey that requires answers to all their questions and there are no options for "None of the above" they are out of touch. So, disregard any of my answers above and replace them with "None of the above". We've been down this road so many times. If you want to build it cool, but don't make us property tax payers responsible for something we may never use. Add to your survey: "Are you willing to 'pay for use' instead of tax payer subsidized?" I suspect the answer is No. If yes, great. Have a private entity come in and make it happen. They would most likely conduct a "real feasibility survey" and draw their own conclusions. Roads, Water, Sewer, Public Safety seriously need to be your priority. Our roads are so embarrassing.

125	45-54	Port Townsend	Dry Sauna;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Swim Lessons;Physical Therapy;Recreational Swimming;Competitive Swimming;Aerobic Exercise;	
I only checked one category each in item numbers 3 and 5 above, because the survey wouldn't submit if I didn't - talk about no real choice - As is often the case, there is no option for a dissenting opinion. As nice as an aquatic center would be, including all the amenities noted above, none of it should be built if either the citizens of Port Townsend or Jefferson County will be required to pay one cent for it, now or ever. The taxpayers here already have a significant financial burden, with more raises upcoming. When all our streets are paved, our library, emergency medical services and mental health providers have every dime they need, and we are out of debt, then we can consider totally discretionary expenditures like a new aquatics center. Every project like this adds to the cost of living here, the exact opposite of what we say we are trying to accomplish. Over and over and over, those with wealth burden those without by proposing "improvements" like this. Please, please stop.

just the swimming pool. Most other activities are already available all over town. Creating an all in one with one big membership fee will take membership fees away from local businesses who cannot compete with all the amenities under this one roof. Also, a community shower room open for all the public to come use for a very small fee (maybe even free with coin operated water). A good many in our community would benefit greatly by being able to get cleaned up - it's a starting point towards 'healthy'.

A more centralized location! The old tri area campground in chimacum across from HJ Park would be a great location!!! Lazy river, rope swing
Outside of city limits. With the Hadlock sewer system coming, there is no reason that it has to be built inside the county limits when it is going to take years to build. This is a misguided use of taxpayer monies—it sounds like the hospital is wanting more space and marketing it as something that will help the community. This is not accessible to south county. What about surveying outside of city limits? No reason that the population doesn't support this—the county is able to pull strings when they want to.						
141	25-34	Chimacum	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Swim Lessons;Birthday Parties;	Who puts a freaking kitchen in an Aquatic Center? Ridiculous.

I would like to see a waterside, or lazy river
185	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Water Aerobics;	

						Wellness for all community members, a place for swim teams to train, warmer pools for young children to learn to swim, and adults of all ages to get exercise. This is my big dream. The exact location should not take away from other wellness opportunities like golfing but rather expand wellness opportunities. Choosing a location with more acreage or at Mountain view where future expansion of even more wellness activities would be amazing, improvements to current playground, adding a basketball court, and other ideas for physical wellbeing, creating a large wellness recreation area would be dreamy. Golf across the street with walking trails, all of this is dreamy.

Lap pool 50 yard length with regulation number of lanes is essential for competitive swimming. It's important for local kids to have this option. An outdoor kids water park would be amazing! More indoor facilities for working out- gyms with weights and machines, rooms for yoga and Pilates classes, basketball and racketball courts, indoor walking track. Outdoor- pickle ball, basketball, tennis ball courts. An inclusive playground structure. I don't care where it's located. As long as it doesn't jeopardize more housing. Planners should decide the site, not the public. This is my dream to have a state of the art recreational facility in PT. I would also be very happy with just the pool. But you said to dream big. Our community values health and fitness and this would be a huge resource available for all ages and stages. Thanks for working on this project!!!

Standard water volleyball courts have a similar measurement to the sand court. The court should measure 30 ft x 60 ft and use a 24-foot net. This size can be adjusted down however. I believe our pool south is about 40 x 20.
249	65 and over	Port Townsend	Whirlpool;Dry Sauna;	Evan's Vista (14 acres)	Strength Training/Weights;Tai Chi/Meditation;	Steam room
250	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Port Townsend Golf Course (58 acres)	Competitive Swimming;Strength Training/Weights;Swim Lessons;Yoga/Pilates;	I'd love an outdoor running trail. I'd be happy with either the golf course or Evans vista sites- the golf course is more conducive to outside running. What about a mindfulness walking trail around the prairie?

						Individual Family restrooms where a parent and child(ren) could get ready together.
251	45-54	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Evan's Vista (14 acres)	Swim Lessons;Recreational Swimming;Children's Waterplay;Strength Training/Weights;	Locker Rooms/Shower Rooms/Restrooms that are biological sex specific for privacy (example: no biological males who identify as females allowed in the biological female rooms). Perhaps provide some individual private changing rooms that are gender neutral would help with this issue.

This would include bars at different heights and angles, swim in place technology for at least 2 people at a time, a shallow wedge walk-in, etc. Have both PT with instructor and free time in this pool. Also have a lazy river and a great indoor play area for children (see Lynnwood, WA pool) ages 0 - 12. This is why the golf course is a better site. There is more area to do more things. It would also be possible to have an outdoor water play area. As for the indoor pools, keep it bright, light colors, and have available for public use swim boards, swim noodles, etc. Do NOT have arm wing inflatables available. They are dangerous. If you could have a swim slide tube for both adults and children, that would also be great!
294	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Competitive Swimming;Swim Lessons;Children's Waterplay;Strength Training/Weights;	Climbing wall, indoor soccer area, indoor track, healthy snack bar

That is a spectacular facility with people of all ages getting the most out of it. It's hard to commute 45 minutes each way but we do it because that place offers a little of everything and our local Mountain View pool is dirty and doesn't offer much. There isn't enough talk about how water safety classes for both children and adults would benefit the community! We would also benefit from having a fitness facility that is reasonably priced.
302	25-34	Quilcene	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Strength Training/Weights;Swim Lessons;Recreational Swimming;Aerobic Exercise;Birthday Parties;

Many people can't afford \$50-\$70 per month at the local gyms, and we certainly can't!!! We're on a limited \$5 budget, but still deserve to have an affordable way to stay healthy. We need a lap pool, water aerobics, weights for strength training, aerobic exercise. Yes!
330	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Community Meetings;	Use the money for some other enterprise. This community cannot find workers now to provide most services. Where does the Y think they are going to find the workers? The Y is notorious for dreaming big and making promises that create infrastructure- buildings, swimming pools and child care, etc and then providing only minimal \$\$\$ to pay the workers.
331	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Recreational Swimming;Swim Lessons;Physical Therapy;Water Aerobics;	
332	45-54	Port Townsend	Dry Sauna;Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Water Aerobics;Scuba Training;Yoga/Pilates;Dance;Physical Therapy;	Yoga and meditation classes. Dance lessons of all kinds, are my top choice.
333	18-24	Glen Cove	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Recreational Swimming;Water Aerobics;Physical Therapy;Scuba Training;Competitive Swimming;	Certainly not at the golf course. Not all of the land that the golf course encompasses is buildable. You cant build where the pond is. You cant do it where all the water lines are. If anything it should be centrally located like mountaview. The pedestrian infrastucture needs to be really well thought out
334	55-64	Port Townsend	Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Strength Training/Weights;Health and Wellness Classes;Healthy Cooking Classes;	Bowling alley Skating rink

						An outdoor pool! Washington's climate is warming (unfortunately) and it has been a shock to realize there are no outdoor pools available for little kids. Also: SWIM LESSONS. I have a 2yo and 4yo and have not yet been able to have lessons for them due to lack of availability, which is frightening given that PT is surrounded by bodies of water. A toddler/under-5 wading pool or swim area (where they won't be scared by bigger kids splashing) would also be wonderful. A splash pad and an indoor play area in the pool, also amazing! Please please please don't neglect the needs of the families in this community, even though many of us are busy with work and children's bedtimes, and thus unable to attend public meetings. We still need local community activities and services for our children. (Plus, including children's attractions in the new pool would draw families from the surrounding peninsula and bring money to local businesses and restaurants. Currently we know dozens of families who drive Sequim or even Bainbridge for swimming lessons, summer pool days, etc— It's really sad not to be able to foster that sort of community in our own hometown.) Thank you for taking the needs of children and families into consideration!
375	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Recreational Swimming;Yoga/Pilates;	
376	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;	Sauna, different temperature hot tubs and a cold dunk pool. This would be so healing for our community.

408	65 and over	Chimacum				I wish Port Townsend and Jefferson county have any thought to the surrounding areas. It would be really nice to have an aquatic center in Chimacum or hadlock. The schools could really use to have a pool in this area for the young kids and adolescents. It seems like even though we pay taxes and help this cause we get pretty much no consideration, there should be so sort of option of other locations more in the middle of both towns to have the new aquatic center. It only seems fair to put it in the middle since community tax dollars are paying for it. Is there anywhere near the airport this could possibly go?
409	25-34	Port Hadlock-Irondale	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Recreational Swimming;Aerobic Exercise;

444	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Scuba Training;Birthday Parties;	I would absolutely LOVE indoor and outdoor water play areas for the kids. We have one child at Blue Heron and another child at Salish Coast and need more child-friendly activities for them in town. It would be amazing. There are so many younger families moving to PT, and I think something like this would be a huge benefit to the growing community of younger families. Swim classes, however, are my number one priority. Our son is really into sailing and our daughter wants to start learning (she is only 7), but they need to be very confident in the water. It's unfortunate that swim lessons are no longer offered at the YMCA because of all towns, this one should produce kids who are very strong swimmers given our connections to the water.
445	35-44	Port Townsend	Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Competitive Swimming;Aerobic Exercise;Strength Training/Weights;Yoga/Pilates;	Brian from north beach would love this to be considered... Incorporating an engineered municipal natural swimming pool, as has been done already in Europe Canada and here in the USA, would be an addition to this project that would promote wellness , Education , Nature , aquatic recreation , beauty and tourism ... these pools offer chemical free swimming, lower maintenance... Check out Natural Swimming Pools (NSP) Thanks, Brian-
446	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Birthday Parties;	
447	25-34	Port Hadlock-Irondale	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Aerobic Exercise;Recreational Swimming;Water Aerobics;	Childcare on site so parents can exercise and have a break while knowing their kids are safe. Thank you!!! I'm proud to be raising my children here and so excited for this project.
448	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Strength Training/Weights;Health and Wellness Classes;	Masters' swim program focused on lap swimming and training.
449	55-64	Port Townsend	Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Recreational Swimming;Birthday Parties;	
450	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Warm Water Recreation Pool;	Jefferson Healthcare (1 acre)	Swim Lessons;Water Aerobics;Physical Therapy;Children's Waterplay;Recreational Swimming;	
451	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;	We need a pool. All the rest is crazy. The schools and community center have gyms, classrooms and kitchens. We have private fitness gyms, yoga and dance centers. Lots of places for community meetings - like the Fort Warden community meetings we had on the pool. The new hospital should have its own therapy facilities-not every wish needs to be included in a single building. This whole process is crazy. And stop with the rush, and find out why we can't move the recylclery, do some or all of this on fairground property, and if the Evans Vista site is actually legally available. And you have the nerve to say decisions haven't been made.... yet everything needs to be decided by July.
452	55-64	Port Townsend	Dry Sauna;Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Birthday Parties;Community Meetings;	How about fixing city infrastructure first before wasting more time and money for facilities that will be so over priced most here won't be able to afford to use.
453	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25- yard);Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;	I would not like to see weight training or racquet ball - we have local private business that offer those activities. And, this mega swim /gymnasium palce should be sized to fit this small town in ways that do not threaten local private athletic clubs. Also, an outdoor pool in this climate would be ridiculous.
454	65 and over	Port Townsend	Dry Sauna;Whirlpool;	Jefferson Healthcare (1 acre)	Water Aerobics;Physical Therapy;Strength Training/Weights;Yoga/Pilates;Community Meetings;	A system that doesn't require chlorine of possible. Ability to open the pool to the outdoors

476	35-44	Port Townsend	Dry Sauna;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Dance;Yoga/Pilates;Cycling Classes;Strength Training/Weights;Aerobic Exercise;	It would be so wonderful to have a recreation center/department that offered exercise and other classes to the community at an affordable price! I would be very excited for this and know others who would be as well.
477	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Strength Training/Weights;Swim Lessons;Recreational Swimming;Cycling Classes;Health and Wellness Classes;	Altitude room! Saunas and soaking pools.
478	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Competitive Swimming;Birthday Parties;	Please make this pool child-friendly! I'd love to see this also as a competition pool that can attract a great swim team. The port angeles pool is great-replicating that as much as possible.
479	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;Recreational Swimming;	Slide like at Bainbridge? Hot tub, of course.
480	25-34	Port Hadlock-Irondale	Whirlpool;	Port Townsend Golf Course (58 acres)	Healthy Cooking Classes;Cycling Classes;Strength Training/Weights;Nutrition Classes;	Ping Pong tables for regularly scheduled competition/league-type play.
481	65 and over	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Jefferson Healthcare (1 acre)	Water Aerobics;Physical Therapy;Recreational Swimming;	
482	65 and over	Chimacum	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Port Townsend Golf Course (58 acres)	Aerobic Exercise;	The pool is getting cooler again-yuck! I would like a moderately warm pool for vigorous exercise classes. I can't answer question #3 correctly, because that is not an option. Temps suggested for lap swimming are too cold for us (available in literature), but the photo for warmer temps is not of an exercise class. I am not alone; our class has been 50+ members in our town with lots of retired people. We need a facility for us!
483	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Dance;	
484	45-54	Port Townsend	Whirlpool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Jefferson Healthcare (1 acre)	Recreational Swimming;Competitive Swimming;Physical Therapy;	Masters Swim Club/Team
485	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Evan's Vista (14 acres)	Strength Training/Weights;Recreational Swimming;Birthday Parties;Aerobic Exercise;Children's Waterplay;	A waterside similar to Sequim or Bainbridge. A lazy river. A facility that covers affordable exercise options for all ages. A place children have a warm and fun place to swim. Water exercise options.
486	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Physical Therapy;	
487	55-64	Chimacum	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Jefferson Healthcare (1 acre)	Strength Training/Weights;Cycling Classes;Recreational Swimming;Yoga/Pilates;Water Aerobics;	
488	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Competitive Swimming;Children's Waterplay;Water Aerobics;Recreational Swimming;	Please consider the needs for children and young families- this includes swim club and swim team.
489	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Swim Lessons;Recreational Swimming;Strength Training/Weights;Children's Waterplay;Competitive Swimming;	Indoor climbing wall!
490	45-54	Port Townsend	Dry Sauna;Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Health and Wellness Classes;Dance;Aerobic Exercise;Recreational Swimming;Yoga/Pilates;	Some kind of Las Vegas style water show. Salt water safety classes, need to be included. Education about the water around here, what to do on the beach if needed, how the tides work, etc.
491	45-54	Port Townsend	Warm Water Recreation Pool;Whirlpool;Dry Sauna;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Birthday Parties;	
492	55-64	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Swim Lessons;Competitive Swimming;Children's Waterplay;Scuba Training;Strength Training/Weights;	Deep end with a diving board seems like it's a no-brainer: scuba, deep water aerobics, rope swing, kayak rolling...
493	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Physical Therapy;Recreational Swimming;Water Aerobics;	8 lanes with part being deep end. This would allow swim teams to operate 6 lanes and two for lap swimmers.
494	45-54	Port Townsend	Dry Sauna;Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Dance;Children's Waterplay;Water Aerobics;	Lazy River for kids (fun!) and seniors (resistance walking)
495	55-64	Port Hadlock-Irondale	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Recreational Swimming;Birthday Parties;	On a transit stop.
496	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Physical Therapy;Recreational Swimming;Cycling Classes;Yoga/Pilates;Competitive Swimming;	Plenty of UNDERCOVER bike parking.

498	55-64	Port Townsend	Warm Water Recreation Pool;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Recreational Swimming;Water Aerobics;Aerobic Exercise;Strength Training/Weights;Community Meetings;	
499	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;Dry Sauna;	Evan's Vista (14 acres)	Physical Therapy;Recreational Swimming;Health and Wellness Classes;Scuba Training;Tai Chi/Meditation;	A slide! And dog day, the day before annual cleanup!
500	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Competitive Swimming;Children's Waterplay;	Diving pool
501	18-24	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Scuba Training;Swim Lessons;Competitive Swimming;Recreational Swimming;Health and Wellness Classes;Children's Waterplay;	Diving, including a high dive. Slide. Accessible to all.
502	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Physical Therapy;Recreational Swimming;Competitive Swimming;	WATER SLIDE!
503	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Swim Lessons;Recreational Swimming;Competitive Swimming;Children's Waterplay;Water Aerobics;	
504	25-34	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Evan's Vista (14 acres)	Recreational Swimming;Competitive Swimming;Swim Lessons;Water Aerobics;Strength Training/Weights;	Steam Room; more than 6 lanes for the lap pool
505	35-44	Port Townsend	Whirlpool;Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Swim Lessons;Aerobic Exercise;Cycling Classes;Yoga/Pilates;Strength Training/Weights;	Indoor track and basketball courts

506	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Strength Training/Weights;Recreational Swimming;Yoga/Pilates;	A big fancy swim center is an awesome idea... but when it really comes down to it the most basic needs are 25 yard lap lanes and a pool with lots of open hours from early morning through early evening and consistently available swim lessons for kids. Everything else is gravy on top.
507	45-54	Port Hadlock-Irondale	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Yoga/Pilates;Tai Chi/Meditation;Birthday Parties;Strength Training/Weights;	Water slide;diving boards; climbing wall
508	45-54	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Water Aerobics;Physical Therapy;Yoga/Pilates;Aerobic Exercise;Cycling Classes;	A lazy river feature would be amazing!
509	25-34	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Dry Sauna;Warm Water Recreation Pool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Tai Chi/Meditation;Strength Training/Weights;Health and Wellness Classes;	
510	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Port Townsend Golf Course (58 acres)	Competitive Swimming;Tai Chi/Meditation;Recreational Swimming;Strength Training/Weights;Nutrition Classes;	
511	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Jefferson Healthcare (1 acre)	Physical Therapy;Recreational Swimming;Dance;Community Meetings;Health and Wellness Classes;	Lazy river
512	45-54	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Swim Lessons;Water Aerobics;Physical Therapy;Recreational Swimming;Children's Waterplay;	Warm, clean,
513	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Recreational Swimming;Strength Training/Weights;Health and Wellness Classes;Healthy Cooking Classes;Nutrition Classes;	I worry about how big the tax burden will be for property owners.
514	35-44	Port Townsend	Dry Sauna;	Evan's Vista (14 acres)		Climbing gym
						pool management, living wage & affordable housing for lifeguards, and right scale and complexity limit how "big you can dream."
						Consider that we're still in an international lifeguard shortage, and that 2-3 guards are needed at all times to open.
						The more complicated the pool facility, the more guards needed, every shift.
						In January 2022, at 56, I became a part time lifeguard for the sole reason of keeping the pool open. The starting pay was \$15/hr, and lead guards make \$17. Certification requires 60 hours of unpaid training and monthly in service on weekends. Huge sacrifice.
						13 months later I'm the longest running lifeguard. Why? You can make more walking in off the street at McDonalds. Five of nine guards are retired or semi-retired, own homes and have another income. Δ this is NOT a healthy socio-economic model.
						So as we dream big, also helicopter out to the "much big picture": the minimum legal requirement for an open pool is two lifeguards/shift. The more water features you add, the more guards you need. Three guards = a reasonable minimum for Mountain View pool, a very small & simple facility.
						More guards are needed during lessons, water classes; instructors can't serve as lifeguards when teaching.
515	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna; Whirlpool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Recreational Swimming;Physical Therapy;Children's Waterplay;Swim Lessons;Scuba Training;	At Mountain View, we have slowly rebuilt staff up to nine guards; it takes

I always hated being a child and if I wanted to go to a pool we had to drive to Sequim. I also think though with any expansion there has to also be the conversation of housing. I have lived my whole life in the area and I love the community, but with rising prices and new people moving in and jacking up the housing prices I am worried that I soon will be forced out of the town I love and grew up in. I know this survey is about the pool, but if you want to expand and to be inclusive to younger families than housing needs to be a part of the conversation.

I live in the county and not in any of the towns listed. My zipcode is Port Townsend, but that includes a very large area around Discovery Bay, Cape George Road, Kala Point, etc, that is not in the city limits of Port Townsend.
543	65 and over	Port Townsend	Whirlpool;	Jefferson Healthcare (1 acre)	Scuba Training;	NONE OF THE ABOVE ANSWERS. Way to rig a survey into what you want to hear. Absolutely no choices given for none of the above or a write in. I'd like to see you focus on water, sewer, public safety and roads. I want my tax money to be spent on roads which are quite honestly embarrassing. All use the roads. Aquatics Center is great but only as a pay to use not funded by our tax dollars.
544	65 and over	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Evan's Vista (14 acres)	Recreational Swimming;Water Aerobics;Physical Therapy;Swim Lessons;Yoga/Pilates;	A separate pool for warm (physical therapy type) rehab work and for shallow water exercise/aerobics class, walking, stretching and balance. Deep water pool for deep water exercise/aerobics class separate from divers and splashers. Adequate lanes for slow and middle speed lap swimming without crowding from competitive swimmers. Competitive swimmers need their own separate pool (ideally olympic size). If not, then there need to be specific swim club hours for the competitive swimmers so they have what they need and no longer prevent others from using the lap lanes. Designated instructors for swimming lessons and deep and shallow water aerobics. If there isn't such a thing as water yoga there needs to be!
545	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Strength Training/Weights;Cycling Classes;Recreational Swimming;Swim Lessons;Physical Therapy;	The center needs a full sized gym.

602	45-54	Port Townsend	Whirlpool;Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Jefferson Healthcare (1 acre)	Water Aerobics;Strength Training/Weights;Recreational Swimming;Swim Lessons;Children's Waterplay;	Climbing wall like at Silverdale YMCA.
603	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Strength Training/Weights;	Full size gym (for basketball, volleyball, indoor soccer, pickle-ball etc)
604	45-54	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Children's Waterplay;Physical Therapy;Swim Lessons;Strength Training/Weights;	In door public basketball court access
605	65 and over	Port Townsend	Whirlpool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Children's Waterplay;Swim Lessons;Healthy Cooking Classes;	It's important that the lap lanes be plentiful so there can often be designated lanes for water aerobics, slow swimmers etc. Some of the suggestions seem to indicate that non-pool exercise and wellness is being considered....it's important to carefully review what is already available in the community and include them in the planning. We want to be good neighbors, which includes not putting anyone out of business. I checked things that are not readily available, or not at all - like the outdoor water play area, and a kitchen for healthy cooking lessons. I am interested in a location that will not require the cutting down of trees for the building or for parking. Mt. View has the acreage and this project would improve the site. A small note, if you dedicate a space for birthday parties, PLEASE make it free. Kids see the parties and want that too - but many young parents cannot afford such extras - and it is hurtful to deny their kiddos. There are not enough places for family gatherings and parties so it would be a nice addition in general, both inside and outside! (With BBQs and tables etc.)
606	25-34	Chimacum	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Physical Therapy;Recreational Swimming;Aerobic Exercise;Birthday Parties;	Swim lessons for all ages! Maybe daily or every other day open swim in the evenings for families.

607	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Dance;Strength Training/Weights;Recreational Swimming;	Playground/outdoor meet up spot for parents. Tables and benches for outdoor eating
						Just aquatics. Please don't compete with existing businesses and infrastructure. That is: don't compete with gyms, yoga teachers, physical therapists, existing meeting rooms, businesses that host birthday parties already, etc. The hospital already did this with their studio in the QFC parking lot.
608	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Swim Lessons;Water Aerobics;Recreational Swimming;Competitive Swimming;	It take a village for businesses in business in this town. They need our support not competition.
609	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Strength Training/Weights;Yoga/Pilates;Aerobic Exercise; Recreational Swimming;Competitive Swimming;Yoga/Pilates;Tai Chi/Meditation;Strength Training/Weights;	Your map is incorrect.. Should be San Juan not Sheridan! I didn't want to enter a site because ... I think you should wait until Hadlock has it's sewer. Then do an MPD including PT, Hadlock, KP, Cape George and maybe Chumacum. Site it in the county! If this is for kids, they are in Hadlock/Chumacum.
610	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)		Climbing wall!
611	35-44	Port Townsend	Whirlpool;Dry Sauna;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;Recreational Swimming;Water Aerobics; Children's Waterplay;Swim Lessons;Scuba Training;Birthday Parties;	More kids activities. Indoor water play area and outdoor water play area. I currently drive my kid all the way to Port Angeles to swim regularly because the pool at Mountain View is not kid friendly at all. Dry/wet sauna and whirlpool please please!
612	45-54	Port Townsend	Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)		Water polo

And fades into something deeper. And WARM water :) the water at the YMCA pool has been cold a lot. I am extremely sensitive to water below 85. A lot of other businesses provide classes for exercise/yoga/weight training. I don't want to put them out of business. Nutrition/wellness classes can be taught at the hospital. We have a recreation center Uptown that needs some help. Put some money there. I had my son's birthday parties there. The Sequim Aquatic Center was beautiful and went out of business for some reason. Hate to see that happen here.

The hospital not using it as extra space. There is no reason you can't put a little bit of money into Mountain View for physical therapy use and then make a better plan to build the aquatic center in Port Hadlock, once the sewer project gets going. Even without a large population of support like the commissioners cited, grant a variance. You could actually make something for the kids instead of trying to support the 65+ community. You could find better funding and take the hospital out of it so it didn't have to fit their agenda. You could be more equitable to your community and not just keep supporting the rich city limit folks.

You have included eleven activities that do not require an aquatic facility. Appears you are addressing the interest in a multipurpose facility needing more space and costs. You might want to address that in your next survey. Note that pools use for scuba and kayak training often resulted in microbial contamination of water and closure of pools because dive equipment and kayaks were brought to pools unclean. I would prefer this not be built anywhere.

Include it all ☺ A mix of adult and children's activities would be great! I'm unsure as to the location. I like the YMCA pool in Sequim , wa as a good example of a great place to go. Saltwater pool would be nice, but I don't know enough about the ins and outs of it. I hope that this happens for the community.
701	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Health and Wellness Classes;Children's Waterplay;Physical Therapy;Swim Lessons;	I believe a good pool and wellness center would enhance this community- it is a priceless asset. Our current pool- as everyone knows, is a disaster. I can't make myself to step foot in it. I love swimming! I rather swim in the sound-yes, risking hypothermia is way better than what we have. As you all probably know, I am not alone in this sentiment. I have friends who regularly travel to Sequim/PA to go swimming/enjoy the classes. And they are in their 70s.. This community would be so much healthier and happier! Please, with your designs, keep in mind the teenagers- there are no healthy spots- except of the wonderful outdoors... I'm sure to have a fun place to go healthily strut about will be a great change from the thrill of stealing liquor from Safeway...

724	65 and over	Cape George	Competition Lap Pool (6-lane, 25-yard);Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Physical Therapy;Children's Waterplay;Swim Lessons;	Make it fun for kids etc slides, swings... model it after the aquatic centers you find in Canada. They have something for everyone and really brings the community together regardless of age
725	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Swim Lessons;Children's Waterplay;	My preference would be to expand the current pool where it is located with extra length and lanes. There's a great YWCA Swim Center in Sequim, we don't need to mess up the Golf Course or other green spaces in PT with more infrastructure. Thank you for offering our feedback.
726	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Dance;Competitive Swimming;Recreational Swimming;Swim Lessons;Children's Waterplay;	
727	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Physical Therapy;Tai Chi/Meditation;Strength Training/Weights;Water Aerobics;Health and Wellness Classes;	Something based around a holistic approach to health and well-being in terms of the entire picture of health including nutrition and exercise based around all aspects of maintaining, improving, and healing for the aging community. This would include teaching people how to avoid chemicals, processed foods, and artificial ingredients in the foods we are consuming as well as how to look for healthy and nutritious food options. This would also include teaching the dangers of "consuming too much of a good thing" and how to watch for that. (My father was one of the "blue" men in town because he drank too much colloidal silver water, got in the sun, and turned blue.) That would also include how and what kinds of foods may or may not be good to eat in concert with certain medications or nutritional goals.
728	55-64	Cape George	Whirlpool;Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Water Aerobics;Recreational Swimming;Yoga/Pilates;Tai Chi/Meditation;

746	35-44	Chimacum	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Birthday Parties;Recreational Swimming;Children's Waterplay;Swim Lessons;	Why can't you put some funding into existing the current pool, then build this outside of city limits? This can be built in Port Hadlock to offer more equitable access to south county. If that's not possible, only port townsend should residents should be paying for this and it should be a City of Port Townsend project.
747	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Strength Training/Weights;Tai Chi/Meditation;	

						Activities for kids and teens. Hours beyond those that cater to the retirement community; we can't utilize the current pool because it's only open during school hours.
						Why is there cooking facilities? Seems like a tax payer waste of money. The hospital can build their own kitchen.
						Why can survey takers ONLY choose these 4 locations? You ask for opinion but don't give an option to opt out of the location question so I am forced to have to pick a location to answer the other questions.
748	35-44	Port Ludlow	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;

834	55-64	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Water Aerobics;Recreational Swimming;Yoga/Pilates;Community Meetings;Physical Therapy;	Evans Vista. Please do not locate at the golf course - we need to retain that beautiful open space.
						I'd like to see an accessible water activity space for people with physical limitations, nice roomy exercise spaces for classes that are appropriate for each different type of activity, indoor and outdoor basketball/volleyball courts. Full-service "gym"/workout setup. Viewing area so the competitive pool can be used for PTHS meets.
						Please consider multiple private dressing rooms, in addition to common locker areas (perhaps several each for male/female gender), and large banks of lockers that can have contents be secured. 24-hour 7-day a week access, on-site security 24x7.
						Preferential rates and access for "locals" (JeffCo residents, perhaps) and their families. Perhaps consider anyone who lives in JeffCo (or greater PT area) to automatically be a "member"? Allow access by non-JeffCo residents ("guests") at a higher day rate that helps to subsidize operations but only during limited hours (local members should have access 24x7). Ample, really ample parking. Jefferson Transit free bus lines from all parts of town (downtown, uptown, each of the public and private schools, Hastings corridor, Castle Hill, Dundee Hill and surrounds Morgan Hill, all public and/or section 8 housing areas.
834	55-64	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Water Aerobics;Recreational Swimming;Yoga/Pilates;Community Meetings;Physical Therapy;	My husband Peter has been recently using the YMCA in Charlottesville, Virginia when he has been there supporting his parents. He says it is the best facility of its kind he's ever seen and thinks it could be a good model for our community. Feel free the contact me/him for more info. I'll encourage him to complete this
835	55-64	Port Townsend	Warm Water Recreation Pool;Whirlpool;Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Yoga/Pilates;Strength Training/Weights;Health and Wellness Classes;Nutrition Classes;	A gym
836	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Evan's Vista (14 acres)	Yoga/Pilates;Swim Lessons;Water Aerobics;Recreational Swimming;Strength Training/Weights;

There are not enough activities for families in this area. Build a community that focuses on our future, not the retirees who will phase out sooner than later. As a mother, it's frustrating to have to go to other counties for poolside fun for my kids (and swimming in 45 degree water year round isn't ideal).
853	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;Dry Sauna;	Mountain View Commons (3.9 acres)	Competitive Swimming;Water Aerobics;Recreational Swimming;Yoga/Pilates;Dance;	Definitely would like to have lap lines at least 25 meters long for daily swimming. Thanks!

						I am on the autism spectrum and love to exercise and would love to use a facility but I avoid most in town because they are too hard on me. The exercise music is way too loud, the acoustics inside the buildings are distracting, echoing, loud and painful. The lighting is harsh. Since you'd be designing a building from the ground up, you could consider the acoustics. Most people would actually enjoy and appreciate a sensorily gentle environment. Also, please: not a lot of mirrors. The whole place could have the feel more of, say, a lively yoga studio than a concrete-walled rec room. Also, kids are awesome. But, it's also nice to have adults only time in the pool. I do the online exercise program called Couch to Fitness through the UK Parks Department. I love the fact that the music is quiet, and the sets are simple. I'd like an area for quiet strength exercise with weights that is friendly, open and welcoming to everyone. And that teaches people how to weight train. Also: creative, fun, welcoming dance classes, especially teaching modern, urban dancing to all ages. Ample covered parking for bicycles.
854	55-64	Port Townsend	Whirlpool;Dry Sauna;Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Water Aerobics;Recreational Swimming;Dance;Strength Training/Weights;Children's Waterplay;

903	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Recreational Swimming;Swim Lessons;Water Aerobics;Yoga/Pilates;Tai Chi/Meditation;	I'd love to see the health & wellness classes & a community kitchen & party room as well.
904	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Competitive Swimming;Recreational Swimming;Swim Lessons;Physical Therapy;Children's Waterplay;	
905	65 and over	Chimacum	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Water Aerobics;Physical Therapy;Recreational Swimming;	
906	65 and over	Kala Point	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Jefferson Healthcare (1 acre)	Physical Therapy;Water Aerobics;Recreational Swimming;	Warm Water Physical Therapy Pool
907	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Evan's Vista (14 acres)	Strength Training/Weights;Competitive Swimming;Swim Lessons;Recreational Swimming;Water Aerobics;	
908	65 and over	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Physical Therapy;Recreational Swimming;Aerobic Exercise;Nutrition Classes;	
909	25-34	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Children's Waterplay;Swim Lessons;Birthday Parties;Competitive Swimming;	Inside and out side pool opportunities for swimming. Heated water better water options besides chlorine something fresher and safer with less chemicals. Longer open hours and open days. Shower stalls for more privacy as well as changing. Lockers and locks provided. Free weekend swimming Saturday and Sunday. Shallower pool water for younger kids. Keeping all parts of pool open instead of just individual parts for different time blocks that way everyone has the opportunity to come swim and play no matter the what time the facility is open. Discontent price for seniors and children under 13 and younger. free for kids up to 4. Annual and yearly passes with out being a member.
910	65 and over	Port Hadlock-Irondale	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Scuba Training;Yoga/Pilates;	
911	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Evan's Vista (14 acres)	Water Aerobics;Recreational Swimming;	All I desire is a decent locker room. I participated in water aerobics classes at Mountain View Pool from 2017 until March 13, 2020. This was long before the recent controversy. The women's locker room was never adequate. There was never enough room for the number of people using it. That's one of the reasons I haven't gone back. I would love to see a real locker room with enough space for people to change clothes, take showers and use the toilet. Plus professional instructors. Thanks for your efforts, and good luck!
912	65 and over	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Physical Therapy;Recreational Swimming;Health and Wellness Classes;	
913	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Water Aerobics;Physical Therapy;Recreational Swimming;Health and Wellness Classes;	Good changing rooms. Plenty of parking.
914	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Yoga/Pilates;Strength Training/Weights;Dance;	
915	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Yoga/Pilates;Strength Training/Weights;	Salt water pool instead of chlorine.
916	55-64	Kala Point	Warm Water Recreation Pool;	Jefferson Healthcare (1 acre)	Water Aerobics;Swim Lessons;Children's Waterplay;Health and Wellness Classes;Strength Training/Weights;	Our county can't afford extravagance. We need to focus on affordable housing and drug recovery.
917	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Port Townsend Golf Course (58 acres)	Physical Therapy;Recreational Swimming;Water Aerobics;Yoga/Pilates;Health and Wellness Classes;	a big performance space for dance companies
918	55-64	Port Hadlock-Irondale	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Physical Therapy;Recreational Swimming;Children's Waterplay;	Water-wise technologies that and proven and currently exist (or upcoming) such as a grey-water filtration marsh, a water-cleansing system that uses bioremediation and biofiltration, a park-like area that uses flow-forms and landscape design to make the water-processes visible and refresh the aquifers. There are many examples of successful park-like places that are integrated with existing storm-water plans in urban and suburban areas.
919	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Children's Waterplay;Swim Lessons;Healthy Cooking Classes;	Take serious consideration for the effects of climate change which require us to be much more conservative with our water, this is an opportunity to demonstrate cutting edge thinking and prepare for the future while benefitting our community now.
920	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Dance;	Boating safety classes would be appropriate for the area. I always enjoyed that our community offered swimming lessons for all skill levels including Lifesaving. Providing jobs for teens as guards and teachers is a high priority.

921	65 and over	Port Townsend	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Water Aerobics;Physical Therapy;Recreational Swimming;Tai Chi/Meditation;Strength Training/Weights;	Lazy River, indoors. Lockers in changing rooms. Parking is key!
922	65 and over	Kala Point	Dry Sauna;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Yoga/Pilates;	steam room Rehab existing pool area and expand in situ rather than take over new space. The Y appears to be pushing for flash and a take over in our town. As more wealth come in we are losing the funk and original character of this place we call home. Isn't this close to adding box store, or one size fit all approach? Let the hospital take care of Physio Therapy and rehab exercise. Make this a fun place for the community.
923	65 and over	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Community Meetings;Recreational Swimming;Water Aerobics;Swim Lessons;Children's Waterplay;

984	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Recreational Swimming;Dance;Birthday Parties;	A place to take my kids swimming and enjoy the pool. They offer swim lessons and different classes. Slides and water splash park is really missing in pt
985	35-44	Glen Cove	Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;	
986	35-44	Chimacum	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Strength Training/Weights;Recreational Swimming;Cycling Classes;	A facility that has full capabilities for swimming, strength training, classes (yoga, PT, nutrition, cycling) and more. A facility that is clean, well run and open for all to enjoy. I hope that it also encompasses future growth plans. Too often plans are set for now and 5 years later the facility capacity is maxed out. Plan for growth, as we as a community do not have the finances to build such facilities every few years. Many cities and towns have wonderful facilities that are multi-functional for all age groups. These are such a benefit for their communities. It's about time we start to accomplish such a goal for now and for our future.
987	45-54	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Physical Therapy;Health and Wellness Classes;Birthday Parties;	Water slide!!!

999	45-54	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Dry Sauna;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Water Aerobics;Birthday Parties;Recreational Swimming;	Water slides! Outdoor heated pool
1000	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Strength Training/Weights;	My kids would certainly love a water slide!
1001	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;	Climbing wall for kids over the deep end. A water slide! A diving board! Right now we have to drive to Port Angeles for activities like this for kids.
1002	25-34	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Recreational Swimming;Children's Waterplay;Yoga/Pilates;Dance;Cycling Classes;	A gym as well. Someplace we can go as a family to exercise and have fun. A place where we can take wellness classes.
1003	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Recreational Swimming;Birthday Parties;	Waterslide!
1004	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Healthy Cooking Classes;Health and Wellness Classes;	Adding a fenced playground and inline skating or biking area outside for kids will be fun too!
1005	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Dance;Competitive Swimming;	
1006	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Dance;Birthday Parties;	
1007	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Strength Training/Weights;Birthday Parties;Swim Lessons;	Water slide big and small.
1008	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Yoga/Pilates;Nutrition Classes;	Indoor children's playground, hourly childcare (like the big Y's have). Jogging track since we only have one at Blue Heron and that can't be used during school hours. Anything and everything you can think of for teens!! They need something that isn't run down and everything broken (rec center). The skate park is known for teen drug sales, we need somewhere where kids can go and be safe. Please keep this thought in the forefront of your plans.
1009	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Recreational Swimming;Birthday Parties;Swim Lessons;	Putting the swim center at Evens Vista wont put more traffic onto our roads which are getting increasingly packed, especially during summer. I think for this reason alone makes for the best choice.
1010	45-54	Discovery Bay	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;	A splash pad for kids during the summer would be a huge improvement to the community and what is offered for the youth of this town! Better recreational pool with slides and the works indoors for when the winter blues and grey skies hit! Thank you for taking this survey!
1011	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Aerobic Exercise;Birthday Parties;	
1012	25-34	Port Townsend	Dry Sauna;Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Physical Therapy;Recreational Swimming;Swim Lessons;Birthday Parties;	Wheelchair accessibility!!! There is alot of children in wheelchairs that would also like to join in the fun and enjoy water. Being able to get in the pool or go to the splash pad is super important and need to be included.
1013	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Recreational Swimming;Dance;Birthday Parties;	
1014	25-34	Chimacum	Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Physical Therapy;Water Aerobics;Recreational Swimming;	Water slide
1015	45-54	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;Competitive Swimming;	Water slide, lazy River, food options
1016	55-64	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Scuba Training;	Outdoors, open all year, warm water.
1017	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Dance;Aerobic Exercise;	A waterslide to attract all ages of kids! Also, a recreation room for teens with pool tables, ping-pong, art supplies, etc where they could hang out. This is desperately needed in our town. And the facility should be centrally located so that kids can walk there from all three schools. Thanks!
1018	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Swim Lessons;Recreational Swimming;Scuba Training;Competitive Swimming;Children's Waterplay;	High dive would be nice, as would safety instruction courses for recreational use of waterways (kayaks, SUPs, etc.)
1019	25-34	Chimacum	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Jefferson Healthcare (1 acre)	Swim Lessons;Recreational Swimming;Aerobic Exercise;Birthday Parties;Strength Training/Weights;	
1020	35-44	Port Townsend	Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Recreational Swimming;	moved here to rent Air Bnb's out and think our town needs to look a certain way or want some more trails to walk on because they are scared of coyotes and raccoons ☹️ at the Fort. It's a scam to take over the golf course get ahold of the property, just like the great success with the Carmel house, low income housing my ass! My friends meet here to play, my family and I have used the golf course for our whole lives, there is no money for the aquatics center, why not just put the money where it matters and fix it up, keep it going for our community, not the people moving here trying to take our uniqueness away. We already have a nice pool and I like outdoor activities with my family such as golf at our sweet local golf course which is also home to list of our wildlife, this is coming from someone who drives five to six hours every week in the summer to go to an outdoor pool somewhere, so stop scamming and be truthful, you can afford to maintain the golf course and the flow of people moving here buying up houses in cash is pushing us locals in to horrible unsafe living situations. At the very least leave us our golf course to pay in the day and evenings at least and stop being such money grubbers that need everything so uptight and controlled, just let the golfers stay and start programs there for the kids like we used to have in high school, like golf for the students so they can be competitive and have a chance to network on the course as kids in other towns have, it's a great place to build community, and it's one little thing we have that teaches us how to live outside this sheltered world of PT. Golfers really have an advantage in the corporate world, so let's actually give our kids and families and chance, if your going to build a new pool awesome, how about where it already is.... That would be best. Put the money into the course, or stop trying to trick everyone, and not letting people speak at meetings shows you have underlying motives. Nothing here for kids! You took the roller rink, bowling alley, even mini golf away, now the golf course too??? We have a
1021	45-54	Discovery Bay	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Recreational Swimming;Strength Training/Weights;Birthday Parties;Community Meetings;	Climbing wall, skate ramp, food/snacks, swim lessons, lifesaving classes.
1022	35-44	Chimacum	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Dance;Yoga/Pilates;Recreational Swimming;	
1023	25-34	Port Townsend	Whirlpool;Warm Water Recreation Pool;Dry Sauna;	Port Townsend Golf Course (58 acres)	Physical Therapy;Recreational Swimming;Yoga/Pilates;Dance;Healthy Cooking Classes;	
1024	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Strength Training/Weights;Competitive Swimming;	Lazy River and water slide!
1025	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Strength Training/Weights;	
1026	35-44	Port Townsend	Dry Sauna;Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Physical Therapy;Recreational Swimming;Yoga/Pilates;Strength Training/Weights;Health and Wellness Classes;	A basketball court!

						Open swim for everyone. All day on the weekends and after school hours during the school year. Scheduled classes can operate during school hours. During summer break open swim all hours of operation. An ADA Accessible child friendly indoor/outdoor pool and splash park complete with water slides, dry sauna, whirlpool/hot tub, small 2-3 lane lap pool, weight lifting/aerobic exercise along with health and wellness/ healthy eating classes would draw in a wider audience of people and selling a AFFORDABLE gym membership possibly with a 24/hr access fob/key card to the amenities would assist in increasing the project's revenue. Plus having a 24/hr fitness center would bring plenty of jobs to the table as well. I know as a single mother being able to access these things 24/hr a day would greatly benefit my health and increase my faith in this community. As for hours of operation 8am -9pm for public open swim/gym and general members is reasonable. 9pm - 8am for members who purchase the 24/hr memberships would be able to access the center. A fully staffed facilities department for maintaining the facilities would prevent the need to close down the entire facility for cleaning. With working parents our schedules are very busy and limited for things like this which everyone in the community will benefit greatly, but it shouldn't be inaccessible for those of us who work 10+ hr days irregardless of the shift we're working. The working class shouldn't be left out of being able to access this new facility just because of the hours we work. If you're going to do it, do it in a way that will benefit our entire community young, old, and handicapped and do it right the first time around.
1027	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool; Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Birthday Parties;	
1028	35-44	Port Townsend		Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Strength Training/Weights;	
1029	18-24	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Jefferson Healthcare (1 acre)	Children's Waterplay;Healthy Cooking Classes;Nutrition Classes;Health and Wellness Classes;Recreational Swimming;

1032	45-54	Port Townsend	Whirlpool;Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Recreational Swimming;Dance;Swim Lessons;	Do not take away one physical and mental health activity for another. Think long term of everyone's health and choice of physical activity/sport. Do not build upon the golf course when there are clearly other properties to build/extend upon.
1033	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Recreational Swimming;Birthday Parties;	
1034	35-44	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Physical Therapy;Health and Wellness Classes;Recreational Swimming;	Affordable or free membership. Current price for a family to swim at ymca is \$80/ month, and is too expensive for a young family
1035	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Children's Waterplay;Swim Lessons;Competitive Swimming;Birthday Parties;	An indoor running track would be a great compliment to this facility. This amenity doesn't currently exist within our County.
1036	35-44	Port Ludlow	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Dry Sauna; Warm Water Recreation Pool;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Children's Waterplay;Birthday Parties;Recreational Swimming;Swim Lessons;Tai Chi/Meditation;	Anything kid-centric. This is really lacking in our area.
1037	35-44	Port Townsend		Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Birthday Parties;Aerobic Exercise;	Would love to have a diving board or two and/or a water slide for kiddos! I really hope this project works out.
1038	35-44	Cape George	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Swim Lessons;Aerobic Exercise;Birthday Parties;	
1039	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;	Water slides! Family free swims every Friday night!
1040	25-34	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Aerobic Exercise;	It would be so wonderful to have a salt pool instead of a chlorine pool! It would also be nice if there were at least limited hours on Sunday, to improve access to families.
1041	45-54	Port Townsend	Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Water Aerobics;Yoga/Pilates;Cycling Classes;Strength Training/Weights;Children's Waterplay; Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Strength Training/Weights;	Lazy river, diving pool
1042	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Strength Training/Weights;Scuba Training;	Disc golf
1043	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Physical Therapy;Birthday Parties;	
1044	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Physical Therapy;Yoga/Pilates;Strength Training/Weights;Health and Wellness Classes;Nutrition Classes;	
1045	45-54	Port Townsend	Warm Water Recreation Pool;Whirlpool;Dry Sauna;	Evan's Vista (14 acres)		I'm not sure. We are in need of something for our community.
1046	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Competitive Swimming;Birthday Parties;	Waterslides like the current pool facility in Bainbridge Island
1047	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Swim Lessons;Water Aerobics;Recreational Swimming;	just a good pool no frills that will make it too expensive for a levy to pass
1048	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Recreational Swimming;Physical Therapy;Health and Wellness Classes;	
1049	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Water Aerobics;Physical Therapy;Recreational Swimming;Swim Lessons;	I would love all of these amenities. Not just a couple. Children's classes. Fun areas etc
1050	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Tai Chi/Meditation;Strength Training/Weights;Swim Lessons;Recreational Swimming;	A cafe serving very affordable locally produced food. Outdoor seating and picnic area with views of the Olympics (the Mountain View site really is the best site). Also a quality rock climbing wall/feature. Large rooftop gathering space for events, again with big views. Also lots of public artwork and sculpture.
1051	45-54	Port Hadlock-Irondale	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Birthday Parties;	Open swim!
1052	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Yoga/Pilates;Scuba Training;Recreational Swimming;	Have a deep part of the pool (20 ft or more) for diving training!
1053	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Recreational Swimming;Strength Training/Weights;Competitive Swimming;Health and Wellness Classes;Water Aerobics;	Climbing wall
1054	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Strength Training/Weights;Birthday Parties;	
1055	55-64	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Water Aerobics;Physical Therapy;Scuba Training;Aerobic Exercise;	A warmer pool longer hours a fun place for our kids and a place to exercise
1056	45-54	Kala Point	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;	Heated pool that's actually warm Steam room and cold plunge. Steam room offers different benefits from dry sauna and people in dry saunas always disagree about whether they want water poured on the rocks. Cold plunges are getting very popular and offer a number of benefits.
1057	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;Aerobic Exercise;	

1058	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Dry Sauna;	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Water Aerobics;Children's Waterplay;Aerobic Exercise;	We want this so bad we are willing to agree to any size, location or amenities! Small, big, however it can get funded and built. A warm place to swim, play, soak in a hot tub and exercise and be with friends in the cold wet months is soooooo important for our mental health! Our kids need it, our elders need it, we all need it! Thank you so much!!!
1059	35-44	Port Ludlow	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Evan's Vista (14 acres)	Recreational Swimming;Scuba Training;Tai Chi/Meditation;Strength Training/Weights;Health and Wellness Classes;	
1060	45-54	Port Townsend	Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Recreational Swimming;	Rock climbing bouldering wall
1061	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Physical Therapy;Recreational Swimming;Birthday Parties;	
1062	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Swim Lessons;Children's Waterplay;Birthday Parties;Recreational Swimming;Aerobic Exercise;	
1063	25-34	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Nutrition Classes;Healthy Cooking Classes;	
1064	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Evan's Vista (14 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Yoga/Pilates;	
1065	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Evan's Vista (14 acres)	Recreational Swimming;	Real climbing gym (climbing wall bouldering)
1066	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Birthday Parties;Swim Lessons;Community Meetings;	Spray park
1067	35-44	Port Townsend	Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Children's Waterplay;Recreational Swimming;	
1068	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Strength Training/Weights;Birthday Parties;	Shallow end for littles. Vortex and lazy river, similar to Shore in PA
1069	35-44	Port Hadlock-Irondale	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Competitive Swimming;Birthday Parties;	Summer activities for kids!!
1070	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Evan's Vista (14 acres)	Swim Lessons;Physical Therapy;Recreational Swimming;Competitive Swimming;Health and Wellness Classes;	
1071	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;Aerobic Exercise;	We like going to the Camas Center over in Uk, WA (https://camascenter.org/) when we visit family in that area. Basketball, volleyball, weights, rock climbing, sauna, steam room, hot tub, lap pool, kiddie play pool, indoor waterslide, party space, meeting space, physical therapy etc... That's the model I would like to see.
1072	65 and over	Chimacum	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Port Townsend Golf Course (58 acres)	Swim Lessons;Recreational Swimming;Nutrition Classes;Children's Waterplay;Health and Wellness Classes;	Waterslide
1073	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Birthday Parties;Recreational Swimming;Health and Wellness Classes;	
1074	45-54	Port Townsend	Warm Water Recreation Pool;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Recreational Swimming;Aerobic Exercise;Swim Lessons;Water Aerobics;Physical Therapy;	Besides competitive swimming, one could imagine offering youth opportunities in water polo, synchronized swimming, triathlon, etc also lifeguard training. Senior classes in water aerobics and spin are great too.
1075	35-44	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Swim Lessons;Recreational Swimming;Competitive Swimming;	
1076	35-44	Discovery Bay	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Birthday Parties;Recreational Swimming;Yoga/Pilates;Aerobic Exercise;	
1077	25-34	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Yoga/Pilates;Dance;Aerobic Exercise;Strength Training/Weights;	As a life long local I've always dreamed of a gym with childcare!! Please!
1078	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Birthday Parties;	In the community, we need more activities for kids, more childcare for kids, and if we could have something where childcare is offered while the parents workout, that would be absolutely amazing! Indoor birthday celebrations for kids are very limited too. Twisters, or the community center (which is gross!) is really all the options.
1079	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;	
1080	45-54	Cape George	Dry Sauna;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Recreational Swimming;Strength Training/Weights;Swim Lessons;	I would love the idea of a new aquatics center for sure!
1081	35-44	Discovery Bay	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Water Aerobics;	
1082	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Jefferson Healthcare (1 acre)	Children's Waterplay;Swim Lessons;Recreational Swimming;Yoga/Pilates;Dance;	
1083	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Children's Waterplay;Recreational Swimming;Yoga/Pilates;Aerobic Exercise;	
1084	65 and over	Port Townsend	Warm Water Recreation Pool;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Swim Lessons;Water Aerobics;Recreational Swimming;Dance;Children's Waterplay;	
1085	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Children's Waterplay;Birthday Parties;	ping pong! We have too much pickleball in this town.
1086	35-44	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;Recreational Swimming;Water Aerobics;	
1087	45-54	Port Townsend	Dry Sauna;Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Port Townsend Golf Course (58 acres)	Swim Lessons;Physical Therapy;Recreational Swimming;Tai Chi/Meditation;Strength Training/Weights;	Thank you for this survey. We need an aquatic center in Port Townsend!! It's been too long without a place to serve a community in great need. Thank you again.
1088	25-34	Port Townsend	Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Physical Therapy;Recreational Swimming;	
1089	35-44	Port Townsend	Whirlpool;Dry Sauna;Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Water Aerobics;	Swimm team
1090	45-54	Port Townsend	Dry Sauna;Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Children's Waterplay;Physical Therapy;Recreational Swimming;Birthday Parties;Scuba Training;	Diving Boards
1091	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Exterior Splash Pad/Children's Water Play Area;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Water Aerobics;Scuba Training;	I would love to see this accessible and affordable to all people of varying abilities/disabilities and income/means. I would love this to be a friendly, welcoming space where we remember what community means again. Thriving swim classes and water aerobic classes again! I would love to see more healthy activities, time, and space for kids and teens and families! And options for gender-neutral, inclusive changing/showering spaces please! Thank you all for building this for our community!
1092	18-24	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Water Aerobics;Swim Lessons;Physical Therapy;Recreational Swimming;	Something for the kids. Childcare included!!!! Gym with childcare

1134	55-64	Port Townsend	Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Physical Therapy;Recreational Swimming;Recreational Swimming;Scuba Training;Physical Therapy;Water Aerobics;Children's Waterplay;	After school programs for local youth.
1134	55-64	Port Townsend	Whirlpool;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Water Aerobics;Children's Waterplay;	Juice bar with healthy snacks

					A real rock climbing area. An indoor, quality climbing area with multiple walls and diverse, challenging features (e.g. top rope and a complex bouldering area) would be great for younger and a wide range of age demographics. We need more indoor things to do during wetter months for teens and young adults. Please do not pursue one of those climbing walls that overhangs the pool like port Angeles has or a tiny outdoor bouldering area. Those are a total joke. Look to the silverdale YMCA or the bainbridge climbing gym for an example. Please consider demographics beyond the retired. There are younger people that want to live and thrive here too.

						How come there's no option on this survey to say, "No new aquatic center"? I really question the idea that this is supposedly a "public health" initiative (and I am very frustrated that "public health" is the modern catch-all justification for every new proposal to spend money that comes down the pike). According to the Community Health Assessment (which has probably changed quite a bit from 2019), housing and income security are indicated as THE most significant health-related issues facing Jefferson County. I wonder what \$50 million+ could do on that front? Why do you think more people would use a new aquatic center than use the preexisting one(s)? I would be interested to see why the last three attempts to push a new aquatic center down this county's throat failed. And if this proposal is really meant to serve Jefferson County as a whole, why is there not one site outside of Port Townsend under consideration? Given the rising cost of living across the board, I have no interest whatsoever in footing the bill of increased taxes to pay for this luxury proposal, when there are much needed gaps in basic living that are going unattended. Stop contributing to inflation! Let's see a proposal on giving the old facility a substantial upgrade. Dream big, indeed.
1179	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Recreational Swimming;	
1180	35-44	Port Townsend	Warm Water Recreation Pool;Whirlpool;Dry Sauna;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Birthday Parties;Strength Training/Weights;Competitive Swimming;	Play area for kids not in water.
1181	55-64	Port Ludlow	Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Jefferson Healthcare (1 acre)	Strength Training/Weights;Health and Wellness Classes;Nutrition Classes;Aerobic Exercise;Recreational Swimming;	
1182	25-34	Port Townsend	Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Tai Chi/Meditation;	
1183	35-44	Port Townsend	Warm Water Recreation Pool;	Jefferson Healthcare (1 acre)	Swim Lessons;Children's Waterplay;Recreational Swimming;Tai Chi/Meditation;	Live music venue and community practice space.
						Some comments re choice options above... cooking classes? Nutrition classes? Are we not talking about a pool here? Same for community meetings. Rather than those dubious "uses" for a pool, why not include "lap swim". You'll likely respond with lap swim fits into "competitive swimming". There are plenty of people who lap swim sans the competition.
1184	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Mountain View Commons (3.9 acres)	Swim Lessons;Competitive Swimming;Physical Therapy;Recreational Swimming;	A wading pool for small children would be a specific design factor for the complex that I would support. "Children's Waterplay" would fit into the category of "Recreational Swimming".
1185	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Recreational Swimming;	Wave pool.
1186	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Evan's Vista (14 acres)	Recreational Swimming;Children's Waterplay;Swim Lessons;Scuba Training;Birthday Parties;	
1187	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;Recreational Swimming;Aerobic Exercise;	Lazy river for the kids please! Like the pools at Port Angeles and Silverdale. Indoor basketball court/gym if room. Thank you!
						I would love to see this get off the ground. We have needed a nice pool in this town forever. Our current pool, is too small and way too cold! No one has a good time. We need a big pool to accommodate kids and adults. A walk in area for small kids, lazy river would be nice, kiddie area, hot tub area, laps for adults, so they don't have to be on top of the kids. And please make it warm! Splash area outside would be nice during the summer.
1188	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;

1193	45-54	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Exactly where the pool is now, with an updated grassy play area and new playground with basketball courts.	Physical Therapy;Strength Training/Weights;Swim Lessons;Water Aerobics;Recreational Swimming;	Upstairs workout equipment with a view of new park and lagoon. Easy walking path around exterior. New playground with outdoor workout equipment, climbing wall, pump track, covered basketball court.
1194	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	More central to ALL of Jefferson County	Swim Lessons;Water Aerobics;Children's Waterplay;Physical Therapy;Recreational Swimming;	No "Walmart" mentality. We have MANY small business for fitness, martial arts, yoga, Pilates, and personal trainers. Existing facilities like the Rec Center and Fort Warden can be used for Education and Food classes. Let's use what we have and not spend massive tax dollars to make something 'New' that will also become 'used'. Recycle, reuse and don't let municipality start competing with private small businesses. A pool is expensive, but that is what we don't have. If it can NOT sustain itself, then maybe that is the reality this town needs to live with.

There should also be water bottle filling stations (no plastic water bottles), hand dryers (rather than paper towels), and maybe even a water reclamation system to use greywater to flush toilets. It is obviously great to create a center that kids and families will enjoy, but we would be doing the next generation a terrible disservice if we don't take this opportunity to make it the most environmentally friendly building that is possible. Thanks for the opportunity to provide feedback!
1225	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Port Townsend Golf Course (58 acres)	Swim Lessons;Water Aerobics;Recreational Swimming;Birthday Parties;Health and Wellness Classes;

It would be great to incorporate childcare space into this new space. Also, it would really be best if this was a combo swim/fitness center. You can do everything on one place and it then makes the aquatic side if things more affordable as the gym membership helps pay for the entire facility. Please give this community a large and we'll appointed facility!

						This survey doesn't include some of the amenities available in the dot exercise in Chimacum. In particular, I placed a dot on childcare, as I believe that will help younger people make use of the center. The activities I am most likely to take part in at the center are fitness classes for older people and physical therapy. Prior to the pandemic, Jefferson Healthcare offered a variety of fitness classes led by physical therapists; these were suitable for "pre-hab" and rehab around the orthopedic surgeries so many of us older people need. I did myself a lot of good in 2019 taking advantage of these classes. Then Covid put an end to them. These were given at a space next to MailPlus at Castle Hill, which I understand is now being used for storage. Physical therapy sessions and fitness classes led by physical therapists would be very valuable at the center. As I understood it at the Chimacum meeting, Jefferson Healthcare's participation is more likely if several amenities are bundled at the center: physical therapy, cardio room, exercise room. If it takes all of those to get physical therapy at the center, I'm for it, though the facility will have to be much larger and more expensive. If the JHC is not going to be involved, I would prefer the smallest footprint necessary to provide the warm and cool water pools--no extra amenities. If JHC is not going to provide services and help fund the project, I would strongly urge that the community aquatic center NOT duplicate services that our local athletic clubs provide.

Encourage people to walk, bicycler take Transit.
1317	35-44	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;Whirlpool;	Mountain View Commons (3.9 acres)	Swim Lessons;	
1318	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Evan's Vista (14 acres)	Children's Waterplay;Recreational Swimming;Birthday Parties;	Lazy river
1319	55-64	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Warm Water Recreation Pool;Regular swimming pool is fine. Don't we have one already? ;	Mountain View Commons (3.9 acres)	Swim Lessons;Water Aerobics;Recreational Swimming;Tai Chi/Meditation;Nutrition Classes;	I don't really care as long as it doesn't affect my taxes. We are already paying through the nose, we don't need to give the city more to mismanage. Ps. How's the Cherry Street project going?
1320	35-44	Port Townsend	Dry Sauna;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Recreational Swimming;Strength Training/Weights;Tai Chi/Meditation;Community Meetings;Scuba Training;	Salt water pool over chlorine.
1321	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Birthday Parties;	Climbing rock wall
1322	25-34	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Dry Sauna;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Dance;Cycling Classes;Healthy Cooking Classes;	
1323	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Competitive Swimming;Recreational Swimming;Swim Lessons;Aerobic Exercise;Lap swimming ;	An 8 lane pool instead of 6
1324	35-44	Cape George	Competition Lap Pool (6-lane, 25-yard);Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Swim Lessons;Competitive Swimming;Strength Training/Weights;Recreational Swimming;Children's Waterplay;	
1325	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Jefferson Healthcare (1 acre)	Swim Lessons;Children's Waterplay;Water Aerobics;Competitive Swimming;Recreational Swimming;	Access to site using public transit Possibly free
1326	65 and over	Port Townsend	Separate bath/dressing rooms for transpeople;	Leave it as it is	None until the Trans issue is resolved;	
1327	35-44	Chimacum	Warm Water Recreation Pool;Dry Sauna;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;	
1328	18-24	Port Townsend	None of the Above;	Jefferson Healthcare (1 acre)	None of the Above;	Water slide park.
1329	65 and over	Port Ludlow	Dry Sauna;Group exercise classes;	Jefferson Healthcare (1 acre)	Water Aerobics;Yoga/Pilates;Aerobic Exercise;Strength Training/Weights;Dance;	
1330	35-44	Port Townsend	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Recreational Swimming;	Diving boards, a big lazy river and a slide. We just want a pool for recreation and would be so happy if one existed. With a little kid, we used to go to the silverdale ymca which had a great set up.
1331	65 and over	Port Townsend	Whirlpool;Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Children's Waterplay;Physical Therapy;Swim Lessons;	
1332	55-64	Chimacum	Tennis courts;None of the Above;	Don't care	Tennis lessons;	Tennis! And Aqua tennis
1333	55-64	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Dry Sauna;	Mountain View Commons (3.9 acres)	Competitive Swimming;Recreational Swimming;Yoga/Pilates;Tai Chi/Meditation;Strength Training/Weights;	
1334	45-54	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Dry Sauna;	Port Townsend Golf Course (58 acres)	Recreational Swimming;Scuba Training;Aerobic Exercise;Water Aerobics;	
1335	65 and over	Port Townsend	Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Community Meetings;Healthy Cooking Classes;Recreational Swimming;	
1336	35-44	Chimacum	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Healthy Cooking Classes;Birthday Parties;	Climbing wall and any activities for kids!
1337	35-44	Chimacum	Warm Water Recreation Pool;Exterior Splash Pad/Children's Water Play Area;Whirlpool;	Port Townsend Golf Course (58 acres)	Children's Waterplay;Swim Lessons;Recreational Swimming;Birthday Parties;Healthy Cooking Classes;	
1338	65 and over	Port Ludlow	Whirlpool;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)		It sounds like the decision has already been made to close the golf course in favor of a big pool. This was expected based upon city mgr's desires. Typical of pt townsend.
1339	55-64	Port Townsend	Warm Water Recreation Pool;Competition Lap Pool (6-lane, 25-yard);Whirlpool;	Mountain View Commons (3.9 acres)	Children's Waterplay;Swim Lessons;Physical Therapy;Recreational Swimming;Asking only 5 choices is unreasonable;	Climbing wall, water bikes in pool, VR workout space
1340	55-64	Port Townsend	Whirlpool;Exterior Splash Pad/Children's Water Play Area;Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	Physical Therapy;Water Aerobics;Recreational Swimming;Swim Lessons;Children's Waterplay;	A rock climbing wall, one for kids, one for adults. Any other activity for kids.
1341	55-64	Port Townsend	Warm Water Recreation Pool;Dry Sauna;Competition Lap Pool (6-lane, 25-yard);	Jefferson Healthcare (1 acre)	Water Aerobics;Physical Therapy;Yoga/Pilates;Strength Training/Weights;Recreational Swimming;	Warm water exercise pool classes. As we age, this is a fantastic way to keep limber, improve balance and stay healthy.
1342	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;	Mountain View Commons (3.9 acres)	Swim Lessons;Physical Therapy;Water Aerobics;Recreational Swimming;Competitive Swimming;	Don't make it an exercise or cooking center. If we try to do everything, it will never happen.
1343	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Warm Water Recreation Pool;Whirlpool;	Mountain View Commons (3.9 acres)	Water Aerobics;Recreational Swimming;Cycling Classes;Strength Training/Weights;Dance;	
1344	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);Enough room in the big pool for kayak safety classes;	Mountain View Commons (3.9 acres)	Recreational Swimming;Physical Therapy;Strength Training/Weights;Health and Wellness Classes;	As mentioned above, a big enough pool so that water safety classes for kayak rescue could happen there. After years of failed attempts at building a new pool, it is hard to think big! We need something that young and old can use -- the schools, the swim meets, the physical therapy needs of elders, swim lessons for the young.

1345	65 and over	Port Townsend	Competition Lap Pool (6-lane, 25-yard);	Mountain View Commons (3.9 acres)	None of the Above;	not sure I will use the facility, defer to others that really want this. I am supportive of what the community wants. I like a focus on a place for kids to get exercise, as well as our adults.

Survey 2 Responses - Healthier Together Aquatics Center Feasibility Study

1	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;	Yes	Nice! Would this be a possibility in the current building area? Or would the new facility be located and built elsewhere on the present acreage?
2	45-54	Port Townsend	No	None of the Above;	No	I think this is too expensive to be supported by our population.
3	65 and over	Port Townsend	Yes	Aquatics;	Yes	Looks great so far
4	55-64	Port Townsend	No	None of the Above;	Hire fitness professionals	People want aquatics. I do not agree with the opinion that a fitness center would be a steppingstone. I think it would take away business from local privately owned businesses that already exist and have been in the area for years. Is there any data to support rather than personal opinion, that it would be a steppingstone to the other facilities, like fitness centers and yoga, studios, and martial arts already available?
5	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	No	Looks good. I'd love to see some NW Indian art or influence inc,used.
6	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	Love the idea of skylights , if not an option , murals to reflect sky and aquatic plants and creatures.
7	55-64	Port Hadlock-Irondale	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	The light and airy look and feel are great! The detailed layout needs to be more complete to be evaluated.
8	65 and over	Port Townsend	Yes	Aquatics;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	No	The question about the YMCA managing the operations is not clear. Does that imply that to use the facility one would need to join the YMCA? If so, I am strongly opposed to this option.
9	65 and over	Port Hadlock-Irondale	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	It's very nice. It's good to see the glare issues from low windows for the pool was addressed. The more things added to the pool, will take additional guards and my concern is they barely fill 2 guards now with reduced hours. In hope a new facility will encourage others to be guards!
10	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	I prefer having total local control. The Y has a lot of rules and regs that can override local determinations.	I like the design concept - layout, flow, light management, solar energy options. I hope a new home can be found for the Recreary.
11	55-64	Chimacum	No	Aquatics;	No	Aquatics only. We don't need more fitness centers to drive away business from the local ones that have been existing in this area for years. This seems like a very expensive project. Yes, as it was mentioned, it would just get more expensive, but just like years ago, when this town spoke out and said: Rite Aid, wrong Town...like we don't need a super Walmart with a tire center and a grocery store, we don't need a super aquatics YMCA. Use existing buildings instead of costing taxpayers even more.
12	65 and over	Port Hadlock-Irondale	Yes	Aquatics + Group Fitness/Cardio & Strength;	Low pay scale from the Y is making it hard to get and keep guards	Beautiful!
13	45-54	Port Townsend	Yes	Aquatics and physical therapy. I don't think people who use the gym are the same people who use weights. Maybe, but not always. I think those are different groups. The point here is: PT needs a pool. And activities associated with pools. Like aqua fitness etc.;	Yes	There is so much potential. I'm thinking of the connection with sea voyaging and indigeneity. And Kai tai—right there! And a water feature that connects the inside to the outside... And invites people into the space. Maybe connects to the golf course renovations as well. I'm slightly worried that there will be too much glare for swimmers with all the windows-but I love the windows, so hopefully an expert can figure that out before you get grumpy swimmers avoiding certain hours for laps. I think it looks pretty cool. I think that there should be a whirlpool/hot tub that is not 18 and over. I like the windows. From the lap zone you can see outside because the windows are there. It would be very cool if there was a water slide from either inside to outside or outside to inside.
14	Under 18	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;Aquatics and gym;	Yes	
15	65 and over	Kala Point	Yes	Aquatics;	unsure	
16	45-54	Port Townsend	I'd prefer something on the south edge of town	Aquatics + Group Fitness/Cardio & Strength;	Yes	
17	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;All if we can afford it! Basic design if that's all we can fund.;	If they want to! And if there is an affordable drop in price for non members.	Would be happy with less "pretty" exterior design in favor of a few more kid-focused amenities like a lazy river and slide. Love the space to gather in the lobby and the potential for an outside amphitheater type courtyard! Please don't forget to replace the playground also! (Maybe partner with a known entity like JUMP to do some side fundraising specifically for a small ADA universal playground? Town needs one!!) Thank you so much! We've been waiting so long and are so ready for our community to have this!
18	55-64	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	thanks for all your work on our behalf!
19	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
20	35-44	Port Townsend	Yes	Favor pool with gym and group fitness without the physical therapy;	Yes	The pool area seems relatively small still. We would like a space always available for kids and water aerobics, can you explain the usage/design of the non lap pool?
21	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	More indoor recreation space for winter months, roller rink, lazy river, slide, warm kiddie pool
22	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics;	Yes	Kids aquatic activities, please! Play pool, lazy river, etc. Also whirlpool and sauna would be awesome!
23	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	This facility is so needed! I would love to see the addition of a lazy river and waterside for kids, and an indoor walking track (something similar to the Haselwood YMCA in Silverdale). I can't tell from the plans if there is a sauna and/or steam room, but those would be wonderful additions as well.
24	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics, group fitness, gym;	Yes	Larger than necessary waiting room. Roof looks cool but what's its purpose, is it practical (maintenance/cleaning/etc) and does it add too much to the budget? Is pool area large enough, with enough sections to support various activities/age groups at once?
25	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes, if they agree to allow a youth club competitive swim team	I love it!
26	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;	Yes	Do we have room for a rock climbing wall? Or a water slide. More options for toddlers and kids.
27	35-44	Port Townsend	Yes	Aquatics;I'm most interested in aquatics for adults (lap pool, exercise pool, hot tub) and kid features (lazy river, slide, splashy things);	I would prefer city managed but open to Y managed as long as it's affordable.	Looks nice. I like the natural light on the pool area.
28	35-44	Port Townsend	Yes	Aquatics;	Yes	More kid features, please! A wading pool, lazy river, maybe a slide?
29	45-54	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;Aquatics + Group Fitness/Cardio & Strength; Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	I'm not sure but I think I prefer the city manage it	I like the pools and the bright open lobby/entryway
30	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;Lazy river, water slide, and splash park;	Yes	I'd also like some kid features in the pool like a lazy river. Thank you!
31	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;Aquatics + Group Fitness/Cardio & Strength;	Yes	Please include plenty of covered bike parking! An aquatics center would be so beneficial for people of all ages in our community.
32	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;	Yes	
33	45-54	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;Aquatics;	Yes	My preference depends upon what will happen with the rec center. We have a beautiful gym up there. I love the idea of a certain aquatics center and gymnasium. I also recognize that we have multiple gyms around town between the schools and the rec.
34	25-34	Port Townsend	indifferent	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;What about doing an indoor play space for kids instead of a gym?;	indifferent	

35	35-44	Port Townsend	No	Aquatics;	No	More kids pool facilities, shallow pool, diving board, slide!
						I would really love for an expansion of the proposed pool. I, of course, do not want to risk the project totally getting scuttled by going bigger but this is our only chance to dream big and see if it works. Having a more expanded pool isn't even up for discussion and I am finding that disappointing. I have decided to go to vacation places before partially because the location had an awesome pool. It would be a draw to our area and a draw to families considering moving to town. As well as an awesome amenity for those here already! We need to have continued draws for our families! Please reconsider adding: -lazy River w/whirlpool -hot tub -deep end for diving board, etc -water slide -hot tub Also, please have plans to replace the old playground if you take that out- either with a splash pad or a new playground. Also, consider who will be running it during the build phase. If it's the Y, please consider a space that would work for licensed aftercare for school aged kids. They are being housed in a building that is going to be torn down. As a working parent, having aftercare childcare is absolutely essential and none of the new childcare projects are for our children 5 and over for aftercare.
36	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
37	65 and over	Port Hadlock-Irondale	Yes		No	I would like the whole deal at this site IF the equipment rooms would be for the hospital only. If they move all their therapy to this facility, it should be theirs to use and not for the general public. JHC would be using the equipment all day long so there wouldn't be a lot of "public" time for equipment use. If it was kept for therapy use only, we would not be taking business away from the local gyms.
38	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Maybe, but the current Y operations leave a lot to be desired	It's still lacking a lot of basic children focused features that are typically found at other aquatic facilities. This town really needs some features geared towards older kids like a water slide, climbing wall (see Port Angeles pool), lazy river, rope swing. Perhaps an indoor screen for movie night (Bainbridge does this).
39	35-44	Port Townsend	Yes	Aquatics;	Yes	Thank you for incorporating child/family elements into the design. I very strongly support having the Y continue to manage aquatics to let City staff focus on other things.
40	65 and over	Port Townsend	Yes	I support Aquatics if Jefferson Healthcare is not involved and doesn't offer physical therapy; I support Aquatics through Physical Therapy if Jefferson Healthcare is involved. Last night, another attendee and I split our votes, as each of us would have like to give half a dot to those two options. I am not convinced that we need a gym.;	Yes	I would prefer a smaller footprint if Jefferson Healthcare is not involved (see my answer to the first question). I heard comments last night that additional amenities are important to at least some people with children. I have my doubts about how many people will be able and willing to pay fees to support those amenities. It looks like the architect has done a thoughtful job on this first sketch.
41	25-34	Cape George	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
42	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;+ ability to expand aquatics if possible;	Yes	The building is beautiful, nice work. I understand the desire for a gym, but I feel the pool should be the priority since there will only be one pool, and gyms exist at other venues like the schools & community center. If the footprint of the pool can expand, more amenities around aquatics would be great - other pools are including lazy rivers, whirlpools, climbing/jumping structures, slides, etc - have all of those been ruled out? A spa (hot tub) and sauna are a must. I don't see them on the plans, but I am going to assume those are included here in the basic design. I see a big, flat roof. Would it be too much of a stretch to include a green roof with a space to sit & have a healthy snack up there? Having the building LEED certified would tie into this idea that Healthier Together can include community agreements for a healthy planet and wise use of space, like a demonstration garden on the rooftop that feeds into the neighboring food bank.
43	45-54	Port Townsend	Yes	Additional kids activities, slides, jungle gym;	Either way	We would love to see additional facilities for young children, for example slides and a lazy river. Also an indoor playground or jungle gym would be great for the kids as an alternative to playgrounds on rainy days.
44	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	Design looks great!
45	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	Design looks great!
46	55-64	Port Townsend	Yes	Aquatics;	Yes	I like the lighting in the natatorium. The building seems so out of character for our town - so modern and sprawling. I'd prefer the smallest footprint possible. I like keeping the ReCyclery there on the corner - I like it's humble funkfactor look. I'd rather not have this facility up front and center in my face from all angles. I'd rather the hospital stays out of it with therapy room/state of the art fitness equipment/teaching kitchen for his cook and sound barriers required. Sounded like Mr. Glen wasn't willing to contribute to the capital \$\$ anyways - other than a limited time lease. The commercial kitchen just seems overkill. We don't need that at all. We have 7 gyms altogether already in our small town - including the one here you want to tear down. I'm not convinced we need another. Calm down about pickleball courts. We have two near the courthouse (our beloved tennis court converted) that already sits mostly unused all day long throughout the week (I've been working right there and couldn't help but notice that!)
47	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
48	65 and over	Cape George	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;		
49	25-34	Discovery Bay	Take care of what we have before we spend more money and increase more taxes	None of the Above;	No	Why don't we figure out how to use the taxes we're already paying to fix what we have in Jefferson County like the horrible streets all throughout the town.
50	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	Currently the YMCA is managing the pool and in all the years I've done water aerobics, they have done the best job. The staff is wonderful and the place is always clean and warm!! I like the option with physical therapy assuming Jefferson Healthcare will defray the cost of adding that. It looks fantastic. Thank you for all the work you've done on this.
51	18-24	Port Townsend	No	None of the Above;	No	No higher taxes for this monstrosity. Let's find ways to use the taxes we're already paying to take care of Port Townsend, not add more to it.
52	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	No	I hope there is adequate room for all levels of ability in the lap pool and also room for large water aerobics exercise classes , both deep and shallow. Also I hope that the pool has a non-chlorine based water system.
53	35-44	Chimacum	No	None of the Above;	No	Really? This is not necessary. Just build a new pool in the same location. JHC is in the midst of expansion as we speak. They can use those tax dollars to make their own PT space.
54	35-44		No	None of the Above;	No	When we visit friends in the area, this would not be of interest to us
55	65 and over	Port Townsend	Undecided whether I support aquatics center.	Aquatics;	Yes	
56	65 and over	Port Townsend	No	None of the Above;	No	

						-Location I don't know (alternatives) -Aquatics ok if replacing or updating existing. -Ymca ok (alternatives?) -other expansions including group fit, gym, et al: NO.
57	65 and over	Port Hadlock-Irondale	No	None of the Above; Aquatics;	Yes	
58	45-54	Port Townsend	No	None of the Above;	No	The city cannot maintain its streets or finish the Cherry Street Project. Focus on basic services and don't use tax dollars to compete with the small businesses that pay those taxes.
59	25-34	Glen Cove	No	None of the Above;	No	
60	65 and over	Port Townsend	Yes	Aquatics;	No	I think that if the Y wants to manage this, they need to build it. But I also think we need a community pool instead of the Y. Our pool is outdated and needs to be replaced. I agree with some of the items on the wish list, but we do not need to compete with other businesses in town.
61	55-64	Port Townsend	No	None of the Above;		
62	35-44	Port Hadlock-Irondale	Yes	Aquatics;	Yes	I'm in support of a pool and other services that don't conflict with established small businesses in the County. I strongly disagree with fitness center activities that rival the gym clubs in this area. How disrespectful and disgraceful.
63	45-54	Port Townsend	Yes	Aquatics;	No	
64	65 and over	Port Townsend	No	None of the Above;	No	
65	Under 18	Port Townsend	Yes	Aquatics;	No	My name is Dylan, and my mom doesn't really want the pool, but I think it would be nice for three months when it's cold and dark in Jefferson County, so she showed me how to vote and told me it was OK
66	Under 18	Chimacum	No	None of the Above;	No	I'm glad That you have a spot for me to give my opinion because I'm under 18. Oh, I am pretty new to this area, but my mom lets me go outdoors and play whenever I want, even in the winter, she make sure that I have a safe fun place to get some fresh air. I much prefer that over an indoor anything. Thank you for listening. Molly.
67	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	
68	65 and over	Port Townsend	Yes	Aquatics;	No	
69	25-34	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
70	65 and over	Discovery Bay	No	None of the Above;	No	
71	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym; Aquatics;	Yes	The designs look great but they seem to be missing permanent kids features- slides, splash pad, outdoor playground for kids- requested by the community. Many young families make a weekly trip to Port Angeles, Poulso or Bambridge for these features. We would get a family Y membership if these things were available (we haven't to date because the pool is too cold and deep for the kids).
72	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	Make sure the aquatic center is kid friendly. Lazy river and whirlpool. Have a top-rope climbing wall and bouldering space. Outdoor play-ground for kids.
73	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	Please design for the future. More aquatic features are an absolute priority- hot tub, deep end for diving board, lazy river, splash pad. Cost recovery reasons, the larger complex makes sense (gym offsetting cost of pool, hospital and PT clients subsidizing through PT etc). The only indoor basketball court in town is at the school which is limited for use and has no grandstand. A rock climbing wall as part of the gym would add to the multi-use nature
74	55-64	Port Ludlow	Yes	Aquatics;	Yes	
75	35-44	Port Townsend	More concerned with its development than its location	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
76	65 and over	Port Townsend	Yes	Aquatics;	Yes	There are already gyms etc - both public and private - that are available for people to use, why take business away from them. The County can offer subsidies to those who cannot afford memberships so that they are available for all who want to use them, if that is an issue. We need a bigger swimming pool for people who use that form of exercise, and school activities, plus water fitness programs. No need to duplicate what is already available, just improve on what we have by making our current pool longer with more lanes. Thank you!
77	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	Would love splash pad for small babies and competition pool for older kids swim team and lap swim. Hot tub too! Anything we can model after the new port angeles pool
78	45-54	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
79	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	More kid friendly things please- splash pad, climbing wall
80	35-44	Chimacum	No	None of the Above;	No	Under our struggling economy and the pinch on everyone's personal finances, why are you proposing to spend more of tax payers' dollars?!!! (Not to mention the devastating effect this would undoubtedly have on small, privately owned local businesses!)
81	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength; Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	I keep hearing that the proposed design doesn't incorporate many features for youth/families. I have used Mt View pool since 1991 as a 3rd grader on swim team and now as an adult with my children. Families regularly drive to Silverdale or PA to use family friendly pool facilities, which is a shame. There are not a lot of options for family activities in Port Townsend, especially in cold and wet winter months. Please build a facility that is fun and inviting for families with kid features in the pool area as well as a gym. These will be well used and loved by the community for years to come!!!
82	45-54	Port Townsend	No	None of the Above;	No	
83	45-54	Port Townsend	No	Aquatics;	Yes	
84	25-34	Port Hadlock-Irondale	No	None of the Above;	Yes	
85	65 and over	Port Townsend	Yes	Aquatics;	Yes	
86	35-44	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	Looks great. Go big! Local families in Port Townsend (including myself and my neighbor) usually end up traveling to Sequim or PA for a pool experience our toddlers will enjoy. Warm salt water at PA is great, family changing rooms, shallow pool areas, these make our families feel welcome. Thank you!
87	55-64	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Yes	
88	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	I would hope there would be a warm water therapy pool and sauna- Warm water pool is a great place for rehab, physical therapy, those with impaired mobility to be able to move and stretch and stay warm. This would be a critical addition given the age of our population- 1. Where is this 53 million coming from to build this facility? I'm assuming taxes will be raised again to build this 2. Why is it that the city will construct this and not take care of other pressing issues like our roads properly? Have you driven in town? Why can't you actually fix the roads and resurface, instead of putting bandaids over large potholes every other year and possibly widen the few roads they can? 4. Are you aware we have 2 fitness gyms in town already? Why not support the local business community instead of spending more tax payer money?
89	65 and over	Port Townsend	No	None of the Above;		
90	65 and over	Port Townsend	No	None of the Above;	No	Why is it that Port Townsend can not even repair our roads and yet they want to raise our taxes to build a center that a very small percentage of our community will use? And then they will want men using the women's locker rooms and showers!

						I attended the meeting at Ft Worden last week. I like the design, and also appreciated comments by citizens 1)about noise between lap and play pools, 2) about having the facility provide some community services for homeless showers for those in need, and 3) the need to build a facility for the future. I support the full facility build out, because it seems it will pay for itself better if more groups can utilize the space (such as Jefferson Hospital, etc). I appreciate the effort that is being made to address and contain costs, as well as serve a diverse community. I do not think a growing area should skimp on these public facilities when the opportunity knocks. We are desperate for better pool facilities, and if we build it too small, we will regret it down the line. If folks are driving to Bainbridge, Sequim and Port Angeles to swim (as was mentioned at the meeting), we should at least have a facility that brings them here. The design concepts look beautiful. I would be curious to hear if there are plans for child-friendly areas in the pool and plans for swimming lessons. Being parent to two toddlers, and living on the peninsula, we would love to see more areas for safe play in the water. Sequim has an amazing child-friendly pool area - we would love to see splash zones and shallow play areas. The PT area would be especially helpful, with access to aquatic strength training and exercise, given the demographics of PT and JeffCo.
91	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Not sure. Can the city manage this facility, or Jefferson County manage it? Would it generate more revenue to pay for itself if the city managed it?	
92	45-54	Quilcene	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	How about getting creative with finances to fix the roads??
93	55-64	Port Townsend	No	None of the Above;	No	
94	45-54	Port Townsend	Yes	not sure;	No	
95	65 and over	Port Townsend	No	Aquatics;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	No	
96	35-44	Port Townsend	Yes	Aquatics;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	
97	65 and over	Port Townsend	No	None of the Above;	Other options?	Too many unanswered/ avoided questions, To be able to make an informed decision.
						I think a new site void of all of the old infrastructure, plumbing issues should be discussed to avoid the substantial cost of rehabbing the building for new uses. A new build with both a daycare space (like the one in Silverdale, a climbing wall, racquetball courts, swimming pool, and possibly a gym (I would like to know what the impact would be on the locally owned gyms before supporting a larger gym). Racquetball courts would be fantastic for young and old alike to manage pent up energies particularly in the winter. Please attempt broader outreach to young families in the community. Most are not hearing about the meetings until the last minute or not at all.
98	45-54	Port Townsend		Aquatics + Group Fitness/Cardio & Strength;	Yes	
			is a completely irresponsible idea given the volatility of the current economic climate and the cost in relation to a tax base that couldn't possibly afford the 37-53 million needed for this mega complex. The tone deaf nature of the "steering committee" and failure to be fully transparent in its assessment and priority of citizen needs and responses is shameful. As with yet another survey that is manipulative in nature such that there are no other choices except what leadership is foisting upon Jefferson Co. citizens - a citizen approach to a design			
99	55-64	Port Townsend		None of the Above;	No	This building is a giant, sterile box which is neither well integrated with the unique surroundings of P.T. and whose interior design spaces look like "everywhere USA", nor appropriate for the community which is all of 33K in Jefferson county. Facilities of this size are constructed for communities/populations over 100K and/or whose tax base has an average income of six figures. I am personally flabbergasted that the city has spent upwards of 100K in consultation fees for a concept that is so out of step - and ugly. *I found the Architect in particular to be un-charismatic, not well prepared for presentation nor articulate in relating the design concept, as well as being practically worthless when it came to answering pertinent, basic questions. FAIL - FAIL - FAIL
100	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics;	No	
101	35-44	Chimacum	Unanswered questions linger	None of the Above;	What other options & cost?	With each option, what will the cost be for me to use the facilities? Taxes, membership? Will this facility be inclusive, race & gender identity not a factor..... this is just a start...
102	55-64	Port Townsend	No	None of the Above;	No	Please address the streets situation instead of this. I know you think it's funny, people complaining about how bad they are, but it's not. I'm tired of watching folks drive like drunken sailors dodging potholes and ruts. may be displaced and/or demolished in order to make room for something like this.
						I was disturbed to learn that the Recyclery's space is being considered for parking (glad that they have their own lease with the school district) they deserve their place. Their mission based organization could be viewed as a partner in this project...how about you look at including them so you can utilize their expertise in how we get more people biking to the pool...then we wouldn't have to worry about so much parking availability! Are they being viewed as an obstacle or an asset? I strongly believe that the current buildings should not be torn down once a "new facility" is built. Are they perfect, no. Are they held together with duct tape and dried gum, no. It was built as an emergency gathering facility...it was built to house our community in a disaster...it is literally bomb proof. Honor those who came before us and decided for our community how to utilize community resources...keep these buildings intact and TRULY allow the community to decide how to use them. People need a place to shower, people need a place to make a meal, people want a place to play pickleball inside but people ALSO want to play basketball and volleyball and roller skate and skate board and we deserve to have a place for EVERYONE! I think the Y has been doing good for the space...its awesome that children are back in the building and using it as it was intended (as a school). They have tried to offer things the community wants...hence a gym underutilized because the pickleball community has a hold on it. However, I've seen lots of cool uses there and there are uses out there that people want and need and the space is there to be used! Give us a chance to use it!
103	45-54	Port Townsend	when the sewer is complete, the hadlock area should be considered	Aquatics;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	It is shameful for a community like ours to continue to pretend that we live in an
104	35-44	Port Townsend	yes, provided that we don't destroy the original building	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	I like the use of natural light, but the design concept is lackluster. I think it should be a beacon for the town, pulling the community together for healthy living.

				NO Pool. A few people are pushing this idea, a luxury which we cannot afford given more pressing needs like climate change and basic infrastructure like our decrepid streets and utilities.;	The YMCA wants to get a pool for free and make money from it. Let them build their own pool.	Don't build a pool, because we can't afford it. The city council is out of touch with the average citizen. Quit listening to only the handful of people who would use this. The city needs to look at its capital needs comprehensively so we can all see how there isn't enough money to do the basics which have been neglected. Please do not let a small but loud group skew the finite resources of the entire community
105	65 and over	Port Townsend	No			
106	45-54	Port Townsend	No	Aquatics;	No	Too fancy make it more basic.
						These look as if they would be wonderful facilities, any of them. But we have concerns. I hope that I can make them clear, and that if I do, someone is listening. It has been our experience that discretionary infrastructure enhancements are driven either by a corporation, hoping to externalize its costs onto the public (YMCA) or by a relatively small group of citizens who are hoping to get everyone to help pay for something that those few would use (which is how the pool is used now). What also seems to happen is that the final costs of these projects and exactly who will pay those costs, and how much each, is not available until after the projects are already beyond stopping. The City has already agreed to pay tens of thousands of dollars for consulting and the community has not even approved the project. This is how it goes, one step at a time. Another concern I have is the misguided priorities this project demonstrates. If we can borrow fifty million dollars, why are we not borrowing it to start repaving our streets, which is certainly more important than a recreation center? If we need a pool for physical therapy, we can use what we have or, at the very least, come up with a plan for that which costs tens of millions less. And we already have several excellent facilities in town for those who need non-water-based physical therapy. We do not need a wellness center. People can go for a walk, work in someone's garden, ride a bicycle ... and all the other things that humans have done to stay fit and healthy for thousands of years. For every dollar that the cost of living gets raised by these projects, it takes us a dollar further away from what we say is our mission, which is to make Port Townsend affordable for young families and for those who work here. A new, multi-million dollar wellness center will make that disparity worse.
107	65 and over	Port Townsend	If it gets built, then yes. But I want to see the whole plan before I vote for it.	It depends on who is paying and how much that it.;	That depends entirely on the specifics of the agreement.	Who and how initiated this process and thought we had a need for it in Jefferson County? I would be super curious to find that out... How can I find that out? Where can I go?
108	65 and over	Port Ludlow	No	None of the Above;	No	A big huge NO.
						I don't think this is something we need in Jefferson county. Please no more tax increases. If the different departments in Jefferson county and the city of Port Townsend can pull together \$100,000 to pay for a silly feasibility study, why can't they pull some of their money together to fix the roads in Port Townsend. And we are paying people that live in Oregon, not even in state, let alone within Jefferson county. So much for keeping our money here.
109	55-64	Port Townsend	No	None of the Above;	No	The people who currently use the pool seem to only want a pool... But the designers and the people we've hired from out of state keep pushing for the full meal deal... Sure, then, can they give us a proposal for a super Walmart with a tire center and a grocery store? Let's see if we can put Les Schwab and Safeway in the co-op out of business while we are at it.
110	55-64	Chimacum	No	None of the Above;	No	Our tax dollars could be spent in a much better way, fixing what we already have rather than creating more taxes. This eyesore is not needed.
111	35-44	Port Townsend	No	None of the Above;	No	
112	65 and over	Port Townsend	Yes	Aquatics;	Yes	
113	35-44	Port Townsend	Yes	Aquatics;Base + Gym facility ;	Yes	Base Pool + Gym facility
114	25-34	Port Townsend	Yes	Aquatics;Base plan with a gym. I don't think any group fitness/cardio & strength facility is necessary. ;	Yes	Looks great! Natural interior colors would be nice.
115	Under 18	Chimacum	No	None of the Above;	No	
116	55-64	Port Townsend		Aquatics + Group Fitness/Cardio & Strength;	Yes	
117	65 and over	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength;Aquatics + Group Fitness/Cardio & Strength + Physical Therapy;	Isn't this question premature?	
118	45-54	Port Townsend	No	Aquatics;	Yes	Design looks as expected, on par with average building styles and trends, not exceptional. Hopefully it will age well. Locate it south of PT so that folks in the county can more easily access it.
			wait- has this already been approved, and we're just voting on options?	it seems like there's more discussion to be had before deciding details... ;	Yes	thanks. as above- is the construction of this new Aquatics Center a given, and we're down to just choosing the details and location? I don't seem to recall much discussion/voting about its existence in the first place...
119	45-54	Port Townsend		Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;	Yes	~R.
120	65 and over	Port Townsend	Yes	Aquatics;	No	Like it!
121	55-64	Port Townsend	Yes			
122	55-64	Port Townsend	Yes	Aquatics;Whatever minimum features JCH requires to stay in a key financial support role (e.g. PT area & Gym;	Maybe - let's see a city/3rd party assessment of their performance so far	Previous survey results showed lap/competition pool as top vote getter but design options only provide a bare minimum lap pool (6 x 25yd); design for anticipated use not token facility for highest use; hosting competitions could generate revenue & better serves health goals - physical & mental; stay focused on that less on water park play features - it's about how we slice the pie. Also LID storm water; solar panels; salvage materials from demo etc.
123	55-64	Chimacum	No	None of the Above;	No	consider using your grant getting skills to get money to fix the roads and other parts of Port Townsend that are in desperate need of repair
124	25-34	Port Townsend	Yes	Aquatics + Group Fitness/Cardio & Strength + Physical Therapy + Gym;Aquatics;	Yes	
125	55-64	Chimacum	No	None of the Above;	No	Our tax dollars won't support this in my opinion.

Survey 3 Responses - Healthier Together Aquatics Center Feasibility Study

ID	Which combination of spaces is your preference for the Healthier Together Aquatics Center?	For an approach to funding the Healthier Together Aquatics Center, which do you prefer?	We want to hear from you. Please share your feedback on the updated building design concept and site layout. Additional project images can be found at this link: cityofpt.us/sites/default/files...	What is your age group?	What town do you live in or are closest to? (Pick one)
1	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Solar on the roofs.	65 and over	Port Townsend
2	None of the Above		No pool	55-64	Port Townsend
3	None of the Above		No pool	55-64	Chimacum
4	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Thank you for adding the lazy river feature and keeping the zero entry for the kids!!!! So appreciate the committee's responsiveness to the feedback at past meetings from young families. We don't want to keep driving out of county to find a fun, safe and interactive pool! The lazy river alone will absolutely help increase revenue considerably and consistently from all the families with kids who want to swim locally but have been driving to Silverdale and Port Angeles monthly and weekly. Thank you!!!	35-44	Port Townsend
5	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		55-64	Port Townsend
6	Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	Lazy River and wade in entry for the little ones please!!	35-44	Port Townsend
7	While these designs are ok, I'm disappointed there such few options for kids. There are so many parents and kids in this town! Kid pool, lazy river, splash park...	PFD & MPD (combination of both)		35-44	Port Townsend
8	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	There is no link to plans. This needs adequate shallow entry for swim learners to be able to actually touch the ground. It needs a splash pad for outdoors and to make sure that the playground is not removed to build the structure. Please add more kid friendly items like climbing walls, wave pool, and huge slide (never seen a new pool without one). Also incorporate toddler slides into shallow area. Independent baby wading/sitting area for water comfort and exposure. Snack and drink bar and cafe/terrace with tables for families to take a break and spectate in suits.	35-44	Port Townsend
9	Anything that is kid friendly	Public Facilities District (PFD) - Sales Tax and Lodging Tax	We have very young children, and would love anything that is kid friendly. We have heard of a lazy river option, that would be absolutely wonderful, and we would utilize it often.	35-44	Cape George
10	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Port Townsend
11	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		35-44	Port Townsend
12	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	More things for kids please. So excited to hear about a splash pad for the kids!!!!	35-44	Port Townsend
13	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Reduce the pickleball courts to 4. Simplify the recreational pool area, to allow good visibility for lifeguards. Make the deep end of the lap pool 9 feet rather than 7. Consider taking advantage of the current slope of the parcel and increase parking stalls by going down rather than the cost prohibitive up design. Maximize any handicap parking stalls. Minimal amount of landscaping to keep exterior maintenance costs down.	65 and over	Port Townsend
14	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	More spaces for children!	25-34	Port Townsend
15	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Lazy river, splash pad,,kiddie pool	35-44	Port Townsend
16	Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I haven't been following the evolution of the design very closely, but I am happy to see the addition of the lazy river. I have young children and we currently drive to Port Angeles to go to the pool which just seems extremely wasteful, but our kids don't like the pool here in town now. We would very much appreciate the amenities for kids at this new facility. Thank you.	35-44	Port Townsend
17	Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	Please add lots of kid-friendly options so families don't have to drive out of town. Splash pad, lazy river, shallow end with beach-style entrance for little kids, water slide, warm pool temps for non-lap swimmers and families, kid-friendly hot tub. Thank you!	35-44	Port Townsend
18	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Having the recreation area be as family friendly as possible! Lazy river, water features!	35-44	Port Townsend
19	None of the Above		No pool. None of the above. Fix the roads. Use your grant gaming skills to get money to fix the roads. Thank you	65 and over	Port Hadlock-Irondale
20	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	The link isn't showing up. I just want to say I want a lazy river for the kids and a hot tub for me. Whirlpool for kids too. Families will use the pool a TON if it has these important features.	35-44	Port Hadlock-Irondale
21	Full aquatics and gym multi use space. Hospital has a wellness center new pool doesn't need this added cost	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
22	Diving area & rock climbing wall like the P.A. Pool	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
23	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	I like the full build out idea but what about an outdoor splash pad? Thought this was the project that would incorporate that. Also a lazy river in the recreation pool, and a hot tub. The PA pool would be a great one to look at and adapt. Their recreation pool starts at 0 feet and has various activities all ages enjoy. The climbing wall is great too! Remember our town is more than retired individuals.	35-44	Port Townsend
24	For the amount of money, I'd prefer the county/city contract with Transit and bus people to-from Sequim's aquatic center.	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Doesn't seem to be enough parking...	35-44	Port Hadlock-Irondale
25	We cannot afford and don't need an aquatic center with all our more pressing problems.		We need to fix streets, sewers and water lines and get good jobs. We don't need this Taj Majal for people with lots of free time.	55-64	Port Townsend
26	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Our local children need more activities for cold rainy months. Please make this a space our children can enjoy and want to use. My kid wants to join a local swim team too. Thank you!	35-44	Port Townsend
27	Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Port Angeles Pool is a great example of what I'd love to see here in PT. It's not grandiose but has all the necessary features for all ages. The Lazy River is a big draw for our kids and I know seniors like it as well to walk against the flow for exercise. Having a gym would be nice but the pool is the main thing this town needs. We need a place where the community can gather during the winter months and where kids and adults can strengthen their swimming skills since we live in a maritime environment. Other important features: sauna, hot tub. Having these features will ensure we go to this pool and don't continue traveling to the better pools in PA, Silverdale, Bainbridge etc. In my mind the current pool location would be a great spot to put this aquatic center. Thank you!	45-54	Port Townsend
28	No pool		No pool	45-54	Port Townsend

29 Repair the current pool.	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Our taxes are already too high. Many people in our community are struggling to be able to stay housed. It is unconscionable to add to their burdens. It is past time for the city to be fiscally responsible. You've done an appalling job so far.	65 and over	Port Townsend
30 NO new pool !! Update / refinish the existing pool.	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Way too much building. Keep it small and simple for easy maintenance and low cost. Keep any facility at the current pool site.	55-64	Discovery Bay
31 Lazy river and splash pad. Make it a place for kids too	PFD & MPD (combination of both)	I don't see the layout on this form. It's too small to see.	35-44	Port Townsend
32 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	But I have very young kids, and I'm excited about the news of a possible lazy river in the pool area. Also recommend: - 0' deep fading to 3' deep near the lazy river, for the very little kids/infants - A toddler slide and child slide, if slides are in the picture at all	25-34	Port Townsend
33 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	If the toilets, lockers, and changing rooms are gender neutral and have family/accessibility access? YES PLEASE! Also any tweaks that make the pool and other areas mobility impaired accessible? YES PLEASE! And if it's possible to have adult activities for intellectually disabled people? Either congenitally or acquired? (Dementia/TBI) YES PLEASE!	55-64	Port Hadlock-Irondale
34 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax	I like the pools and general layout, site orientation . Hopefully, the lap pool will have deep end?? And it occurs to me that with this site plan, the current facility will need to shut down for construction of this new building. I thought we were going to avoid that??	55-64	Port Townsend
35 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Wow! Thank you for hearing community feedback and expanding the pool. This will be so valuable to families who are already here and continuing to attract families to our area. While we may have an old population and need to certainly accommodate their water aerobics needs, if we don't prioritize family needs we will have a harder time attracting people of employable age. I would still love to see a playground and splash pad as part of the design. Any chance for an inside/outside concept for the summer so that there could be giant doors that open and an outside space accessible to relax in? Also, I do want to reiterate that if the end result is very likely to be having the Y run it, make sure there is space for them to maximize their services within this building. For example, they will have an easier time attracting childcare workers if they can work across multiple departments such as front desk duty when childcare isn't taking place.	35-44	Port Townsend
36 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Also, what I said about my preference for funding is under-informed. I want to do whatever ensures the success of this facility.	35-44	Port Townsend
37 Fix the pool that we already have	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Hard to compare to previous designs when it has been so long between and there isn't a refresh of what has been previously proposed. Also, layout images are pretty tiny. I think it's important for the building to be a draw for families. For PT to thrive, there needs to be amenities and employment opportunities for families. Fix the current pool and keep the golf course. There isn't enough funds to maintain the parks etc. that is already in existence. Quit raising taxes!	65 and over	Port Townsend
38 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	Lazy river, splash area for kids, kid friendly hot tub, sauna. Having this facility be family-friendly is our priority to accommodate the whole population. Thank you!	35-44	Port Townsend
39 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
40 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend

There is a thriving community of young families in this community, and it's really hard to make it to public meetings during little kid bedtimes so thank you for offering the option of submitting survey feedback.	35-44	Port Townsend
42 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		35-44	Port Townsend
43 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		55-64	Port Townsend
44 None of the Above		You have got to be kidding. All the street around that place and the sewers underneath are a mess and getting worse.	65 and over	Discovery Bay
45 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	PFD & MPD (combination of both)	Looks beautiful and would be a real asset for our community but it definitely needs the gym/multi-use area to attract all the young people, and provide a place for indoor pickleball, basketball, and walking especially when the schools are seldom available to the public.	65 and over	Port Townsend
46 Aquatic center for families.	Public Facilities District (PFD) - Sales Tax and Lodging Tax	None. All these designs are terrible. Build a z shaped pool. Deep end with a water slide. Shallow end with fun play areas for kids with a zero depth to a few feet. Again, Aquatic center.	45-54	Port Townsend
47 Full Build-Out: Aquatics + Wellness + Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax	In speaking with families in our community, teens need a place to work out and use weight training and fitness equipment. Please add that to the concept! Or make it easy to add later on.	35-44	Port Townsend
48 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	ONLY one pool. Half for laps and the other half for recreation or water aerobics. ONLY 1 separate shower room, with shower booths with doors, accessible from outside only. Universal locker room with 6 universal changing rooms with doors. Have a public bathroom, accessible from outside. Minimal office space inside with lockers for staff. 1 upper paved parking lot only with a transit stop. NO lazy river, NO splash pad, NO additional playground, NO additional pickleball courts, NO lobby with seating. NO public art, NO spa, NO sauna, NO wellness space (the hospital had leased a large room for wellness at the Castle Hill Mall, within walking distance of the hospital). ONLY a bare bones project is needed for lessons and water aerobics. Most people live close enough that they can shower at home. If a therapy pool is needed, it would be better built closer to the hospital on their own property. NO displacing of the dog park. A second paved area for cars is not needed. A lot of wasted space is shown in this design. Plus, there is no price tag shown for each amenity.	55-64	Port Townsend
49 Modified Base with only Aquatics	Public Facilities District (PFD) - Sales Tax and Lodging Tax	No more paved spaces, use the 1 parking lot already existing. If it's not enough, then need better scheduling by the pool not to interfere with the food bank on 2 days a week. If that's not enough time for classes and aquatics, then schedule those later or earlier in the day than the food bank hours. Need basic pool for swimming lessons, aquatics and laps. Basic locker room with no showers. No added amenities such as meeting rooms, birthday rooms. No administrative offices in the building, just an office overlooking the pool for lifeguards and their lockers. No added courts or splash pads or playgrounds outside. Need less in maintenance costs, so less space to maintain. Better roof design so it doesn't fly away during strong wind storms. Need less landscaping for deer to eat and less to water.	65 and over	Port Townsend

Full Build-Out: Aquatics + Wellness + 50 Gym + Multi-Use Space	PFD & MPD (combination of both)	How about a gathering place that has pool tables and other physical games (NO video games) that teens, young adults and all might enjoy? There should be a live snack bar, i.e. not just vending machines, and plenty of tables and seating for people to gather. The pictures show a lot of empty space in the lobby; please don't waste space. Put in lots of comfortable seating for people to gather. Do not make the deep end of the pool only 7 feet. That is unsafe! Even if you post "No Diving from Sides of Pool" signs, people will do it! It's a liability. 9 - 12 feet is much safer. In addition, consider having regulation diving boards at the deep end. If swim competitions are to be held the diving area opens the facility up to many more competitors. It will be a big attraction to our teen population. Weekly swim classes based out of our schools are a must! Absolutely all people should learn to swim! We are surrounded by water. Learning to swim is as important and as good for you as learning to walk. Your future lifeguards and instructors will be cultivated from such classes.	65 and over	Port Townsend
51 None of the Above		Mom said, "If you can't afford it, you can't have it". This would very appropriately apply to this town that needs to spend and save on things it really needs like water, sewer and roads.	55-64	Port Townsend
52 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
53 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
54 None of the Above		When will the city live with its means?! This is to grand a project when basic services are left in an unacceptable state	55-64	Port Townsend
55	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I actually object to any tax increase to offset this project as I have capital improvements on my home that need funding.	55-64	Port Townsend
56 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 57 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I will love and support whatever you come up with.	55-64	Port Townsend
58 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 59 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Townsend
60 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
61 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
62 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Though there are wealthy people who live here and can pay exorbitant property taxes, there are those here on fixed incomes who are already burdened. What are the current stats on pool use? Why do our roads remain a joke? Why are you building more unnecessary roundabouts? Why are you so convinced about cutting down the trees on Sims after already butchering them? We are a highly educated and active couple in the Port Townsend community but so many recent decisions are abhorrent.	65 and over	Port Townsend
63 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
64 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
65 None of the Above		Please do not raise property taxes for an aquatic center. I bought a house her in 1990, and the property taxes are scorching me.	65 and over	Port Townsend
66 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 67 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Lazy river. Sauna. Elliptical. Hot tub.	45-54	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 68 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		35-44	Port Townsend
69 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
70 fix the pool that is already there	Public Facilities District (PFD) - Sales Tax and Lodging Tax	We are a very small community and cannot support such a facility. Fix the pool that is already there and leave the golf course where it is. Quit taxing people out of their homes.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 71 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Additional parking. Any chance of adding a 1 meter and 3 meter spring diving board. Necessitating little deeper at that locations and lock off/ closed off feature to prevent use at non diving times. Thanks.	65 and over	Port Townsend
72 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 73 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	The kid Rec zone in the pool is essential for water safety and helping our youth learn to swim. It is crucial that this water be warm and there be enough space for them to learn AND for it to be fun. For example including a fountain of some sort. Or slide or climb and water play structure. Thank you for considering the families in this town. They are the future.	35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 74 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I like the idea of the full build out with a new gymnasium if the costs are not too much more, but I am unclear of how it is likely to be used. Will it be for basketball? Will it replace the uptown Rec Center gym? Or is there enough demand for two similar spaces?	65 and over	Port Townsend
Do not spend any more taxpayer dollars 75 on a pool.		Do not spend any more public dollars on a pool. There's a reason the YMCA proposal failed miserably. it doesn't pencil out.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 76 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Provide more parking spaces for pool use.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 77 Gym + Multi-Use Space	PFD & MPD (combination of both)	I would LOVE to see a fabulous pool facility in PT - great for revenue and enjoyment. This will draw younger families as well - life blood for our community.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 78 Gym + Multi-Use Space	PFD & MPD (combination of both)	I think it is o far to perspective that we may have a pool / Aquatics center has multiple places. I seethat it can be.rented for parties could be used for gym. When I and my kids were being raised, there was a swimming pool a skate rink and a bowling alley. Besides all the beautiful parks that I could take them into around. There is no such thing now. Besides a pool that is much needed repair and expansion. Hot tub would be fantastic as a senior with disabilities I would hope that there was be adequate handi cap parking.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 79 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 80 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Kala Point
81 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	Pool and gym are most important. Don't go crazy with all the bells and whistles. Keep designs open for additional uses as they become obvious.	65 and over	Port Townsend
82 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Repair and remodel the existing facility- And it needs to be paid for by State 83 Recreation Grant money		Make the document that notes the comparative costs for updating our existing pool public. That information needs to be included as an option after the public has time to learn about it and consider it against the pie in the sky options already presented. Since our esteemed and highly paid city manager and our director of parks and recreation visioning and strategy are so sure that what we really need in this town is more state grant money, let's not have any additional local taxes, and fund this with state grant money. Maybe the hospital and YMCA stakeholders can chip in.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 84 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend

Full Build-Out: Aquatics + Wellness + 85 Gym + Multi-Use Space	PFD & MPD (combination of both)	We so need a pool in PT! This model looks fine to me.	55-64	Port Townsend
86 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
So few people use the pool and our other problems are enormous. Don't 87 build new one.		We cannot afford and don't need this. We can drive to Sequim when this one closes. A lot more economical.	35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 88 Gym + Multi-Use Space	PFD & MPD (combination of both)	I'd like to see a splash pad in either option, even if it removed pickle ball. We have several pickle ball courts already and very little for young children to do.	25-34	Port Townsend
		Why are you spending money you don't have and trying to get people who don't use the existing pool to pay for it? I am a local and am 100% against this. How about you trying fixing what we have first? This is a poor and costly attempt at a band-aid to cover the existing problems of this community. Stop the misappropriation and taxation madness. If you want people to live/work here to support the city, stop making it so damn hard to do so with all your frivolous ideas. A town of 8,000 doesn't need an aquatics center. Fix the infrastructure then fix the existing pool. It's this continual irresponsible thinking that has this city going over a financial cliff. And when it does you will be held responsible.	55-64	Port Townsend
89 None of the Above			55-64	Port Townsend
90 None of the Above		NO POOL.	55-64	Port Townsend
91 None of the Above		I do not want to pay for this. I will not use it. We are not responsible for your mistakes. Please stop trying to tax us into fixing them for you. We are already having trouble living in this community,	35-44	Port Townsend
Keep it simple. Just replace what we already have. Too many people in this town cannot afford the added taxes that you are proposing. We need to make it more affordable to live here, not less. And placing the expense on tourists just shifts it to our business owners. Again, keep it simple. That's all we need. We live in a beautiful place that people can recreate in all year 92 round.			55-64	Port Townsend
Don't do it and put money towards 93 greatly needed infrastructure.	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Not supportive of this.		Port Townsend
94 None of the Above		This community does not need a grandiose pool with gym and wellness center! There is not money in the budget or the community to pay for this monstrosity, much less handle the maintenance. The pie in the sky mentality of the folks pushing for this is absolutely insane!!! The fact that this survey does not give the participants the option to say NO to all of it, just confirms that it's smoke and mirrors and not actually a real survey of the people!	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 95 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax	Splash pad in our climate seems like an excessive cost. I would also not recommend putting it right next to the pickleball courts (both for straying wet feet on courts and for the peace of the community... p-ballers next to that much 'noise and action' haven't meshed well in the past).	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 96 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Looks good	25-34	Port Townsend
97 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
98 None of the Above	PFD & MPD (combination of both)	I don't know what those two financing options even mean... What is the municipality or the public thing? We are voting on something we don't even know what it is.	55-64	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 99 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Cape George
100	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
101 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 102 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Pool should have ample depth for adult water aerobics exercise- up to 4.5 feet for taller adults. An outdoor covered picnic pavilion would be nice. Lazy River is good for adults wanting to increase strength by walking against the current. Go for the funding effort you feel has the best chance of passing. Enlist swimmers to help get the word out.	65 and over	Port Townsend
103 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 104 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax	Excellent design with the exception of the rec pool where water aerobics classes will be held. It needs to be a clean rectangle that can accommodate about 40 participants.	65 and over	Port Townsend
105 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
106 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 107 Gym + Multi-Use Space	PFD & MPD (combination of both)	Please make sure there are sufficient regular and handicapped parking spots. Also I hope the system for the pool water treatment is salt or bromine rather than chlorine based.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 108 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 109 Gym + Multi-Use Space	PFD & MPD (combination of both)	I know there are only so many options for a building over a pool, but something less brick-like would be nice	25-34	Port Townsend
Full Build-Out: Aquatics + Wellness + 110 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
111 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Very excited to not have to drive to PA aquatic center any more!	35-44	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 112 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
113 None of the Above	PFD & MPD (combination of both)		55-64	Port Townsend
114 None of the Above	PFD & MPD (combination of both)	I think a pool and rentable space would benefit the community. I do not think we need wellness center space.	25-34	Port Townsend
Full Build-Out: Aquatics + Wellness + 115 Gym + Multi-Use Space	PFD & MPD (combination of both)	Eliminate the Blaine street through-street and expand the pool complex to be more cohesive with the Central Park district greenway.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 116 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
117 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		45-54	Port Hadlock-Irondale
118 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Please consider what other public space is available around town for similar purposes (E.g., gym, multi-use space) and their current usage/demand. I appreciate community amenities, but we don't need to over build.	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 119 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 120 Gym + Multi-Use Space	PFD & MPD (combination of both)	As much family and kid focus as possible.	25-34	Port Townsend
Full Build-Out: Aquatics + Wellness + 121 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Townsend

122 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
123 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Well now, sure doesn't look Victorian does it? Why aren't monies being spent fixing and improving the infrastructure of Port Townsend. Can the current infrastructure handle this monstrosity? At this point you've taxed those that would be needed to work there out of existence. Can you say, Welcome to Aspen?	45-54	Port Townsend
124 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
Repair and rehab the existing facility 125 again			35-44	Port Townsend
126 Base: Aquatics + Wellness Space	Metropolitan Parks District (MPD) - Property Tax		25-34	Port Ludlow
127 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 128 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Needs more than 6 handicap parking spots!! I also hope the locker rooms are bigger than they look. We have a very full locker room when water classes are scheduled, the room we have now at the pool is not big enough!	65 and over	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 129 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Need more facilities for (young) children. Kiddie pool, slide, etc	45-54	Port Townsend
130 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
No aquatic center....Do not take away 131 any of the golf course.		Do not spend the money on such an shortsighted project.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 132 Gym + Multi-Use Space	PFD & MPD (combination of both)	Build the full facility with the gym and multi use space. Saving less on the initial build increases the subsidy long term. Facilities with full amenities are more sustainable for communities financially. Losing one of our indoor gym spaces in our community will have a huge impact on youth and adult sports. Our other public gym at the Rec center is very old and cannot be used on certain weather conditions, not regulation, etc.	35-44	Port Townsend
133 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 134 Gym + Multi-Use Space	PFD & MPD (combination of both)	I applaud the committee for listening to our feedback at the open house a few months ago and including a lazy river into both plans. Thank you. The building design appears to be simpler than the last but I cannot recall the price tag of the previous design, therefore I don't know if this current design is cheaper to build? I would prefer the new building to be of simple design and cheaper to build so more money can be used to install useful features, ex lazy river, slide, splash pad, gym, wellness, pickleball, etc.	35-44	Port Townsend
135 No aquatics center!		We don't need this. To spend this much money for the few people that will use it is outrageous. The taxpayers of this city have had enough. Fix our infrastructure.	65 and over	Port Townsend
136 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Way too expensive	65 and over	Port Townsend
137 None of the Above		My R/E bill is now 16% of my Soc. Sec. income. My water bill is high and we are charged sewer on water obviously used to water gardens. Cherry St Project is an eyesore. Public art is ugly. Stop with the projects. If you want to live where there is an aquatic center, a 96 car parking lot, more wiffle tennis courts, and spend money on universal changing rooms move to another place. Lessor Port Townsend!	65 and over	Port Townsend
138 None of the Above		This is way more than a poor county needs. We can live without a shiny thing like this. I will buy bicycles for kids I love with the \$ you would take from me in taxes.	35-44	Port Townsend
139 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
140 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
141 None of the Above		The link doesn't work. How much will this cost and what will I have to pay?	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 142 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	There is a group that is working hard to put out incorrect information about this new pool and are trying to stop this project. We need them better educated on this new pool, again letting people know there is NO option to fix what we have and why we can't use other pools in our county. They don't understand they are part of HOA's and not public pools. Most feel they don't want to pay for a pool that only a small % of people use.	65 and over	Port Hadlock-Irondale
143 None of the Above		I do not wish to pay for this. I put in none of the above and refuse to answer a preferred payment option. The second question is deceitful without a none of the above choice as well. We have so many other priorities to focus on. Shame on you for wasting our collective resources on this frivolity. I know you will be laughing reading this for the shame on you wording but you should be embarrassed.	45-54	Port Townsend
144 upgrade existing pool		Our community desperately needs affordable housing. Property tax increases are counterproductive to affordability. The cost of construction is only part of the equation. Annual maintenance on an aquatic center will further negatively affect affordable living in Jefferson County. An aquatic center would be unnecessary and detrimental to our community.	65 and over	Port Townsend
145 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	First we need a cost analysis for repairing existing facility vs. minimal new facility.	65 and over	Port Townsend
146 None of the Above		It would be nice to tell us about cist and how many or few people use this place. I live in the county and have never wanted to drive into town to go there. Are you trying to get my money? Misuse of public trust and funding authority. The city streets are in bad need of repair, maintenance cost and infrastructure cost need to be funded. Priorities are misaligned to the public need.	65 and over	Discovery Bay
147 None of the Above			55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 148 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Would be nice to have some diving boards for a diving team and kids to play on. One 3 meter spring board, 5 meter spring board and platform, 10 meter platform (my personal favorite as a kid swimming at the public pools in Texas in the mid 80's) if we are going to build it let's make sure to have these so it's fun as well as available for an additional high school (Olympic) sport.	35-44	Port Townsend
149 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 150 Gym + Multi-Use Space	PFD & MPD (combination of both)	Please build a decent pool, it would be the ideal exercise for me, plus people need to learn how to swim!	55-64	Port Townsend
151 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I like the changes made in this round of designs as to how the facility will fit on the property. As a deep water fitness person whose spouse swims laps at the same early morning time, I wonder how our usage will work in the new facility without a diving well area. If 3 or 4 lanes are set aside for laps, how much space is available for deep water exercise? Given this constraint, how much would it add to the cost to make this an 8 lane pool? Given all the E-bikes in town, a substantial covered area for bikes is important. Thanks for listening!	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 152 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Ps. I think you should differentiate between Port Townsend city residents and those outside the city, but in the same zip code. Many Port Townsend "residents" use the pool but do not pay city taxes.	35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 153 Gym + Multi-Use Space	PFD & MPD (combination of both)	It's gorgeous!	45-54	Quilcene
		This looks nice and modernized, my makes sense to build a gymnasium and multi purpose area at the same time. This space should meet the needs of the community at large.		

I like the full build out, however I would prefer a "workout gym" over an indoor basketball court. Something with weights, machines, bikes, treadmills, etc. There is only one local gym that I know of and it's incredibly overpriced.	PFD & MPD (combination of both)	The overall designs are very modern and sleek. Not bad, just doesn't really fit the Victorian feel of most of port townsend.	25-34	Chimacum
Would like to know cost for renovating 155 existing pool.	Metropolitan Parks District (MPD) - Property Tax	I want to know how the new proposals' costs compare to renovating the existing pool without adding trendy features. It's a great wish list - birthday room, even more pickleball! - but how much new income is actually projected? And what is a bare bones proposal of updating the current pool? If that is a thoroughly nonviable option, please explain that, rather than the quote in the PDN of "no pool at all". That's not an explanation, it's a threat. If not given an update option for the current pool to evaluate, I will be voting NO.	55-64	Port Townsend
156 None of the Above			65 and over	Port Townsend
157 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Hadlock-Irondale
158 None of the Above			35-44	Port Townsend
159 None of the Above		No	55-64	Port Townsend
160 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Please demolish the current pool ASAP. It's a money pit. Also if you build the new pool on the old pool site, you could save \$ and retain the dog park which would mean saving the golf course driving range. The small number of current daily pool users can find another pool for the time being. It's silly to base all plans on their wish to retain the old pool.	65 and over	Port Townsend
161 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	Please please make this a welcoming space for families with little kiddos. We need to bring the mean age of this community down, and forcing local families with small children out of the county to find activities isn't the way to do it.	35-44	Port Townsend
162 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	It's a little square and boring looking.	35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 163 Gym + Multi-Use Space	PFD & MPD (combination of both)	Looks similar to other facilities in on the other side of the water (Lynnwood area).	35-44	Port Townsend
164 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Start with the basics and plan for additional facilities to be added as the pool shows it can be easily funded by users and the community without a lot of financial woes. Everyone in the community including visitors needs to fund it not just taxpayers	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 165 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
166 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		35-44	Port Townsend
167 None of the Above		I have no idea what those funding options are. why are you asking me to vote on something that I don't even understand? the bottom line is, I do not want my tax dollar increased. NO POOL	55-64	Port Ludlow
168 None of the Above		No idea what a PFD IS. FIX THE SEWER!	55-64	Glen Cove
Don't build a new pool we cannot afford and really don't need compared 169 to other problems.		I said no pool. Fix the streets and sewers. Build the economy and jobs. No more taxes for frills.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 170 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Sequim
171 None of the Above		My public opinion is that our city should be focusing on other, more important things that benefit the town. This is an extremely expensive waste of time and money.	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 172 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 173 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
174 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Please ensure citizens understand that a vote of NO will mean that the existing pool goes away.	55-64	Marrowstone
Before I thought, I would need to know the cost difference between the two. Certainly the full build out looks wonderful, but it must affect the cost significantly. more information please. 175 Seems overly simplistic to vote here .	PFD & MPD (combination of both)	Without more information, these simplistic votes for this or that seem rather silly. And a waste of tax dollars even just to organize this. By funding this are we prioritizing it over housing? What are our real priorities a lovely pool sounds indeed wonderful. But it what real cost. I would vote for housing over any of this... I think...? That's why I need more information. Thanks.	65 and over	Port Townsend
176 None of the Above		There should be no tax of any kind to build this thing. The city can give bus passes to Sequim for those who can't make the drive.	55-64	Port Townsend
177 rebuild current pool and related facilities		We cannot afford an aquatic facility. I do not want to be taxed for this. There are better uses for city money. Pot holes, for example.	65 and over	Cape George
Full Build-Out: Aquatics + Wellness + 178 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Cape George
179 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Two tanks, zero depth entry, lazy river for families and some dry-side space for therapy. The simpler, more utilitarian the better fit for our community.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 180 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 181 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 182 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 183 Gym + Multi-Use Space	PFD & MPD (combination of both)	Yes please.	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 184 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 185 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 186 Gym + Multi-Use Space	PFD & MPD (combination of both)	Strong vote for a deep end, ideally with diving board or slide, for older kids and teens. It's that deep water swimming, playing games that makes them strong swimmers!! Also will the gymnasium include workout equipment or indoor track in the upstairs like a lot of newer gyms? That would make it much more useful to a broad population	35-44	Port Townsend
Full Build-Out: Aquatics + Wellness + 187 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I last design with the full gym is my preference. The space is well utilized and recovery cost is higher. It would be really great to have a proper after school/summer camp program implemented as well.	35-44	Kala Point
Full Build-Out: Aquatics + Wellness + 188 Gym + Multi-Use Space	PFD & MPD (combination of both)	I am not keen on making excessive concrete for parking and yet realize parking spaces are a priority. Might there be a way to coordinate with Jefferson transit to utilize the park n ride at Haines place on a regular, say hourly, schedule?	65 and over	Port Townsend
189 None of the Above		No pool, no tax increases; Roads & sewage first please.	55-64	Port Hadlock-Irondale
190 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Hadlock-Irondale
191 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Kala Point
192 None of the Above	PFD & MPD (combination of both)	Don't need aquatics center. Better use would be housing.	65 and over	Port Townsend
193 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Kala Point
194 None of the Above			65 and over	Port Townsend

195 None of the Above			65 and over	Port Townsend
196 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	We don't need fancy-schmancy. All we need is the basic plan. Our property taxes are already too high! It's going to price us out of PT after living here 23 yrs!	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness +				
197 Gym + Multi-Use Space	PFD & MPD (combination of both)	Capital and operational costs are important to this discussion. More detailed pro formas showing the assumptions and ranges would be helpful.	55-64	Port Townsend
198 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Kala Point
199 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	It's too big (and too expensive). We just need a pool available to the community. There are already relatively empty fitness places in PT.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness +				
200 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Chimacum
201 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
202 None of the Above		I don't know what is MPD is, so I can't answer that question... I just don't want my tax dollars to pay for it thank you.	45-54	Port Hadlock-Irondale
203 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
Full Build-Out: Aquatics + Wellness +				
204 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Townsend
205 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Ludlow
206 I am against the new aquatic center		I am against this project and feel there is a better place to spend our money.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness +				
207 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Cape George
208 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	looks very costly	65 and over	Kala Point
209 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	No new taxes	35-44	Port Townsend
210 None of the Above				
Full Build-Out: Aquatics + Wellness +				
211 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness +				
212 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		65 and over	Kala Point
Full Build-Out: Aquatics + Wellness +				
213 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
214 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Marrowstone
215 None of the Above		No tax of any kind for this status symbol. Very few people in the city use this, hardly no one outside the city.	45-54	Kala Point
PT and Jefferson Co. can't afford this		Question#2 Is none of the above.		
216 project!		Question #3 Upgrade what we already have. This project hurts the current business owners and the community will not support it after the newness wears off. Then comes the bill for something they wish they'd killed at it's onset. get their tax bill.	65 and over	Cape George
Full Build-Out: Aquatics + Wellness +				
217 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
218 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Ludlow
219 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I think it is a mistake to build this center. Most people have plenty of trails to walk and can swim in the ocean or sound and don't need multiple pools. The green and ocean tranquility is what most visitors come here to experience. This project will only increase the cost of living in the area, thus pushing the workforce away. Fix the YMCA pool, fix the pot holes in the roads, get medical and mental help for the addicted/homeless and work on affordable housing. This is what this community needs.	55-64	Port Ludlow
220 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I like it	35-44	Port Townsend
221 Base: Aquatics + Wellness Space			65 and over	
Full Build-Out: Aquatics + Wellness +				
222 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Marrowstone
Full Build-Out: Aquatics + Wellness +				
223 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Townsend
224 None of the Above		The project is financially ambitious and of questionable priority considering the city's other more pressing infrastructure needs.	45-54	Chimacum
Full Build-Out: Aquatics + Wellness +				
225 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness +				
226 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Port Townsend
Full Build-Out: Aquatics + Wellness +				
227 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax	I see a gymnasium but not a workout facility. If you are not doing a workout facility I would opt for just the pool and wellness.	45-54	Port Townsend
228 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Port Townsend
Full Build-Out: Aquatics + Wellness +				
229 Gym + Multi-Use Space	PFD & MPD (combination of both)	I like the form of this building. It would bring a refreshing element to town.	65 and over	Port Townsend
230 Fix the roads first			55-64	Port Townsend
Full Build-Out: Aquatics + Wellness +				
231 Gym + Multi-Use Space	PFD & MPD (combination of both)	I like the design and I think it would provide a valuable resource for our community.	55-64	Port Townsend
232 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		55-64	Discovery Bay
233 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		45-54	Port Townsend
234 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	If this goes to a voting decision by the public, my vote will be no. Money is needed in other programs and projects to better the county and city of PT.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness +				
235 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		25-34	Port Hadlock-Irondale
236 None of the Above		Irresponsible	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness +				
237 Gym + Multi-Use Space	PFD & MPD (combination of both)	Are those solar panels?	45-54	Kala Point
238 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	No to the center	55-64	Beckett point
239 None of the Above		This is not what Port Townsend needs. There are so many other things in this town that would take precedent over this. We have a local pool. The numbers there do not justify building this. And putting another tax burden on the citizens who live here is outrageous. Many families have left our town because they can no longer afford to live here. I have lived here over 40 years and the change that is happening in our town is devastating. ☹️	65 and over	Port Townsend
240 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I have no interest in seeing my taxes increase to subsidize a facility I will never use.	65 and over	Port Townsend
241 None of the Above	PFD & MPD (combination of both)	I do not want an aquatic center because only a couple of hundred people use this enormous expensive white elephant while raising our taxes. Try a tax raise to fix our roads instead.	65 and over	Port Townsend

Full Build-Out: Aquatics + Wellness + 242 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Townsend
243 None of the Above		Please use your financing skills to raise money for fixing the roads and our sewage system that is failing. Thanks!	55-64	Port Townsend
244 None of the Above		I cannot support a facility that most of the middle class will not be able to afford to use	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 245 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Hadlock-Irondale
246 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 247 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		25-34	Discovery Bay
248 None of the Above		Roads and housing first!	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 249 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Chimacum
Full Build-Out: Aquatics + Wellness + 250 Gym + Multi-Use Space	PFD & MPD (combination of both)	Use fees: I would like to see a call out that a program to ensure access by low income citizens will be in-place before opening.	65 and over	Port Townsend
251 None of the Above		This is a bad investment for h e community ,period	55-64	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 252 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Townsend
253 None of the Above		Let's do what's necessary to keep the old pool up and running.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 254 Gym + Multi-Use Space	PFD & MPD (combination of both)	WE DEFINATELY NEED A NEW OLYMPIC SIZE POOL. THE HIGH SCHOOL STUDENTS NEED TO BE ABLE TO PRACTICE AND HAVE MEETS HERE. THIS ALSO IS THE ONLY GYM IN THE AREA FOR THEM TO USE. I HAVE BEEN DOING WATER AEROBICS HERE FOR 26 YEARS AND IT HAS KEPT ME GOING. I AM 87 AND THE OLDEST ONE IN OUR GROUP. I HOPE TO KEEP GOING FOR A FEW MORE YEARS.	65 and over	Kala Point
Full Build-Out: Aquatics + Wellness + 255 Gym + Multi-Use Space	PFD & MPD (combination of both)	I want to see the full build out, but am concerned that would not pass. However having a multi use facility would encourage more use. For example, I swim but my husband does not. Having the full buildout would allow both of us to get the exercise we need in one place and in one trip to town from Marrowstone! I would fully and totally support either choice!!!!	55-64	Marrowstone
256 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 257 Gym + Multi-Use Space	PFD & MPD (combination of both)	The full buildout will support my wife swimming while I can do other workout functions in the gym and extended areas.	65 and over	Marrowstone
258 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Kala Point
259 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	I like it. It looks inviting and functional.	55-64	Chimacum
260 Base: Aquatics + Wellness Space	Metropolitan Parks District (MPD) - Property Tax		65 and over	Port Townsend
261 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
262 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 263 Gym + Multi-Use Space	PFD & MPD (combination of both)	It was be such a gift to all our residents to have an aquatic center . We need one! Thank you	65 and over	Port Hadlock-Irondale
264 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 265 Gym + Multi-Use Space	PFD & MPD (combination of both)	I've used several YMCAs, I think the layout of the Gordan YMCA in Pierce county works very well.	55-64	Port Townsend
266 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Will the facility have a covered bike rack area? With e-bikes more people are riding to the pool. But they request a covered area to park their bikes.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 267 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Marrowstone
Full Build-Out: Aquatics + Wellness + 268 Gym + Multi-Use Space	PFD & MPD (combination of both)		65 and over	Port Ludlow
269 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Kala Point
Full Build-Out: Aquatics + Wellness + 270 Gym + Multi-Use Space	PFD & MPD (combination of both)		35-44	Chimacum
271 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Great redesign attendant to community needs and feedback	55-64	Port Townsend
272 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Townsend
273 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
274 None of the Above	PFD & MPD (combination of both)	A public facility of this size and expense makes no sense for a community of our size. Only a couple hundred of people will use it regularly and all of us will pay. For a small dedicated user base, allow commercial enterprises to fill the need. If we must pay this kind of money in taxes let i\be for somethings EVERYbody needs - like proper residential roads.	65 and over	Port Townsend
275 None of the Above		No tax based pool. How do we plan on fixing the sewage system?	65 and over	Port Townsend
276 None of the Above		Why are we considering using tax-payer dollars in our very struggling economy on an aquatics center when we don't even have housing for everyone?! Good grief!	35-44	Chimacum
277 None of the Above		Save our green spaces!	65 and over	Port Hadlock-Irondale
278 None of the Above	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 279 Gym + Multi-Use Space	PFD & MPD (combination of both)	Needs to address Blaine Street in a positive way as the primary street frontage. Utilize North facing facade at Blaine Street for transparency providing indirect light with minimal solar gain and a stronger connection to the main public thoroughfare communicating the building's use and function to all who pass by. Increase pedestrian connection rather than solely focusing on the vehicular approach. Strong signage acting as wayfinding so the community knows what facilities are available to them. Consider including a public signage board that shows the impact of the solar panels shown on the roof design. Scaling down large parking areas through the incorporation of planted islands will help soften the impact of these areas.	35-44	Port Townsend
I am NOT in favor of the project. I feel that our area has more pressing basic infrastructure needs and public safety issues that should take priority of any available funds. In the current economic environment people are already struggling to make ends meet. Any additional taxes would be crippling. Additionally, the existing facility is not used by the majority of the population. There are plenty of other ways to achieve better physical fitness to those who are interested or concerned. It is not necessary, nor is it responsible to undertake such an expense that would burden the tax-paying citizens of Jefferson County.			65 and over	Port Townsend

281 Base: Aquatics + Wellness Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	I like the idea of updating the pool facility. Please be sure not to use funds already dedicated to maintaining and upgrading water and sewer infrastructures.	65 and over	Port Hadlock-Irondale
282 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)	This must be done in a cost-effective way. There are very few residents in Port Townsend and the cost per each is significant to most. No need to get fancy and costly. Leave that for bigger, more generic cities. Remember, we'll all here because we don't want to be, or be like, those places out there.	65 and over	Cape George
283 None of the Above		What a waste of city funds. Paying for consultants, architects, artists renderings for a project the city can't afford. Between this and the golf course how much has been spent on these proposals? The city employees and elected officials would do well to acknowledge Port Townsend is a small, rural community, not an urban, tax rich area with funds to waste on these non-essential facilities. Stop the financial bleeding. Scale down the projects to fit the area where you serve.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 284 Gym + Multi-Use Space	PFD & MPD (combination of both)	Little concerned about the flat roof overhang- will hold water, leak, start to look bad- could that be made into a green space- moss/ivy?	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 285 Gym + Multi-Use Space	PFD & MPD (combination of both)		55-64	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 286 Gym + Multi-Use Space	PFD & MPD (combination of both)		45-54	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 287 Gym + Multi-Use Space	PFD & MPD (combination of both)	Please, please, please include fitness training space (weights, aerobic machines, group classrooms) as part of this excellent facility concept. The absence of a full, multi-use sports & fitness facility is a huge gap in the community needs here in Port Townsend. Across generations living here, the need for this kind of center is real. Thank you!	65 and over	Cape George
288 Base: Aquatics + Wellness Space	PFD & MPD (combination of both)		65 and over	Port Hadlock-Irondale
Full Build-Out: Aquatics + Wellness + 289 Gym + Multi-Use Space	PFD & MPD (combination of both)	The building looks great. I want to make sure there is indoor pickle ball, as that is such a popular sport in PT.	65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 290 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax		65 and over	Port Townsend
Full Build-Out: Aquatics + Wellness + 291 Gym + Multi-Use Space	Metropolitan Parks District (MPD) - Property Tax		65 and over	Port Townsend
292 Fix the roads			65 and over	Kala Point
293 None of the Above		We can't afford a new pool. Please stop.	65 and over	Port Townsend
294 None of the Above		You need to down size and live within your budget. I'm opposed to raising any taxes.	55-64	Port Townsend
Full Build-Out: Aquatics + Wellness + 295 Gym + Multi-Use Space	PFD & MPD (combination of both)	I am really excited about the prospect of having new modern facilities for recreation. I am happy to pay increased taxes to have a great facility.	65 and over	Port Townsend
296 None of the Above		No tax option	65 and over	Port Townsend
297 None of the Above		No tax	55-64	Port Townsend
298 None of the Above		Absolutely no tax— no tax. No new taxesp	65 and over	Port Townsend
299 None of the Above		No building anything new- use money for roads that everyone can enjoy	55-64	Port Townsend
300 None of the Above		Tax for roads only	55-64	Port Townsend
301 None of the Above		Infrastructure not extra structure!	45-54	Port Ludlow
302 None of the Above		Roads only as priority! Forget the homeless and other very special interests that only favor a few. And how many of these are actually property tax payers?	55-64	Port Ludlow
303 None of the Above		This project should be very low priority for the community - so many basic infrastructure needs should come first. No more taxing!!	65 and over	Port Ludlow
304 None of the Above			45-54	Kala Point
Waste of money with any design. Need to focus on core services such as street 305 repair and housing for working families.		Where do I get to suggest NO TAXES for this playground for the rich?	65 and over	Port Hadlock-Irondale
306 Time to let the pool go.		Woah! Where's the no tax option. This stinks.	25-34	Chimacum
307 None of the Above		Will people from the outlining areas take advantage of this center? No- but will they have to pay taxes for it-yes. Humm - sounds kinda unfair doesn't it?	65 and over	Quilcene
308 Let Julie swim!		Let Julie swim! What kind of public pool bans an old woman for life because she spoke against a male Y employee in the women's showers watching little girls undress? WE DON'T NEED A POOL THAT DOES THAT.	65 and over	Port Townsend
309 None of the Above			55-64	Kala Point
310 None of the Above		Roads for all- pool for few	55-64	Port Townsend
311 None of the Above		No new taxes	45-54	Port Townsend
312 The Sequim pool.		Where is the no tax choice? Rigged survey.	55-64	Cape George
313 None of the Above		No building	65 and over	Port Hadlock-Irondale
314 None of the Above		No	65 and over	Port Hadlock-Irondale
This is way down the list, far below core services that are in desperate need of 315 all our attention.		This stinks. Where is the no tax for this amenity option?	55-64	Port Townsend
316 None of the Above		You aren't getting any more of my money to waste on the privileged in this city!	65 and over	Port Townsend
317 None of the Above		I have no idea what those funding options really mean. But I do not want to pay for a pool with my tax money. Let's make sure we have a good waterline and sewage system before we have a pool that's going to use it	55-64	Port Townsend
Patch up the pool, repair and replace in 318 stages		Save money. Extend the life of our pool until we tackle streets, sewers,water and affordable housing	45-54	Port Townsend
Patch up the pool, repair and replace in 319 stages		Save money. Extend the life of our pool until we tackle streets, sewers,water and affordable housing	45-54	Port Townsend
Full Build-Out: Aquatics + Wellness + 320 Gym + Multi-Use Space	Public Facilities District (PFD) - Sales Tax and Lodging Tax	Make sure there will be level 2 car chargers in the parking lot. Permeable concrete too.	45-54	Port Townsend
321 None of the Above		No new taxes	65 and over	Port Townsend

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Project Vision & Goals

- Reviewed Project Vision & Goals
- Revise language of Project Vision: “rebuild the pool” to be “replace and enhance”

Project Schedule Overview

- Design team will be back in person for Open House events in March, May, and July
- First open house is March 14th. Will want to hold at Fort Warden since may get a large turnout
- Suggestion to do a tour of the existing YMCA facility as a project launch. Could be separate date.
- Outreach to County will also be critical – Design Team will present to County Council
- Could larger meetings be held at Finn River instead of the fort to move it to a county level
- Content for First Open House:
 - Share site analysis and gather community input

- Share what guidance has been received and gather community input on what we are missing or if they agree with the guidance
 - Share Guiding Principles and Site Evaluation Criteria
 - Site plans will show building and parking footprint for sense of scale. Not a building design
- Key Lessons Learned – Show our work and be explicit. Share more information rather than less, City will provide a website for the community to access information about the project.

Market Analysis:

- Determine as a group the Primary (distance people will travel 1x/week or more) and Secondary Service Areas (distance people will travel for an event but not likely every week)
- Service Areas may not be the same as an MPD
- Discussed service area including south Chimacum (Primary Area) and bottom of and west of Discovery Bay (Secondary Area) (if their kids are in the PT School District and oriented towards PT)
- Quilcene could be looked at for a secondary market and Chimacum School District.
- Important to understand assessed value of homes in that area and who in the area may never use the facility.
- Map of current amenities and transit routes will be developed to understand who might benefit from the facility
 - Port Ludlow has two pools and likely won't vote for an MPD
 - Similar providers include Port Ludlow, Sequim, Port Angeles, Bainbridge
 - Kate Dean can help review list of private and public service providers
- The Y can likely provide data on where people are coming from to use both Mountain View and Sequim. – Ken and Wendy to work together.
- Pool Operations – Wendy and Ken to follow up to gather as much information as possible on existing & Operations.

Space Program:

- Program Elements need to be looked at from a Cost Recovery perspective as well – cost to build, operate and maintain vs. how much revenue they bring in.
- Amenity selection is critical – the more things added, the more cost but potentially the more users. What would make this facility exciting that the community isn't getting somewhere else.
- Program should be right-sized to this community
- Critical amenities like universal changing rooms will be included
- Resilience/emergency management – whether planned for or not, will be used this way if necessary. Not much federal funds for increased resiliency but will meet current seismic code which is a vast improvement from existing facility
- Pickle Ball – is huge in PT. How does it fit into the facility?
- Will want to address how the facility impacts to long-standing locally owned facilities
- Group fitness has not returned to PT in the ways that it has in other places.
- How does membership change based on being inside the MPD or out?
- 6 lane 25-yard pool feels right sized – can have swim team practice, swim meets and exercise swimming. Lap pool will include starting blocks.
 - Should the pool have a deep section?
 - Could be used for dive training for scuba divers
 - Traditionally deep water is the least used water/sf and the most expensive.
 - Pool Depth for a singular use is the most difficult to justify – multiple uses like springboard, climbing wall, divers can start to make sense
 - Springboard diving is sometimes a qualifier in a HS competition (1 meter springboard requires 12.5' pool depth) but not an absolute requirement
 - Diving can push you into a higher risk category for insurance but not a deal breaker. Usually utility and other costs are the bigger issue.

- Recreation Pool is the warm pool –
 - can also have the whirlpool integrated
 - Zero depth entry – great for seniors and toddlers,
 - body of water for aerobic, not all the shaping, keep it highly programmable –
 - right sized is about 3000sf
 - Lazy River often most expensive part due to organic shape and water propulsion system
 - Hospital does not need the lazy river for therapy, just the warm water
 - Visitors might be interested in some of these amenities like a Lazy River

- Operators often do not like the steam, jacuzzi, and sauna

- Steering Committee to tour examples of other facilities:

Stanwood –

- 7' to 4' – no diving, 6 lane 25-yards
- Leisure pool 2000sf
 - Two 25-yard lap lanes
 - Open play with basketball hoops
 - Long linear aerobics classes
 - Small lazy river- no inner tubes, water walking against the current
 - Small whirlpool on the deck

Everett

- 2800sf leisure pool
 - Sloped entry though not technically ADA
 - Play zone
 - Lazy river
- 6 lanes 25-yard lap pool – no diving – 7' max depth to 4' shallow depth
 - No swim meet there that requires a diving component

Skagit Valley Y - Ryan can join on this one

- 6 lane 25 yard – add steps to use the pool for other uses – could also do ramp into pool vs. chair lift – chair lift preferred. Ramp is better for folks who can walk but have a little trouble
- 3000sf leisure pool –
 - three abbreviated lap lanes – swimming lessons, water aerobics, therapy lanes
 - Lazy river
- If an MPD is necessary, what amenities would get communities excited?
- Waterslides might not be long-term fun and take up a lot of space
- Hospital is interested in space for their Physical Therapy Program
- A Teaching Kitchen for nutrition and cooking classes (not a full commercial kitchen like fairgrounds) to build on Aaron Stark's efforts in the community. Locate next to a classroom
- Group exercise room
- Cardio-weight fitness
- Childcare vs. Childwatch – Licensed childcare creates a lot of complexities but drop-in childwatch is a must if trying to maximize revenue and family participation.
- Gym – Currently 7 in Port Townsend. Critical amenity or could it be planned as a future addition?
- Design Team will share preferred program options with associated costs at next Workshop
- A masterplan vision for the site with co-located social services could be compelling to the community

Financing Plan:

- Funding is where the money comes from vs. financing
- MPD is typically an unspecified amount – as a jurisdiction you can put a property tax levy that calls out the amount you're going to levy instead which can be more amenable to the community
- If seeking a \$20M bond – will need to size the area enough that your debt limit is covered.
- Need to balance complexity and value of the facility relative to evaluation and ability to pay for it.
- For next workshop meeting will run numbers based on potential MPD area

- Additional funding sources: State of WA and Federal Gov (approx. \$10M), private fundraising (approx. \$6M), and other (approx. \$4M).
- Sales Tax –probably an importer of sales tax revenue from visitors but can be very challenging because sales tax has high variance –challenging from a resiliency perspective.
- Communities get very creative - many pools are MPD only – but also look at capital dollars
- Snohomish - Built with school district bond dollars but city pays for operations
- City of Port Townsend currently spends \$300,000/year on pool – city is hoping to NOT spend that much in the future

Sites:

- Likely looking at approx. 40,000sf building with half of that being pool and locker rooms. Need to provide adequate parking area (approx. 3.4 stalls/ 1000sf)
- Hospital site is too small (approx. 1-acre)
- Golf Course – community seems to want it to remain an open space and timing doesn't align with site decision for this study.
- Mountain View –
 - lots of good reasons to site it here. Can also design the new building to keep the existing pool operational until new one is built.
 - Discussed potential for adaptive reuse but the existing building would require so much work.
 - Discussed potential to keep or reuse gym building
 - Dog park would need to be relocated.
 - ReCyclery may need to be relocated to accommodate building and parking requirements
- Opsi team will also evaluate the Evan's Vista site which is a more county-centric location on the south boundary of PT.

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Space Program and Capital Cost

- Reviewed potential program options and associated capital costs.
- Options included those with and without a gym.
- #1 priority is competition pool –
 - 6 lane 25 yards
 - Starting Blocks, no springboard (7' deep and sloping to 4' at shallow end)
 - Diving adds cost and issues with insurance. Might not allow any diving activity. The Swim Coach has indicated diving is very desirable for the local swim team.
- Group would like to understand the option of diving including capital and operational costs
- Wendy indicated that at the YMCA diving never pencils out and would not want to operate the facility of diving were part of it.
- There is currently only one pool on the peninsula that has diving capabilities.

- Hospital has indicated that they are only interested in having Physical Therapy program if there are also a full suite of rec activities like weights and cardio equipment.
- Looked at two phase approach – competition pool first and then warm water pool
 - Group felt it would be too difficult to fund a second phase.
 - Also results in less than ideal layout with bleachers in the middle. Can create lifeguard issues.
 - Warm water pool with zero entry is critical to the project – good for both seniors and toddlers

Site Analysis and Test Fit:

- Evans Vista – may have issues with deed restrictions
- Hospital Site – not large enough for program
- Golf Course Site – will likely have some controversy associated with it.
- Mountain View Commons
 - Fits well with the other uses
 - Incorporating the Recyclery site would be helpful for having a little more room; Carrie to reach out to Recyclery to discuss their next steps.

Primary & Secondary Service Area:

- Reviewed two options for both Primary (visit 1x/week, want to be conservative with this area) and Secondary Service Areas (visit for events, can be more aspirational)
- Identified smaller Primary Service Area (Option 1) and larger Secondary Service Area (Option 2) as likely the correct areas.
- Service Area and MPD Area do not necessarily need to be the same.
- YMCA data says 82% of visitors came from Port Townsend zip code (this includes some people who are technically outside of the city limits but still indicates high usage by people in town)

Operations and Financial Funding:

- Reviewed an overview of different funding districts and tools applicable to the Port Townsend pool planning
- Prepared estimates of capital funding needs and operating funding needs
- Compared capital and operating needs to debt and levy levels in a hypothetical MPD district
- Squim built their pool through a Parks and Rec Services Area but required renewing through a vote and after 6 years was voted down.
- PFD requirements possibly changed in the last year due to Pasco, WA legislature
- Morgan to review what is possible with a City only PFD
- Steering Committee is very concerned about getting a county-wide MPD passed.

Next Steps:

- Erica to share corrected slides for Steering Committee to review further –
- Next Steering Committee Meeting is 4/21 - can schedule an interim meeting to discuss funding further if desired.
- Board of County Commissioners, City Council, and Open House week of 3/13
- Design Team to develop operational cost scenarios and begin concept designs

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Open House 1 and Survey Feedback

- Saltwater Pool vs. Chlorine Pool
 - Survey echos feedback Carrie has received in passing from the community
 - Common misconception that saline pools have NO chlorine. Still have about the same amount – this is required in public pools for sanitation reasons. An alternate is Bromine but that is much more expensive.
 - Water Technology typically doesn't recommend saline pools because they are a harsher environment even though they feel "softer" – like water softener
 - New pools have a lot less chlorine in them today than older pools.

Site Selection:

- Golf Course Update - Have 4 design approaches to the Golf Course site and all of them show a long linear park along Blaine.

- If Aquatics Center located on the golf course site would want to have visual presence from Kearney but that means it would interrupt the long linear park along Blaine.
- Mountain View is currently the preferred site
- Are still gathering feedback on all 4 sites at the County Open House on 4/27.
 - Are not currently considering other sites outside of Port Townsend because of the need for wastewater utilities with a pool and market study indicates need for a certain density of population in order to support an aquatics center
- The plan fits on the Mountain View site without the Recyclery site but would be easier to keep the existing pool open during construction with the Recyclery site included.
- Once construction is complete would allow for more site amenities as well.
- Carrie in conversation with the Recyclery about the future of the site and looking to see if there is a comparative site to their existing site (rent free, centrally located, great for biking, bike repair, and an educational component) that would better serve them.

Site Plan:

- Without the Recyclery site don't have quite enough parking to serve all of the buildings
 - Opsi to look at adding angled parking along Blaine
 - Parking behind the Recyclery is difficult because of the 8'-0" grade change from Kearney.
- Can public amenities flip to the west side of the site so they are along the street and not the parking?
 - Would mean we would have less space for amenities because there would be drive aisles on either side of them.
 - Can add more landscaping to the parking area so doesn't feel as large

Building Form:

- Renderings are intended to be initial design concept
- Amount of wood shown should align with the overall project budget
- Would be great to see swim scoreboard on one of the walls
- Glare on the water is a concern for lifeguards
- Some conversations are currently exploring if affordable housing can be added to the project.
 - Could this help to pay for the project? - Typically only non-affordable housing projects would help pay for the pool
 - Seems like an incompatible use to some – would want to test it with the public if exploring in more detail
 - Could go on top of phase 2 (the Gym or workout areas) but not usually over the pool because of the long spans needed in the space – can't support housing above.
 - Could impact timeline of project
- Preserving the Pool – This option is still open but still concerned about the cost associated with just saving the building.

Operations and Funding:

- Reviewed overall project costs and first pass at operational costs
- Showing the pool closing between noon and 3pm is because it can be difficult to staff fully operational hours. Wendy suggested we put forward full operational hours, no closures, as that would be the preferred approach.
- Currently City is subsidizing the project at approximately \$300,000/year – No existing city subsidy is assumed in the required subsidy shown in each option.
- Rates appear to be affordable in Wendy's experience
- Revenue is inclusive of all program elements including revenue from swimming classes, summer camp, rentals, fitness classes, etc. – revenue seems a little low in Wendy's experience.
- Would be curious to see how the revenue and operational costs compare to Sequim

- Council can create a Public Facility District but community needs a simple majority in order to implement the taxing
- MPD will also need voter approval so would need to go to voters twice
- There is a risk that one would pass and not the other.
- MPD may be difficult to pass if not improving other county recreational facilities.
- An additional meeting to discuss financing would be helpful. Carrie to coordinate a time

Open House:

- At County Open House will want to hear from the community what would make an aquatics center relevant to them?
- At Open House 2 will want to present preferred site, baseline development and potential phases that would get to a full build out

Next Steps:

- Erica to share slides
- Carrie to coordinate meeting time for finance meeting
- Design Team to finalize Open House presentation for Open House 2 on May 3rd (virtual) and May 4th (in person)
- Carrie to facilitate County Open House on April 27th

May 19, 2023

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Initial Open House 2 and Survey Feedback Summary

- Reviewed feedback from Open House 2 and initial survey feedback. The survey ended the night before at 5pm so an in-depth review has not been completed yet.

Design Update:

- Based on feedback from Open House and survey, the community is split between a basic aquatics center and the full program including gym.
- Some community members mentioned the Shore Aquatics Center in Port Angeles as a comparable project (30,000sf) that was built in 2019 for a stated \$20Million and has 4 bodies of water.

- Opsis reviewed this project as a precedent study and spoke with Trish Drew, the cost estimator on the Opsis team who was also the cost estimator on the Shore Aquatics project).
 - Some of the differences in the project are that it was a renovation of a 20,000sf existing aquatics center with a 10,000sf addition. The main swimming pool is not a 25-yard pool, and they kept the diving well.
 - Feedback from the operator of Shore Aquatics is that the diving pool is very expensive to operate, and they wish they had not renovated the existing center but just built it new because they still have a sub-standard pool.
 - Cost-wise, the construction only cost 2019 was \$17.5 million which, when escalated to a construction start of summer of 2025 to compare with Healthier Together and including soft costs, is around \$37.3Million which is roughly the same as the costs we're seeing on the initial Healthier Together base aquatics project.
- Based on the analysis of the Shore Aquatics project and feedback from the community that there was a real desire for more child-friendly play amenities (like a lazy river) in the rec pool, Opsis developed an alternate base option that reduces the overall square footage of the building but adds more space to the natatorium and rec pool.
- Additionally in conversation with Jefferson Healthcare they felt the location was a little too far to move all of their Physical Therapy space to this location but that they could be interested in a 500-750sf Wellness room that could be used for a variety of activities. This was also added to the reduced plan.
- The reduced plan also includes an option for a future addition that could accommodate a gymnasium or other desired amenities.
- The community also raised the question of community showers for the unhoused population. The Steering Committee recognized this as an important issue within their community that needs to be addressed but is not really connected to the Aquatics Center. They will work on this effort outside of the Healthier Together initiative.
- The Steering Committee discussed keeping the existing gym but there are issues with having to have separate staff at the gym unless used a key card system like the Evergreen Gym. Also discussed that the boiler room for the gym is underneath the existing swimming pool so that would need to be relocated if the pool was removed but the gym stays.
- The committee liked the updated plan. Design Team will work through final updates and share with cost estimator on the team to develop a more detailed cost estimate for both construction and soft costs.

Funding:

- Utilizing an MPD and PFD approach would require two votes which brings down the probability of them both passing.
 - Is it possible to sequence votes such that if a PFD fails it's still possible to get the MPD?
- Discussed the potential to raise more capital through grants, state funding, philanthropy to buy down the amount needed to be raised in an MPD.
 - County Lobbyist has been asked to look for funding sources
 - Splashpad funding could likely be found through grants
- PFD is desirable because a good percentage of the money is raised from visitors to Jefferson County and not just the residents. But a PFD is more volatile based on the economy and requires a source to backstop it in any given year when enough money is not raised.
- Could have a base design with additional amenities listed as optional pending funding.

Operations:

- Did not have time to discuss.

Communications:

- Discussed briefly.

- City working on communications around city programs in general and will incorporate some communication around the Healthier Together initiative.

Next Steps:

- Erica to share slides
- Carrie, Wendy, Ken, Jim, and Erica to meet to discuss operations in more detail and will bring information back to the group.
- Design Team to present update to City Council on June 12th.
- Steering Committee Workshop 5 scheduled for June 16th.

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Feedback from County Commissioner and City Council Presentations:

- Presented at County Commissioners Meeting and City Council Meetings Monday 6/12
- Commissioners Feedback
 - Liked the design
 - Questions on other tools beyond Sales Tax with a PFD – See Funding section in notes below
- City Council Feedback
 - Concern there is too much parking; desire for multi-modal site access– bikes, bus, walking
 - Suggestion to create more street fronting entry to encourage pedestrian access
 - Other councilors noted concern about other community buildings with a children focus with street front entry creating a not safe situation for children at drop off on a busy street.
- Steering Committee Response:

- Parking – Incorporate Electric Car charging stations at the pool and electric bike charging stations (110 plug-in); Note: Cost estimate includes some electric car charging stations.
- Reducing parking reduces site costs but important to have potential for future expansion to have enough parking for county residents with less ability to take the bus or bike to the site.
- Opsis shared an example of a recent project in Hillsboro Oregon that opened a few years ago and is already expanding their parking to meet demand.

Design Update:

- Site plans for base option and full build out
 - Dotted area is existing aquatics and gym space
 - Base project would not include additional pickleball court, playground, splash pad. Those could be carried as Add Alternates
- Parking:
 - Base option shows more parking than necessary. Could reduce build out to reduce site costs.
 - Looked at benefit of restriping Blaine to be diagonal parking. Only increases by 8 spaces and adds additional scope/cost in right-of-way
- Design Inspiration:
 - Local maritime environment
 - Use of wood to reflect Port Townsend
- Steering Committee Feedback:
 - Could splashpad move to north end of site near plaza for more public access?

Cost Estimate:

- Goal of Cost Estimating process:
 - Maximize the design for the available budget
 - Guide smart material selections to save money, understand which materials have more volatility in price, understand what design decisions might limit competitive pricing due to lack of local tradpartners skilled in that scope of work
 - Can impact cost by 80% now but only by 10% once contractor is selected.
 - Identify and mitigate risks to the project
 - Understand what it's going to cost to build this building in this location
- Shore Aquatics Precedent
 - Total project cost is \$37.3 million in current dollars
 - Site development was minimal as it was already developed – existing grading and base foundations in place.
 - Was a risky project because kept a lot of the existing building and there is the potential for cost increase with the amount of unknowns.
 - Feedback from Shore Aquatics Executive Director is that dive tank does not get a lot of use and would not include it again.
- Healthier Together Preliminary Cost Estimate was program based with \$/sf assigned by space
- DCW completed detailed estimate based on actual design.
 - Estimate includes escalation to April 2025; market will likely continue to soften over the next couple of years.
 - Estimate includes demolition of existing buildings
 - Cost Estimate came in higher than program-based budget
 - Opsis and DCW incorporated cost saving measures to the original design to reduce cost:
 - Reduced glazing
 - Reduced contingency based on taking a Target Value Design approach to the project – identifying budget for each aspect of the building and designing to that budget
 - Changed from mass timber/CLT to standard wood framing and simpler roof system
 - Reduced number of retaining walls
 - Cost estimate still includes Photovoltaic system and size of project remains the same

- Updated estimate of original design is still \$6M over even with above listed reductions
- Soft Costs are not included in the cost estimate but estimated at 33% of the construction costs and include design, permit, owner's contingency, Furniture and Finishes, etc.
- DCW and Opsis identified an alternate approach to the design to reduce costs further while keeping the building as similar as possible
 - Relocated building to the middle of the site to balance cut and fill and save on site development costs
 - If need to remove soil for geotechnical reasons can tuck building into the grade
 - In ground pool instead of above grade Mirtha Pool allows for more competitive bids because more people can build it.
 - Northeast side 8' tall retaining wall - reduces exterior skin, good thermal characteristics
 - Reduced glazing by making southwest facing wall more solid – better for lighting control and privacy from street.
 - Reduce site development costs with less parking to start
 - Don't want to reduce program because otherwise do not get full operational value.
 - Updated Site Plan to reduce cost
 - Nice space for exterior plantings for providing summer shading
 - Separate parking lot to serve Food Bank but can still access the community center
 - Could reduce the parking even more
 - Potential for Addition – area for expansion is larger than before; could do a two court gym if desired
 - Want to make sure whatever we build now is retained and not removed later
 - The ReCyclery site can become expanded parking in the future when needed
 - DCW will complete cost estimate on this revised design but in general looks like it will help reduce costs due to:
 - Efficiencies of using the site contours which reduces foundation costs
 - Orientation – less span out of hillside more aligned with existing conditions
 - Reduction of glazed areas
 - Adjoining parking lot –
 - need to work with Food Bank to get an effective parking lot for their flow
 - could stair access be redesigned for more effective access
 - Site Amenities – can be added over time as part of grants - show it in the plan for the Mountain View Golf Course study
 - Steering Committee Questions/Feedback:
 - Like general direction of revised option
 - Existing building can be maintained during construction but parking would be reduced.
 - Existing gymnasium is in very bad shape and would incur a lot of cost to keep it and renovate it – needs new roof
 - Steering Committee would like to understand cost of adding the gym
 - Show as line item in cost estimate
 - Pickleball – they come inside October to April – or will want a covered opportunity.
 - Gym is a priority to the community over group fitness
 - Schools would use the gym but building a new one is not a top priority
 - Like revised location of splashpad
 - Could Pickleball club help fundraise for Pickleball add alternate?
 - Would like to understand cost of 750sf wellness area
 - Carrie met with ReCyclery board – they weren't surprised. Wanted to know timing. Carrie said a year from now.
 - Could be even further out if this is the approach we use
 - Buffer of parking area between ReCyclery and building is an improvement and takes pressure off that situation.

- Blue Heron land is all marsh land so not a good choice for ReCylcery
 - Looking at the golf course site
- Next Steps:
 - Identify and mitigate risks to reduce contingency
 - Geotech report will identify any unknowns regarding on site soils
 - School District does not have an existing Geotech report for the site.
 - Carrie to explore having one completed.
 - **Opsis and DCW to provide scope of work including soil analysis to 60' at (4) locations below building site. Do not need water infiltration testing.**
 - Identify Soft Costs – currently estimated at 33% of construction cost
 - Identifying these costs now allows for more certainty in the project and for allocation of more dollars towards the cost of construction
 - Adjoining parking lot –
 - need to work with Food Bank to get an effective parking lot for their flow
 - could stair access be redesigned for more effective access
 - Identify Alternates:
 - Gym would be the priority over group fitness
 - Site Amenities – can be added over time as part of grants – but show in plan for the Mountain View Golf Course study so have big picture in mind

Operations:

- Comparison of two design options – Base and Full Build out
- Operational cost assumptions
 - First year of operation 2026
 - Center is operated by a Public Agency
 - Hours of Operation
 - 69 hours for Base
 - 80 hours for Full Build Out.
 - Fee structure –
 - Slightly different for the Base and Full Build Out Options
 - Variety of Options- daily, 10 visit pass, annual, and month to month
 - Options for adult, youth, senior, and household
 - Swim Lessons do not pay additional access fees, just pay for the swim class
 - Staffing – 2/3 of operating budget comes from staffing – especially with aquatics and need for lifeguards, includes full time and part time staffing in the analysis
 - Cost Recovery at 66% is high for aquatics-only facilities but basing it on what we're seeing at other facilities in the county
 - Subsidy comes into alignment with what City subsidy currently is.
 - Steering Committee Feedback:
 - Salaries – might need to increase wages shown for 2026 and to help retain staff
 - Small difference between resident and non-resident cost – community would expect to see a larger differential. Is that standard?
 - Shore Aquatics center does not have a differential
 - Bainbridge has a very small one
 - This is a reasonably small market to draw from so need to pull in visitors and a greater than 10% differential starts to reduce number of visitors who will visit
 - Shore facility has a VERY low rate structure and operational subsidy is likely significant; Carrie working on getting that information – ED is back next week. Important to understand their finances without Childcare (Spark)
- Adding a gym would be a critical capital investment
 - Steering Committee would like to see operational analysis with Base Design and just the Gym added. Gym doesn't increase revenue in the same way that the cardio/weights piece does. – but could do group fitness in the gymnasium

- Hospital Wellness space already captures a number of fitness classes

Funding:

- **PFD Tools:**
 - Sales tax is the biggest opportunity
 - Admissions tax – district-wide - tack on 5% to memberships, daily use fees
 - Parking tax for facilities that the PFD owns – not likely to tax your own parking
 - Lodging taxes more complicated – intended for convention centers – have to go through a public vote – only applies to lodging units over 40 units and can't go over 2%.
- Can combine all of these options - **Morgan to run an analysis with Sales, Admissions, and Lodging tax**
- Reviewed a variety of analyses of percent of capital coverage and length of debt.
- Analysis based on Median home value - \$600,000
- Per year at the peak - \$260/year
- MPD only with a city subsidy of \$400k/year (70% capital coverage and 30-year debt) yields:
 - Base project - Tax of \$0.28/\$1000 property value
 - Full Build out project – Tax of \$0.36/\$1000 property value
 - Could a fully loaded PFD could you get to this rate? – **Morgan to analyze**
- The 20-30 year debt makes sense because it spreads the effort to future residents.
- These charts assume an MPD using MPD Option 1 for area. An MPD only in the city limits would provide half as much revenue because has half the property valuation The rates would be double what is shown in the charts.
- MPD is always a simple majority vote
- If the Primary Service area is outside the city does the County need to take the lead on putting it up for a vote instead of the City? - **Morgan to research**
- Formation Rules – we can elect a board for the MPD or could appoint a board to the MPD
- PFD and an MPD
 - Still some concern about doing both an MPD and a PFD and the risk of a double vote
 - Could time it to do an MPD first and then in a couple of years do a PFD to lower everyone's taxes or raise additional funds for adding on to the building
- **Carrie and Erica to organize a separate Finance specific meeting**

Communications & Polling:

- Important decisions to communicate:
 - Mountain View Site Selected
 - Site is donated, does not need to be purchased. Appraisal to understand land value
 - Moving forward with Base Plan but carrying gym and outdoor amenities as alternates
- Current school gym is maximized – by the school – could not be used by the pickleball community – 6am and weekend is open gym to community
- City will continue subsidy at the same level
- Design process is incorporating value engineering early
- Polling
 - Will need to do polling but can push to August/September
 - **Carrie will research potential polling resources**
- Opinion piece from JeffCo Aquatics Coalition - highlighting value of facility to the community and the up-coming Open House

Next Steps:

- Erica to share slides
- Carrie and Erica to organize a separate finance only meeting
- Design Team to develop updated layout and get updated pricing from DCW
- Steering Committee Workshop 6 scheduled for July 5th.

July 5th, 2023

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Funding:

- o Recap:
 - o Base & Full Build Out – Range between options is roughly \$10M
 - o Current City Subsidy is \$300-450,000/year range
 - o Public Funding Vehicle options – MPD or PFD
- o MPD Governance – 3 options
 - o Unique district and own governance structure (can elect officials when putting MPD to vote)
 - o Wholly within one city or incorporated area in one county – sponsoring jurisdiction can act as ex officio
 - o Multiple cities or county areas – each legislative authority may appoint one member to board.
 - o Park district would be JUST for the aquatics. In ballot you would specify the extent of it.

- If service area of MPD doesn't extend south, may not need to incorporate upgrades to other county amenities
- MPD Funding Option:
 - May issue debt obligation to 2.5% of their assessed valuations
 - Only 0.25% may be non-voted. The majority of the required debt would need to be voted on and passed by 60% vote (super majority with at least 40% of previous election turning out)
 - Would likely need 2 votes but legal counsel might provide an option for structuring the votes to see if it's possible to both create the MPD and fund it in a single vote.
 - This would combine a simple majority vote with a super majority (60%) vote
 - Could put MPD at 0.25% in place for a period of time and save the money to pay for the building in cash.
- PFD Funding Options:
 - Typically used to operate Convention and Event centers (economic tourism) but state law adjusted to allow them for use with recreational facilities
 - Requires voter approval (simple majority) for the PFD
 - Requires an independent financial feasibility review (before the public vote)
 - Boundaries can be single city, multiple cities/towns, and unincorporated
 - Governance
 - Sponsoring jurisdiction appoints 3 members, and the governing board appoints 3 more members on recommendations of local organizations
 - Funding Available:
 - Can charge fees
 - Admissions tax up to 5% - ONLY for admission to the facility that the PFD manages
 - Parking charge only for the parking connected to the facility
 - 0.2% sales tax
 - May accept and expend gifts, grants, or donations.
 - Only 1 ballot measure needed to create the PFD entity and put taxes in place
 - Jefferson county already collects lodging tax – \$800,000 on 2% lodging tax in 2021 (separate from City of Port Townsend lodging tax). Lodging tax is only for buildings with over 40 units.
- Financial Summary:
 - \$1.6M(Base) to \$2.4M (Full Build Out) annual subsidy needed (in addition to city's current \$400,000 subsidy)
 - PFD only works at a County-Wide level – this would be one vote
 - City PFD can help lower the needed MPD rate but isn't sufficient alone.
 - MPD only option can support needed subsidy (capital and operational)
- Questions/Feedback
 - The City Lodging Tax could also be a source of funding
 - Only a County PFD can have a lodging tax county-wide.
 - Base option only needs \$1.6M and county-wide PFD would raise roughly \$1.4M
 - A PFD could be created based on the MPD Option 1 or 2 boundaries, but county-wide lodging tax is only available if the PFD is based on the entire county
 - Sales tax is variable and would need to be certain there is a back-stop in place in case of a recession. MPD would put the facility on a more sustainable footing in the long run.
 - County-wide PFD requires a single vote to create and fund it. County must put it on ballot.
 - PFD doesn't have a direct calculation for determining the direct costs to residents in the same way a property tax does with the MPD.
 - PFD is more desirable in some respects because doesn't impact other institutions that rely on a property tax levee vote.
 - What is the potential of doing an MPD now and future PFD to lower property tax dollars?
 - Could be confusing to voters or have voters lose trust in institutions.
- Steering Committee will make a recommendation to City Council or County Commissioners.

Operations:

- Based on operations and cost recovery, would recommend only Base and Full Build Out Option.
- Wendy recommends the full model if we want to cover our operating costs
- Concern over government competing with local businesses in Full-Build Out Option
 - Ken Ballard indicated seeing no evidence of this nationally. If anything it enhances the private side. Have seen NEW private facilities go in after a community center is built. Ken understands why the fear is there but have not seen it play out in reality.
- The Operational Plan does include some dollars for capital replacement.

Design Update:

- Site Plan Options can be reduced to two:
 - Base : Aquatics only
 - Base + Gym + Multi-Use space
- Additional parking on ReCyclery site not needed.

Cost Estimate:

- Cost Estimate Assumptions:
 - Contingency at 10% assuming a Target Value Design process
 - Escalation included to April 2025
 - Soft costs are an allowance of 33% of construction costs. DCW can work with the team to identify those costs to reduce uncertainty
- Cost Estimate completed for the Base option with a range of Add Alternates.
- Total project costs:
 - Base is \$37.1M.
 - Base + Gym = \$44.0M
 - Base +Gym+Multi-Use = \$45.9M
- The Base + Gym option doesn't save much money and reduces the overall cost recovery.
- Alternates:
 - The pickleball courts are relatively low in cost and may make sense to try and incorporate into the overall project.
- Current cost estimate is final estimate for this phase of the project but if Geotech report or other information impacts the estimate, DCW can make small updates to make sure it's aligned.

Open House 3:

- Want to include Steering Committee recommendations for:
 - Site
 - Program
- Want to include current thinking on funding approach as well as
 - Fundraising goal of 15% through grants, philanthropy, etc.
 - Current donations (property)
- Steering Committee will meet next Tuesday to finalize community survey questions and presentation

Project Calendar: Did not discuss

- Calendar extended to September for final recommendation to City Council and County Commissioners.
- Final Report will be completed by end of August.
- Assumes a possible voter approved initiative in February's special election.

Next Steps:

- Erica to share slides
- Erica to develop draft of Open House slideshow
- Open House 3 – July 12/13 and City Council Presentation – 7/17

July 28th, 2023

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Community Feedback:

- Reviewed Open House 3 Feedback
 - Enthusiasm for the pool
 - Questions regarding why we don't fixt what we have
 - Detailed feedback on rec pool design for water aerobics
 - Concern for taxes
 - Voting Results
 - Base Plan – 24 votes
 - Full Build Out – 27 votes
 - Repair and Maintain Existing – 3 votes
- Survey 3 – 318 responses
 - Preferred Combination
 - Full Build Out 40%
 - Do Nothing 40%
 - Base Plan 20%
 - Funding Approach

- PFD – 33%
 - PFD + MPD – 35%
 - Didn't Answer – 26%
- Public Showers – include information in report that city is evaluating where it is
 - A critical concern for the community
 - City will explore operational feasibility of a token program or other approaches
 - Steering committee concern that the use is fundamentally inconsistent with the function of the building. Could find a more compatible location.

Funding and Operations:

- Timing:
 - City Council is looking at a TBD for November to fund streets.
 - Will want to consider other parameters for when it's placed on the ballot including:
 - Presidential Election 2024
 - School Bond 2025
 - Do not want to lose current momentum
 - Could continue with Design Development to get the project closer to shovel ready
 - Critical to move things forward sooner:
 - Cost estimate is escalated to Spring of 2025; will cost more if waiting longer
 - If the existing pool breaks down could have a couple of years with no aquatics.
 - If the pool had to close before the new pool is built, could do a shuttle to Sequim
- PFD Research
 - 5 locations that have more than 40 lodging units including 2 camp sites (
 - There is circular language in the code in that the PFD statute refers to state sales tax statute to determine who would be paying. If you pay sales tax you are required to pay PFD lodging tax but when you go to State sales tax it does not list lodging.
 - Need clarification if campsites count
 - Kate can have team run numbers once questions are clarified
- MPD Research
 - Needs to be 2 votes but can put on the same ballot and can connect them with language.
 - Seems easier to get a yes yes on the same ballot
 - Can set up the votes that if you don't vote for both, it doesn't happen.
- Community Feedback:
 - Property tax seems to be the biggest concern. Valuation creep.
 - Fire District had quite an increase and may be impacting community's tolerance
 - Port's tax will phase out in 2026. Won't re-up if there isn't a compelling list of projects
 - If MPD is a preferred approach, need more conversations around individual tax burden
 - Sales Tax – community needs more clarity on what this means to them. Particularly if big ticket items are often purchased out of county.
 - Erica to follow up with Morgan to clarify average sales tax impact on individuals
 - Commissioner Eisenhower speaking against the project at a hearing on Monday. Concerned about cost and supporting it. That district's going to be very important.
- Capital Campaign:
 - Potential to raise more money and buy down capital cost to make MPD more appealing
 - If someone is running a campaign the steering committee needs to be hands off
 - JAC sees a strong role for themselves for messaging for campaign and fundraising
 - Steering Committee would likely need to pay a capital campaign manager
- Polling
 - Would be more informative if it's closer to the actual vote
- Program:
 - Community likes full build out and will create a larger coalition of community support
 - Concern if you go big and it doesn't pass there is a real loss for the community; Can't teach kids to swim.

- If it's only aquatics only get aquatic support but may have better chance at passing
- Y sees real value in the gym and the associated programming
- Look for a way to ask for the base plan and have a plan in place for the gym
 - Would like to target full build out and seek local funding first.
 - Build capital campaign and go for state and federal dollars before going out to the community for additional funding through taxes
- Gym is a critical component to the Pickleball clubs – current gym is their only indoor gym
- Concern that if we don't do gym now, will never do it. Hard to see it happening as a Phase 2.
- Concern that the full build out is seen as too much by the community
- Grants:
 - Resiliency Features could bring in federal dollars but needs to be carefully reviewed
 - Would require designing it at a higher seismic grade
 - On previous projects cost of resilient features higher than grants available.
 - Other grants could help fund Solar plus storage batteries
 - Department of Commerce youth recreational facilities funding only funds portions OUTSIDE of the pool.
 - Up to \$1.2 million – would be a good funding source for the gym.
 - Will fund up to 25% of the time the gym will be in use. Has to be focused on kids.
 - Building Communities fund could also help support the project
 - Application cycle is one year – apply in 2024 for a 2025 grant.
 - Like to be last funders.
 - The more commitment you have, the stronger the application.
 - RCO for funding outdoor amenities is every even year.
 - On recent facility tour there was an indication that \$5M was a reasonable ask
 - Could request funds to keep design of project moving forward to get it shovel ready
- Questions on Voting:
 - Can a vote be contingent on the funding? i.e. Taxes won't be collected if we don't meet our fundraising goals. Could show potential donors you have community support
 - Can the ballot measure be contingent on how much money can be raised outside of taxes?
 - Voters could vote for base plan and if more funding is raised, can add the full build out for additional \$8M
 - Likely more compelling to fund the entire project.
 - PFD and MPD don't require you to say what you're going to build.
 - Can we run a PFD in a special election?
- Fundraising:
 - Would be raising \$7M for base plan with current approach and \$15M for full build out: \$5 state, \$5 Fed, and \$5 campaign
- Benefits if the Y operates the facility:
 - If the Y operates and the city subsidizes to bring membership costs down for city residents could be less expensive to build.
 - If you get federal funding does prevailing wage come into play?
 - In general Ys have more flexibility but dependent on funding streams
 - Has additional funding sources it could pursue.
 - Fundraising might be stronger and private contributions considered tax deductible.
 - Approval rating of jurisdictions can be lower than non-profits.
 - Nation-wide reciprocity at other Ys – can increase appeal but might not tip the scales
- Wouldn't want the Y as the operator to detract from the project.
- Critical Questions for Steering Committee to answer:
 - How big of a building/program
 - Method of funding – What will voters support?
 - Timing for voting
 - Operations

Design Update

- Revised siding and roof structure near entry to create a more cohesive and welcoming appearance.

Project Calendar:

- Final Report coming out mid-September
 - Report should incorporate recommendations and point to desired outcomes
 - Summarize the timeline and process for next steps
 - Can issue a final draft prior to the County Commissioners and City Commissioners presentations and incorporate their final feedback.
- Following the report can work on messaging importance of project and key benefits
- Steering Committee to meet again on 8/25

Next Steps:

- Erica to share slides and minutes

August 25th, 2023

Project No.	Project Name	Meeting
4885 -01	Healthier Together Center	Steering Committee Workshop 8

Attendees

☒ Carrie Hite – Dir. – Parks & Recreation Strategy	☒ Jim Kalvelage – Opsis Architecture
☐ John Mauro – City Manager	☒ Erica Dunn – Opsis Architecture
☒ Mark McCauley – County Administrator	☐ Chris Jones - Groundswell
☐ Mike Glenn – CEO Jefferson Healthcare	☐ Ken Ballard – Ballard*King
☒ Wendy Bart – Ex. Dir. YMCA Olympic Peninsula	☐ Morgan Shook - ECONorthwest
☒ Rich Childers – President JeffCo Aquatic Coalition	☐ Ryan Nachreiner – Water Technology, Inc.
☒ John Nowak – PT School District Board of Directors	☒ Kate Dean – District 1 County Commissioner
☐ Eron Berg – Ex. Dir. Port of Port Townsend	☒ Linda Rosenbury – PTSD Superintendent

Carrie Hite

MEETING MINUTES

The following meeting minutes represent my understanding of the discussions and directions during the meeting. Attendees should communicate any revisions to Opsis Architecture (hereby Opsis).

Scale of Project:

- The group discussed their recommendation for scale of project and all felt comfortable recommending moving forward with the Base Aquatics option with the intent to build the Full Build Out if fundraising efforts allow.
- The Base Aquatics option would still include an increase in exterior Pickleball courts
 - The local Pickleball club is less concerned with the old gym being torn down because they are currently working on a gym that would be set up for them.

Financing:

- The Committee discussed their recommendation for financing and all felt comfortable with a PFD.
 - The community had a very strong preference for a PFD
 - Allocating some funds to county -wide parks (such as turf fields at HJ Carroll Park) may broaden the appeal of the PFD.
- Remaining questions:
 - Can you run a PFD in a primary election?
 - If the project cost can be brought down to \$22M, how much cushion does that give the funding in slower economic years?

- Numerical analysis of how many potential no votes there are in West Jefferson County from voters who will not likely use the facility and how many yes votes would that require to overcome?
- Can a PFD apply for Commerce Grants?

Timing of Vote:

- The committee discussed their recommendation for timing of the vote. There is risk associated with all options, but all felt there was more to gain by recommending a February 2024 vote.
- Commerce Grants:
 - A Feb 2024 vote would improve chances for the Commerce Grants due May-August.
 - Ability to show public support helps a project score well.
 - Potential funding: \$1.2M for Youth Rec and \$3-5M for Building Communities
 - Only non-profits can apply for Commerce Grants.
- Decision on Golf Course will be complete by February
- School Bond measure might be November 2025 or February 2026
- Roads TFD will be November 2023 – but vote shouldn't impact decision to run vote in February
- Filing deadline for February 2024 election is Friday December 15th at 4:30pm
- Cost to file for February vote is \$30,000
- Polling has become so difficult that it's not likely to provide any new information and may not be necessary in advance of a vote.

Existing Pool Analysis

- Independent analysis by Water Technology of existing pool and systems.
- Michael is working on hiring a firm to analyze the existing building and cost of upgrading.
- Will be complete by mid-September.
- Will analyze what would be needed to keep sub-standard pool open for another 15 years
- A renovation would close the pool for a couple of years which community was not in favor of.
- PFD would be mechanism for funding repair of the existing pool

Report Feedback:

- Team to incorporate:
 - Info on health benefits of pool
 - Update on existing pool evaluation and feedback from 2000 report
 - Updates to recommendations based on Committee meeting.
 - Clarify graphic associated with Demographics and Market Analysis
 - Include information on membership approach

Project Calendar:

- Final Report coming out mid-September
- Presentation to City Council is 8/18
- Presentation to County Commissioners 8/25
- Steering Committee to attend and JAC to send out newsletter notice.

Next Steps:

- Erica to share slides and minutes
- Remaining questions:
 - Can you run a PFD in a primary election?
 - If the project cost can be brought down to \$22M, how much cushion does that give the funding in slower economic years?
 - Numerical analysis of how many potential no votes there are in West Jefferson County from voters who will not likely use the facility and how many yes votes would that require to overcome?
 - Can a PFD apply for Commerce Grants?
